The Cobourg Golf Club is actively engaged in arranging for a tournament to be held there in August next. The design of a handsome trophy that will be offered for competition is now on exhibition. It will be the finest ever presented by any club in Canada. Expert players from New York, Chicago, Philadelphia and Washington have signified their intention of visiting Cobourg to take part in the tourney. It is time the Peterborough Golfers reorganized for the season.

THE WHEEL.

The Brantford Expositor says: Canada is greatly behind the neighbouring Republic in the matter of adopting legislation affecting the use of bicycles. A bill has been submitted to the New York State Legislature, to authorize the board of supervisors of Monroe county to appoint side path commissioners to tax 'cyclists, and to expend the funds thus raised in the construction of side-paths along public roads. It is estimated that there are 15,000 wheels in the district which includes the city of Rochester, and it proposed to tax them $1 each per annum. A cinder path three feet wide costs $200 a mile, so that the $15,000 obtained in one year would permit the construction of seventy-five miles of pathway throughout the county. In New Jersey a similar bill has already been passed, covering the whole state. It is possible to place such a tax upon the use of bicycles as will in course of time provide wider paths in the leading thoroughfares of Brantford and other cities? Sooner or later this question will have to be dealt with in a systematic manner, and the solution is not to be found in permitting wheelmen to use the sidewalks. Nor is it fair to drive them into the roadway, until some reasonable provision has been made for their accommodation in all weathers.

The Globe contains the following letter in favour of Peterborough's chances for the meet to-day:

Sporting Editor,—Sir,—Day by day I have perused the columns of your sporting page and have paid particular attention to the arguments put forth in favour of Quebec for the C.W.A. meet, and I have reached, without any great effort, the conclusion that the sole argument is, give Quebec the meet and the C.W.A. will be boomed in the Province of Quebec and the other eastern Provinces. The progress of the C.W.A. throughout the Dominion I am desirous of seeing, and such I hope will result, but I do not think for one moment that Quebec securing the meet will result in such. Now, what great strides has the C.W.A. made in the Eastern Provinces since the meet was was held in Montreal about two years ago? There was to be a boom; was there a boom? I contend there was not. What district has made more progress than the Midland district, and I see no reason why another boom should not be given to that district by giving Peterborough the meet rather than by going to Quebec with likely the same boom (?) as occurred after the Montreal meet.

Then, leaving this argument solely out the question, I affirm Peterborough is justly entitled to the meet because it was the "runner up" last year. Waterloo, when soliciting votes for the contest last Good Friday, claimed it was entitled to the meet because it was in the fight the year before. Votes came Waterloo's way in several cases on that account. Peterborough worked hard for the meet last year, and because it was defeated it was not out of the race by any means. I think Quebec's turn will come next year, being the "runner up" of Peterborough.

Then, again, Peterborough is a better town for wheelmen than Quebec. Our streets are streets of the best kind, and wheelmen can use them without breaking their necks, as they would do running over the steps and through the alley-way streets of the ancient capital. Has Quebec gained a reputation for its track? I never heard of the track in any connection, but Peterborough has won renown for being fast and safe. For references I would give you the names of Harley Davidson, C. R. Coulter, Angus McLeod, Percy Brown, Billy McIntosh, Payson Davidson, T. B. McCarthy and R. E. McCall. These riders know the excellence of the track, and above all that Peterborough is the best town in the Province to spend three or four days—yes, two or three weeks.

From Peterborough one can wheel out to as beautiful summer resorts as can be found in the province. Six miles distant is Chemong Park, situated on Chemong Lake. Speak to the Toronto Wanderers and they will tell you it is the best spot on earth. Within easy access is Stony Lake—the lake of islands—one of the most picturesque spots in Canada. This is the home of hundreds of American girls during the summer, and they would be in Peterborough to see the boys on Dominion Day. Near at hand are Jubilee Point and Idyl Wyld, two resorts on the Otonabee River. You do not have to look for fun when you come to Peterborough. We have it ready for you. Mark Peterborough on your diary as the place you will spend Dominion Day, 1896, and you will never regret it, but will pray for more. Yours, etc.,

"WAR."

One of the prettiest and most substantial wheels which has been exhibited in Peterborough this season is the "Cavalier," of Saginaw, for which Mr. Adam Hall is the agent. The wheel is a high-priced one, but a special cut is being made to introduce it on the local market. It has all the 1896 improvements and can be seen at Mr. Adam Hall's, George street. tf

HOTELS AND COMMERCIAL TRAVELLERS.

Complaints of Commercial Travellers to Receive the Attention of License Inspectors.

The License Branch of the Provincial Treasurer's Department has issued a circular to License Inspectors stating that the Commercial Travellers' Association has brought to the notice of the License Branch several matters to which Inspectors are asked to give their attention. The circular states:—

It was represented that in not a few licensed hotels, patronized by members of the Association, the outside closets and inside lavatories were in a filthy and unhealthy condition.

That the sleeping apartments were it different in accommodation and kept in an uncleanly and slovenly manner.

That the sample rooms were poorly lighted, heated and untidily kept.

You were particularly instructed to make most careful inquiry as to the truth of these represen ations, with the view of removing all causes of complaint.

A delegation from the above-mentioned Association recently waited upon this Branch, and urged that there was still much to be done in improving the sanitary condition of not a few of our hotels. Special mention was made of the unhealthy condition of the urinary and closet accommodation.

I am directed by the Honourable the Provincial Treasurer to again point out to you, that in the interests, not only of the Association and the travelling public, but on sanitary grounds generally, it is your duty to see that there shall be no cause for complaint in this regard in future and that all licensed hotels in your district shall have proper accommodation in every respect.

It is hoped that it will not again be necessary to call your special attention to this matter.

A special report will be required from you not later than the first day of May next, advising this Branch of the sanitary condition of the hotels in your district.

LOSING THEIR GRIP.

Dr. Sproule Challenges Sir Charles Tupper

TO FACE THE EAST GREY PEOPLE.

The Member Practically Read Out by the Leader of the House—The Government's Position on the Remedial Bill is Rending the Conservative Party Asunder.

Ottawa, April 1.—(Special)—The Opposition must have looked on the proceedings of the Commons yesterday and asked themselves what had come over the occupants of the Government benches. Mr. Laurier and his friends must have laughed quietly as they watched the row in the Conservative camp over the persistent efforts made by the Government to force the Remedial Bill through committee.

After a sympathetic reference had been made by the leaders on both sides to the untimely death of Col. Amyot, the troubles of the day began.

Dr. Sproule moved the adjournment of the House for the purpose of bringing the attention of the Government to the fact that the salaries of the sessional messengers and other employes of the House were a couple of weeks overdue.

Sir Charles Tupper regretted that no notice had been given of the matter, and asked that it be deferred until the arrival of the Finance Minister, who was not in the Chamber at the time.

Mr. Gibson termed it a shame and a disgrace.

Mr. Casey scored the Government for the hump-backed sidewalks and mud pavement about Parliament Hill; but Mr. Lister outdid them both. He drew a pathetic picture of the suffering of those poor charwomen, mostly widows with large families, he had no doubt.

Mr. Allan took the opportunity to introduce the topic of hog cholera in Essex County. When remonstrated with by the chair, he made reply that the two questions were very much in the same line.

The matter was discussed for some time and dropped, after Mr. Foster had assured the House that the supplementary estimates were in the printers' hands.

Sir Charles Tupper announced that the House would not sit on Good Friday.

The House went into committee on the Remedial bill. Mr. Bergeron in the chair.

Mr. Davies pointed out the impropriety of the House proceeding with this measure while the negotiations were in progress at Winnipeg. He thought Sir Charles should inform the House how far negotiations had progressed. It would be a matter of great satisfaction if some amicable arrangement could be made by which this vexed question could be withdrawn from the political arena.

Sir Charles Tupper said it was highly important that the bill should be proceeded with from day to day, owing to the short time remaining for Parliament. It was, therefore, the Government's intention to press this measure forward steadily to a conclusion. So far from such action interfering in any way with the negotiations in Winnipeg, he calculated it would have precisely the opposite effect. After the bill became law it would be a simple matter for Manitoba to make some arrangement so as to prevent it going into effect. Unless the bill were proceeded with and negotiations came to naught, as he had reason to fear they would, the minority in Manitoba would be left in the same deplorable condition that they had been in for the past five years. Consequently the Government proposed to press this measure with all the vigor at its command.

Mr. Davies proceeded to criticise the action of the Government in continuing to press the bill, when Mr. Ouimet rose to a point of order. He thought the discussion should be confined to the first clause, and not to the general policy of the Government.

Mr. Mills claimed that Parliament had no power to proceed with a bill of this kind, except as a court of last resort. By the fact of the Winnipeg negotiations, it was shown that this was not a court of last resort. He was proceeding to elaborate on this point, when the chairman gave his decision on Mr. Ouimet's point of order that the discussion must be confined to the clause.

Mr. McNeill thereupon rose and expressed his regret that the discussion was shut off. He moved that the committee rise and report progress.

Mr. Mulock asked Sir Charles Tupper to explain how the negotiations at Winnipeg would be facilitated by proceeding with the bill.

Sir Charles Tupper—I don't propose to discuss any question except the clause of the bill before us.

Mr. McNeill's motion having been put, the flood gates of talk were opened once more.

Mr. Davies got the floor and soundly berated the Government for proceeding with the bill to-day. He believed that it was a course calculated to destroy any chance of settlement.

Sir Charles Tupper said Mr. Davies lost sight of the fact that only a few days remained for the session. If the House suspended operations on the bill it could not be passed before the general elections. It was because he wanted this question to be taken out of politics that the Government were asking the House to pass the bill. They would be branded as insincere if they did not press the measure.

Mr. Charlton inferred from the action of the Government that the negotiations at Winnipeg had failed. He proposed to criticise those members of the House who had voted for the second reading, many of whom, he said, had appointments in their pockets.

For this he was called to order by the chairman, and was told not to impute motives.

Mr. Charlton, after apologising, proceeded to fulminate against the Government for trespassing on the liberties of the people.

Col. O'Brien condemned the Government for delay in bringing down the measure. Forty days elapsed from the beginning of the session before the Remedial Bill was presented to the House.

Sir Charles Tupper appealed to honorable gentlemen, who did not wish to see this unhappy question made an issue at the coming elections to help the passage of the clauses of the bill in case the negotiations going on in Winnipeg should fail, as he had but too great reason to fear they might.

Sir Richard Cartwright opposed the plan of proceeding with the bill. He continued: "I hope I was not correct in my understanding of what the Secretary of State said—that he thought there was great danger of these negotiations failing. Did he say that?"

Sir Charles Tupper—Yes, I did say that I feared these negotiations might fail.

Sir Richard Cartwright—I am sorry to hear it.

Sir Charles Tupper—It is an expression of opinion. I am afraid these negotiations will fail.

Sir Richard Cartwright—I am sorry to hear it, I had hoped, and I suppose that all sides had hoped, the contrary; and it is a very early date for such an expression to be given by the Secretary of State. I am afraid, if after two or three days' sojourn in Winnipeg, the Secretary of State virtually announces on behalf of his ambassadors that these negotiations have failed.

Sir Charles Tupper—No, I did not. I have not gone so far as that. I said that I had great fear that they had failed. So I have.

Sir Richard Cartwright—Such language, coming from a man in his position, can only have one meaning, and I am very sorry to hear it; and I am very much afraid it will be found that one reason for the failure has been the most stupid, undiplomatic action of the Government in pressing this matter forward. (Derisive Ministerial cheers.)

Mr. Foster pointed out the inconsistency of the Opposition's attitude, and appealed to the common sense of the House whether there had not been sufficient discussion, and whether the House having affirmed the principle of the bill, it should not be proceeded with without obstruction.

Mr. Mills (Bothwell) contended that the negotiations at Winnipeg placed it beyond the power of Parliament to proceed with the bill.

Mr. Daly replied, and Sir Richard Cartwright was speaking when the House rose for dinner.

The Deputy Speaker resumed the chair at 8.15, and immediately put Mr. McNeill's motion, which was declared lost.

Mr. Casey followed in a discursive speech. On being called to order repeatedly, he moved that the committee rise and report progress.

Sir Charles Tupper said he would not question the sincerity of the Opposition when they said they desired to see this question out of the way. What was the real position of affairs? He was in the judgment of the House and country when he said that the Government had persistently from the commencement endeavored to do everything in their power to advance public business. After the fullest and most deliberate discussion that any question has ever obtained in this House, a division took place, and with what result? The result was that the Government was sustained by a majority of its own supporters in the House, and that that majority was largely swollen by a large contingent of gentlemen from the Opposition side of the House, notwithstanding the fact, he continued, "that a number of gentlemen supporting the Government, warm and determined supporters of the Government, among whom I do not include the hon. member for East Grey (Dr. Sproule)—because no person could have listened to that hon. gentleman's speech without seeing that his object, in common with some gentlemen with whom he was allying himself, was for the purpose of breaking down and destroying the Government of which he was a supporter. If further evidence of the position of that hon. gentleman is required, it is to be found in his attempt at obstruction to-day by attacking the Government, of which——"

Dr. Sproule rose to a point of order that the hon. gentleman had no right to charge him with obstruction. He had simply done his duty.

The Deputy Speaker ruled the word obstruction out of order.

Sir Charles Tupper asked if Dr. Sproule had mentioned the matter to the Finance Minister.

Dr. Sproule replied no, because the Finance Minister was not in his place. He had tried to see him twice.

Mr. McNeill—Is there any member of this House who is above the rules of the House? (Liberal cheers.)

Sir Charles Tupper withdrew the word obstruction, as applied to Dr Sproule. Continuing, he said that, notwithstanding the withdrawal of the support from this bill of a number of gentlemen who usually supported the Government, the second reading had been carried by a substantial majority. Under the circumstances, there was an absolute end to Parliamentary government if the solemn decision of the House was to be met day by day by obstructive tactics. This obstruction was palpable to every man in the House and the country would see there was a determined attempt to defeat the Government in their effort to settle this unhappy question.

Mr. Davies rose to a point of order. The leader of the House had again used the word "obstruction."

The chairman said the word as applied to a single member would be unparliamentary, but applied generally it would not be so. (Government cheers.)

Sir Charles Tupper, continuing, said it was evident there was a determination to prevent the progress of this important bill. In his judgment, it was of vital moment that the measure should pass; it was essential to the peace, tranquillity, happiness and well-being of the country. (Loud cheers.) He put it to the Opposition where they were going to. Were they going to be responsible for the defeat of a measure which a substantial majority in the House had declared in favor of? Were they going to prevent the passage of the estimates and entail thereby the holding of another session, at a cost to the country of half a million dollars? The Government were determined to press this measure through by every means at their command. They would exhaust, at the risk of health and life, it might be, all efforts to se-

RETURN EMPTY-HANDED TO-DAY.

The Ottawa Government Would Not Withdraw the Remedial Bill; and as a Result No Compromise Could be Reached Between the Conferees.

Winnipeg, March 31.—(Special)—There seems to be a general understanding that the school conference will terminate to-morrow and the Federal Commission will return to the Capital without having accomplished the object of their mission. Upon whom the greater amount of blame will rest for this result can only be determined when the official reports of the doings of the commissioners are made known.

From what can be gleaned here it would seem that the hierarchy, by being too exacting, are liable to lose not only what they are striving for but the sympathy of the large body of tolerant Protestants. The first effort of the Federal Commissioners was to persuade the Manitoba Ministers to accept the Remedial Bill. This failing, the establishment of Separate schools with thorough Government supervision was asked. In the face of the recent verdict of the people of this province at the polls, it was impossible for the Manitoba Ministers to go this length.

In lieu thereof, however, it is understood that Messrs. Sifton and Cameron undertook to promise, on behalf of the Legislature, that every reasonable objection of the Roman Catholics to the present law would be removed and fairly offered for the segregation of the Catholics in the centres of population, under the Public School Board. In other words, the administration of the present law in as liberal a spirit as obtains in Nova Scotia was promised if the Remedial Bill were abandoned. Whether it was for lack of faith in the promises of the Manitobans, or the determination of the hierarchy to have state-aided Separate Schools at any cost, is not vouchsafed; but the Federal commissioners could not accept the concessions. It now remains to be seen how much more tangible results can be obtained by the minority through the Federal legislation. There was no conference held to-day, the commissioners and Manitoba Ministers dining and wining together at the club and having a most sociable time.

It is proposed to have the final meeting to-morrow morning, when the formal report of the proceedings of the commission will be prepared for submission to the different Governments.

THEY FAILED TO CONNECT.

Manitoba Would Do Nothing Till the Coercive Bill Was Withdrawn.

Ottawa, March 31.—(Special)—From Sir Charles Tupper's statement in the House, confirmed by private telegrams from Winnipeg, it is evident that the Dominion commissioners and the provincial authorities have failed to come to terms. It is alleged that the province was willing to meet the views of the minority in regard to the question of religious teaching, etc., in schools as far as it was possible to do so without granting purely Separate schools. In this regard there was every prospect of a satisfactory settlement, but the province would only agree to this on condition that the remedial legislation at Ottawa should be withdrawn. This the Dominion commissioners could not agree to, and consequently there was a deadlock. It is said that the commissioners leave for Ottawa to-morrow. Great regret is expressed here at the apparent failure of the negotiations.

It was stated that Sir Charles Tupper received a telegram from Winnipeg to-night from one of the Federal commissioners to the effect that the two sides were too far apart to reach a settlement, and urging that the Remedial Bill be pressed.

BECAME INSANE ON A TRAIN.

The Peculiar Case of Miss Claire Dubois En Route From New York to Montreal —Who are Her Friends?

Montreal, March 31.—The Notre Dame Hospital authorities have a very peculiar patient on their hands in the shape of a handsome woman of 25, who has been in the institution since Saturday evening last. On that night the ambulance was summoned to the Windsor Station of the Canadian Pacific Railway to meet the New York train. A young lady, an Alsatian, named Claire Dubois, en route from New York to Montreal, had locked herself in the toilet room of the Pullman. She began to shriek and moan, and the conductor, fearing that something was wrong, broke in the door. There he found her throwing her garments out of the window. She had already disposed of her handsome fur coat, cape, sealskin hat, boots and stockings, gloves and purse, and had it not been for the interference of the conductor would have also thrown herself out as well. She was taken to the Notre Dame Hospital, where she has developed a mild form of insanity. She told Dr. Derome yesterday that she had money in her trunk, but, as she had thrown away the check, it is difficult to identify it. Miss Dubois this morning made a desperate attempt to escape, with the result that she is now locked up in a private room and under constant surveillance. She refused to state what her object was in coming to Montreal, where she had no friends, and refuses to tell the names of her friends in New York. She is a tall girl, with large, dark eyes and a wealth of dark hair. She was neatly attired in a navy blue dress. She is constantly complaining that her head pains her, and cries most of the time.

United States People in London.

London, March 31.—The annual meeting of the American Society of London was held to-day. The report showed that the society was becoming the rallying point for Americans, and that its usefulness promised to increase greatly. Mr. B. F. Stevens was re-elected chairman of the society.

CANADIAN DAIRYING.

Our Yankee neighbours surpass us slow-going Canadians in several respects, such as the divorce records, millionaires, oleomargarine, big schemes, the eagle brand of patriotism and several other things, but we take our stand on cheese and dairying generally and throw down the gauntlet to Uncle Sam. And Uncle Sam is generous enough to acknowledge our superiority, both in the matter of quality and methods. The issue of the American Dairyman of March 26th contains several paragraphs in reference to Canada in regard to dairying, and as they demonstrate our superiority over our big neighbour we reproduce them with pardonable pride :—

Canada is a cheese-producing country. Sixteen millions of the twenty-six millions of fancy cheese that England buys annually is produced in Canada.

In regard to legislative protection of the dairying industry in this country, the Dairyman says :

Canada is far in advance of the United States in protecting her dairy interests, the Federal Parliament having passed a law prohibiting the manufacture or sale of anything but the pure, unadulterated butter or cheese from the milk of a healthy cow within its domains. Is it not about time that the members of Congress and the several State Legislatures took pattern by Canada, and gave the same protection to our dairy interests? The present oleo law is an imposition, as it only legalizes the manufacture and sale of an illegitimate product.

The next clipping from the Dairyman has reference to winter dairying and to the active and intelligent interest taken by our Minister of Agriculture, Hon. John Dryden, in the encouragement of the dairying industry :—

Our Canadian friends have gone into winter dairying and are manufacturing fancy butter on the creamery system during the winter months, making cheese six months from May to November, and butter the rest of the year, and are having great success for the short time they have had this system in operation. We believe that in a few years a very large quantity of the finest quality of Canadian creamery butter will be placed on the market in addition to cheese, which will enrich the farmers; that means every industry in the country will be benefitted. Canada is well adapted to the manufacture of fancy butter and cheese, having the best grass, water and climate that this world knows to day. The animals are healthy, the people are vigourous and healthy, and we feel sure by putting skill into operation they can make a good showing. The Honourable Mr. Dryden, who is minister of agriculture, and is the head of the agricultural department in the great province of Ontario, is doing all he possibly can to push the dairy as well as every other industry in connection with agriculture to the front. The dairy schools, especially Guelph and Kingston, are well equipped and well adapted to giving a thorough, practical education, and are well patronised. This, together with the Eastern and Western Dairymen's Associations, and the Ontario Creameries' Association, employing the most eminent instructors in the United States and Canada to lecture to the people on the live question connected with their particular business and the employing of competent people as travelling instructors to go from one factory to another to keep the uniform high qualities of goods throughout the country, will enable our friends across the border to make a magnificent showing in the near future.

The attention of farmers is particularly directed to the notice in our reading columns of the annual meeting of the Dominion Cattle Breeders' Association, in Toronto, on April 17th. The subjects that will engage the attention of the association are of live and practical interest to every farmer. There are serious grievances in the way of transportation rates, and quarantine regulations, that are particularly vexatious to the interests of the farmer; and it is only by hearty co-operation and the undoubted influence the farming community possesses, that such grievances can be remedied. Farmers, as a rule, are not sufficiently united. They work hard individually; but, when adverse influences that affect their industry generally are to be combatted, individual effort is about as practical and effective as covering grain with a one-toothed harrow. It is to be hoped that Peterborough farmers will be largely represented at the above important meeting.

The Mail and Empire states, that our Æsculapian Minister of Agriculture "is doing excellent work in England. The cable dispatches tell us of his efforts to secure the removal of the cattle embargo." "But the cable, by a sad lapse of duty, fails to record his success in that direction; the Mail adds, that Dr. Montigue is interesting himself in the horse trade. He should have better success in this line, as he had considerable experience in the cabinet expedient of "swapping horses while crossing the stream." We join the Mail in wishing the agricultural doctor,—a horse doctor, in view of his horse trading efforts on unparliamentary suggestion!—a speedy return to health. The organ expects Dr. Montigne to return in "excellent shape" for the campaign. The inhalation of a generous quantity of Atlantic wind represents the doctor's normal excellent shape for a stumping campaign,—for he is recognised as a brilliantly breezy orator.

Y.P.S.C.E. NOTES.

WORLD'S CHRISTIAN ENDEAVOUR PRAYER-A CHAIN.

Subject of prayer for April:—"For Christian Stewardship—that Christians everywhere may realise their stewardship, giving more generously, and praying more earnestly for the conversion of the world."

THE LORD'S DAY.

Owing to the growing carelessness concerning the sanctity of the Lord's day, There has been set apart a week for special prayer that God's people may themselves reverence the day, and also that it may be observed by all classes. From the 5th to 12th April is the week set apart. Would it not be appropriate for our Easter Sunday morning prayer meeting to make this a special subject for prayer.

THE CONVENTION.

All preparation has been made for the convention on Monday, and from returns received from different societies the attendance promises to be good. All delegates should endeavour to be present for the first session, which begins at 9.30 a.m. Don't forget the Juniors. The rally in the afternoon promises to be more instructive than the one held last year, which was such a success.

Every temperance worker in the community should make an effort to attend the evening session to hear Mr. Bengough on "Christian Citizenship." A hearty invitation is extended to all to attend the different sessions.

Mr. G. W. Mulligan has charge of the musical portion of the programme, and he promises some bright and lively singing. The Junior Rally will be conducted entirely the juniors, they to supply their own chairman and choir. A junior will give an address of welcome and they will reply.

Three societies have failed to send in returns:—Warsaw E. L. of C. E., Havelock C. E. and Zion of Hall's Glen. Will the members of these societies attend to this matter.

Let every society send this report with delegate to be read at morning session. If any society finds it impossible to send delegate they should forward report to secretary.

Delegates will receive billets as they register.

Just a gentle reminder about the collections. The expense will be heavy and a generous collection is requested.

The Juniors of town will meet at the Y.M.C.A. ball on Saturday afternoon for practice.

On Sunday morning an Easter morn prayer service will be held in the Y.M.C.A. hall at 7.30. A hearty invitation is extended to all to attend this meeting.

SALEM E. L. OF C. E.

The Society here was very much pleased to welcome at our meeting last Tuesday evening Mr. P. H. Kennedy, president of the Local Union. He addressed the meeting in a lively, spirited manner, taking up the topic in a somewhat conversational style, which was an entirely new departure to us, and proved to be also a very interesting one. For some time past we have felt that our Society was in danger of falling into a rut. We are very anxious to avoid this, and in order to do so we would earnestly urge every member to help by taking hold, even if the plan is new, and also try to think of, or find out from others, new and acceptable ways of working, always remembering it is the Master's work, and let us do it with all our heart as is pleasing unto Him.

CHARLOTTE STREET METHODIST.

On Monday evening, March 30th, the Charlotte street Epworth League held a social under the management of the Social Committee. There were a large number of young people present, including some strangers. During the evening a short musical programme was given. Social games were provided, and refreshments served by members of the Social Committee. The League have decided to set apart every fifth Monday of the month for a social evening, to which all young people will be cordially welcome.

GEORGE STREET SOCIETY

The George street E. L. of C. E. begin another term, their officers being elected every six months.

At the regular meeting on Monday evening reports were read by the vice-presidents of each department, giving an account of the work done during the term. The department of Christian Endeavour have done their work faithfully, supplying leaders and topics for each meeting, holding prayer meetings, visiting our members who have been ill, making clothing, providing food and in many other ways helping the needy. The missionary work has been somewhat interfered with this term, although a considerable amount has been raised and we will contribute fifty dollars to the General Fund.

The Literary Committee, which is a new department, have held two literary evenings during the term, and they were very interesting. The first was an evening spent with Tennyson. An excellent paper on his life was given by Mr. J. J. Jeffries, B.A., quotations from his work by members, and some of his songs were sung. The second literary evening we took up "Lives of Great Men," Mr. Harold Fife reading a well prepared paper on Gladstone, and Mr. S. R. Armstrong an excellent one on Ryerson.

The Social Department have done much this term toward bringing our members closer together. One evening they gladdened the hearts of the old folks at the Protestant Home, also gave an evening to the Y. M. C. A.

The Treasurer's report showed that we have raised $32.65 during the past six months.

The officers for the ensuing term are as follows :—

President—O. R. Dayman, (re-elected.)
1st Vice-President (C. E. Department)—W. Wattam.
2nd Vice-President (Missionary Department)—Miss R. R. Shortly.
3rd Vice-President (Literary Department) Miss R. M. Finley.
4th Vice-President (Social Department)—Miss Maud Mason.
Recording Secretary—Percy Might.
Corresponding Secretary—Miss R. R. Shortly.
Treasurer—Miss Lillie Pascoe.

LOSING THEIR GRIP.

(Continued from First Page.)

pass the passage of this measure. (Cheers.) At his age he did not shrink from the ordeal, and when the time came to appeal to the country on this question they would do so with confidence.

Dr. Sproule—Why don't you go now, then?

Mr. Belley—You shut up.

Sir Charles Tupper concluded by warning the House that unfortunately it might be necessary to adopt the closure rule, as in England, if public business was impeded as it had been.

Mr. Laurier retorted that the Government and not the Opposition was responsible for the obstruction that prevented the bill being discussed between the 2nd of January and the first of March. He held there was no desire on the part of the Opposition to obstruct. He was anxious the bill should go through, for the Opposition would go before the country on the merits of the bill itself.

Dr. Sproule asserted his right to differ from either the Government or the Opposition on any policy he thought might be against the feelings of the country. Seven-tenths of the ratepayers of Ontario were against this bill—(cries of "No, no")—and it was all very well for the leader of the House, like Micawber, after a sleep of five years—(roars of laughter)—to come to this House and try to force an unpopular measure upon this House and country. He went on to say that the vote on the second reading showed by 31 to 67 that Quebec and Ontario, the two provinces which had Separate schools, were against this bill.

Mr. LaRiviere—Does the honorable gentleman understand that the members from Quebec who voted against the bill were opposed to Separate schools?

Dr. Sproule replied that the amendment for a six months' hoist was a distinct stand against the measure. He would dare the Minister of Railways or the Secretary of State to meet him in East Gray. He would resign to-morrow and run against either of them. He concluded by declaring that Sir Charles Tupper had made a great deal of noise in the country, but had affected very little.

Mr. Paterson (Brant) contended that the Secretary of State was not justified in intimating that the negotiations at Winnipeg had probably failed, seeing that they were still in progress, if the newspapers were to be depended upon.

Mr. McNeill held it was unfair to accuse members of obstruction who wished to discuss the clauses of the bill.

Sir Charles Tupper—It is not the members who are desirous of discussing the clauses of the bill, but members who were trying to prevent the discussion of the clauses who were guilty of obstruction.

In the course of his further remarks, Mr. McNeill severely censured the leader of the House, declaring that he and Dr. Sproule were quite as good Conservatives as the Secretary of State, and he himself would not be read out of the party by Sir Charles Tupper.

After some observations from Mr. Fraser, Dr. Weldon said he had not realised until to-day that it was the Government's intention to push forward the bill at high pressure. He thought it better to let the bill stand over until next session in order that the country might pronounce upon it. This Parliament had no mandate to deal with this question, and an appeal to the people upon it would test whether the measure was wanted by the country or not. No undue amount of time had been given to the discussion of the bill. If there was only a limited time now for the consideration of the measure, whose fault was that? Surely the Government should have had their bill ready when Parliament met. It was too late in the day now to drive Parliament at the point of the bayonet. (Cheers.) Threats to sit all night and all day should not be made in a free Parliament. (Hear, hear.) Free speech had not yet been stifled in the Canadian Parliament by the use of closure. He held that the administration was not justified in attempting to coerce a free Parliament. He proceeded to speak on the operation of the Nova Scotia school law, explaining that by the practice all religious denominations there were allowed to teach their religious doctrines, provided that there was no interference with secular teaching.

Mr. Cameron (Inverness)—Would you be prepared to legalize that?

Dr. Weldon replied that he certainly would, as the system had worked well in Nova Scotia.

Mr. Cameron (Inverness)—That is all we want under this bill. (Loud cries of "No!")

Dr. Weldon, continuing, said the true solution of this question in Manitoba was to adopt the middle course, which prevailed in Nova Scotia, New Brunswick or Prince Edward Island, in Victoria, at the Cape and in other great colonies.

Mr. Casey at midnight withdrew his motion to rise and disclaimed any intention of obstruction.

Mr. N. C. Wallace said he would prove that there were numbers of the minority who were opposed to Separate Schools. He added that he could name a man in Ottawa who was opposed to Separate Schools, and would rather send his children to the Public Schools.

Mr. Cameron—Name, Name!

Mr. Wallace—His name is Mr. Coffey. He is of one of the best families in Ottawa, and within a week he has told me that he was opposed to Separate Schools, and would rather send his children to the Public Schools.

Mr. Devlin—Do you mean Mr. Coffey, the City Registrar?

Mr. Wallace replied that he did not know what his occupation was, and didn't think it mattered much. At any rate, Mr. Coffey had said that, although a Roman Catholic, he preferred the Public Schools.

Mr. Devlin—Mr. Chairman, I want—

Mr. Wallace—I object to the hon. member's interruption.

Mr. Devlin—Yes; because you are misrepresenting the position of Mr. Coffey.

Mr. Wallace—That is not true.

Mr. McNeill—A Roman Catholic gentleman of Ottawa told me only to-day that he was opposed to Separate Schools.

An honorable member—Name, name.

Mr. McNeill declined to give the name.

Mr. Wallace went on to say that in the country public opinion was not in favor of pressing this measure upon the country.

Dr. Roome—How do you know?

Mr. Wallace went on to say he knew it because of the reply that the people of West York made to those who petitioned him not to vote with Mr. Laurier.

An honorable gentleman—And why did you?

Mr. Wallace—I did it because the law says that the most effective way to kill a bill is to give it the six months' hoist. Then I had to vote with Mr. Laurier. (Laughter.) When a man was enlisted in the wars he was glad to take any help he could get, adding: Mr. Laurier's proposition I accepted as the most effective way of killing the bill. (Cheers.)

Mr. Foster—Honest, now, who's the leader?

Mr. Wallace—I don't know who is my leader just now. (Laughter.)

An honorable member—You are bossing your own job. (Laughter.)

Mr. Wallace replied that he had had a leader, but he deserted. He proceeded to say that the members of the House had voted for the bill, against their better judgment, under pressure, especially of the leader of the House. But he "wished them joy." When they went back to their constituentents, they'd have a hard time of it.

Mr. Ingram—It won't be your fault if they don't.

Mr. Wallace answered that he would do his best to have the question discussed in every constituency in Ontario.

Mr. Ingram—Then you're welcome to come to mine.

Mr. Wallace—I will.

Mr. Ingram—And I'll return the compliment.

After this passage, Mr. Wallace went on to cite the case of the Controller of Inland Revenue, whose majority in 1896 had been tremendously reduced, because of his support of the bill.

Mr. Prior hinted that Mr. Wallace had written the Orangemen of Victoria that they should not vote for him.

A sharp passage at arms ensued between Messrs. Prior and Wallace, in the course of which the latter said he had stated that no Orangeman could support a candidate who favored the forcing of Separate schools on Manitoba. Mr. Wallace concluded by urging the Government to pause in their mad career.

The House was in session at 4 a.m.

VALUE OF EXPERIENCE.

HOW IT HELPED THE HASKELL FAMILY.

Father, Mother and Daughter all Profit by it—They Make Their Experience Public That Others May Benefit

Experience is a great educator, and when one comes to know a thing by experience he knows it thoroughly. Experience has taught Philip J. Haskell that good health is essential to the enjoyment of life. It has also taught him, as well as thousands of others, that the intrinsic excellencies of Dr. Williams' Pink Pills will insure good health by imparting richness to the blood and restoration to shattered nerves.

Mr. Haskell is a Canadian, and a former resident of Napanee, but now resides at Oneida, N.Y. To a reporter of the Oneida Union he related his experience as follows: "For a great many years I have been afflicted with catarrh of the stomach. The disease continued to make inroads upon my health, threatening to entirely incapacitate me for labour. While residing in Napanee, Ont., I heard much of Dr. Williams' great remedy, but did not give it a trial until after I came to Oneida. Shortly after coming here I almost completely broke down. My nervous system seemed wholly undermined, and my heart would palpitate violently on the slightest exertion. My appetite was fickle, and at times I could scarcely take food enough to sustain me. I tried several physicians but they did not help me. At this time Dr. Williams Pink Pills were suggested to me and in a kind of half-hearted way, I began their use. But I soon had my whole heart in the treatment for I found they were helping me. I continued the treatment for several months, with the result that when I discontinued using the Pink Pills my physical condition was better than it had been for years. If I ever find that my system requires "toning up." Dr. William's Pink Pills is the medicine to do it."

Mrs. Haskell was also in poor health, and found considerable difficulty in getting through with the affairs of her household. Seeing the good effects Pink Pills had in her husband's case she, too, began their use, and to use her own words now "feels twenty-five years younger."

Miss Daisy Haskill, a young lady not yet out of her teens, is another beneficiary in this family from the use of Pink Pills. She was weak, pale, nervous and easily tired. Her appetite was poor, and she had frequent severe headaches. Her mother insisted upon her using the Pink Pills, and to-day she is rejoicing in restored health and strength.

Experience has taught that in order to drive disease from the system, its root must be reached. The blood must be made rich, red and pure, and the nerves must be nourished and strengthened. Dr. Williams' Pink Pills go straight to the root of the trouble, and perform these functions. This is the secret of this great success, and the reason they cure when other medicines fail. At no other season of the year does the blood so badly need purifying and enriching as in the spring, and to accomplish the best results Dr. Williams' Pink Pills should be taken. No other medicine can accomplish the same good results. See that the words "Dr. Williams' Pink Pills for Pale People" are on the wrapper around every box you buy. All others are worthless imitations, no matter what the interested dealer who offers them may say. Sold everywhere at 50 cents a box or six boxes of $2.50, or sent post paid on receipt of price by the Dr. Williams Medicine Co., Brockville, Ont.

The best cough cure is Hagyard's Pectoral Balsam. It heals the lungs and cures coughs and colds.

RECHERCHE MILLINERY.

The Brightest and Best is the Surest Way to Attract Patronage.

Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

St. Luke's Church, Ashburnham.

Rev. Prof. Huntingford, of Trinity University, Toronto, will conduct the Lenten service in St. Luke's Sunday School, this evening, at eight o'clock. The service will consist of an address on "The Passion of Our Lord," illustrated with limelight views. The public cordially invited.

An Easter Bargain.

China Hall will fill one of its show windows with $5.00 and $6.00 Chamber sets, and give the public their choice on Saturday before Easter only, for $3.50. The windows will be filled on Friday, but no sets sold out of it until Saturday at 9 o'clock.

Card of Thanks.

Those under whose charge the concert for the benefit of Mr. Willie Mitchell was conducted, last evening, desire to express their their thanks to those who so kindly assisted in the programme, and to the Peterborough Music Store for the loan of a piano for the occasion.

St. Peter's Cathedral.

To-morrow being Holy Thursday Pontificial High Mass will be celebrated at St. Peter's Cathedral, at which His Lordship Bishop O'Connor will bless the oils used in the administration of the sacraments and in other solemn rites of the church during the year. Priests from neighbouring parishes, who are able to be present, are expected to attend. After the mass the Blessed Sacrament will be borne in procession to the Repository, where it will remain till Good Friday morning—until after the Veneration of the Cross.

Honours at College.

Mr. Ray J. Stancliff, of Darby, New York, scored high in his studies at the Ontario Veterinary College, as he carried away the Silver Medal on Anatomy, 2nd. prize on Chemistry and 3rd prize on Pathology, and honours in all other subjects. Mr. John Turnbull, of Milton, Ont., also is an honour graduate, he taking honours in three subjects, and John N Johnson, a brother of our prominent Veterinary Surgeon, Dr. Johnson, of town, takes honours in Anatomy, Pathology and Histology. This speaks well for Dr. Johnson, who had a hand in the early training and instruction of all these students. We have learned that Dr. Johnson was an honour graduate himself and he has turned out every one of his students honour men at graduation and at present he has two more under his care, who, it is hoped, will uphold this record.

Oak Hall's Temptations.

Oak Hall's window dressing is proverbial for being not only attractive but skillful and meritorious in effective management. The fine show windows are just now decked out in Easter attire and are practical illustrations of what can be done by the handiwork of some one having the happy knack of a draftsman in the art of window decorating. The very appropriate introduction of white Easter lillies planted in among the nobby little boys' black suits produces a happy Easter effect, sufficient to turn the heads of indulgent mothers who have darling boys to rig out for Easter Sunday. For fresh, up-to-the-minute styles in boys' clothing—or men's either—Oak Hall's takes like hot cross buns on Good Friday. Not a stitch here that is not worth far more than the price asked. Turn and twist your money as you may, you can't do better than Oak Hall offers. Confidence is the good, safe-footed steed of trade in this popular clothing house. 2d1w

FOR SWEET CHARITY'S SAKE.

A Concert Given in Aid of Blind Willie Mitchell Last Evening.

The attendance at the charity concert last night was certainly a credit to the public of Peterborough, as every available seat in the Opera House was filled and many were standing. The object of the entertainment was to raise funds to assist blind Willie Mitchell in supporting himself.

The chair was occupied most acceptably during the evening by Rev. J. J. Ree, and the programme was opened by a rendering of Suppe's "Light Cavalry," by the Fire Brigade Band, which in this number as well as later on in the evening, gave evidence of painstaking work under the leadership of Mr. Finch Miller. A selection which was loudly applauded was an instrumental duet, concertina and piano, by Mr. Edmison and Willie Mitchell. Willie has evidently made hundreds of friends in town by his honesty and uprightness.

Mrs. Fred. J. Wesley gave evidence of being possessed of great versatality in the two selections which she contributed to the programme. The first was a vivid description of the awful railway accident on the Tay river, when the bridge was swept away, and the second was in lighter vein. Combined with an attractive personality Mrs. Wesley is the possessor of great talent, and her selections were well received.

Mr. Geo. K. Martin's fine baritone voice was heard to advantage in "The Bay of Biscay," and later on he very kindly offered to contribute a number left blank by the non-appearance of Mr. G. W. Mulligan, giving "The Village Blacksmith." Mr. John Miller's cornet solo called forth great applause, as his solos generally do, and Miss Pascoe's recitation of "The Christening," a humourous selection, was greatly appreciated, giving evidence of decided merit. One of the treats of the evening was Miss May Richardson's sweet rendering of "The Holy City." Miss Richardson's voice gives evidence of careful training, and her notes are exceptionally pure and clear

Misses L. Fox and M. Maude gave the next number on the programme, consisting of a most cleverly executed violin duet. Both young ladies are the possessors of talent and with careful cultivation bid fair to be known outside of merely local musical circles. Mr. Armstrong accompanied them on the piano. Miss Hendren's delightfully rich notes were heard most pleasingly in "The Land o' the Leal," after which Misses Annie and Clara Belleghem sang a duet, Huntley's "She's as pretty as the Roses," which found great favour with the audience. Mrs. Christie's recitation, "Christmas at the Workhouse," was a well selected number and was exceptionally well given. The programme was closed by the singing of "Stars of the Night," by a sextette composed of Mrs. Seward, Mrs. McGuire and Misses Butcher, Lumsden, Pascoe and Ritchie. The harmony and tone with which the selection was given were fully appreciated.

Unfortunately Mr. J. Brown was prevented from taking part in the programme, having an ulcerated throat. His effort to give his number was a praiseworthy one and the sympathy of the audience was with him when he was obliged to retire from the platform. As Mr. Brown was also one of a male quartette who were to sing, this number had also to be omitted. During the evening the accompaniments were played by Mr. George Schneider with his usual ability and skill.

BATTALION NOTES.

What our Volunteers are Doing—Success at the Military Schools.

The first parade of the Rangers of the season was held last evening, but it was not for drill purposes but merely for the redistribution of the clothing and accoutrements, which were collected from the men when the battalion finished drill last fall.

The attendance last evening was larger than anticipated and evidenced that the boys of the 57th are still as much interested in the battalion as they were last season.

* * *

The members of the Rangers, who have been in attendance at the Military School in Toronto have returned. They were Sergeants Green, LeBar and Whatley, Privates Sherwood and Pollard and Bugler Green.

Sergeant Albert Green took a first-class certificate, and Sergeants LeBar and Whatley stood high amongst those who received second-class certificates. Bugler Green was awarded one of the best certificates of the year. The privates not being used to squad drill were at a great disadvantage, as the work at the School was all new to them.

* * *

Sergeant Smith and Private Roberts arrived home from the London School on the 5.20 train to-day, and the rest of the boys come in to-night. It has not been learned yet just how successful the London contingent were in their examinations, but being from Peterborough they would naturally make a good showing.

* * *

Sergt.-Major Peters' non-commissioned officers class has been well attended in the Collegiate Institute gymnasium this year, and the benefit to the Battalion in having so many thoroughly drilled non-coms. will be apparent on inspection day.

* * *

The question of where the Battalion will go on Dominion Day for its annual outing or whether it will go away at all has not as yet been given any consideration. On account of all the special trains which will be used for the transportation of the bicyclists to Peterborough, it is just possible that the Battalion would have difficulty in being able to get out of town on that day. As in all probability the 15th Battalion of Belleville will come to Peterborough for 24th of May, it would be a courteous act for the Rangers to return the visit on the First of July, if they decide on leaving town.

THE FORTNIGHTLY CLUB.

An Interesting Paper on "In Memoriam" by Rev. Carl Smith.

In spite of the bad state of the walks there was a good attendance at the public meeting of the Fortnightly Club in the County Council Chamber last evening. In the absence of President Fessenden, Mr. Dumble occupied the chair. The subject of the evening was Tennyson's immortal eulogy, "In Memoriam," on which a most excellent paper was delivered by Rev. Carl Smith. The speaker entered into a full analysis of the religious speculations and faiths of the poem, and described its form and the circumstances of its origin. The subject was further discussed by Sheriff Hall and Mr. Jeffries. A synopsis of the paper will appear in the Fortnightly Club column. The next meeting will be held on Tuesday evening, April 2nd, when Mr. Dumble will speak on "Air and Ocean Currents." The meeting will be public.

BANK MANAGER TAYLOR REMEMBERED.

Honoured by the Citizens—Presented With a Complimentary Address.

In view of the departure of Mr. F. W. Taylor to assume the duties of the position of Manager of the Bank of Montreal at Deseronto, to which he has been promoted, last evening a number of prominent citizens waited on him at the Huffman House to tender him a complimentary address. There was a representative attendance of citizens present and Col. Rogers read the following address:—

To F. W. Taylor, Esq., Bank of Montreal, Peterborough:—

DEAR SIR,—The citizens of Peterborough cannot allow the occasion of your promotion to the management of the Bank of Montreal at Deseronto to pass without expressing their regret at your departure and their good wishes for your success in the future. Although you have been in Peterborough but two years and a half you have won the respect and esteem of a large circle of friends. As acting manager of the coal branch you have been brought in contact with the business men of the town, who unite in testifying to your ability as an official and to your uniform courtesy in all business dealings. To those who have been associated with you in athletic and social recreations your departure is not less regretful, as your prowess in the one has not been less than your popularity in the other. It is not often that after so short a residence, public opinion is so generally and favourably expressed as in this instance, and you will carry away the best wishes of a large number of citizens, who ask you to accept this slight token of remembrance.

J. R. Stratton, M.P.P., Jas. Stevenson, M.P., W. Manson, T. A. S. Hay, H. C. Rogers, E. M. Edwards, J. M. Irwin, W. D. Parker, H. A. Morrow, J. Parsons, H. S. Greenwood, Hall & Hayes, Central Bridge & Engineering Co., T. E. Bradburn, J. H. Hudson, W. Clexton, John Burnham, M.P., P. Campbell, R. A. Merrow, J. H. Burnham, C. A. Weller, W. H. Hill, R. P. Boucher, M.D., W. J. Montgomery, W. S. McGeehan, John Carnegie, Geo. Matthews Co. (Ltd) Dennistoun, Peck & Stevenson, J. T. I. Hallilday, M. D., D. M. Rogers, A. L. LeFevre.

The tokens of remembrance consisted of an elegant solid gold watch chain and silver-mounted pipe.

Mr. Hampden Burnham remarked that as the watch-chain presented Mr. Taylor was without a pendent, he wished to supply the deficiency; and amidst great hilarity he presented Mr. Taylor with a 76-lb. dumb bell, which, as might be thought, is not a mere toy, for Mr. Taylor possesses the muscular development that will admit of its practical use.

Judge Weller added a few words of personal tribute. He had had great pleasure in his acquaintanceship with Mr. Taylor since he came to town, and he hoped to see him again in Peterborough, (cheers) He had hoped that in the changes in the personnel of the bank staff, Mr. Taylor's services would be retained here. He joined with Mr. Taylor's many friends in congratulations on his deserved promotion, and hoped that his promotion would continue; the Judge also paid a high tribute to Mrs. Taylor's social qualities and graceful hospitality, and regretted the departure of both very much and felt sure that they would make friends wherever they went.

Mr. R. M. Dennistoun heartily endorsed the language of the address which expressed the sentiments of the public generally towards Mr. Taylor. He also referred to Mr. Taylor's prominence in the arena of sports, and proposed his health which was most cordially drunk.

Mr. Taylor in returning thanks said that he felt himself unworthy of all the kind things said of him in the address and by his friends who had spoken—so much so that he felt inclined to protest the acceptance of the compliments. He said he felt the kindness of his friends very keenly. Only two and a half years ago he came to the town a stranger, and had been most kindly and cordially received. Neither Mrs. Taylor nor himself would forget the kindness and liberal hospitality they had received in Peterborough.

Mr. Clexton in the course of a few remarks paid a compliment to Mr. Taylor's excellent business, as well as personal, qualities. He referred to the fact that circumstances had thrown great responsibility upon Mr. Taylor and he had shown himself eminently worthy of the trust. Mr. Taylor was the youngest bank manager on the Montreal Bank staff, and the more we knew of him the better we liked him. (Applause.) He was a man after the Bank's own heart—with him it was the Bank first, last and—to use an Americanism—"every time." Mr. Clexton added that it was the popular idea that corporations had no souls, but the Bank of Montreal was entitled to the greatest credit for their generous treatment of their afflicted manager, Mr. Lewis. In the whole history of the bank since 1817, when it was established, he (Mr. Clexton) was not aware of a more magnanimous course of action. In conclusion, Mr. Clexton wished Mr. Taylor every success, of which he had no doubt, for he was a man that would rise. (Applause.)

Mr. W. Manson of the Canadian Bank of Commerce, said that it gave him great pleasure to be present to congratulate a young man on his promotion to a position which older men might find it hard to fill. He endorsed all that had been said.

Mr. P. Campbell of the Bank of Toronto, was glad that Mr. Taylor had received promotion—he felt sure that he could fill the office capably. The business relations of his own and other banks with Mr. Taylor had been exceedingly agreeable. Mr. Taylor's promotion was Peterborough's loss and Deseronto's gain.

[Mr. Taylor may well be gratified by the evidences he received last night of the high place he holds in the esteem of the best citizens of the town, and the fact that he has achieved so much popularity in the short space of two and a half years shows that he possesses unusually excellent qualities of character. He has gained a high position in the esteem of the customers of the bank, and his promotion to the responsible position of manager at Deseronto, one of the most important branches, shows that his ability has been practically recognised. Affable and genial he was greatly esteemed in his social relations. He was a liberal patron as well as keen participant in the arena of sport, and Mr. Burnham's gift of the dainty watch-chain pendent was a practical tribute to Mr. Taylor's athletic power and prowess. Mr. Taylor will leave town (on Saturday, probably) laden with the kindest good wishes of a wide area of personal friends and of the citizens generally, and the EXAMINER joins in the hope that he will continue to prosper in his new sphere of activity.

The address was beautifully engrossed by Mr. Pringle, of the Peterborough Business College, and the gold watch chain was supplied by Mr. John McClelland.

Its Cause and Cure.

Cold weather, shivering, no heat to sustain, emaciated, because ill-nourished. This is either because the starchy foods are improperly acted upon by the digestive juices or the oily constituents of the food are not assimilated. Cod Liver Oil combined with Maltine and Hypophosphites supplies this deficiency, for the oil, rendered palatable, and easy of digestion, is at once assimilated and stored up in the form of audipose tissue. Besides this the maltine renders soluble the starchy foods—whose special function is to supply heat or fatty tissue—thus affording material necessary to supply the waste of the body. Maltine with Cod Liver Oil and Hypophosphites is at once a food, body builder and medicine, incomparably superior to any preparation for the consumptive or debilitated. Verify this by trial.

Coughs and colds lead to consumption if neglected. Dr. Wood's Norway Pine Syrup cures quickly and is pleasant to take. It is nature's remedy for all throat and lung troubles.

Weak, Tired, Nervous

Women, who seem to be all worn out, will find in purified blood, made rich and healthy by Hood's Sarsaparilla, permanent relief and strength. The following is from a well known nurse:

"I have suffered for years with female complaints and kidney troubles and I have had a great deal of medical advice during that time, but have received little or no benefit. A friend advised me to take Hood's Sarsaparilla and I began to use it, together with Hood's Pills. I have realised more benefit from these medicines than from anything else I have ever taken. From my personal experience I believe Hood's Sarsaparilla to be a most complete blood purifier." MRS. C. CROMPTON, 71 Cumberland St., Toronto, Ontario.

We feel confident that our Meats cannot be equalled, having been specially fed for the occasion by some of the best stock breeders of the country, and are in every respect superior. Warranted tender, juicy and toothsome.

OUR BILL OF FARE:

Among the choicest cattle provided for our Bill of Fare are the following:—

1 **Extra Fine Thoroughbred Durham Heifer** from the herd of Mr. George Isaac, of Haldimand, importer and breeder of fine beef cattle. This heifer is the best fed beef that will be cut up this year and can't be beat.

1 **Superior Thoroughbred Durham Heifer**, fed by that well-known cattle dealer, Mr. George Webber, of North Monaghan, which reflects credit on the feeder, and is "beef to the heels."

1 **Splendid Heifer**, fed by Mr. J. Richardson, Douro.

2 **Magnificent Steers**, fed by Mr. W. W. Kids, Dummer.

1 **Prime Fatted Calf**, from the finest of beef-making stock, and fed for the occasion by Mr. George Webber. Veal eaters who like choice cuts will be sure of something delicious.

3 **Superior Calves**, one fed by Mr. G. Wilson, Mount Pleasant, and one by Mr. Short, of Otonabee, and one by Mr. James Lowes, Emily.

2 **Extra Fine Spring Lambs**, from the fold of Mr. James Lancaster, Asphodel.

In addition to the above we will show an excellent supply of the freshest Pork, Lamb, Sausages, Tongues, Fancy Meats and Sugar Cured Hams.

Wall Paper Hints.

The advice which is usually given on How to Paper a House is quite as sensible as the Guide to Manners, Rules of Dress and similar treatises which are more potential than logical. Nevertheless, the following hints will be as well to remember, bearing always in mind the character of the occupant:

Bedrooms should be papered in medium tones of colour, neither light enough to make a glare in summer nor dark enough to absorb the pale gleams of winter.

For a summer room let us take a hint from the cool, old fashioned parlour, whose closed blinds and dark walls were a refuge for the eye and mind.

A decided pattern in the paper is sometimes necessary to increase the size of a room. Fine vertical lines do this, whereas any large detached patterns have the opposite effect.

Blue walls, or those with blue lights in the colour, make a room seem large. This colour must be skillfully used, however. The shades of blue that wear the best on the nerves and senses are toned with gray, yellow or pink.

Grayish tones of red and pink are cool and restful, but beware of orange, save in a little dark den of a winter house.

There is nothing in Wall Paper Decorations which we cannot supply to harmonize with your personal tastes, your furniture or other surroundings.

Prices start at **4c a ROLL,** for New Spring Styles.

A YEAR AGO

The sale of Pure Gold Baking Powder in Peterborough was not large. It was to be found only in two Grocery stores. But we knew we had a good thing and we began energetically to say so. The people began to realize that it was a good thing. They became convinced of its sterling qualities and they have grown to like it so that that it is now sold by every first-class Grocer in town.

The Brewery Cupalo.

The brewery boys were "Guyed" to the Queen's taste this morning, when a young man rushed excitedly into the yard and began eyeing the cupalo from every possible point of vantage. It didn't take long before Harry Neill, Jimmy Drain and the rest of the knights of the corkscrew came running out to view the situation also. When it suddenly dawned upon the crowd that it was the first of April the Duffers' goal keeper was invited to wet his whistle for the successful manner in which he had "jollied" the boys.

Office Hours of Sheriffs.

A bill introduced into the Legislature by Mr. Truax enacts that "Every sheriff shall, excepting during vacations and holidays, keep his office open every day from 10 o'clock in the forenoon to 3 o'clock in the afternoon, and during all that time he or his deputy or some clerk competent to do business for him, shall be present to transact the business of said office. During the long vacation and the Christmas vacation every sheriff or his deputy or clerk shall be required to be present in his office on every day, holidays excepted, from 10 o'clock in the forenoon until 12 o'clock noon and no longer.

Railway Extensions.

A number of young men are arranging to leave here to work on the Parry Sound railway, north of Haliburton. The line is open from Ottawa to Whitney, an extensive mill about four miles north of the Land Company's township of Clyde, and will this year, it it is said be open throughout between Ottawa and Parry Sound. The line is about thirty miles north of Haliburton. A large force of men will be employed upon the line during the coming summer. The Irondale and Bancoft line, south of the village, will also be open from Kinmount to Bancroft during the present year. So that there will be two railways running east and west, one to our north and the other to our south.—Haliburton correspondence Bobcaygeon Independent.

Attractive Women.

Why is one women attractive and another not? The most admirable and attractive thing about an attractive woman is her womanliness. Everybody admires a womanly woman. She must have health, of course, because without it she would lose the brightness of her eyes, the fullness of her cheeks and her vivacity. Real health must mean that a woman is really a woman. That she is strong and perfect in a sexual way, as well as in every other. That she is capable of performing perfectly the duties of maternity. Some are born with what is called "constitutional weakness." Those who do not enjoy perfect health, need only take the proper precautions and the proper remedy to become perfectly well and strong. Dr. Pierce's Favorite Prescription will cure any derangement of the distinctly feminine organism.

Y. M. C. A. NEW BUILDING.

Mr. Blackwell's Plans are Accepted by the Directors.

President Alf. Parker occupied the chair at a meeting of the Y. M. C. A. Board of Directors, last evening. The meeting was called in order, that the various plans for the new Y. M. C. A. building, which had been prepared, might be submitted for the criticism of the members. Those drawn up by Mr. Blackwell, met with the approval of the entire board, and were also satisfactory to Mr. Richard Hall, and they were consequently accepted, subject to some slight changes, which it is thought possible Mr. Charles McGill may wish to suggest. The contract price of the new building is intended to be about $15,000 and the plans are drawn up to correspond in detail with these figures.

THE WHEEL.

A meeting of the Bicycle Club will be held this evening at 8 o'clock sharp. Important club business will come up for discussion and a full attendance of members is desired.

Mr. R. Neill in a letter to the Toronto Mail and Empire says:

SIR,—With reference to the cycling notes in yesterday's issue as they appear in the sporting columns of your paper, I wish to state that in the opinion of the wheelmen, the professional and business men of this town, they are in part misleading and unfair. In the first place, Quebec was not an applicant last year, any more than was London and some other cities, or than is Woodstock for this year's meet. There were but two bona fide applicants, as there are but two this year, nor was it understood or even mooted to the association that Quebec would be Peterborough's opponent for the meet for 1896. In fact it was generally conceded by most of the delegates present that Peterborough had proved her claim for the 1896 meet, and would be supported by the majority of the members of the C.W.A. You further state that "those clubs that have only the best interests of the C.W.A. as an organization at heart, whether any of their members attend the meet or not, will vote for Quebec." Why do you make so sweeping and at the same time so untrue an assertion? On the face of it it is ridiculous. How clubs knowing that none of their respective members will attend the meet can have the best interests of the organization at heart by voting for that city is something we cannot understand here. On the other hand, you say, "Those clubs that want to take every possible member to the meet will vote for Peterborough." In other words, the clubs that wish to make the meet the greatest and surest success will vote Peterborough; those clubs that want a certain section represented from purely selfish motives, or because they don't care anything about it, will vote Quebec (of course, you refer to the Ontario vote, as I do.)

And, shortly, with reference to Mr. Donly's letter, appearing in the same issue. I am strongly averse to the making an official public statement in regard to all private conversations; they may possibly have been misconstrued. But Mr. Donly has certainly, by his partisan spirit, done Peterborough an injustice, and our people cannot but feel it. He occupies an official position in the Association, and is, doubtless, a good man for that position. He should, therefore, be very careful not to intrude his private opinions and wishes in public, and before semi-official meetings. This he has done. There is no denying it. Mr. Donly says in his letter: "The reports in the daily papers tell us that Peterboro' will protest the 501 new votes added by Quebec. I sincerely hope this is not true. If Peterborough can win on its merits, let it be so, I will warrant the first to extend congratulations will be the defeated; but if the victory is to be won on a flimsy technicality, it will be the first victory fraught with nothing good for the C.W.A." He then makes a statement of what he had done with his books, etc., and adds, "Perhaps hair-splitting lawyers will not bear me out in what I have done; but I believe the annual meeting on Good Friday will do so."

Now, why does Mr. Donly single out the 501 votes of Quebec only? Is it sympathy? Where are the 43 odd votes of Point Levis, and other places that were added too late? Why should Peterborough draw the line at the date of the last publication of the Wheelman? Why not allow all votes that may possibly be polled for Quebec up to and including Good Friday? Is it not childish to claim votes eligible that by the constitution are declared ineligible? The idea of the secretary of an association comprising, as it does, the representative young business men of Canada talking such bosh!

This is not a matter of sportsmanlike feelings, as some of Toronto papers have put up. This is a matter of very serious business transaction. Much money has to be spent for one, two and three years preparatory to the holding of a successful meet of the C. W. A. Business men and citizens generally devote their time and abilities for a considerable period of time. Municipal corporations and Boards of Trade take the question of the great C. W. A. meet under consideration pro and con. The rivalry between the two applicants is keen; it has the effect of stirring up public spirit. It is not a matter of mere sentiment, and the town or city that has made the fight for supremacy will bear me out. Peterborough was thrown out of a sure victory last year on a similar question, though not nearly so strong, as there was a misprint in the copies of the constitution that could not be noticed except by a careful reading of same. Peterborough did not whine; they took the reading of the constitution as it ought to be read, and stood by it. Peterborough will certainly take strong objection to all votes of members who are not entitled to vote. We took our licking like men, not that we wish to boast of it. We ran, as we promised, a special train to Waterloo, our old victorious opponents, and did our little best to make the meet a success. In conclusion, I apologize for the length of this letter. We have been accused of being apathetic. We can tell our wheelmen friends we are working like beavers. We extend them a hearty invitation to the meet for July.

Yours, etc.
R. NEILL,
President Peterborough Bicycle Club.

One of the prettiest and most substantial wheels which has been exhibited in Peterborough this season is the "Cavalier," of Saginaw, for which Mr. Adam Hall is the agent. The wheel is a high-priced one, but a special cut is being made to introduce it on the local market. It has all the 1896 improvements and can be seen at Mr. Adam Hall's, George street. tf

The Boy LaFlamme—His Cure was a Surprise—A few Boxes of Dodd's Kidney Pills.

PAPPINEAUVILE, March 30 (Special)—The father of the boy LaFlamme, one of the leading merchants here and willing to talk of his son's cure, he says—"My little boy Arthur, after scarlet fever about a year ago never recoverrd and his ailment ran into a kidney trouble. His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

FAIRWEATHER & CO.

"And age is a time of peace
So it be free from pain."

Old Age AND ITS Infirmities.

The descent of the hill of life should be gradual and easy. The decline of life should be free from care and sickness and pain. So it would be in the great majority of cases were the prime of life lived according to Nature's rules. But in the struggle for wealth and fame, swimming against the strong tide of competition, health is neglected. We live too fast, work too hard, drink too much, sleep too little, keep our nerves on the jump all the time.

Then the Kidneys give out. They can't stand the terrible strain to which they are being subjected.

As a result the blood is not properly filtered. It passes through the system unpurified, and carries disease to every organ of the body.

That terrible affliction of old age, Rheumatism, seizes on the joints and makes life unendurable with suffering.

Muscular weakness, tiredness, depression, irregular heart action, and shortness of breath follow in its train.

Perhaps there is suppression of urine, frequently it scalds, and often there are brick red deposits in it.

The remaining years of life instead of being peaceful, happy and free from pain, are one continuous round of suffering.

Is there no help or hope this side the grave?

A thousand times YES.

Doan's Kidney Pills are the great remedy for all those ailments that arise through diseased or disordered kidneys.

They're the old people's friend. They relieve their sufferings, cure their diseases, and infuse new health and hope and happiness into their life.

But always see that you get Doan's; other pills are almost sure to disappoint. For sale by

IN THE IMPERIAL HOUSE.

The British Parliament Will Take an Adjournment for Ten Days—Mr. Chamberlain Denies Information.

London, March 30.—In the House of Commons to-day, Right Hon. Joseph Chamberlain, Secretary of State for the Colonies, stated, in reply to a question upon the subject by Mr. John Redmond, that there was not an atom of truth in the report that the Government was negotiating for the purchase of Delogoa Bay from Portugal.

Sir Ellis Ashmead Bartlett, Conservative member for the Eccleasll division of Sheffield, asked the Government to state the terms of the reply of President Kruger of the Transvaal Republic to the invitation extended to him to visit Great Britain and discuss the situation in the South African Republic, and also to state the position of the Government in regard thereto.

Mr. Joseph Chamberlain, Secretary for the Colonies, declined to give any information regarding the matter.

Mr. George N. Curson, Under Secretary of the Foreign Office, stated that the Sultan of Turkey had requested the Khedive of Egypt to explain the advance of troops up the Valley of the Nile, and that the Khedive had replied that the British and Egyptian Governments had agreed that the moment was opportune for the recovery of the Province of Dongola.

Mr. A. J. Balfour, First Lord of the Treasury, announced that the House would adjourn for the Easter recess for ten days.

Mr. Labouchere moved a resolution against adjournment for so long a time unless the House had more information in regard to the Egyptian situation than had yet been given.

Sir William Harcourt said that, in view of the critical position of foreign and colonial affairs, the House was entitled to obtain fuller information before adjourning. Under the circumstances, he would vote for the shortest recess possible.

Mr. Balfour said that nothing fresh had occurred in foreign or colonial matters during the last week, rendering it necessary to dispense with the Easter recess.

Mr. Labouchere's motion was rejected by a vote of 233 to 87.

The House was in session all night debating the Supply. Mr. Henry Labouchere, the Radical leader, again opposed the Soudan expedition, and the Government's Egyptian policy.

Mr. Balfour declared that the European situation was unchanged, adding that a European war was no nearer, and that Great Britain was no more involved in the European arranging of treaties than she was before the expedition was decided upon.

The House finally voted the Supply.

EXCITEMENT IN DONGOLA

Effect the Southward Advance of the Egyptians and British Troops.

Cairo, March 30.—A despatch from Wady Halfa says that the news of the southward advance of the Egyptian and British troops has caused much excitement in Dongola. The noted Dervishes, Emir Osman and Asrek, have gone to Suarda with reinforcements of cavalry and camelry, and it is likely that they will threaten the Egyptian line of communication. Dervish reinforcements are gathering southeast of Dongola.

Increase of Crime in N.Y State.

Albany, March 30.—From the records contained in the annual report of Secretary of State John Palmer, it is seen that there is a great increase in crime in this state. Last year there were 71,471 convictions against 68,146 in 1894, an increase of 3845 in one year. Of this number 67,023 convictions were in courts of special sessions, and 4448 in courts of record. The increase in the former courts was 1817 and in the latter 1528. In the courts of special sessions, 60,414 men and 6604 women were convicted.

GOOD ADVICE
ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

HOW THE INSURGENTS FARE.

Dire Story in a Month That Has Not Been Subjected to the Blue Pencils of the Spanish Censors.

New York, March 30.—Elbert Rappeleye, the Cuban war correspondent of The Mail and Express, who was recently expelled from Havana, arrived here to-day on the steamship Yucatan. In an interview with a representative of the United Press, Mr. Rappeleye said: "I come back from Cuba as a deportado of Gen. Weyler. In his decree expelling me from the Island, I am called an enemy of Spain, that charge being based on letters published in The Mail and Express over my signature. Any person familiar with existing conditions in the Island of Cuba would know that the only enmity I have shown towards Spain has been telling the truth without fear or prejudice. This, of course, has resulted in my expulsion. As an impartial observer, sent to Cuba to study and inform myself and report the progress of events there, I unhesitatingly state that within three months the insurgent cause would be triumphant if the United States Government would grant the belligerency right and give the Cuban anything resembling a fighting opportunity. The Spanish are now on the defensive. Every battle fought in Cuba in the past 30 days has been invited by the rebels. They have more ammunition now than they ever had, and if they can maintain a source of supply there is nothing that can prevent them from winning. Gen. Weyler has been Spain's greatest mistake in the war. His name and reputation carried an odium which attracted the attention of the world. The best evidence of his bad generalship was his complete failure to hold the insurgent armies back after they had left the western provinces of Cuba. Maceo started his western campaign, which is now complete with 15,000 men, one-third of whom had not a single arm to fight with. Those who had guns went into battles with one or two cartridges, and fought, knowing that unless they captured the enemy's ammunition they would have nothing to fight with the next day. They are coming back now with the whole cargo from the Bermuda, and Gen. Weyler is withdrawing the Spanish defences from at least one-half of the principal points of the Island to bar their progress. This leaves Gomez with a larger army than Maceo, practically unrestricted to do as he pleases in three-quarters of the area of Cuba, while the barrier which Weyler is attempting to place before Maceo is acknowledged by one of his own generals with whom I talked just before my departure to be but little stronger numerically than Maceo's army, notwithstanding the fact that in all of the invasions heretofore, the Spanish have unsuccessfully attempted to prevent them, with the numbers in their favor at least four to one. While there have been some doubts, perhaps justified, about the military organization of the rebel armies, they need not exist any longer, as they are perfectly organized, with commanders of every rank, and all of their operations are being conducted as systematically as those of the Spanish. Their one appeal to the world is not for sympathy, but ammunition."

WHO IS THE MURDERED MAN?

Efforts Made to Identify the Body Found in the Trunk at Chicago.

Chicago, March 30.—Henry Devere and Bas Marcel, the Frenchmen, who identified the corpse found in storage in a trunk as that of Prosper Chagel, made a more minute examination today and were more firmly convinced that the remains were those of their missing friend. Chagel came to Chicago from Paris in January, 1895, and went to Salt Lake City. He deposited $2000 in a Salt Lake bank, and it is still there to his credit. He disappeared in February, 1893, and a Miss Rolande, with whom he had been living, took his effects and returned to Paris.

The coroner is not satisfied with the identification, and will try to trace the identity from a truss which was on the remains. Devere and Marcel believe their friend was murdered for his money. They assert that he wore a truss, and that the muscular development of the corpse answers his description. The inquest has been continued until Tuesday.

Seattle, Wash., March 30.—Despatches from Chicago state that the body found in a trunk there may be that of Oliver Pike of this city. There is no trace that a man of that name ever lived here.

PARALYSIS CURABLE.

Stricken Ones to be Seen Everywhere—This Form of Living Death Cured by Dodd's Kidney Pills.

The most startling example of human helplessness is the paralytic.

The victim excites your commiseration, but resents your pity.

He of the palsied hand stiffly pressing the benumbed side, is to be seen everywhere we go.

The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it.

Not generally recognized as a kidney disease, it succumbs to kidney treatment.

Did you ever know of a cure? Just think a moment!

If you do it must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.

"[illegible]" Men Go Back.

New York, March 30.—A despatch to The Herald from London says: Fifty of "Dr. Jim's" troopers, who returned from South Africa on the Harlech Castle, left Waterloo station yesterday morning for Southampton to embark on the Lismore for South Africa, their ultimate destination being Buluwayo. The remainder, numbering 100 troopers, under the charge of Lieut. White and Sergeant Steele, left by special train in the afternoon from Waterloo to join the Mexican, the union boat, which had been kept back for that purpose.

Mrs. Booth-Tucker Greatly Affected by the News of Her Child's Death.

New York, March 30.—A cable despatch this morning to the Salvation Army announced the death in London of the six weeks' old baby of Mr. and Mrs. Booth-Tucker, who will command the Army in this country. Mrs Tucker is now here, having arrived last Sunday. Her husband, who remained in London for three days, or until the child was supposed to be all right again, will arrive Wednesday.

Mrs. Booth-Tucker is greatly affected by the news of her child's death. One of the prominent officers at the headquarters said to-day there was no truth in the report that at the meeting to-morrow Mrs. Booth-Tucker intends to make any definite offer or proposition to Ballington Booth. "She will endeavor," he said, "to convince him that he has departed from the right course and persuade him to visit his father in England. That is what we have been trying to do all along and we have not yet given up the attempt."

TEN YEARS TROUBLED

With Liver Complaint and Dyspepsia---Suffered Greatly and Found No Relief in the Scores of Medicines Prescribed.

South American Nervine Was Recommended, and Before Half a Bottle Was Taken Relief Came.

Have Since Improved Rapidly, and Am Now Completely Cured—So says Mr. David Reid, of Chesley, Ont.

What ills come to humanity from a disordered liver! Henry Ward Beecher has said that it was impossible for a man to hold correct spiritual views if his liver was out of order. The liver is so important a part of the mechanism of man that when it ceases to work with ease the whole man is unable to do his work aright. Can we not appeal to thousands, nay, tens of thousands, for a verification of this fact? Certainly it is, that Mr. David Reid, of Chesley, Ont., felt that the enjoyment of life had been taken from him, through the unhealthy condition of his liver. For ten years he says he was troubled with liver complaint and dyspepsia. Employing his own language: "At times my liver was so tender I could not bear it pressed or touched from the outside. Had tried a great many remedies without any benefit. Was compelled to drop my work, and being worse than usual, I decided as a final resort to try South American Nervine, which had been recommended to me by friends who had been cured by it. I got a bottle from A. S. Goodeve, local druggist, and commenced taking according to directions. Before I had taken half a bottle I was able to go to work again, and I have improved steadily since. I can conscientiously recommend South American Nervine to any suffering from dyspepsia or liver complaint." This is Mr. Reid's story as he tells it in his own words. Were it thought necessary it could be corroborated by a host of witnesses. Mr. Reid has lived a long time in Chesley, and his case was known to be a very bad one. But that makes no difference to Nervine. This great discovery rises equal to the most trying occasions. Let it be indigestion, the most chronic liver trouble, as with Mr. Reid, nervous prostration, that makes life miserable with so many, sick headaches, that sap all the effort out of man or woman, Nervine measures to the necessities of the case. It is a great medicine and thousands to-day in Canada are happier and healthier men and women, because of its discovery. There is no great secret about it, and yet there is an important secret. It operates on the nerve centers of the system from which emanate all life and healthfulness, or if disordered, sickness, even death. Nervine strikes promptly at the nerve centers, hence, as with Mr. Reid, where ten years' use of other medicines had done no good, less than a bottle of Nervine brought about encouraging results, and a few bottles cured.

The old story of Prometheus is a parable, an allegory. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave it to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew again as fast as it was pecked away. Are his sufferings to be imagined? Yes, and realized.

Take a modern interpretation of the parable. There is no cooking without fire. In cooking and eating the mischief lies. The stomach is overtasked, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures. The sufferings from an outside, visible hurt, are a mere pin-scratch to the torments of a diseased liver.

But, moderns are ahead of the ancients. There is a sequel to the old story. Dr. Pierce is the author. His "Golden Medical Discovery" is more than equal to the vultures of dyspepsia and its kindred diseases. Every atom of the "Discovery" is an active agent against disease. It flies like a ferret, wherever it is sent. It is as sure as the needle of the compass. There is no more need of suffering from dyspepsia than there is of hanging one's self.

Mr. W. Rogers, of *307 Grayson St., Louisville, Ky.*, has this to say for himself and the "Golden Medical Discovery": "I was a dyspeptic. I had not had a comfortable night in six years. I have taken three bottles of Dr. Pierce's Golden Medical Discovery. I am now fifty years old. I feel thirty years younger." Yours truly.

St. John's, Nfld., March 30.—The Supreme Court will hold a special term on April 13, for the trial of the bank directors. The local judges desire an English judge to hear the cases, but the Government refuses to assent to this, resulting in complications which may block the trials altogether.

FROM HER FOOT TO HER HEAD.

A Needle Journeys for Twenty-Eight Years in Mrs. Cossaboon's Body.

Sea Isle City, N.J., March 30.—More than twenty-eight years ago Mrs. Mary C. Cossaboon of Clayton stepped on a needle, and succeeded in removing only a very small portion of it. While Mrs. Cossaboon was combing her hair on Saturday she felt a pricking sensation on the top of her head, and upon making an examination found a small sore spot through which some sharp object protruded. It proved upon removal to be the identical piece of needle that entered the woman's foot so many years ago. It was as bright as new after its remarkable journey through a human body. During all these years Mrs. Cossaboon had experienced no pain from the needle until a few days ago.

How Miss. Smith Nearly Lost Her Life.

Simcoe, Ont., March 30.—A very serious accident occurred at Tyrrell, a little village about seven miles from here, by which Miss Ada Smith nearly lost her life. Her father, Osro Smith, was cutting feed with a straw cutter, when Miss Smith's clothes were caught by the coupling rod and she was carried around it a number of times. When the machinery was stopped it was found that she had received wounds in the head and left shoulder which make her condition critical.

WORK OF WIZARDS.

THE PROGRESS OF SCIENCE AND BRAINY INDUSTRIALS.

The Mysteries of the Laboratory—The Many Inventions and Discoveries Due to That Which We Call Accident—The Lesson Taught.

The work of Prof. Roentgen calls the attention of the general public to the wonderful results of what are popularly called laboratory accidents, but which are really not accidents at all. The laboratory to most of us is a great mystery, but in all laboratory work, as in anything else in this world, method and application count. Just as it is true that nature never advances by leaps, so it is also true that scientific advance is not by lucky hits, but by painstaking endeavor. A chemical student puts his fingers in his mouth forsooth, while working on coal tar products and discovered saccharine, 300 times sweeter than sugar; but this accident but hastened by the briefest time inevitable discovery that would have followed the logic of research.

The electric light was, it is true, a laboratory fixture before it became a civic necessity and a convenience of monopolies, and the dynamo a scientific toy used to demonstrate a professional theory before it was geared to do the tolling for a work-a-day world. The prism with its gorgeous resolution of color, still delights the young, while its revelations of the universe keep the savants busy the world over. And so it happens that under Prof. Roentgen's hand, luminous effects, which, like the magic lantern slides, amused as well as instructed many a lecture room, take on a new meaning. But not my accident; for the investigation of electrical effects in rarefied media has been the work of his life time. And it is that that counts.

All similar discoveries go to prove that in the vast range of material investigations in our laboratories nothing is so clear as the fact that the plaything of to-day may become a world-solvent to-morrow. Again, among other things, Prof. Roentgen's discovery emphasizes more clearly than anything else the overthrow of the old-fashioned philosophy with its hard and fast facts as to matter. The student of the past, observes the Philadelphia Press, knew a world of rigid and of fixed bounds; the student of to-day sees no limits and to him matter is a relative term and all is motion.

HOW INSECTS BREATHE.

The Intricate Mechanism Which Supplies the Mites with Air.

Take any moderately large insect and examine it closely. You will observe, even with the naked eye, that the body is pierced with a number of holes, usually from 18 to 20 in number. These minute openings are the apertures through which air is admitted to the system, and they are generally so wonderfully perfect that no extraneous matter of any kind can possibly effect an entrance. Sometimes these holes are furnished with a delicate pair of horny clasps which can be opened and closed at the will of the insect. In other cases—this class is far more numerous—they are densely fringed with stiff, interlacing bristles, which form a filter that admits nothing but air. This bristle filter is so perfectly, yet so delicately made that it has been found absolutely impossible to force even such a subtle fluid as spirits of wine through it. These apertures or "breathing holes" communicate with two large tubes, which extend along the entire body of the insect, furnishing fresh air to the whole system. Besides these two main tubes there are innumerable delicate branches which run in all directions through the insect's body, continually dividing and subdividing until a wonderful network is the result. This mechanism allows air to penetrate into every fiber of the insect's anatomy, even into the nerve linings of the gauzy wings—providing it has wings—and into the feet and antennae.—St. Louis Republic.

Natural Sensibility.

Wonderful cases of manual sensibility in every-day life are the detection of counterfeit money, and the separation and classification of injured notes by female operatives in the Treasury Department at Washington; the manufacture of standard gauges, where the accuracy is guaranteed to be within the 1-10,000th of an inch; in wire drawing, where the operative can detect an increase of diameter of less the 1-1000th of an inch solely by the sense of touch in the thumb and finger; and in the manufacture of steel balls for bearings, where an operative has been known, by rolling them between the thumb and finger, to pick out several balls of a group, which, by actual measurement with a micrometer caliper, proved to be out of round not more than 8-10,000ths of an inch. The highest type of manual sensibility is found in those of sanguine temperament who use finger points in all operations of contact; the side contact shows deficiency of sensibility, and the worst type is in those of phlegmatic temperament, where the muscular parts of the finger and thumb or power part of the hand are used for contact. The first type shows the greatest amount of directing and measuring force, while the last seems to have a mist between the work and the mind through which it is groping its way.—Buffalo Express.

A Substitute for Gold.

A French journal describes a new substitute for gold. It is produced by alloying 94 parts of copper with six parts of antimony, the copper being first melted and the antimony afterward added. To this a quantity of magnesium carbonate is added to increase its specific gravity. The alloy is capable of being drawn out, wrought and soldered just as gold is, and it is said to take and retain as fine a polish as gold. Its cost is a shilling a pound.

[illegible] is the voice of the [illegible] telling the [illegible] Blood Bitters cures all [illegible] of the Stomach, Liver, [illegible] Blood.

Mr. T. C. Ludlow, [illegible], Brantford, Ont., says: [illegible] given years prior to [illegible], my wife [illegible] all the time [illegible] Her [illegible] weak, run [illegible] so nervous that the least [illegible] her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid $5.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every ailment from which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of money in medicine and attendance thereafter, and better than that it made home a comfort to me.

Look for this Print in the Snow

It is the pattern of the heel of the Granby Rubber and Overshoe. The next time you buy a pair of rubbers or overshoes ask for Granby's and look for this pattern on the heel. There is no need to take a Granby that is not the same shape as your boot, because they are made to fit every shape of shoe. A rubber that does not fit the boot will draw the foot. *Granby Rubbers* are thin, light, elastic and fit perfectly. **They wear like Iron.**

LETTER OF THANKS

Messrs. Cox & Davis, Peterborough:

GENTLEMEN:—I beg to acknowledge receipt of the Canada Life Co's Cheque for Six Thousand and Sixty Two Dollars and Fifty Cents, in settlement of claim under my late huband's Policy, No. 39,912, and am obliged for your kind attention in obtaining prompt settlement.

Yours Faithfully,
ELIZA YELLAND.

Particulars of the Late Dr. Yelland's Policy as above.

$5.000 Straight Life. Age 22. Issued April 1886. Annual Premium $86.

Total Cost for 10 Years	**$ 860 00**
Bonus Addition to Policy	**1062 50**
Balance of Profit over cost of Insurance	**$202 50**

The above figures simply mean that in addition to the face value of the Policy, viz:—Five Thousand Dollars, THE CANADA LIFE CO. have returned every premium paid for carrying the Risk during the Ten Years, together with the further sum of $202.50, or, in other words, have given back all premiums paid, with COMPOUND INTEREST at the rate of 3 per cent. per annum.

IT PAYS TO INSURE IN THE

CANADA LIFE.

Its Rates are the Lowest and Profits the Largest.

Intending Assurers would be consulting their own interests by getting figures and facts from the undersigned before placing their risks elsewhere.

HOTEL KEEPERS WILL HAVE THEIR HOTELS INSPECTED.

The Sanitary Condition to be Reported to the Government.

The following circular has been issued to the License Inspectors:

TORONTO, March 20th, 1896.

SIR.—On previous occasions circulars have been addressed to you setting forth that the Commercial Travellers' Association of Canada had brought to the notice of this Branch several matters to which you were asked to give your consideration and attention.

It was represented that in not a few licensed hotels, patronized by members of the Association, the outside closets and inside lavatories were in a filthy and unhealthy condition.

That the sleeping apartments were indifferent in accommodation and kept in an uncleanly and slovenly manner.

That the sample rooms were poorly lighted, heated and untidily kept.

You were particularly instructed to make most careful inquiry as to the truth of these representations, with the view of removing all causes of complaint.

A delegation from the above mentioned Association recently waited upon this Branch, and urged that there was still much to be done in improving the sanitary condition of not a few of our hotels. Special mention was made of the unhealthy condition of the urinary and closet accomodation.

I am directed by the Honourable the Provincial Treasurer to again point out to you, that in the interests, not only of the Association and the travelling public, but on sanitary grounds generally, it is your duty to see that there shall be no cause for complaint in this regard in future and all licenced hotels in your district shall have proper accomodation in every respect.

It is hoped that it will not again be necessary to call your special attention to this matter.

A special report will be required from you not later than the first day of May next, advising this Branch of the sanitary condition of the hotels in your district.

I have the honour to be, Sir,
Your obedient servant,
HENRY TOTTEN.

DOMINION CATTLE BREEDERS.

The Annual Meeting to be Held in Toronto.

The fifth annual meeting of the Dominion Cattle Breeders' Association will convene in Shaftsbury Hall, Queen street, near Yonge, Toronto, April 17th.

The programme will include President's Address, Hon. Thos. Ballantyne, Stratford; Secretary's report, F. W. Hodson, Guelph; Transportation of Live Stock, by A. Johnston, Greenwood, Ont.; Discussion on Transportation, opened by Robt. Miller, Brougham, Ont.; The Present Quarantine Regulations, by Jno. I. Hobson, Mosboro, Ont.; Discussion on Quarantine Regulations, opened by J. C. Snell, Snelgrove, Ont.; How the Quarantine Regulations and Railroad Rates affect the Sheep and Swine Interests, D. G. Hanmer, Mt. Vernon, Ont., and an address by the Hon. G. A. Kirkpatrick, Lieutenant-Governor of Ontario.

At 7.30 a meeting of the directors will be held in the Palmer House, Toronto, Ont.

Hon. John Dryden, Toronto; Dr. Jas. Mills, O. A. C., Guelph; Mr. G. E. Day, B. S. A., O. A. C., Guelph; Mr. Wm. Smith, M. P., Columbus; Mr. Wm. Rennie, O. A. C., Guelph; Mr. Wm. Mulock, M. P., Toronto; Mr. Jno. A. McGillivray, M. P., Uxbridge; Mr. David McCrae, Guelph; Mr. John Miller Brougham; Mr. T. C. Pattison, Toronto; Mr. W. C. Edwards, M. P., Rockland; and a large number of prominent agriculturists have been invited to attend and take part in the discussion.

The persons chosen to speak on these questions are among the best known, the most experienced, and the most successful agriculturists on the continent.

Farmers are urgently invited to attend this meeting. They, as a class, have serious grievances, which can be overcome by united action.

Your Presence and co-operation at the meeting is respectfully requested.

OUR BELOVED QUEEN.

Her Most Recent Photo, Full Cabinet Size, Given Away.

Our beloved Queen Victoria; God bless her and preserve her to her loyal and loving people.

Few homes can boast of having a really good and recent cabinet photo of Her Majesty, who will soon attain her 77th year.

The Wells & Richardson Co., manufacturers of Diamond Dyes, have made special arrangements with the publishers of "Our Home," Canada's best, purest, most largely circulated and most enterprising family paper, now in its fourth year of active and progressive work, whereby they are enabled to make the following special and generous offer, good for one month only:—

An elegant full cabinet photo (from a recent copy taken by royal command), of Her Majesty Queen Victoria; a four-page pamphlet giving dates of births, marriages and deaths, and other items of interesting and useful information relating to the Royal family, that but few people have access to; six Diamond Dye dolls with six extra dresses, and a card of forty-five samples of dyed cloth, showing colours of Diamond Dyes—will be sent free to every man, woman and child who will send in 25 cents in money or stamps for one year's subscription to "Our Home," a paper that thousands declare to be worth a dollar.

The cabinet photos of the Queen are worth 40 to 50 cents each, and can be obtained only as premiums with "Our Home."

If you desire to have pure and wholesome reading matter for one year, and the premiums as promised above, send your name and address at once. The whole cost remember, is only 25 cents.

Address, Wells & Richardson Co., Montreal, P.Q.

Date of inspection, Feb. 4th and 5th, 1896.

In the election for councillor only two sought election, Jno. Walker and Richard Nichol. Mr. Walker was elected with a majority of sixty four.

Miss L. Blezard, of Westwood, was the guest of Miss M. Eaton this week.

Last Friday evening Prof. E. Odlum, M.A., B.Sc., delivered an address in the Methodist church here on British Columbia and Alaska. Prof. Adlum is connected with the Educational and Immigration departments of British Columbia, and delivered a very interesting and instructive address.

Stephenson & Co. have opened a large stock of dry goods, ready made clothing, crockery, wall paper, etc., at their old stand, Peterborough street. They have also a millinery department in connection, in charge of Miss Walker.

At a meeting of the citizens held in the town hall on Friday evening last, in connection with the celebration of the 24th of May, a programme was drawn up and an estimate of the amount of money required made. The programme is to consist of a calithumpian and trades procession, horse and bicycle races, football and lacrosse tournaments, also Caledonian games in the afternoon. In the evening a grand promenade concert is to take place in the rink and after the concert a display of fireworks.

A meeting is to be held in the McGregor House next Saturday night for the purpose of organizing a junior football club.

F. D. Roxburgh, who has been attending Knox College, is home for a few days this week. He leaves for the Rocky Mountains on Friday, where he will work for the next six months on the mission field.

Last Sunday morning the regular quarterly children's service was held in the Presbyterian church. The pastor took for his text Luke, 2nd, chap. and 49th verse.

Rev. Mr. Jolliffe, of Campbellford, preached educational sermons in the Methodist church last Sunday.

Next Sabbath being Easter Sunday, the members of the Y. P. S. C. E. and the Epworth League will hold a sunrise prayer meeting in the Presbyterian church.

Miss M. E. Howson will go to Peterborough on Monday to attend the C. E. Convention as a delegate from the Epworth League. Rev. J. F. Somerville and Miss E. Nichol will be the representatives of the Y.P.S.C.E.

The ladies of the Methodist church are having a sacred concert on the evening of Good Friday. A very good programme has been arranged, consisting of choruses, quartettes, solos and recitations. The soloists are Mrs. F. E. Perney, Miss Knox, Messrs. J. G. Code and F. Pearce.

C. P. Pearce is in Havelock this week.
C. H. Cress is in town again this week.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a *firm believer* in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 55, Jarvis, Ont.

GOUGH BROTHERS.

The Hard-to-Beat House Gives the Boys a Good Setting Out.

We want to see three thousand Boys of our own town wearing Gough's Boys' Suits. To put the Suits on the Boys, we will make it pay parents to do so. Here's a ringer in Boys' Clothing. Here's a sweep right from the shoulder to kill off hard times.

We have put on a big sale in BOYS' CLOTHING. We bought largely—more than we required—more than we, with our several outlets, at home, at Port Hope and Lindsay, can handle. Right now—early in the season—we give the Boys a chance for a NEW SUIT FOR EASTER.

Talk about prices. Prices don't count. Fifteen Hundred Suits are in one lot. Three Hundred Suits in another. Boys' Jerseys, imported from Germany direct, are a third lot. These start at 89c. and fetch up at $3.75, complete.

"Always Good at Gough's."

The
Appreciation of Ladies

Has been won for MASON & RISCH Pianos in a great measure by the beauty and delicacy of their touch. Ladies appreciate the fact that it is not a tiring thing to play upon them. It is not necessary to thump a Mason & Risch Piano, or to have immense physical strength to produce a full rich tone from it. So beautifully and scientifically exact are our actions, that the maximum of effect can be produced by the minimum of effort. Again, we say, that this is a point greatly valued by ladies. It is not the only point by any means, but simply one that specially commends itself to the fair sex.

Doctoring A Watch

Is as important as watching a Doctor. We cure all curable troubles of Watches, Clocks and Jewelry, and guarantee them cured or no pay.

All we want is a chance. Give us that and if there is any chance at all in any case we will restore it to you in good working order.

If we can't do your timekeeper any good we'll tell you so—and save you spending money foolishly on it. Anything in the Watch or Jewelry line we can't repair is past all remedial relief. Our charges are always moderate—never high.

Local Legislature Winds Up This Evening.

VOTING IN THE SCHOOL ELECTIONS.

Aliens in the Same Position as British Subjects - Full Report of the Select Committee Appointed to Consider the Question of Government House - Estimates.

Toronto, April 2.—The business of the Local Legislature will be despatched by this evening or at midnight at latest. Yesterday the Opposition made a weak attempt at prolonging it by moving a number of meaningless amendments, all of which were voted down in short order. In many cases the amendments had been placed in the hands of Opposition members by their leader, and when they moved them and were called upon to explain the House was convulsed to find they had not the slightest idea of what they were doing.

Hon. Mr. Ross moved the third read- of his bill to consolidate and revise the Public School Act. It will be remembered that when this bill was before the committee of the whole House, Hon. Mr. Balfour and others made strong representations for the removal of a clause which prohibited all but British subjects voting for school trustees. Mr. Balfour pointed out that many Americans visited border towns during the summer months, paid their taxes to Canadian schools and sent their children to them. He asked that they should be allowed to vote for the trustees. The Government decided that this claim was just and altered the bill to meet the demand.

Mr. Whitney yesterday took strong objection to this provision, giving foreigners a vote in school matters, though at the time the matter was argued out in committee he had not a word to say.

Sir Oliver Mowat said 20 years' experience had proved no harm had been done by allowing British subjects and others who paid taxes to schools, to vote. The House had decided in favor of the clause, and he could see no valid ground for objecting to it. The bill was then carried by a vote of 64 to 24.

Hon. Mr. Hardy moved the third reading of his bill to reduce the number of county councillors. He explained he had added a clause providing that the bill should in no way interfere with reeves or deputy reeves, as at present elected.

Mr. Whitney moved a six months' hoist in amendment, which was lost, the vote standing 28 to 51.

The supplementary estimates were laid before the House yesterday and amounted to only $167,000. Hon. Mr. Balfour gets $500 additional salary. The House of Refuge, Elgin County, gets $1000 extra; $4000 is set aside for dairy schools; $18,900 for colonization roads; Port Arthur Mining School $5000, and the Canadian Historical Association $1000.

GOVERNMENT HOUSE

Sir Oliver Mowat presented this report:

The select committee to whom was referred the consideration of all questions relating to Government House and Government House property, and the further question of the future maintenance or the discontinuance of the maintenance of Government House by the province, or otherwise, and to report thereon, beg leave to present the following as their second report:

Your committee at their first meeting appointed a sub-committee consisting of Messrs. Howland and McNish, to collect with all possible expedition, for the use of your committee, information respecting the history of Government House and ground, the title to the property, its present saleableness, its money value, and any matters bearing in any way on the matter, submitted to us. Besides the information received through the sub-committee, we received valuable evidence from two ex-Governors of the province, who, by request, appeared before us. A valuable statement was also sent to us by mail by the only other ex-Governor of the province now living. Your committee communicated to the House with their first report the sub-committee's first report, besides numerous documents referred to therein. Your committee now submit the second report of the sub-committee.

It is evident that the framers of the constitution, in preparing it, and the Imperial Parliament, in giving effect to it, their work alike regarded the office of Lieutenant-Governor in every province as an essential part of the constitution of the country; that, accordingly by the 92nd section of the B.N.A. Act, it is provided that in every province the Legislature may exclusively make laws for the amendment from time to time of the constitution, except only as regards the office of Lieutenant-Governor.

That this constitution (as is well known) was the constitution asked for by the Legislatures of all the provinces which formed the original Confederation of Canada, and was accepted by the Legislatures of those other provinces which have come into the Confederation since.

That the Government House ground consists of about six acres of land, situated in the heart of the city, and of immense value, but, in consequence of the prevailing depression, it is not at present saleable.

That this property belonged to the Dominion, under the B.N.A. Act, and soon after Confederation was given to the province by the Dominion, as a site for the Government House, which was expected, and by the arrangement then made, was intended to be thenceforward maintained by the province as a residence for the Lieutenant-Governor, as the representative of the Queen in the province, and the chief executive officer and provincial representative of the people of the province.

That your committee are of opinion that as regards Lieutenant-Governors hereafter to be appointed, considerable reduction is practicable, without foregoing the public any advantages which the proper maintenance of Government House affords:

That the two reports of the sub-committee contain some valuable suggestions on the subject, which demand careful consideration; that other suggestions have been made in committee and outside of the committee which also require like consideration; and that it is found impossible in the present session to study out the whole matter in a way that the public interests require, and that would produce reliable results.

That the term of the present respected Lieutenant-Governor will not expire until several months after the session of 1897, and that session will be in good time for making the new arrangements which may be devised and agreed upon for dealing with the subject.

That should a new Lieutenant-Governor be appointed before next session, against which there is every probability, the gentleman appointed, whoever he may be, will take the appointment, knowing that the whole subject of Government House is under the consideration of the Legislature, with a view of lessening the expenditure to the province, and that no vested rights on the part of the new Lieutenant-Governor will be recognized as regards Government House, its maintenance or its staff.

That a considerable amount of progress having been made in collecting materials for a well-considered policy, and it not having been found practicable to conclude this session that part of the duty assigned your committee, your committee recommend that the subject be taken up again next session at the earliest practicable day of the session in order that in dealing with so important, and in some respects so novel a subject, the House and its committee may as far as practicable have all the time needed for the work.

MISS STEACY'S STRANGE FREAK.

A Young Woman Somnambulist Spends Five Hours in the Snow Near Kingston

Kingston, April 1.—Miss Kate Steacy, daughter of Mr. John Steacy of the "land of Nod," east of Kingston, keeping house for her uncle, got out of bed about 1 a.m. and disappeared from the house with hardly any clothes on. Mr. Miller went and got his neighbors and they started in search of the lost woman. Not until 6 o'clock in the morning, when they had given up hope to find her, and while in the house warming, they heard a faint scream; and on going in the direction of the noise they came across the poor unfortunate girl, with only her stockings, her nightdress and a small shawl around her shoulders, on her hands and knees in the snow.

It is believed she was in a trance, and intended going across the fields to her home some few miles distant, and only got over one field to the first fence. Whether she awakened or intended coming back to the house is a mystery. She was out five hours in the blinding snowstorm and her hair was frozen to her head.

FOUND WELTERING IN HIS BLOOD.

Clerk Desjardins of the Quebec Legislative Assembly Tries to Suicide.

Quebec, April 1.—Quite a sensation was created in town this morning when the news spread abroad that Mr. L. G. Desjardins, clerk of the Legislative Council, had attempted suicide. The facts are these: Mr. Desjardins was laid up some time ago with a severe attack of la grippe. The disease increased until his mind became unbalanced. This morning he arose early, and, going to his toilet stand, took his razor and drew it across his neck with frightful results. He was found shortly after weltering in his blood. A doctor was called in and stopped the flow of blood. The arteries are not severed. A priest administered the last rites to Desjardins, who is in a very low condition.

LUCK IN THE YUKON COUNTRY.

James McQuaid Came Out Because He Had All the Gold He Could Carry.

Port Townsend, Wash., April 1.—The City of Topeka, from Alaska, brought the news that James McQuaid arrived at Juneau from the Yukon country just before the steamer sailed, bringing with him 82 pounds of gold dust. He had been in the Yukon country a year and a half working on shares most of the time and came out because he did not think he would be able to carry another pound. It is said there are hundreds of miners and adventurers in Juneau without visible means of support.

HER BABY IN THE FURNACE.

How a Rochester Girl Tried to Get Rid of Her Offspring.

Rochester, April 1.—Yesterday morning the inmates of 84 North Clinton street, Mrs. E. Wills' residence, detected a disagreeable odor coming from the basement. Investigation revealed the fact that a newly-born babe was roasting on the furnace coal. The body was removed and the coroner summoned. That official found in an upper room Miss Mary McDonald, a domestic, ill. Questioned, she admitted that the child was hers, that it was dead when born, and to conceal her shame she wrapped the body in a blanket, walked down two flights of stairs to the furnace, and returned to her bed. The girl's mother was present during this interview, but denied all knowledge of the affair. The coroner says it would have been next to impossible for the woman to have gone to the furnace in her condition, and an investigation was made as to whether the child was murdered or not, and what part, if any, the woman's mother had to do with the crime.

THE PRIZE WAS $3 STAKE MONEY.

Henry Rodriques Was Killed and Now Six are Arrested for Manslaughter.

New York, April 1.—The police have arrested six men, charged with manslaughter in connection with the death of Henry Rodriques, 20 years old, who died shortly after a prize fight on January 3. The men were indicted yesterday. They are William Jones, 19 years old, a plumber; William Keenan, 19 years old, an electrical worker; John Gordon, 22 years old, machinist; George F. Fulham, 24 years old, a bricklayer; Michael Ginley, a barber, and John Folger, 18 years old, a plumber. Gordon was the timekeeper, and Jones and Keenan were handlers at the prize fight, which took place in a stable. The pugilists were Henry Rodriques and John Shagney, 18 years old, now in the Tombs for manslaughter. It is alleged that Rodriques was getting the better of the fight, when the friends of Shagney knocked him down and kicked him on the head and body. The fight was for $3 stake money. There were about 30 spectators. Rodriques died of a fractured skull that night.

English Immigrants on Their Way to Manitoba—Fishing Rights of Farmers and Settlers—Father Lacombe's Leases—Slow Day in the House of Commons.

Ottawa, April 1.—(Special)—The Government has forwarded the offer of the 8th New Brunswick Hussars for active service in the Soudan to the Imperial Government as a matter of courtesy. While appreciating, however, the patriotic motives which inspire the offer, General Gascoigne cannot recommend its acceptance. He holds that it is somewhat inconsistent at a time when the Government contemplates the expenditure of a large sum of money on the defences of Canada to permit one of the finest regiments to leave the country. Col Domville and his men, therefore, will have to stay at home.

William Weeks of Cleverton, Chippenham, England, one of the British tenant farmers, who visited Canada in '93 continues to interest himself actively in the settlement of the Northwest. Mr. Weeks has been instrumental in sending a number of desirable immigrants to Canada during the past two years, and has recently despatched a party of 40 men and boys who are due at Winnipeg on the 7th of April, for all but one of whom places have been secured in advance on farms in Manitoba and in Eastern Assiniboia.

The bill of which Mr. Costigan gives notice to-night to amend the Fisheries Act is in line with the present regulations covering salmon fishing, but provides that, under the authority of the Governor-in-Council, regulations may be issued providing for limited fishing for salmon with set nets in non-tidal waters for a period of two months, July and August, by bona fide farmers or settlers, in waters contiguous to their own lands. Last year, it will be remembered, Mr. Costigan introduced a bill permitting net fishing in non-tidal waters, but withdrew it under the strong pressure from the owners of fishing leases, mostly on New Brunswick rivers. The present bill will safeguard these rights.

Arrangements are being made for putting the fisheries protection fleet into commission. The cruiser Constance is already out of winter quarters and doing revenue duty in the Gulf. The Curlew was commissioned to-day for work in the Bay of Fundy, while the fast sailing cruiser King Fisher was also ordered out for duty between Cape Sable and Lunenburg.

The statement made in this correspondence the other day respecting the lowest tenderer for the Trent Canal work has been verified at the department. Ex-Ald. Corry of this city has been offered the contract. It is stated that Mr. Corry's price is greatly below the department estimate and competent contractors now in town say that he can never do the work at his figures except at a loss. A fair price for the work is $350,000. Mr. Corry's tender is slightly over $200,000, the next tender being that of Hogan & McDonald of Montreal, who are $67,000 above Mr. Corry.

In the course of the proceedings at a lecture by the Rev. Dr. Carman at the Dominion Church last evening, at which Dr. Weldon, M.P., presided, the Rev. Dr. Potts dissented from certain observations made by one of the speakers who had depreciated the public men of the country. He had no sympathy with such views. He regarded the work done in the House of Commons as only secondary to that done by the church. As for Dr. Weldon, he did not know that he agreed with the position taken by him in the House. Dr. Weldon, like every other member, was only answerable to his conscience on the school and all other questions.

THE DAY IN THE HOUSE.

Ottawa, April 1.—(Special.)—The usual variety of topics was furnished by the order paper of to-day, one of three remaining private members' days of the session.

Mr. Haggart informed Mr. Charlton that no account was kept of the private cars of the American railway officials hauled.

Sir Charles Tupper informed Mr. Ingram that owing to the pressure of business it was doubtful if it would be possible during this session to give the legislative measures recommended by the Sweating Commissioner due consideration.

Mr. Ives told Mr. Rider it was not the intention of the Government at present to impose an export duty on pulp wood.

Mr. Fraser was informed that no changes were contemplated in the lobster regulations.

In reply to a question by Mr. Charlton respecting the proposed half-breed colony in the Northwest, Mr. Daly said that the order in council, which had been printed plainly, set forth that no actual grant of lands had been made to Father Lacombe; but a certain tract, not exceeding four townships, had been leased. The location was between Edmonton and Battleford. The leased sections would not be under the full "control of the bishops and missionaries of the Roman Catholic Church," but were subject to the control of the Governor-General in Council.

The House went into committee on Mr. McCarthy's bill to amend the Elections Act. As he explains it, the measure is designed to prevent writs for bye-elections being held over through delay of Government to appoint returning officers.

There was a long discussion on the measure, which was opposed by the Government, since it was not advisable in the interest of public convenience to fix an arbitrary date for the holding of elections.

The hour devoted to private bills had already been exhausted in discussion upon the Manitoba and Nelson Valley Railway Bill and when Mr. McCarthy's bill had been talked upon for a couple of hours the committee rose and reported progress and the House adjourned at 11.30.

THURSDAY, APRIL 2, 1896.

LIBERTY in the United States bids fair to become a mere matter of words without meaning. An effort is being made to prohibit spitting. If a "free born Yankee" can't "chaw," life loses its sweetness. A country that is prepared to "chaw up creation" should keep in practice.

Is the "nest of traitors" at work again? Rumor has it, says the Ottawa Free Press, that there is another strike within the sacred precincts of this Cabinet, and that one of the first to go will be Mr. Ouimet. The path of the Tory Administration is a thorny one just at present.

THE finest tomb in Great Britain is undoubtedly that of the Duke of Hamilton, in the grounds of the Duke's seat. It cost over $1,000,000. Still, at the next great Easter, when the ducal dust is called to come forth, this costly tomb will be riven as lightly as the grave of a pauper, dug in shifting sand.

RUDYARD KIPLING has refused to accept the New York World's offer of $1,000 for an article of one thousand words on "Why America could not conquer England," giving as his reason that the subject "would involve discussing the armed strength of the Empire, a question on which no British subject has any information for sale." "These be brave words" Rudyard, and they are the key-note of universal British sentiment.

THE New York Commercial Advertiser says:—"As a part of the United States, Canada would be as prosperous and populous as she is now needy and undeveloped.' Canada may be needy, but her greatest need is good, clean, honest government; and everybody knows how good the chance would be for this by union with the United States. Uncle Sam may flatter, bully or cajole Canada, but we are here to stay as Canada. Our growth may be slow, but it is the sure and steady growth of the sturdy oak, not the spongy lushness of the mushroom. The growth of the British Empire was slow, but she has struck her roots deep at some point in the soil of every line of latitude and longitude on the face of the earth, and Canada means to remain a part of this Empire.

INDIA AND BRITAIN.

The Benefits of British Rule.

Reference was made recently to the beneficent influence of British rule in Egypt, giving freedom justice and prosperity, where before existed slavery, oppression, brutality and starvation. The blessing of British rule in India has been still more strikingly evident, although extended over a longer period of time. There, too, justice, freedom and prosperity have replaced insecurity, tyranny and bigotry, and despite the bloody interruption to British rule known as the Sepoy mutiny, caused by ignorance of or indifference to the religious prejudices of the people, the condition of India is a marvellous contrast to that of any adjacent Asiatic nation.

The development of Indian trade is not the chief good resulting from British rule, but it is a development easily measured, and therefore that can be readily pointed to as an illustration of the general progress of India in paths of peace. As the beginning of the last century, before the British became the ruling power the country did not produce $5,000,000 a year of staples for exportation. During the first three-quarters of a century of British rule, exports slowly rose to about $50,000,000 in 1834. After that date the old inland duties and other restrictions on Indian trade were abolished, and trade increased enormously. In 1893 94 India sold to other countries $350,000,000 worth of strictly Indian produce, which the Indian husbandmen had raised, and for which he was paid, and in that year the total trade of India, including exports and imports, exceeded $650,000,000. —Ottawa Journal.

PARALYSIS CURABLE.

Stricken Ones to be Seen Everywhere—This Form of Living Death Cured by Dodd's Kidney Pills.

The most startling example of human helplessness is the paralytic.

The victim excites your commiseration, but records your pity.

He of the palsied hand stiffly pressing the benumbed side, is to be seen everywhere we go.

The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it.

Not generally recognised as a kidney disease, it succumbs to kidney treatment.

Did you ever know of a cure? Just think a moment!

If you do it must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

CO-OPERATIVE AGRICULTURE.

COMPARATIVE TESTS OF OVER ONE THOUSAND VARIETIES OF FARM CROPS.

Experiments in Agriculture for 1896—The Guelph Agricultural College.

A prominent feature in the work of the Experimental Department at the Ontario Agricultural College, Guelph, is the testing of different varieties of farm crops. Within the past ten years upwards of 1,000 kinds have been grown on plots similar in size and shape, and situated side by side. Fully 600 of this number have been grown from four to seven years in succession. Not only have all the available varieties in Ontario been tested but similar tests have been made with varieties from twenty-one foreign countries. A few imported varieties in nearly all classes of farm crops have given better results than the best Ontario kinds in the average seven years' experiments.

After the varieties have been very carefully tested at the College for about five years, the best are selected for testing in a co-operative way throughout Ontario. These co-operative experiments are carried on chiefly through the medium of the ex-students' experimental union; but any farmer in Ontario may join in the work, provided he applies for the seed early, and agrees to make a careful test and to report the results according to specified instructions. Within the past five years we have distributed to experimenters upwards of 32,000 packages of choice seeds, with very gratifying results.

LEADING VARIETIES.

For a detailed account of the various tests conducted in 1895, the reader is referred to the report of the Experimental Union, which is published as an appendix to the Agricultural College report for the same year. This report is now being distributed by the Department of Agriculture, Toronto, to those who reported the results of their co-operative experiments in 1895, and to the members of the Farmers' Institutes in Ontario.

Our Agricultural College has imported into Ontario some foreign varieties of farm crops, which have made high records both at the College and throughout the province, and which are becoming quite popular for general cultivation. Those which will mention in this brief article are as follows:—Siberian Oats, Russia; Joanette Oats, France; Poland White Oats, France; Mandscheuri Barley, Russia; Hertson Bearded Spring Wheat, France; Mammoth Cuban Corn, United States; Wisconsin Earliest White Dent Corn, United States; Salzer's North Dakota Corn, United States; Jersey Navet Turnip, United States; Salzer's Dakota Millet, United States, etc.

Among the leading varieties of farm crops, the seed of which we obtained in Ontario, the following have made high records:—Dawson's Golden Chaff Winter Wheat, Bavarian Oats, Red Fern Spring Wheat, Prussian Blue Peas, Canadian Beauty Peas, Egyptian Mummy Peas, Hartley's Bronze Top Swede Turnip, Improved Short White Carrot, Improved Mammoth Saw Log Mangel, Empire State Potato, etc.

There are other varieties, both foreign and Canadian, which have given excellent results, some of which have not been used in co-operative experiments.

EXPERIMENTS IN 1896.

Any person wishing to join in the work, should select one of the experiments for 1896, and inform the Director of his choice. As applications for several thousand packages have already been received, and as the supply is limited, those who apply first will be the surest of obtaining the desired outfit. It might be well for each applicant to make a second choice for fear the first could not be granted. A sheet containing instructions for conducting the experiment selected, and the blank form on which to report the result of the work, will be sent to each experimenter, at the time the fertilizers or the seeds are forwarded. Material for No. 1 experiment will be sent by express and for each of the others by mail. Particular varieties need not be mentioned, as all the kinds to be distributed are those which have done exceptionally well on the trial plots of the College. The area of land required for the different experiments varies from four to ten rods.

LIST OF EXPERIMENTS FOR 1896.

No. of experiments:

1. Testing nitrate of soda, superphosphate, muriate of potash, mixture, and no manure with oats.
2. Comparing the advantage of nitrate of soda over no fertiliser with Rape.
3. Ascertaining the relative value of four varieties of Millett.
4. Growing three fodder crops.
5. Growing Lucerne as a crop for green Fodder
6. Growing Crimson Clover as a crop for Hay.
7. Testing six leading varieties of Fodder Corn.
8. Testing five leading varieties of Turnips.
9. Testing five leading varieties of Mangels.
10. Testing five leading varieties of Carrots.
11. Testing five leading varieties of Spring Wheat.
12. Testing five leading varieties of Barley.
13. Testing five leading varieties of Oats.
14. Testing four leading varieties of Peas.

All material will be furnished entirely free of charge to each applicant, and the produce of the plots will be the property of the person who conducts the experiment. In return, we ask that each experimenter be very careful and accurate in his work and that he forward to the Director a complete report of the results obtained from the test, as soon as possible after the plots are harvested.

Its Cause and Cure.

Cold weather, shivering, no heat to sustain, emaciated, because ill-nourished. This is either because the starchy foods are improperly acted upon by the digestive juices or the oily constituents of the food are not assimilated. Cod Liver Oil combined with Maltine and Hypophosphites supplies this deficiency, for the oil, rendered palatable, and easy of digestion, is at once assimilated and stored up in the form of andipose tissue. Besides this the maltine renders soluble the starchy foods—whose special function is to supply heat or fatty tissue—thus affording material necessary to supply the waste of the body. Maltine with Cod Liver Oil and Hypophosphites is at once a food, body builder and medicine, incomparably superior to any preparation for the consumptive or debilitated. Verify this by trial.

ONE HONEST MAN.

DEAR EDITOR:—Please inform your readers that if written to confidentially, I will mail in a sealed letter, the plan pursued by which I was permanently restored to health and manly vigor, after years of suffering from Nervous Weakness, lost ses and weak, shrunken parts.

I have no scheme to extort money from anyone whomsoever. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank Heaven, I am now well, vigorous and strong, and anxious to make this certain means of cure known to all.

Having nothing to sell or send C.O.D. I want no money. Address JAS. A. HARRIS.

CAHILL & HOOLIHAN

WHY HAS IT FAILED?

Now No Doubt That There Was No Compromise

AT THAT WINNIPEG CONFERENCE

It is the Belief of Some Manitobans That the Hierarchy Stood in the Way of Settling the Troublesome School Question—The Commissioners Returning to the Capital.

Winnipeg, April 1.—(Special)—The unyielding and unreasonable position taken by the hierarchy is declared by friends of the Manitoba Government to be the cause of the failure of the Federal commissioners and the Manitoba Ministers to reach a settlement of the troublesome school question.

The disposition and methods of the commissioners are said to have been very conciliatory and, had they been given a free hand, there is no doubt they would have been successful in the mission, but they evidently undertook an impossible task when they essayed to effect a compromise acceptable to the hierarchy.

Perhaps, however, when all is known, it may be seen that the high and haughty position assumed by the Provincial Government in the past, if not in the negotiations, is the primary cause of the unsatisfactory state of affairs to-day. There are not a few, too, who attribute the failure of the negotiations to the persistency with which the Remedial Bill has been pushed along in the Commons, while the negotiations for a compromise were being carried on at Winnipeg.

Be this as it may, there are none to dispute the earnest desire and untiring efforts of Sir Donald Smith to persuade all concerned to give and take a little and none will regret the failure more than he. Whatever the consequences may be, those who suffer must accept the full responsibility.

Attorney-General Sifton gave the following statement to the press to-night: "The conference has closed and no settlement has been arrived at. The full proceedings of the conference will not be published until after the arrival of the Dominion commissioners at Ottawa. This is at their request in order that they may have an opportunity of reporting to their Government before the proceedings are published. The portions of the proceedings containing a summary of Manitoba's offer will be published after the final meeting to-morrow (Thursday)."

The commissioners depart for Ottawa to-morrow.

IS THERE TO BE ANOTHER CAUCUS?

A Proposition on Foot to Endeavor to Unite the Conservatives.

Ottawa, April 1.—(Special)—Private despatches from Winnipeg to-night indicate that the Federal commissioners will leave for Ottawa to-morrow. It is said while no settlement was reached yet they bring back conciliatory proposals from the Manitoba Government. The feeling among the Conservative members to-night is if this statement is correct a meeting of the party should be held to discuss the situation and endeavor to decide on a course for united action. Meanwhile the French Liberals are in despair. They see almost total annihilation for all of them at the general elections and have notified Mr. Laurier if the obstruction to the Remedial Bill is continued they cannot support him.

THE ABYSSINIAN CAMPAIGN.

Menelek Has Decided to Rest His Troops Till October Next.

Rome, April 1.—The report received here to-day that King Menelek and all but one of his chiefs had retreated from Adowa, is confirmed by later advices, which add that Menelek will spend the Abyssinian Easter at Magdala, and will thence proceed to Shoa, where he will pass the rainy season. All of his troops will rest until October. The rains have already begun upon the high plateaus, and it is said the communication with the Tigre province will soon be interrupted. It is believed that all of the Italian troops will withdraw to Massowah. Two thousand Italians, who were captured by Menelek's forces have been taken to Shoa, where Major Salsa, the Italian officer who was sent to treat with the Abyssinian King, will continue the negotiations for peace and the ransom of the prisoners. Great feastings have been organized in Shoa in view of the return of Menelek, who is expected to arrive there by Whitsuntide.

THE TROUBLE IN MATABELELAND.

Burgher Forces of the Transvaal Will Protect Women and Children.

Pretoria, April 1.—The report current here that the Government of the Transvaal will offer to Sir Hercules Robinson, Governor of the Cape Colony, the assistance of the Burgher forces against the Matabeles, has been officially confirmed. The assistance offered will extend to the protection of the women in children in Matabeleland.

Cape Town, April 1.—Cecil Rhodes, ex-Premier of the Cape Colony, who is on his way from Beira to Buluwayo, has arrived at Fort Salisbury in safety. Advices received here state that the Mafeking coach has reached Buluwayo with a quantity of arms and ammunition.

London, April 1.—It is learned that there is no truth in the news agency despatch published by The Globe that the Government would send 5000 troops to the Cape Colony as soon as possible, and that the Chartered South Africa Company had appealed to the Government to at once despatch 200 troops from the Cape Colony to Buluwayo.

A despatch from Zanzibar says it is reported there that 200 Soudanese, who were recently conveyed from Port Said to Beira, have been despatched to Buluwayo.

IN THE IMPERIAL PARLIAMENT.

The New Educational Bill Provides for Religious Instruction in Schools—The House Adjourns Till April 9.

London, March 31.—In the House of Commons to-day, George N. Curzon, Parliamentary Secretary to the Foreign Office, said that consular reports which had been received indicated that there would probably be a renewal of the recent disorders in parts of Asia Minor. Mr. Curzon stated also that representations had been made to the Porte in regard to the matter.

Joseph Chamberlain, Secretary of State for the Colonies, read despatches from Cape Town, under the date of March 30, saying the rebellious Matabeles were well armed and were massing in the Matoppo Hills. Mr. Chamberlain read also a despatch bearing to-day's date, which said there were plenty of persons in Buluwayo for the defence of that place, but that the supply of arms was deficient.

Sir John E. Gorst, vice-president of the Committee of Council, introduced an educational bill, which applies to England and Wales. The bill proposes to establish an educational department in every county and borough to be controlled by the County Council. These departments to administer the Parliamentary grants to voluntary schools under this act will be maintained by grants extended by the educational authorities, who are empowered to make grants to necessitous schools, and also expend money on scholarships and for the improvement of the sanitary condition of school buildings. Voluntary schools are exempted from the payment of the rate; the age up to which children are required to attend school is fixed at 12 years. The bill contains a conscience clause, which provides that if a reasonable number of parents require that separate religious instruction be given to their children, the managers of the school upon which the demand is made shall allow such instruction.

Further assistance is also given to schools under the direction of the school Board of Managers.

Mr. A. H. D. Acland, Liberal, pointed out that the bill would involve an enormous addition to the educational grant, probably £500,000. The bill, he said, embodied a plan of decentralization, largely abrogating the influence and authority of the state. It was, he declared, the final extension of the principle that local grants should supplement state aid. The bill was read for the first time.

The House adjourned for the Easter recess until April 9.

THE SITUATION IN RHODESIA.

There is No Question That Matters are Serious in Buluwayo.

Cape Town, March 31.—Contradictory reports are received here regarding the situation in Rhodesia, but there is no question that matters are serious in Buluwayo. The Rhodesia Horse, which force was recently disbanded, has been replaced by the Buluwayo field force, 400 strong. This force will storm the stronghold of the Matabeles in the Matoppo Hills.

King Khama, who rendered efficient aid to the British South Africa Company in its campaign against Lobengula, has offered an armed escort for the coaches and to keep open communication between Buluwayo and the south.

President Kruger has not advised Sir James De Witt, the British diplomatic agent at Pretoria, that he has no objection to British subjects in the Transvaal being recruited for service against the Matabeles.

Capt. Nicholson reports from Buluway that his force is sufficiently strong to secure that town, but is not strong enough to send flying columns to many districts concurrently.

London, March 31.—The Daily News will to-morrow say that anxiety is felt by the friends of Cecil Rhodes, who is now on his way from Beira to Buluwayo. It is feared that the Matabeles may waylay him.

Pretoria, March 31.—It is reported here that the Government of the Transvaal will offer to Sir Hercules Robinson the assistance of the Burgher forces against the Matabeles.

London, March 31.—The Telegraph will to-morrow say it learns that the patrols all around Buluwayo have been driven in, in some cases with loss. The natives, it adds, are well armed and are good shots.

BEYOND RECOVERY.

The Boy LaFlamme—His Cure was a Surprise—A few Boxes of Dodd's Kidney Pills.

PAPPINEAUVILLE, March 30 (Special)—The father of the boy LaFlamme, one of the leading merchants here and willing to talk of his son's cure, he says—"My little boy Arthur, after scarlet fever about a year ago never recovered and his ailment ran into a kidney trouble. His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

MAY BE IN HAMMOND'S FAVOR.

Two Bottles Found Near Where Dying Katie Tough Was Picked Up.

Gravenhurst, April 1.—Public interest in the Tough-Hammond poisoning case was again revived to a fever heat by the finding of an empty bottle labeled hydrocyanic acid. Chief Sloan had some men on Monday afternoon making measurements in connection with the case and came upon the empty bottle. This morning Mr. John Bowes was also looking for evidence in the case and found another bottle sealed and labeled with most of the contents remaining in the bottle. Part had leaked away through a crack supposed to have been caused by frost. The two bottles are in no way alike and it will now be for the druggist to say which one is the one he sold to young Hammond on the morning of March 6.

THE MURDER OF CAPT. PHILLIPS

Capt. George E Hyde Found Guilty at Buffalo—Jury Out 21 Hours.

Buffalo, April 1.—Capt. Geo. E. Hyde, one of those concerned in the Tonawanda, N.Y., riots of last season, amongst the boatmen handling lumber at that port, and which resulted in the killing of Captain Phillips and his son, boat owners, who had refused to join the Boat Owners' Association, was this evening found guilty of murder in the second degree, the jury having been out for 21 hours.

The trials of others implicated in the same murders will be proceeded with at this term of the court.

Foaming Ivorine Whitens the Teeth

Dentists are delighted at the admirable qualities of Ivorine, the new preparation for the teeth. Commendations from the dental profession carry the assurance that fragrant Ivorine is free from the admixture of enamel destroying substances, often the most marked characteristic of tooth powders and that it is the most efficient cleanser yet discovered. Ivorine cleanses from discolouration and whitens, hardens the gums, and imparts to the breath a delightful fragrance.

RECHERCHE MILLINERY.

The Brightest and Best is the Surest Way to Attract Patronage.

Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

Good Work Appreciated.

The gentlemen of Peterborough have the reputation of being the dressiest of any people in the country, and judging from the orders Pete Simons has on his order books it looks as if this well known establishment was the head quarters for fashionable tailoring. His orders not only include Peterborough, but large orders from Parry Sound, Sudbury, and Hamilton, Montana. Step in and see Pete's spring stock of fashionable dress goods. 408 George street. 1d

St. Peter's Cathedral.

To-morrow (Good Friday) morning, at St. Peter's Cathedral, the ceremony of the Veneration of the Cross, will begin at 9 o'clock. Immediately after, the procession of the Blessed Sacrament will take place, followed by the Mass of the Pre-sanctified. At 3 o'clock the Stations of the Cross, and at 7 o'clock Stations of the Cross and a sermon on the Passion, by Rev. Father Fitzpatrick. During his Lordship's recent visit to Rome he obtained a relic of supreme interest—a portion of the true cross. This will be offered for the veneration of the congregation during the evening service.

The Primest of Master Beef.

According to our custom, the Easter display of meats at Howden's Meat Market, will be such as to satisfy the most fastidious epicure. We expect to see our store crowded during Saturday, especially by the ladies who know how and where to select good meats. We invite all to make a critical comparison of qualities. We have left nothing undone for our own credit and the wants of our patrons. Such a bountiful supply of choice beef, spring lamb, veal, lamb, pork, sugar cured ham, pickled pork and fancy meats, will not be excelled. This long established and well known meat market can always be relied upon, and can't be beaten for an Easter display or for moderate prices either. J. J. HOWDEN, 461 George street. Telephone 39.

A Pair of New Peterborough Physicians.

At the final examinations in medicine at Trinity College for the degree of M.D., two popular young Peterboroughianans were specially successful—Mr. Perry G. Goldsmith and Mr. T. H. Bell ("Herb"). Dr. Goldsmith, jr., won a certificate of honour, 75 per cent. and over, and Dr. Bell, jr., captured second class honours, and would, doubtless, have taken a still better stand but for an unfortunate interruption of his studies last fall through an affection of his eyes. THE EXAMINER heartily congratulates both young gentlemen on their success—a success which shows that zeal in manly sports is not incompatible with mental advancement. Both these young men were ardent participants in athletic and other sports, whose pursuit, it will be seen, has not prevented them from coming through their medical studies with flying colours. A sound mind in a sound body is sound philosophy.

THE MARKET TOLLS.

Mr. H. Nesbitt Will Control the Market This Year.

As Mr. Thos. Choate, of Warsaw, felt unable to assume the responsibility of the market this year the tolls were again put up to auction, through Auctioneer John Haggart, this afternoon. The bidding was lively and was participated in by Messrs. H. Nesbitt, Alex. Fitzgerald, Robt. Smith and R. H. Green.

Mr. Fitzgerald made the first offer and the figures advanced until the privileges were knocked down to Mr. Harry Nesbitt at $1,000.

MONSIGNOR LAURENT.

V. Rev. Father Laurent, V. G., Appointed Domestic Prelate to the Pope.

This morning at St. Peter's Cathedral, His Lordship Bishop O'Connor made the important announcement that V. Rev. Father Laurent, Lindsay, had been appointed Domestic Prelate to His Holiness the Pope, the appointment dating from January 24th.

The day being Holy or Maundy Thursday, Pontifical High Mass was celebrated, of course, by the Bishop, with Rt. Rev. Monsignor Laurent, V.G., assistant priest, Rev. Father Murray, deacon, Rev. Father McColl, sub-deacon, and Ven. Archdeacon Casey, Master of Ceremonies. During the mass the holy oils to be used in the administration of the sacraments and other solemn rites of the church during the year, were blessed.

There was a large congregation present, and the following diocesan clergy: Rt. Rev. Monsignor Laurent, V. G., Lindsay; Rev. Father Murray, Cobourg; Rev. Father Conway, Norwood; Rev. Father Connolly, Hastings; Rev. Father Sweeney, Victoria Road; Rev. Father McClusky, Campbellford; Rev. Father Nolan, Fenelon Falls; Rev. Father McColl, Eganismore; Rev. Father Collins, Kingston; Rev. Father Gingras, Sturgeon Falls, and the cathedral clergy.

Rt. Rev. Monsignor Laurent, V. G., the newly appointed domestic prelate, is a native of Nantes, France, where he was born in 1835. He came to Canada in 1857 and the following year was ordained to the priesthood by the late Bishop Charbonnel. He was incumbent of Amherstburg for 12 years, and when the late Bishop Jamot was appointed Vicars Apostolic of the northern portion of Ontario, Rev. Father Laurent was made his Vicar General—in 1876. On the creation of the diocese of Peterborough, V. Rev. Father Laurent was appointed Vicar General of the new diocese and made parish priest of Lindsay, and his appointment to this position was confirmed by succeeding bishops. Monsignor Laurent is considered by his fellow priests as entirely worthy of the honour wat has been conferred upon him, and his administrative capacity has been recognized in his appointment as administrator of the diocese on three occasions—during the temporary absence of the Bishop and during the inter regnum between their appointments.

LENTEN SERVICES.

Rev. Prof. Huntingford speaks in St. Luke's — Rev. Carl Smith in St. John's.

The service which was conducted by Rev. Prof. Huntingford, of Trinity College, in St. Luke's church last evening, was something of a novelty in Peterborough, although in England the value of the stereopticon in religious services is admitted, and Professor Huntingford has frequently conducted in Toronto and elsewhere the service which he gave last night. At his special request the service was conducted in the church, not the school-room, as it was his wish that no one should labour under the impression, that it was an entertainment or a lecture. The lantern used was that of Mr. R. M. Roy, who manipulated the slide with his well-known skill. Prof. Huntingford said that the views had never before been so effectively presented.

The church was completely filled, and at 8 o'clock the preacher ascended the pulpit and in a few introductory words explained the object of the use of the views. He desired to aid us to realize the sufferings of our Blessed Lord, and so to arouse them to a deeper repentance and a more sincere abhorrence of sin.

After a short opening prayer the hymn "Sweet the moments rich in blessing" was thrown upon the canvas, and as with all the hymns was very heartily sung by the entire congregation. The series of views commenced with the triumphal entry to Jerusalem, and closed with the burial of our Lord. Most of the pictures were from the old masters and included "The washing of the Disciple's feet," The last supper," "The trial before Pilate" "The release of Barabbas," "The scourging," "The crucifiction," "Ecce homo" and many others.

Each view was the subject of not only explanatory, but of hortatory remarks, and between every six or seven views a hymn was sung. Although lasting nearly two hours, the closest attention was given to the speaker, and throughout, the service was quiet and devotional.

The service in St. John's church was largely attended and a most appropriate sermon delivered by Rev. Carl Smith.

THE BIG MEET ROLLS THIS WAY.

A Big Peterborough Delegation Goes to Toronto.

SCORES OF CITIZENS IN THE QUEEN CITY.

Peterborough and Quebec Have Been Running Neck and Neck, but the Local Boys Take the Lead at Last.

It is generally conceded that although the issue between Quebec and Peterborough as to where the big C. W. A. meet will be held, has been in doubt for some, yet everything now looks so favourable for Peterborough that there is hardly a doubt that the wheelmen will be with us on the first of July. A big delegation from the bicycle club, the Board of Trade and the Town Council, as well as a large number of bicycle enthusiasts, went up to the Queen City this afternoon accompanied by the band, prepared to storm every redoubt at the annual meeting meeting and capture the prize at any cost.

THE MAIL'S LAST WORDS.

Concerning the meet to-day's Mail and Empire says:—

To-day and to-night the actual fight for the C.W.A. meet takes place. To-morrow's work will be to count the votes. The fight will be keenest near midnight, but it will be practically over before morning. The debate in the convention may settle the minds of a few wavering delegates, but the real battle will have been lost and won hours before the session is opened.

The Quebec delegation will arrive in the city early this afternoon. The advance guard from Peterborough will arrive this forenoon) and a larger deputation follows to-night. It is said that Peterborough and Quebec committees will meet every incoming train at the Union station this afternoon, to-night and to-morrow forenoon. Committees from the rival meet claimants will make the rounds of the hotels to-night, and every delegate then in the city will have the availabilities of Peterborough and the beauties of Quebec pounded into him until, for the sake of peace, if for nothing else, he will have pledged himself to one or the other. The lobbying will be systematically executed, and, as was the case last year, it will determine the location of the next C. W. A. meet.

THE GLOBE'S SUMMARY.

The Globe sums up the situation as follows:

The meet matter is occupying the attention of all Canadian wheelmen to the exclusion of everything else just now. The other questions which loom up to-morrow are relegated to the back-ground for the time being and the heavy thinkers of the association are contracting parsels and other brain diseases in trying to satisfactorily solve the great problem. It is doubtful whether there was ever a contest for the meet that was so prolific in knotty points as the one waging at present. The elements that enter into the matter are so complex and varied that the average wheelman whose thinking apparatus as a general thing gets so rusty from disuse that it positively refuses to perform its functions properly when required, finds it a difficult task to absorb a proper understanding of the question. If left to himself he would work out this way: July 1st comes on Wednesday, Quebec is 24 hours' journey away, while Peterborough can be reached in a couple of hours. He does not trouble himself to look any farther in the matter, but comes out plumply for Peterborough. Vivid recollections of the good time he had in Waterloo last year are present in his mind, and he looks for a repetition of it, if the Central Ontario town corrals the plum. This is one way of looking at it. What do the great bulk of the wheelmen in Ontario care whether cycling becomes as widespread in other portions of the country as it is in this Province? They are not built on the philanthropic plan. They realize that if Quebec is triumphant that they are deprived of a jubiliation, and that is the great consideration in their collective minds. But that does not alter the fact that Quebec's stock is away above par at the present juncture, and that they, in the opinion of all well-posted cyclists, will be evoled as the winners to-morrow. There has been a notable flopping over within the last few days on the part of clubs and individuals who were thought to be dyed-deep-in-the-wool supporters of Peterborough, and the aspect of affairs has been altered materially. Towns in Western Ontario, whose interests it was considered would be best conserved by a Peterborough victory, have come out flat-footed for Quebec, and as the Ancient City's chief exhorter, Van Felson, with a carload of understudies, is expected to arrive in the city this morning, prepared to emulate the early bird in securing the worms, or, rather, votes, that may be lying around loose, it can be seen that they are not letting any opportunities to better their chances slip by. The extreme east and west are solid for Quebec, while the Western Ontario and Toronto vote is divided. Central Ontario, of course, is Peterborough's stronghold, and the delegation from that part of the country will show no hesitancy when declarations are called for. The question of the eligibility of the 510 members added to the Quebec Club to vote will in all probability evoke a great deal of acrimonious discussion, as the result of the contest practically hinges on this point. Deprived of 500 votes, Quebec would probably be be consigned to a secondary position in the fight, and, recognizing that fact, the Peterborough contingent intend pressing the protest to the bitter end. There is no doubt about it that architects of the constitution of the C. W. A. were very poor workmen, as defects are being developed every day. It was because of a flaw in the constitution that Peterborough lost last year, and it is on account of faulty construction that an opening for the Peterborough protest was afforded. Competent judges claim that George Hopkins has got a good case, while others fully as qualified assert that he has not a leg to stand on in the matter, but that remains to be seen to-morrow.

PETERBOROUGH, APRIL 2nd, 1896.

The Fashions in Baby Carriages.

Remarkable innovations in Baby Carriages, have brought about striking beauty in their design and decorations. The adaption of reed bodies has become very popular—no doubt on account of the lightness and durability of the material, but chiefly on account of the handsome designs which the reed is susceptible of. Another of the most conspicious features of the New Baby Carriages of the present day, is the useful canopy or Parasol Tops in rich silk patterns, as a protection from the sun, which have taken place of the old-fashioned roofs.

Our stock of Baby Carriages is conspicious for its newness, and combine all the latest improvements and designs. They have beautifully upholstered seats, and bodies are built for strength and lightness, and run like a bicycle. Nothing prettier or smarter for an Easter parade.

THURSDAY, APRIL 2, 1896.

And they crucified Him and parted His garments, casting lots. . . And, sitting down, they watched Him there and set up over His head His accusation: This is Jesus the King of the Jews. There were two thieves crucified with Him, one on the right and one on the left. . . . Jesus, when he had cried with a loud voice, yielded up the Ghost, and behold the veil of the temple was rent in twain, from the top to the bottom; and the earth did quake and the rocks rent, and the graves were opened, and many bodies of the saints which slept, arose and came out of their graves after His resurrection, and went into the holy city and appeared unto many.

Arrangements have been made for dry standing room.

Easter Meats at Morris & Howden's.

For years Morris & Howden have been favourably spoken of as dealers in excellent qualities of meats, more especially at this season. This year their display of Easter meats will deserve special attention, as they feel confident of showing a superior selection of the most delicious beef the county can produce. Five thoroughbred Durham heifers have been slaughtered for the Easter season, three of which were fattened by Mr. W. Redmond, of Millbrook, whose name as a first-class raiser of well-bred cattle has a provincial reputation. The herd of Mr. Ferguson, of Smith, has also been drawn on for two fine steers. Besides these some can't-be-beat spring lambs, calves, pork, sugar-cured hams, &c., are provided to tickle the palates of the numerous customer of this firm. 2d

Home Seekers Excursion

THE CURLING COLTS HOLD A BANQUET.

IT PROVED A ROYAL SUCCESS LAST NIGHT.

An Excellent Menu Provided by Mine Host Graham of the Oriental — The Toast List—Songs, Stories, Readings and Short Speeches.

Last evening the Peterborough Curling Colts held the first of what is hoped will be a long series of annual suppers. It was, without doubt, the most successful affair of the kind held in Peterborough this season and the feast of reason and flow of soul were of a nature to be long remembered.

The banquet took place in the large dining room of the Oriental Hotel, and the manner in which the table was garnished with cut flowers, potted plants, bright silver and glittering cut glass reflected great credit on the host. The menu was of unusual excellence and was composed of six courses, as follows:—

SOUP
Consommo Clear.

FISH.
Boiled Maskinonge and Egg Sauce.

BOILED.
Leg of Mutton and Caper Sauce.

ENTREES.
Chicken Cutlets and Mushrooms.
Oyster Patties. Cheese Cakes.

ROASTS
Sirloin of Beef and Yorkshire Pudding.
Turkey and Cranberries. Spring Lamb and Mint Sauce.

RELISHES.
Lettuce. Pickled Walnuts and Olives. Radishes

VEGETABLES.
Boiled and Mashed Potatoes.
Escolloped Tomatoes. Green Peas.

DESERT.
Plum Pudding and Brandy Sauce.
Mince Pie. Deep Apple Pie and Cream.
Peach Tart.

Vanilla Ice Cream. Brandy Jelly.
Sherry Wine Jelly.
Crackers. Cheese.
Tea. Coffee. Milk
Nuts. Raisins. Oranges. Apples.

The centre of the board was graced by the magnificent Colts' trophy, which has now been won by Peterborough for two consecutive seasons, and if held for the season of 1896-7 will revert to the club for all time. The head of the table and duties of chairman of the evening was most acceptably taken by Mr. H. R. H. Kenner in the absence of Dr. Boucher, the president of the local Colts' club. The vice-chairman's duties were admirably discharged by Mr. C. N. Brown. Amongst those present during the evening were Messrs. Judge Weller, R. S. Davidson, Sam. Ray, G. W. Hatton, W. G. Ferguson, W. L. Allan, Alex. Gibson, W. E. Lech, R. J. Fife, Dr. McGrath, V. C. McGill, Herbert Hall, Dickson Hall, W. J. Drope, W. J. Montgomery, Lionel King, Robert Rose, Dr. Jebb, Geo. J. Horkins, W. J. Thompson, Dickson Davidson, E. Rutherford, S. Ewing and H. King.

After ample justice had been done mine host Graham's excellent repast, the toast list opened, of course, with the proposal of the Health of Her Majesty.

The toast of "The Learned Professions" brought Judge Weller and Mr. J. W. Drope to their feet. Both made excellent post prandial speeches.

The names of Messrs. R. S. Davidson and W. L. Allen were connected with the toast of the "Thistles and Granites," which was honoured with cheers.

The toast of the "Hockey Club" was responded to by Mr. W. J. Montgomery, the captain of the Peterboroughs.

Messrs. D. Davidson and Geo. J. Horkins responded to the toast of "The Colts' Skips" in a few appropriate words, giving great praise to their respective rinks for the way in which they had backed them up in the different matches this year. The Peterborough Colts, Mr. Horkins stated, since their organization last season, had won nine successive victories. Both spoke of the impetus that was given to curling by the establishment of the Colts' Association, whereby the younger members of the clubs were given an opportunity of playing and using their judgment in the handling of rinks.

Dr. McGrath and R. J. Fife made neat speeches when called upon to respond to the toast of "The Lacrosse Club."

"The Greybeards" was a toast which brought those veteran skips, Messrs. Sam Ray and W. G. Ferguson to their feet. Both spoke of the good work of the Colts and the advantage of having a few of them on every rink. Skip Ray mentioned the fact that he played two Colts in the single rink competition at the big bonspiel, and also played two Colts on his regular rink which captured the Kendry Cup this season. Mr. Ferguson stated that last year he had played three Colts on his rink, and won the Kendry Cup, this season he had played only two Colts and lost the trophy.

Judge Weller asked permission to propose a toast and called for the health of the Colts association to be honoured. The chairman stated, that the President of all the clubs in the association had been invited to be present, but the only one able to comply with the invitation was Mr. Fred Smith of Campbellford. Mr. Fred Smith briefly responded to the toast, expressing the hope that Campbellford would win the trophy next year.

The response to the toast of the "Bicycle Club" brought forth witty addresses from Messrs. Geo. W. Hatton and Geo. J. Horkins. Mr. Hatton stated, that the Colt's career was one upon which they should be congratulated. As the representative curlers of the future, he hoped that their career would continue to be a victorious one. Mr. Horkins on speaking on the subject of the Meet, stated that the chances of the Quebec and Peterboroughs' were about even, with the advantage slightly in favour of the latter. It was expected that there would be a big jump in the vote and which way it would go would be determined by a straw's weight.

The toast of "Our guests" was responded to by Messrs. Alex. Gibson and Fred J. Smith, and that of the Press brought Messrs. F. D. McKay and Alf. Terrill to their feet.

The health of the ladies was duly honoured, the names mentioned in connection with the toast being Messrs. C. N. Brown, V. C. McGill, Herbert Hall, Robert Rose, Dickson Hall, W. J Thompson, E. Rutherford, Sam Ewing and G. J. Horkins.

Mr. George Graham responded in a few words to the toast of "the host and hostess" and expressed the hope that all had enjoyed themselves.

During the evening the addresses were plentifully interspersed with songs, readings, recitations and stories, and time and again the room rang with the stirring choruses which were rendered. Among those contributing to this portion of the programme were Dr. Jebb, Herbert King, W. J. Drope, W. J. Montgomery, C. N. Brown, Geo. J. Horkins and H. R. H. Kenner. It is many moons since so pleasant an evening has been passed and so congenial a company assembled.

PETERBOROUGH'S POSTMASTER.

Government Animus Pointed Out—Singled Out for Reduction of Salary—A Government Supporter's Charge in the House of Commons on Wednesday.

Mr. John Burnham, M.P., moved for copies of all departmental orders reducing the salary of the postmaster in Peterborough, and all the correspondence connected therewith yesterday.

In support of the motion, Mr. Burnham said that Lieut.-Col. Rogers, who had filled the office of postmaster of Peterborough for some twenty-seven years, had had his salary reduced from $3,800 to $2,000 a year, and those acquainted with the facts were of opinion that he was unfairly treated. A communication was sent to him giving the reasons for the reduction of his salary, which were that it was part and parcel of the policy of the Government to reduce the salaries of those officials who received very large salaries, amounting from $4,000 to $5 000 a year. Lieut.-Col. Rogers came within that territory, and the reduction was made in August, 1894, but from that time to this no official occupying a similar position had had his salary reduced. He thought it showed some personal hostility toward Col. Rogers that he should be treated in this exceptional way.

Sir Adolahe Caron replied that Col. Rogers, the postmaster of Peterborough, received a very large salary, and over and above that a sum of $1,100 as rental of the boxes. On making a comparison of the salaries paid in the larger centres with those paid in places of the size of Peterborough, it was decided to strike a rate of remuneration which would be more in keeping with the work performed and the revenue derived. The plan was put into operation at Peterborough, and was enforced elsewhere whenever opportunity offered. He was of the opinion that the salary now received by that gentleman, although it had been greatly reduceed, was an adequate remuneration for the work which the postmaster did and the revenue which the office earned. There were complaints made in this case, but they were cleared up, and the reduction of salary was not made upon that ground. As he had already said, it was in accordance with a policy which the department had determined to carry out, and which was being applied to other offices as rapidly as circumstances would permit.

The motion was passed.

THE WHEEL.

A very enthusiastic meeting of the Bicycle Club was held, last evening, for the purpose of making final arrangements for the disposal of the delegation which attends the annual meeting of the C.W.A. in Toronto.

It was decided that the Fire Brigade Band should accompany the delegation on the 4.48 train this afternoon, and that the Peterborough representatives should be headed by the band and march to the auditorium this evening to attend the Grand Wheelman's concert.

Peterborough was invited to contribute to the concert programme, and Mr. Herb King will accompany the delegation to Toronto and give the Queen City boys an opportunity of hearing what Peterborough can produce in the way of entertainers. The individual members of the delegation will be provided with badges suitable for the occasion, and a supply will be taken along for all who are "wid" us. Great confidence is expressed that the delegation will return with joyful news. The boys will be up all night pulling wires—and corks.

Piano Tuning.

Zephyr, Ont., Aug. 12, 1895.

Dear Sirs,—It gives me much pleasure to testify to the fact that Scott's Sarsaparilla has caused a most remarkable change in my condition. I was so much run down I had to give up work, and felt as if life was not worth living. Mr. Dafoe, our local merchant, induced me to try Scott's Sarsaparilla. I did so and took four bottles. I am now feeling as I did years ago. I want to say for the benefit of those suffering from indigestion and broken down health, don't despair until you have given Scott's Sarsaparilla a trial.

Dear Sirs,—In reply to your enquiry concerning the effect of your Scott's Sarsaparilla on heart disease I may frankly say it has been most beneficial to me. For a long time past I have frequently been severely ill and sometimes thought I was near death. Smothering spells and palpitation of the heart laid me up for days at a time. I am now at this date of writing as well as ever I was in my life, and have not had a return of heart trouble since taking the first dose of Scott's Sarsaparilla. Yours sincerely,

BANK OF MONTREAL $100 BILLS

Were Cleverly Counterfeited in New York City by the Brockway Gang.

New York, March 31.—At the time William Brockway and Dr. Bradford, the counterfeiters, were arrested by secret service officers last summer, Sidney Smith, an alleged member of the band, escaped. He was captured later at his work shop in Fourteenth-street, and in the place were seized the plates for printing spurious $100 bills of the Bank of Montreal, and a quantity of fibre paper. Smith was to-day placed on trial in the criminal branch of the United States District Court before Judge Brown.

James Aird, for the last 22 years an employe of the Bank of Montreal, and at present custodian of the original plate of the $100 note of the bank of the issue of 1871, the first witness called by the prosecution, produced the plate and declared that Smith, nor any one else, excepting himself had no right to have in his possession a fac simile or any part of the original plate. The plate from which the prisoner is said to have struck the bogus notes was not in the custody of witness since March 1893. Thomas Gileam, a Canadian Government official at Ottawa, described the manner of making the plates. After examining the copper die alleged to have been in Smith's shop, and comparing it with the original used in the genuine note, witness said it was finely executed, and an excellent counterfeit. The latter was not made by a geometrical lathe, but the lines were cut by hand.

Two Counterfeiters Sent to Prison.

Barrie, March 31.—George and Thos. McLaughlin were tried before Judge Ardagh here to-day for issuing and circulating counterfeit 25-cent pieces. Both were found guilty and sentenced to three and one year respectively in Kingston Penitentiary.

Dr. North Found Guilty.

Jackson, Mich., March 31.—Dr. North, one of the most prominent physicians of this city, who has been on trial on the charge of having caused the death of Fannie Fox by performing an unlawful operation, was to-day found guilty on the third clause in the indictment, which charged him with having performed an operation on the girl.

The Time for Building

Up the system is at this season. The cold weather has made unusual drains upon the vital forces. The blood has become impoverished and impure, and all the functions of the body suffer in consequence. Hood's Sarsaparilla is the great builder, because it is the One True Blood Purifier and nerve tonic.

Hood's Pills become the favourite cathartic with all who use them. All druggists. 25 cents.

WAS OLLIE REICHART POISONED?

The Girl's Body Exhumed at Hamilton by Order of the Attorney-General and an Inquest is in Progress.

Hamilton, March 31.—(Special.)—Complying with the instructions from the Attorney-General's Department, last night, the body of Ollie Reichart was exhumed this morning and conveyed to the morgue at the City Hospital, where an inquest was held at 13 o'clock, under Coroner White. The earth above the coffin was hard with frost, and, as the body was frozen, the features have changed but slightly, and are distinctly recognizable. The following jury viewed the body, and adjourned till April 15: Adam Ballentine, Joseph Lyght, Thomas Hill, L. L. Irvine, Robert Wilson, W. Ballentine, W. Wilson, W. M. Findlay, T. Mead, T. Kilvington, J. T. Kendall, R. Smith and W. Kraft. Adam Ballentine was appointed foreman.

Drs. Olmstead and Rogers immediately proceeded to perform a post-mortem examination. They removed the stomach, and will send it to Toronto, where a chemical analysis will be made of the contents, to discover whether it contains any poison. There will be no lack of evidence concerning the girl's death, which will, no doubt, place A. I. Lafferty in a peculiar position.

A despatch from Sharon says: A. I. Lafferty, who, from evidence obtained, is no other than A. G. Logan, still maintains his extraordinary attitude of denial. He was in sole charge of the drug store yesterday, and showed no outward signs of worriment or agitation about the matter whatever. He was remarkably composed, and one would be led to believe that he was an innocent man, if the evidence against him was not so convincing. Yesterday morning it was reported that Lafferty had left the city, but this report proved to be only a rumor. Lafferty had gone to Sharpsville the night before to acquaint his wife with the facts in the case and claim his innocence. He said he would remain in Sharon, and had no intention of leaving on account of his being coupled with the affair. He said that the only thing he could do was to prove his innocence, which he could effect in time. Lafferty intimated that the matter did not cause him much uneasiness, but that he worried more over the annoyance it would cause his wife.

Sharpsville people show a sentiment to fathom the case to the bottom and punish the guilty party, as a telephone message from Sharpsville last night would signify. It was published in last night's Leader that citizens were subscribing money to defray Mr. Reichart's expenses to Canada, and identify the body if possible. The message stated that $55 had already been raised and that amount would be $100 before morning. The informant stated that a thousand dollars could be raised if necessary. Reichart's intentions were to leave on this morning's early train for Hamilton. The sentiment here is universally that Lafferty is the man.

Mrs. Reichart is heartbroken over the sad and sensational death of the girl who they are led to believe is no other than their daughter. In fact, they are so convinced of there being no mistake that they have gone into mourning. From information received at the Reichart home, Miss Reichart left on the street car for Sharon Dec. 10 last, and said before going that she intended to visit her sister in Sharon. A circumstance that the parents remember was that she bade them good-bye, something that she had never done before when going on such a short journey. At the time nothing singular, other than this, was noticed in her leave taking. She took with her only a small bundle containing a few articles of clothing. She carried a small gold watch with a bunch of violets engraved on the back of the case. She also wore a gold ring set with diamonds and opals. One of the opals had been broken, the result of a resetting. The next day a letter was received at the Reichart home from Miss Ollie. The postmark was Sharon. The contents of the letter were that she had left Sharon the afternoon of the 10th on train 16, due here at 8.16 p.m. She did not give her destination and said that she had gone in quest of work, and would write home as soon as she had secured a position and settled down. She asked her parents not to worry on her account. This was the first and last letter that was ever received from her, and gave the family suspicions that something was wrong.

ELECTRICITY

Its marvellous advances.

An Interview with a prominent electrician and inventor.

Mr. D. C. L. Ferguson, of the Eclipse Electric and Manufacturing Co'y, 211 Church st., Toronto, consented to be interviewed by our representative the other day. Mr. Ferguson said: "To see me now you would not fancy that I had undergone severe hardships and battled with disease, yet such is the case, and were it not for the events I am about to relate I would not now be able to prosecute further scientific researches.

"I have been troubled with my kidneys and liver for the past 10 years. During the last 4 years I have been growing worse rapidly until I was almost unable to work. I have been treated by doctors and taken a large variety of medicine without benefit. I had constant pain across my back, at times almost unbearable, especially at night. My urine was wine color as if mixed with blood, and with much sediment, burning sensation when venting. I felt tired and dragged, and it was with the utmost effort I was able to work at all. Seeing the Doan Kidney Pill Co. advertisement, I thought I would try one box of their pills on the principle that it would do no harm to try again, so I got one from W. S. Robinson, Druggist, 852 Yonge st. I have not quite finished that first box, but am happy to say it has proved the best experiment of my life. I improved from the start and there has been a rapid improvement daily, until I am to-day a well man. Pain all gone. Urine natural in color, no sediment. I am stronger, and able to work as well as ever I did. I cannot be too thankful for the result of my trial of Doan's Kidney Pills. I would be glad to tell anyone who suffers as I have done, how I was before, and how I am after taking Doan's Kidney Pills, if they will call at my place."

GOOD ADVICE
ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

KURSCHINSKI GOES FREE.

The Jury After Five Minutes' Deliberation Acquits Him.

Berlin, March 31.—(Special.)—The Kurschinski murder case was continued to-day. Evidence of the finding of a knife upon the person of the accused when arrested, and also of a statement made by prisoner to Isaac Schiedel, two weeks before the murder, that "if they could not have any berries, Jeanneret should not have any either," was given; also that a negro had been seen in the swamp on the day of the murder. The finding of certain blood-stained garments belonging to the prisoner was testified to by the police and detectives, and the medical witnesses all agreed that the spots upon prisoner's trousers were blood. A number of witnesses were called for the defence, the prisoner's son, Frederick, among the number. The addresses of counsel were able efforts, and His Lordship's review of the case, lasting an hour and ten minutes, was favorable to the prisoner. The jury, after five minutes' deliberation, returned a verdict of "Not guilty," and the prisoner was discharged.

Mr. William Swain, an old and respected resident of Collingwood, is dead, aged 79.

Who does not know women and young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? But there is a cause. It is to be found by the intelligent physician in some derangement of the complicated and delicate feminine organs of generation. The woman who half understands herself, feels that she cannot always be complaining; she cannot always have the doctor in the house. The young girl suffers, bodily and mentally, in silence. The trouble usually comes so gradually it is attributed to some outside cause. There is undue weariness, unexpected pain, unreasonable tears and fits of temper. All these symptoms are simply protests of the silent, long-suffering nerves. The trouble shows in dark circles below the eyes, a downward curve of the mouth, a sallow, brownish-yellow neck.

Unregarded, the trouble grows. A few years of tortured invalidism, probably insanity, before merciful death comes. Dr. Pierce's Favorite Prescription is the fruit of years of study. It is the product of an investigating mind united with a generous nature. When an intelligent person gives years of study to a subject there must be some good result. The "Favorite Prescription" is a compound of extracts of herbs that makes a strengthening, soothing medicine. It acts directly upon the distinctly feminine organs. It stops drains from lining membranes by healing diseased parts, thereby curing also the inflammation that is always present.

"I was in a critical condition. Often I was in despair. I experienced a great improvement by taking one bottle of Dr. Pierce's Favorite Prescription. I have taken six bottles, and I am sure that it will not only cure ulceration but all diseases of females." Yours truly,

(Mrs.) R. T. Rudd

HER EASTER ANTHEM

BY VEIRE-SMITHSON.

[Copyright, 1895, by the Author.]

Jeanne Marie leaned against the door of the church and wept.

Jeanne Marie had been a pretty little woman. Her people were Gascons, but she and her husband Tonta lived in a plain white painted house on the roadside near the city limits of New Orleans. They were happily married, for their choice was due to love, and is there anything else in this world that brings more happiness? If there is, neither Jeanne Marie nor Tonta knew of it. But soon they had a great sorrow, and it drew them closer together than all their happiness.

It came about in this way: They had a child, a beautiful boy, and when he was scarcely 3 years old he died. Then there came another one, a weak, tiny babe, to fill the dead one's place. But he was deformed. His hands were shriveled and twisted. They were dreadful to look at. People said this was due to the mother's ceaseless grieving for her firstborn, and the surgeons tried their best to remedy the matter, all in vain.

Yet the child lived and thrived, and the mother hated God for having taken her perfect boy and given her this one. Tonta was more patient. He suffered meekly. Sometimes he tried to comfort his wife. "Jeanne Marie," he whispered, "God is good, though his ways are beyond our understanding. Be sure this child will be a blessing to us yet."

But the little woman was hard. She would not be comforted. "God is not good or just," she said. "Look at those hands! Why should my other boy be taken from me and this wretched creature sent instead?"

"I love him all the more for his misfortune," said the father. "Dearest, have pity on your own flesh and blood."

She laughed in a satirical and unmotherly way.

"He can never work; he cannot earn his living. We shall have to support him all his life," she said.

When the boy was old enough to understand, he soon found out that his mother did not love him. One day he begged her not to be so angry with him, but she paid no heed to his tearful words. When he tried to use his clumsy fingers, she exclaimed bitterly:

"You are no child of mine. My child is dead. He was not maimed like you. Go away. You do not belong to me."

One night the boy sobbed himself to sleep. The next morning he kissed his father lovingly, as usual, then crept out of the house. There were dark circles round his eyes as he hurried away, not knowing where to go. He did not come home, and when after a few days his father went to look for him he could not be found.

"I am glad he is gone," said Jeanne Marie to herself, but she was very kind and gentle to her husband because he was so grieved.

Years passed, and Jeanne Marie was a widow. She lived alone, unloved and desolate. At night she lay awake and thought of her lost ones, her husband and her child. But it was always the first born, not the second.

And the poor outcast whom she had forgotten was living with a good woman who had pitied him and taken him to her home.

Jeanne Marie had gone to church every Sunday morning since her husband's death. But it was merely habit. She never prayed; the preacher's words had no meaning for her, and to the singing of the choir and people her ears were deaf. Her heart seemed turned to stone.

One Easter morning the widow knelt in her usual place in church, her eyes fixed absently upon the altar where the tall candles burned brightly and white flowers shed a soft fragrance.

Jeanne Marie saw nothing. Her thoughts were wandering. But gradually a sense of peaceful joy crept over her, and happiness, so long stranger to her, filled her soul. She knelt motionless as if entranced, giving herself up to the new sensation, though she knew not whence it came. Slowly at last she realized that she was in the church and that a voice in the choir was singing the Easter hymn, a tenor voice, sweet, high and clear as an angels.

"Resurrexit sicut dixit!" ("He has risen as he said, he is risen—halleluiah!" sang the voice, pouring forth triumphant-

"COME HOME, MY SON," CRIED JEANNE MARIE

ly over the kneeling throng. And the people listened devoutly, some with tears in their eyes, some with faces radiant and joyous. They were thinking of the glory of the resurrection and the deep import of the mystery, but Jeanne Marie thought only of that Holy Mother's joy when she saw her son again.

Too soon the sweet voice sank into silence, the organ's peals were hushed, the hymn was finished, and Jeanne Marie clasped her hands together supplicatingly and prayed to God to pardon her rebellion.

Then when all was over and the people went out of the church the lonely woman still knelt, with her face covered. There was no one else in the church but two figures—a man and a woman kneeling near the door—as Jeanne Marie rose and walked slowly out. On the steps a few persons stood talking.

"A great singer indeed," said one, "and so young. He has a future before him."

"They say his mother is an old friend of our pastor's, and that is why he sang for us today," said another. "She is a widow, and he supports her. Ah, what a good son she has!"

Jeanne Marie was alone on the steps when an elderly, sweet faced woman leaning on a young man's arm came out of the church. They were both smiling,

JEANNE MARIE LEANED AGAINST THE DOOR AND WEPT.

and the other woman looked at them wistfully. They stopped near her, and the man put on his hat. As he did so Jeanne Marie saw that his hands were deformed. There was no mistaking those shriveled, twisted fingers. It was her long forgotten son that stood before her. With a cry of joy she made herself known to him. While she talked the other woman looked at her in terror and clung still closer to the youth, whose pale face flushed as he listened.

A dead silence followed, and then the mother added:

"I was cruel and hard, but you will forgive me. I am so lonely!"

"My father is dead, you say? Poor mother! You are indeed alone." He spoke softly and pityingly, but at the same instant he clasped the thin hand which rested on his arm and with his crippled fingers caressed it lovingly.

"Come home, my son," cried Jeanne Marie. "I have repented and prayed for pardon. I will be a true mother now." She stopped as he shook his head.

"My home is with her," he said, looking down at the bowed figure beside him. "She found me crying on the roadside and took me to her heart, giving me the place of a child she had just lost. I bear her name. I owe everything to her. She has no one on earth but me, and I must always stay with her."

The mother exclaimed distractedly, "Then I cannot see you again? I am never to see my own child!"

The other woman raised her face and looked at him entreatingly, and as if in reply to her appeal he said gently:

"Yes, mother, of course you shall see me. Next autumn I am to sing in the cathedral. We shall live near you, and I shall go to you often, very often, I promise you."

He left his companion for a minute, and putting his face close to Jeanne Marie's whispered:

"Will you kiss me, mother dear?"

She strained him frantically to her heart without speaking, then watched him put the other woman's arm in his again, lead her carefully down the steps and out of the churchyard.

As he disappeared, his mother murmured hoarsely:

"He is a good man. He will do his duty, but he does not love me, and he never will. It is my punishment. God is just."

And in the glad Easter sunshine the childless mother leaned against the door of the church and wept.

KEENE.

From Our Own Correspondent.

The members of the Presbyterian Sunday school held a very successful tea meeting on Friday evening. Tea was served in the town hall from 4 to 6, after which the crowd adjourned to the church, where speeches were delivered by Rev. Messrs. Thompson, Read, Borland and Andrews.

Mr. J. W. Bengough, the celebrated cartoonist, will give one of his inimitable chalk talks and entertainments, comic and serious, consisting of songs, recitations, blackboard work, etc., in the town hall, Keene, on Tuesday, April 7th. The proceeds will go towards rebuilding the Methodist church sheds.

The lake is now considered unsafe, but some people are still risking their lives on it. There was very little solid ice on the lake this season.

The rink closed for the season on Saturday night, after a very successful winter both financially and otherwise.

The majority of the villagers' cellars are flooded with water.

A large gang of men are at work rebuilding the Methodist church sheds.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 55, Jarvis, Ont.

The Hard-to-Beat House Gives the Boys a Good Setting Out.

We want to see three thousand Boys of our own town wearing Gough's Boys' Suits. To put the Suits on the Boys, we will make it pay parents to do so. Here's a ringer in Boys' Clothing. Here's a sweep right from the shoulder to kill off hard times.

We have put on a big sale in BOYS' CLOTHING. We bought largely—more than we required—more than we, with our several outlets, at home, at Port Hope and Lindsay, can handle. Right now—early in the season—we give the Boys a chance for a NEW SUIT FOR EASTER.

Talk about prices. Prices don't count. Fifteen Hundred Suits are in one lot. Three Hundred Suits in another. Boys' Jerseys, imported from Germany direct, are a third lot. These start at 89c. and fetch up at $3.75, complete.

The
Appreciation of Ladies

Has been won for MASON & RISCH Pianos in a great measure by the beauty and delicacy of their touch. Ladies appreciate the fact that it is not a tiring thing to play upon them. It is not necessary to thump a Mason & Risch Piano, or to have immense physical strength to produce a full rich tone from it. So beautifully and scientifically exact are our actions, that the maximum of effect can be produced by the minimum of effort. Again, we say, that this is a point greatly valued by ladies. It is not the only point by any means, but simply one that specially commends itself to the fair sex.

TO MEET AT QUEBEC

Peterboro Lost by More Than 2000 Votes.

OVER 200 DELEGATES TO THE C.W.A.

R. A. Robertson Elected President by Acclamation—Committee Chairmen are Dr. Balfour, E. B. Ryckman, T. A. Beament, George H. Orr and Dr. Doolittle.

Toronto, April 4.

The long-debated and much-vexed questions of the C.W.A. meet and the racing classes were settled yesterday, when the cycling clubs of the Dominion, through their delegates assembled at the T.A.C. club-house, abolished Class B and gave the much-coveted races to Quebec by a majority large enough to show that wheelmen consider the interests of their sport more than mere expense, and by virtue of the decision the Canadian Wheelmen's Association takes a more assured position as a national institution.

There were over 200 delegates at the meeting, besides hundreds of enthusiastic wheelmen who had no written credentials, but nevertheless took an lively interest in the proceedings.

Of course R. A. Robertson was elected unopposed, and as predicted long ago Class B was abolished. The board decided to follow the lead of the L.A.W. and legislated for pure amateurs and professionals.

The Quebec men were early at work lobbying for votes, and had the delegates all to themselves for an hour before the strains of military music were heard, and the arrival of the Peterboro' procession, which was headed by the band of the 57th Battalion of that town. The meeting was on the cards for 10, but the eleventh hour had struck before Secretary Donly filed an appearance with the books and stationery, and Dr. Doolittle called the delegates to order.

In reading his annual address, a typewritten document of some length, Dr. Doolittle, president of the association, modestly referred to his efforts to advance the interests of wheelmen in general and the C.W.A. in particular, as but "a drop in the bucket of progress." His review of the work accomplished during the year showed, nevertheless, that much had been accomplished along the lines projected at the beginning of the year. The matter of guide posts, mile posts, railway and customs concessions, association hotel registers, guide books, The Canadian Wheelman, the recent and coming championship meets, the championships and racing in general, were comprehensively handled, and the sentiments expressed by the president were enthusiastically received by the delegates.

A marked improvement in finances was noted in the treasurer report, read by Hal. B. Donly. The adverse balance of the year previous had been wiped out, and assets were now in excess of liabilities. Receipts of the year totalled $3745.83, and expenditures were $4266.60. Advertising accounts and other assets, to the amount of $600, left a credit balance of $79. As secretary, Mr. Donly presented a report showing an increase in membership, which was referred to as highly gratifying. In 1891 the figures were 1096, in 1895 3573, and at the present time the membership was 6566. Seventy-two new clubs had joined the association during the year, the affiliated clubs numbering 158. The average circulation of The Wheelman was given as 5546. In closing the secretary foreshadowed an agitation to bring the international championship meet to Canada shortly.

Much valuable service had been rendered by the Rights and Privileges Committee, said E. B. Ryckman, in his report. Legal advice had been furnished to members when required, and in other ways the rights of cyclists had been upheld in every way possible, with the result of improving the position of cyclists all over Canada. More legislation had not been sought, for the reason that in the committee's opinion the time was not ripe. It was feared that any attempt to secure legislation more favorable to cyclists might result in the imposition of a tax or other obnoxious regulations. The report, which also recommended a grant of $75 to Cyclist Livsey to defray law costs in his suit against a "road hog," was adopted without discussion or dissent.

Several minor amendments to the constitution were passed without discussion. Chief of these was the assumption of control of professional racing in Canada, and the raising of the number of members necessary to choose a representative from 50 to 100.

Election of officers was next in order, and, as was expected, the presidency of the association went to R. A. Robertson, who was nominated by J. G. Gauld of Hamilton, and elected by acclamation. Dr. Balfour, whose name had been mentioned as a candidate, having withdrawn from the field and declared for Mr. Robertson.

As shown by the Credential Committee's report, there were present representatives of 66 clubs, with 4600 votes, while 34 clubs, with 973 votes, were represented by mail, a total representation of 5607 votes.

D. W. Dumble of Peterboro' broached the question as to the admissibility of Quebec's 501 new votes, the names having been received only 13 days before the close of the year, and a warm discussion resulted. The Credential Committee had decided that the new members were eligible, but the Peterboro' delegation, backed up by other speakers, registered a large-sized protest. The question was thoroughly threshed out, Van Felson, Quebec's spokesman, winding up the discussion with a graceful request for the cancellation of the disputed votes. The president ruled against the admission of the votes.

By a unanimous vote, the Executive Committee was instructed to take steps to make the subscriptions of the Quebec and other clubs received too late for qualification good for 1896.

When the president took the chair after luncheon the figures of the initial ballot for vice-president were announced. A. O. Hurst of Toronto received 1808 votes, R. J. Wilson of Kingston 1413, and G. A. Kingston of Toronto 779. The latter retired, and on the second ballot Mr. Hurst was elected, securing 2651 votes to Mr. Wilson's 1588.

The delegations from the various districts had been deliberating on the choice of their representatives on the board, and the result was the election of the gentlemen following:

Huron district—Chief consul, G. M. Gibbs, Sarnia; representatives, D. Miles, George Macbeth, R. W. Evans, London; D. McKenzie, Sarnia; P. P. Cory, J. B. Noble, Petrolea; R. McConnell, St. Thomas; W. W. McVicar, Goderich; A. E. Ham, J. D. Lamont, Chatham; H. Ryckman, Aylmer; F. Rosser, Alisa Craig.

Niagara District—Chief consul, F. H. Skerrett, Hamilton; representatives, G. R. Lloyd, Hamilton; Harvey Tolton, Galt; R. Broomfield, Brantford; C. W. Wells, J. H. Roos, Waterloo; H. Rooke, Hamilton; A. B. Stennett, Simcoe; J. G. Lea, Woodstock; S. L. Doolittle, Ingersoll, J. Pequagnet, Berlin; C. E. Graves, St. Catharines.

Toronto District—Chief consul, F. T. Lyons; representatives, J. M. Sinclair, W.B.C.; J. P. Edwards, A.C.C., W. B. Campbell, T.C.C.; A. E. Webster, Dun Mill, T.B.C.; J. G. Laughton, Q.C.H.; J. Mathers, Rambler; J. G. Gerrie, Mail.

Central District—Chief consul, E. S. Cane, Newmarket; representatives, J. H. Jackson, Georgetown; R. M. Dutton, Barrie; J. J. Manning, Brampton.

Quinte District—Chief consul, G. J. Horkins, Peterboro; representatives, G. M. Farrington, Picton; F. J. Smith, Campbellford; F. B. Smith, Belleville; A. H. Stratton, Peterboro; J. M. Stevens, Cobourg; R. J. Wilson, Kingston.

Ottawa District—Chief consul, T. A. Beament; representatives, W. A. Morris, Perth; J. D. Laidlaw, Brockville; S. McClenaghan, O.A.A.C.; D. F. Blythe, Ottawa.

Montreal District—Chief consul, L. Rubinstein; representatives, M.M. Duff, W.B.C.; F. H. Manly, Ramolers; D.J. Watson, Montreal.

Sherbrooke District—Chief consul, J. W. Woodside.

Quebec District—Chief consul, George Van Felson; representative, F. McNaughton.

New Brunswick District—Chief consul, J. M. Barnes.

Nova Scotia District—Chief consul, Clifford J. Shand.

Manitoba District—Chief consul, J. Pitblado.

Northwest Territories District—Chief consul, P. F. Godewrath.

Pacific District—Chief consul, J. A. Fullerton.

Woodstock and London withdrew from the contest for the Dominion Day function, leaving the field clear for the Quebec-Peterboro fight. D. W. Dumble of the latter town led in the debate. They wanted the meet, he said, for the prettiest, brightest and most progressive town in Canada. Peterboro would give the wheelmen a hundred thousand welcomes, and the city was within reach of everybody. It was a question of expense, and Peterboro should win.

"What about your police?" queried a delegate.

"I'm Police Magistrate," replied Mr. Dumble, "and I'll guarantee ——" but what his guarantee was could not be heard amid the applauding yells.

An eloquent plea for Quebec was made by Ald. A. H. Cook, pro Mayor of the Ancient Capital. He was sent, he said, by Mayor Parent to invite the association to Quebec, and if they accepted the invitation they would be welcomed and made feel at home. There was not, he was glad to say, the slightest trace of ill-feeling in the contest, and even if Peterboro' got the meet there would be nothing but brotherly feeling on the part of Quebec's wheelmen. Mayor Parent, who was ill, sent a telegram of invitation, which was received with applause.

For the corporation of Peterboro', J. R. Stratton, M.L.A., assured that they would have the freedom of that town, and that the police force would be muzzled during their stay.

Quebec's own, Van Felson received an ovation when he rose to speak for his city. His eloquent tongue was hampered by a cold, however, and his words, though warm, were few.

There was anxious expectancy while the votes were being counted, although it was generally felt that the far east city had the best chance. When the figures were read by Fred Byers, chairman of the Credential Committee, and the delegates heard that Quebec had won by 3744 votes to 1385, there was a scene of wild enthusiasm, which was increased ten-fold when Mr. Stratton, on behalf of the Peterboro delegation, asked that the vote be made unanimous. He assured the Quebeckers that his club would do everything in its power to make the meet a success, and Van Felson replied in felicitous terms, while the blue and white colors of the Q.B.C. were waved with glee by the down-easters.

After the big question of the day had been disposed of, the meeting adjourned, and the president-elect called the members of the new board together. Mr. Robertson asked to be spared the necessity of making a speech, and simply expressed his gratitude for the honor done him. The selection of committees was then proceeded with, and after contests, which were in some cases very close, the following were chosen:

Membership Committee—Dr. Balfour, London, chairman; P. Smith, Woodstock; C. W. Wells, Waterloo.

Rights and Privileges Committee—E. B. Ryckman, Toronto, chairman; Wm. Irwin, Toronto; G. A. Kingston, Toronto.

Rules and Regulations Committee—T. A. Beament, chairman; W. J. Darby, G. R. Lloyd.

Racing Board—George H. Orr, chairman; George Brown, J. G. Gauld, B. F. Corey, A. E. Walton.

Transportation Committee—Dr. Doolittle, Toronto, chairman; J. D. Lamont, Chatham.

An enthusiastic vote of thanks was given Chairman Webster of last year's Transportation Committee.

Chairman Pattullo of the Good Roads Committee sent in a report, in which he said the association and wheelmen in general should devote more time and attention to the improvement of roads and less to racing, and the committee's sentiments were well received by the board.

The division of the sheep from the goats among the racing classes was the important subject on the program of the board meeting. After some discussion, Mr. D. J. Watson of Montreal moved that membership in the C.W.A. be restricted to amateurs. This was carried, nem. con., with the understanding that the clause should debar those employes of bicycle companies only who received remuneration for riding. The division of racing men into amateur and professional classes was decided upon, and the various necessary alterations to the by-laws of the association were made, with some of the details left to the Dominion Racing Board, which shall be assisted by district boards, comprising the chief consuls and their representatives. The proposal to hold provincial championship races on Dominion Day, and a national meet on Labor Day, was given the hoist for a year.

Ring, gladsome bells of Eastertide,
Ten thousand pæans far and wide,
From northern plains of frost and snow
To lands where Easter lilies grow!
Christ is risen.

Deep in the vale the sun's warm beams
Strike icy chains from swelling streams,
And in the bursting buds are seen
The coming summer's wealth of green.
Christ is risen.

And as the winter's night of sleep
Has ended for the fair spring's leap,
So was the night of pagan gloom
Dispelled by life from out the tomb.
Christ is risen.

Then ring the bells in tuneful chime
And sound them loud in every clime.
Go gather blushing lilies fair,
The altar strew in song and prayer.
Christ is risen.

O Easter day, glad Easter day!
Our doubts and fears have passed away.
Hosannah! Let the welkin ring!
Lift up your heads to praise and sing
Christ is risen!

JEROME WARD.

ALL WHEELS MUST PAY DUTY.

Canadian Customs Officers at Windsor are Enforcing the New Rule.

Windsor, April 3.—The new rule requiring American bicyclists to deposit the amount of 30 per cent. duty on the retail value of their wheels upon entering Canada, the money to be returned when they take the machines back, is to be enforced even more strictly than was at first supposed to apply only to American wheelmen going for a trip of several weeks, but it appears that if one takes a wheel over for even half an hour he must make the deposit. There is one advantage to wheelmen in the new rule, says one of the officers: "Wheels stolen in the United States were continually being brought into Canada, and we have just now a list of 50 wheels, for which we are watching. If a man brought over a stolen wheel before we were notified about it, we had no means of tracing it. Now the thief must furnish us with a full description of it and pay the amount of the duty."

THE MEMBER FOR ALGOMA.

Mr. George H. McDonnell, M.P. for Algoma, Recommends Dr. Agnew's Catarrhal Powder—It Relieves in 10 to 60 Minutes.

Let no one be surprised at the high character of the testimonials received by the proprietors of Dr. Agnew's Catarrhal Powder. This medicine merits the best things that can be said of it, for be the trouble Cold in the Head, Catarrh, Hay Fever or Catarrhal Deafness, relief is so speedy and effective that it charms all. This is the view of the popular member of the House of Commons for the District of Algoma, who has used this medicine and does not hesitate to tell the people of Canada of its great worth.

Disease is an effect, not a cause. Its origin is within; its manifestations without. Hence to cure the disease the cause must be removed, and in no other way can a cure ever be effected. Warner's SAFE Cure is established on just this principle. It realizes that

95 Per Cent.

of all diseases arise from deranged Kidneys and Liver, and it strikes at once at the root of the difficulty. The elements of which it is composed act directly upon those great organs, both as a tonic and restorer, and, by placing them in a healthy condition, drive disease and pain from the system.

For the innumerable troubles caused by unhealthy Kidneys, Liver and Urinary Organs; for the distressing disorders of Women; for all Nervous Affections, and physical derangements generally, this great remedy has no equal. Its past record is a guarantee for the future.

THE BOSS AT OTTAWA.

Under this heading the Toronto Evening Star says:—"The long session forced by the Dominion Government in order to secure the second reading of the coercion bill killed Col. Amyot. Morally his death lies at the door of the stubborn dictators. Yet the bully leader of the Government takes no heed. He is determined to push the bill through its third reading in the same way. The introduction of the bill was delayed two months. Now the Government does not propose to give time for consideration of its clauses, be they ever so important. Apparently the bosses think that anything good enough for the Government is good enough for Parliament. Apparently they think the Government is superior in intelligence to Parliament. It seems to be Tupper's idea that Parliament is merely an an instrument of the Government. Like a famous New York capitalist, he is prepared to say 'Parliament be damned.' The Baronet is overreaching himself. He is a back number, and his ideas are out of date. Canada no longer cares to see its Parliament coerced, even by so arrant a boss as the Master Mind. Times have changed since Tupper used to think he ran the country. If he persists in his design to coerce Parliament as well as Manitoba he will find at the polls that the people have acquired an inconvenient habit of resenting orders from political machinee." The Tupper boon has its lines cast in unpleasant places. Whatever the merit or diversity of the remedial measure, both sides should have opportunity for fair discussion.

TUPPER is welding his party in one harmonious hole.—Globe.

A MAN who undertakes to consolidate the empire ought to be able, the Globe thinks, to consolidate his own party. Sir Charles Tupper is wrecking his party by his violence and egotism. He ought not to have the opportunity to wreck his country.

THE Globe's political cartoons are a vivid vehicle of conveying information and influencing public sentiment. Thursday's represents Hon. George Foster holding a placard labelled "Manitoba school question" before the eye of the country, while he holds behind his back out of view a huge scroll labelled "Government record," on which is inscribed "Scandals, St. Charles Branch Railway, Tay Canal, Little Rapids lock, Galop Rapids channel, Shirks Island dam, Langevin Block, Printing Bureau steal, Fredericton bridge, Curran bridge, Caron boodle steal (St. John's railway), destruction of cattle [illegible], civil service crookedness, [illegible]gance incompetence, etc., etc." A [illegible] lavish waste of the people's money these several "jobs" represent, is emphasised by the picture of a House page asking for his wages. The government can waste millions to strengthen their hold on the country, yet they cannot find money to pay the charwomen that clean the corridors of the House of Commons. The cartoon in question is full of truth. The government hails with delight the Manitoba school question as a means of withstanding public attention from their frightful record of misgovernment. They profess great solicitude on behalf of the Manitoba minority, which they don't care a fig for. The grip on office is what they are interested in, and the only minority they care for is a minority at the polls. The Government's lease of power has just 31 days—three weeks—to run. Parliament dies on April 25th and the government dies on the date of the coming elections.

TWENTY-FIVE YEARS A MARTYR TO RHEUMATISM.

Released From Pain in One Day.

"It is my desire," says Mr. James Kerr, farmer of Kars, Ont., "to tell for the public good of the great blessing South American Rheumatic Cure has been to my wife. She has been a great sufferer from rheumatism for 25 years; had doctored with all physicians, far and near, but never received perfect relief until she used South American Rheumatic Cure. It banished all pain in one day, and seven bottles cured radically. I think two or three bottles would have been sufficient had it not been for delay in securing medicine. I most cheerfully and freely give this testimony, and strongly recommend sufferers from rheumatism to use this remedy, as I believe it will cure in every case." Sold by H. S. Macdonald.

Tolerance.

We are wont to congratulate ourselves that we live in an age of religious liberty. From the time of the Reformation to the present day we have been growing in the comprehension of the doctrine of liberty. From the stake and the hideous tortures of rack and thumbscrew, to a more humane execution; from execution to imprisonment and fines; from fines to civil disabilities imposed by test acts, the State has gradually resigned its power of compulsion over men's spirits.

It is now a commonplace truth that it is contrary to the genius of Christianity to attempt to make men religious or otherwise by physical torture or by civil disability. The church possesses the right of excommunication of those who by flagrant immorality or undisguised unbelief, violate the conditions of membership, but if excommunication serve not to bring the offender to his knees in sincere repentance, we know that civil penalties will avail nothing.

Nevertheless it may be doubted whether the true nature of Tolerance is fully understood. The word is derived from the Latin tolerantia, which means endurance. We speak of the heat or the cold as tolerable, i. e. endurable, or intolerable, unendurable. Used of religion, tolerance is a disposition to be patient towards those whose opinions or practices

DIFFER FROM OUR OWN;

freedom from bigotry or severity in judging the opinions of others. Tolerance is therefore not merely abstinence from violence either by deed or word, but it is (like all Christian virtues) a disposition of the heart to be cultivated by prayer and watchfulness. Here as in everything else we derive our clearest illustrations from the life of our Lord and Saviour. "Consider him," says the Apostle, "who endured such contradiction of sinners." "Pray for them that despitefully use you." So when the Sons of Thunder would have called down fire from Heaven upon a village that denied them its hospitality. He said "ye know not what manner of spirit ye are of." Or when one who followed them not was casting out devils, He bade His disciples "forbid him not, for he that is not against me is with me."

But there is a spurious tolerance, which has no title to the name at all, though often claiming it. Its proper name is indifference. One who takes no interest in religious or political questions cannot be said to endure or tolerate anything, because he has nothing to endure. He who cares nothing for the difference between Roman Catholic, Anglican, Presbyterian or Baptist, cannot rightly style himself

TOLERANT OF THEM,

but indifferent. To be intolerant then, implies interest, and if religion be a good thing, within certain limits the intolerant man is a better man than the indifferent. An intolerant, but sincere Conservative or Radical, is better than one who is entirely indifferent to the interests of his country.

Before there can be true tolerance there must be conviction. To be tolerant is to endure contradiction, but without conviction there can be no contradiction. Christ "endured the contradiction of sinners." The lack of conviction justifying itself under cover of the grand name of tolerance is one of the melancholy features of our life. It arises from indifference to truth, and from a disinclination to look some of the simple questions of life squarely in the face, and once for all give them an answer. Do we believe in God? Do we believe in Righteousness? Do we believe in Jesus Christ? Do we believe in the message of the Love of God? Do you believe in the duty of loving our neighbour? These are simple questions about which we ought to have some positive convictions, about which we ought to be tolerant, but must not be indifferent.

It is our duty to love the truth. It is also our duty to love man. True tolerance then is the holding of these two duties in a perfect balance. The indifferent man is imperfect in his love of truth, the intolerant in his love of man.

OUR LORD WAS TOLERANT

of Pilate and Caiaphas, but he did not compromise his message, "Who when He was reviled, reviled not again." He was ever indignant with sin, but I do not recall a harsh word against any who refused to follow or be convinced by Him. Such refusal provoked his sorrow, as in the pathetic lament over Jerusalem. "O Jerusalem, Jerusalem, how often would I have gathered thy children together as a hen gathers her chickens under her wings, and ye would not."

"How then," says one, "are we to convert men either from sin or to what we believe to be the truth?" How were you yourself converted or convinced? Was it by abuse, or by angry discussion? Was it not rather by the presentation of the truth to your mind and heart, in a living and loving way, or by its calm and dispassionate exposition? How do you today hold the truth? Is it not by conviction? You are convinced, but conviction can never be produced either by force or by abuse. But if you would bring convict to others it must be in the same way as you yourself became convinced, and this way perfectly accords with true tolerance.

HERE IS ONE CONSIDERATION

which should help us to be tolerant, viz.—The patent diversity of men's spiritual, no less than their physical or mental organizations. Men are not all converted, or brought into a state of salvation in the same way. With St. Paul's example before us we ought not to deny the reality of sudden conversion. A sudden conversion may be produced by a sudden shock. But others are gradually weaned away from sin to a complete renunciation of it, or from unbelief to a complete faith. You may blow down a house with dynamite, or you may take it to pieces from roof to foundation, shingle by shingle, brick by brick, rafter by rafter, but in both cases the house is down.

In this connexion it is profitable to notice men's remarks about books or sermons, or even passages of Scripture. The same book that fills one man with enthusiasm, is found unreadable by another. We all have favourite passages of Scripture, but not all the same passages. Precisely the same thing is true of our church services. Our man

IS REALLY HELPED,

his devotional spirit is stimulated by an ornate or elaborate service, which another finds tedious or superstitious. The truth that flows from this consideration is that there is a wide field of non essential doctrines, or customs, wherein charity should prevail, and further that it may be positively dangerous to seek to wean one who has found spiritual help or light in this or that non-essential doctrine or custom, from it to another. "Woe unto you Scribes and Pharisees, for ye compass sea and land to make one proselyte, and when he is made, ye make him two fold more the child of hell than yourselves."

Here in conclusion is a definition of religious tolerance: "The willing consent that other men should hold and express doctrines with which we disagree until they are convinced by reason that those opinions are untrue."

THE COMING COMET!

It is Expected to Strike and Smash the Earth.

That is if its Tail Doesn't Swing it Around in Another Direction—Not Due for Some Time Yet.

There is, according to the authorities, a comet coming straight for the earth. It is coming at the rate of several thousand miles an hour, and when it reaches here there will be more or less trouble, and something will have to break. The astronomers in question think the earth will get a trifle the worst of it and are accordingly feeling anxious. It is due here unless somebody turns a switch, and sidetracks it, in less than nine hundred years, so no wonder the discoverers of that comet are anxious. But more things than a comet are due to arrive here before long. With the hot weather will come sickness and death. Spring, deadly spring, will reap its fearful harvest. There will come

Malaria,
Typhoid,
Diphtheria,
Bilious Complaints,
Blood Troubles,
Blotches and Boils,
Pimples and Eruptions,
Ague and Chills,
Rheumatism.

And hundreds of other complaints common to the season. There will be many a gap left at the table. Many a little coffin will be carried to its last resting place; many a home will be filled with sadness.

Take no chances. Prepare for spring. If you or your children are not strong and healthy get strong and healthy. If you are not well get well. If you are well keep well.

Scott's Sarsaparilla is what you want. It is the greatest blood purifier and spring tonic of the age. There is nothing like it on the market. Don't confound it with other weak imitations. It is easily the leading blood medicine of the day, as the splendid testimonials published elsewhere show. Try it.

Scott's Sarsaparilla is unlike most patent medicines. It does not profess to cure every disease under the sun. But it will cure all those that have the same common origin in disorders of the blood, liver, stomach and nervous centers.

More about Scott's Sarsaparilla tomorrow.

ARE THE SPANIARDS BUTCHERS?

It is Reported on Good Authority That They're Killing Innocent People.

Havana, April 1, via Tampa, Fla., April 3.—Jose Ramon Del Valle, a Spaniard, who has been alcalde for some time of the important town of Jovellanos, Matanzas Province, has resigned his position and brought his family here. He sails for Mexico to-morrow. He states as a reason that he can no longer stand the excesses committed by Spanish troops. Senor Del Valle is a man of culture and intelligence, and has no leaning to wards the insurgents. His testimony is therefore unbiased. He says, "Spanish troops are killing innocent people right and left. The people of Havana have no idea what atrocities are being committed. In many parts of the island the troops pillage stores, residences and estates and kill unarmed men. Unquestionably they are more to be feared than the insurgents. There is no safety for life or property outside of the cities and large towns."

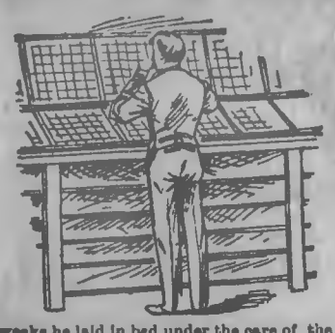
A TYPO'S RELEASE

FROM THE AWFUL SUFFERINGS OF RHEUMATISM.

The Case of E. P. Robbins of Welland—A Sufferer for Seventeen Years—His Case Resisted the Treatment of the Best Hospitals and he Had Become a Physical Wreck—His Wonderful Release.

From the Welland Telegraph.

The world to-day is both commercially and scientifically inclined towards system, and news like everything else is gathered systematically. Every newspaper has its staff of reporters to observe and collect the news of its particular locality or district. For some time past a reporter of the Welland Telegraph has been watching the development of a treatment for a serious case of rheumatism on one of the employees of that institution. About eighteen years ago, Mr. E. P. Robbins, while at work in the Telegraph printing office, was suddenly seized with sharp pains all over the body, accompanied by extreme swellings. He reached home, but a short distance from the office, with difficulty, and on the doctor being called he pronounced it inflammatory rheumatism. For seven



weeks he laid in bed under the care of the best physician, and at the end of that time he was again able to resume his duties. During the next few years he was subject to frequent slight attacks, and finally thought a change of location might be beneficial. With this idea Mr. Robbins visited the different American cities, sometimes in good health and again unable to get out of bed, until in 1888 he finally settled in New York. Here, for about two years, he followed his occupation with comparatively little sickness, when he suffered a severe attack which left him, until a few months ago, a martyr to that kaleidoscopic disease. Mr. Robbins recovered somewhat after weeks of idleness and went back to the types, but again and again he was laid up, working only about six days a month. Gradually he grew worse, and, almost discouraged entered the Sisters hospital. After spending many weary months within its walls he was discharged with the awful verdict "incurable." More from a sense of duty than with hope he tried other hospitals in the city but with the same result, and resigned to his fate he left for his old home, where he arrived in February, 1893, a crippled resemblance of his former self, and was passed unrecognised by his former friends. Here in the house of his father, James W. Robbins, he was bed-ridden until the summer, and then during the warm days was able to walk about with the aid of a spiked cane for a few minutes at a time. When the cold weather approached, however, he was again confined to the house. Pink Pills were frequently recommended to Mr. Robbins, and in December last he started to take them. The first box was unnoticeable but the second produced a slight change for the better. More were then taken and the improvement was daily hailed with joy by his friends. The rheumatism slowly but surely left and has not since returned. In March last Mr. Robbins was once more at work and has not lost a day since; the cane has long since been discarded and "Ed" is one of the happiest, jolliest employees in the office. Mr. Robbins is well known in the county and indeed throughout the whole district, and although, as he says, he has not got the strength of Hercules yet, Pink Pills have given him for a trifling cost the relief he spent hundreds of dollars in vain trying to secure. He considers the disease completely out of his system and can eat and sleep well, two essential points to good health. Mr. Robbins strongly recommends this wonderful medicine to other sufferers.

Dr. Williams' Pink Pills strike at the root of the disease, driving it from the system and restoring the patient to health and strength. In case of paralysis, spinal troubles, locomotor ataxia, sciatica, rheumatism, erysipelas, scrofulous troubles, etc., they are superior to all other treatment. They are also a specific for the troubles which make the lives of so many women a burden, and speedily restore the rich glow of health to sallow cheeks. Men broken down by overwork, worry or excess, will find in Pink Pills a certain cure.

Sold by all dealers or sent by mail, post paid, at 50 cents a box, or six boxes for $2.50, by addressing the Dr. Williams' Medicine Company, Brockville, Ont., or Schnectady, N. Y. Beware of imitations and substitutes alleged to be "just as good."

HOW YOUNG FIELD WAS ILL-USED

Because He Attempted to Defend His Father From the Attack of the Midnight Intruders—A Loaded Revolver Placed to His Breast—The Evidence.

Wingham, Ont., April 3.—The town was alive with excitement this morning, the occasion being the trial of five men for the murder of J. G. Field on the night of March 10. The court room would hold only a small portion of those who wished to hear this interesting case.

The prisoners Manser, Harrison, Phippen, Flannigan and Montgomery were escorted to the court room by Constables Thomas and Wm. Gundry, but before leaving the Brunswick House the married men were allowed to have an interview with their wives. All the men seemed to be in good spirits, with the exception of Phippen, who has not fully recovered from his fainting fit of last night.

Magistrate Seager occupied the bench, and Mr. E. Lewis watched the case for the Crown. Mr. Richard Vanstone ably defended the prisoners. Every possible argument was used on their behalf, and Mr. Vanstone succeeded in having Flannigan's name struck off the list.

George Morrison was held as a Crown witness, although one of the ringleaders, and was called first. He gave his evidence in a straightforward manner, told how the mob first formed under the direction of Harrison, their march through the main street of the town with blackened faces, the breaking open of Field's house, dragging the unfortunate man out of his bed into the snow; the horsewhipping and the oaths which were required of Field. Morrison, however, did not take part in the whipping, but was busy keeping the girls quiet.

In cross-examination, Morrison said that there was no intention on the part of the mob to do Field any bodily harm, and but for the fact that whisky was plentiful they would not have injured him. He remembered Phippen saying something to Manser to the effect that he would not have Field injured.

Thomas T. Field, the son of the deceased, was the next witness. He told the story of the forcible entry by the mob into the house. He had gone to bed, and was occupying the same room as his father. Shortly before 11 o'clock he was awakened by the dog barking, but on going to the door could see nothing. He returned to bed, but after about five minutes was again disturbed. He got up and dressed, and while doing so he heard the door of the outer kitchen burst open and a stove knocked over. His father handed him a revolver and he went into the dining room and discharged a shot through the door, telling them at the same time to go away. They burst in this door and Harrison, putting a revolver to his breast, told him to produce his father or he would blow his brains out. The men went up stairs to the girls' rooms and questioned Rosie. They were got out of the room by Morrison at Lilly's request. He followed them down stairs, but they shut him in the stair hall, which is enclosed. He got out the front door and ran round to the back, when he met them in the kitchen with his father in their clutches.

He told them to let his father alone and attempted a rescue, but was overpowered and held down while the old man was taken outside. His father had on nothing but a top shirt and an undershirt. Witness was held in the kitchen for a considerable time and while there Harrison came in and asked for a cartridge, saying to witness that he wanted it to save his father. When finally released young Field went out and found the mob bringing the old man back. Just at the door of the shed they began to quarrel and he took his father inside and hid him in the cellar. The mob finally dispersed. The next day Harrison advised him to send his father away for some weeks. This witness produced the letter which had been sent to lure his father out on Monday, but which did not succeed because Lilly detected that it was not genuine. The letter was badly written and the spelling was very poor. It read as follows:

"Mr. Field I would like if you would come up to my house immediately as I have something very important to tell you to-night. Your truly, Mrs. Lloyd."

Daisy Field, the sister of this witness, testified to having seen Manser and Phippen in the room up stairs. She bathed her father's feet that night and rubbed them next day with an ointment. They were very much blistered. His health otherwise was good.

Chief Van Norman testified that a few days prior to the outrage Harrison had asked him for a room in the Court House in which to swear his associates to secrecy. They were going down, he said, to give Field a brush. The chief refused the room and warned the applicant.

J. H. Duimage, proprietor of the Brunswick Hotel, swore that on the night of the outrage Harrison wanted to buy whisky from him, telling him at the time that he was going with some others to turn over old Field. The witness refused the liquor. Harrison then exhibited three bottles of whisky and went away.

Charles Jobb and Charles Stuart swore to having seen the crowd bring Field from his house up to the corner, and stated that Stuart interfered, when the mob took the man back. Stuart heard some one cry that Field was naked and that was his reason for interfering.

G. A. Newton admitted that he had promised to give Harrison a whip to chastise Field with, and had left it in his back shed, where they could get it. The whip was taken away.

Dan Shawers, a pump maker, testified that he also had given a whip to Harrison on the night in question.

Jerry Flannigan, who had been one of the prisoners, but whose name was struck off the information, gave evidence which corroborated that of the other witnesses who had seen Field led out and taken to the corner.

Dr. Waugh of London, who made the post-mortem examination, swore that the cause of death was inflammation, occasioned by exposure a week previous to the man's demise.

The counsel then addressed the court, and the magistrate made some remarks regarding the case. He said, in committing the prisoners for trial, that the evidence did not connect very strongly the cause of death with the injuries received on the night of the assault, but there was the one main fact that the death was one from exposure. The defence might, he said, be able to explain that Field had been exposed subsequently, or the Crown might not be able to prove that it was the exposure on the night in question which had been the actual cause. Where, however, death had resulted eight days after such an incident, and exposure was the cause, there was fairly good room for presumption that it was attributable to this, and he regarded it as sufficient to commit on.

He made some very strong remarks about the absolute necessity of stamping out any attempt at mob violence. The law was strong enough and sufficiently administered to deal with all cases of crime. Mob violence in cases where the man who was the victim was guilty of the offense was even worse and established a worse precedent than where the man was innocent. Where innocence existed public opinion would censure the perpetrators, but in case of guilt public opinion would condone or approve and thus an example would be set which would be followed elsewhere. Thus, if it were not stamped [illegible] would soon prevail. He made some scathing remarks about the men who incited the persons to the act and held them up to the censure of the community. He expressed sympathy with the prisoners because they had not intended to commit great harm and would not have done so but for the presence of whisky. They must be judged, however, by their acts and not by their intentions. His sympathy, too, was with the wives and families of the prisoners, who would be the worst sufferers. He concluded by committing the prisoners for trial. Bail was applied for and refused.

The Appreciation of Ladies

Has been won for MASON & RISCH Pianos in a great measure by the beauty and delicacy of their touch. Ladies appreciate the fact that it is not a tiring thing to play upon them. It is not necessary to thump a Mason & Risch Piano, or to have immense physical strength to produce a full rich tone from it. So beautifully and scientifically exact are our actions, that the maximum of effect can be produced by the minimum of effort. Again, we say, that this is a point greatly valued by ladies. It is not the only point by any means, but simply one that specially commends itself to the fair sex.

RECHERCHE MILLINERY.

The Brightest and Best Is the Surest Way to Attract Patronage.

Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

The Primest of Easter Beef.

According to our custom, the Easter display of meats at Howden's Meat Market, will be such as to satisfy the most fastidious epicure. We expect to see our store crowded during Saturday, especially by the ladies who know how and where to select good meats. We invite all to make a critical comparison of qualities. We have left nothing undone for our own credit and the wants of our patrons. Such a bountiful supply of choice beef, spring lamb, veal, lamb, pork, sugar cured ham, pickled pork and fancy meats, will not be excelled. This long established and well known meat market can always be relied upon, and can't be beaten for an Easter display or for moderate prices either. J. J. HOWDEN, 461 George street. Telephone 39.

What the Toronto Globe Said.

"Hands Across the Sea," a first-class melodrama, written by Henry Pettit, upon the old fashioned lines, was presented at the Toronto Opera House before a large and well-pleased audience. The story is of that conventional type which can never become too old for repetition. Jack Dudley, the hero, is a young English farmer, who marries Lillian Medford, an heiress, whom Robert Stillwood had intended to marry, in order to obtain her money. Stillwood subsequently meets Dudley in Paris, and introduces him to several professional gamblers. Stillwood, with the complicity of his friend, De Lussac, robs and kills one of these and throws the blame on Dudley, alleging jealousy as the cause. Dudley is convicted, but gets a reprieve in time, and Stillwell is finally shown to be the guilty party. The plot of the play is well connected, and the excitement and interest are well sustained throughout the changing scenes. Mr. Maurice Freeman does extremely well as Jack Dudley, while Perry Brigham and Carl Fey, as the two villains, not only act, but also look, their parts to perfection. The rest of the company also fill their respective roles in a very creditable manner. This company appears at Bradburn's Opera House next Tuesday night. Prices 25, 35 and 50c. 1d

EN ROUTE FOR GERMANY.

Miss Ethel Burnham, Accompanied by her Mother, Left This Morning to Continue her Violin Studies.

This morning Miss Ethel Burnham, grand-daughter of Mr. Wm. Claxton, and daughter of the late Mr. Fred. Burnham, accompanied by her mother, Mrs. Burnham, started on the first stage of the journey to Leipsig, where Miss Burnham pursue her study of the violin and complete her musical studies. After spending a day or two in Buffalo, the guest of Mr. C. V. Boughton, the latter will accompany them to New York, on April 9th, where they will embark on board the steamer "Furst Bismarck," of the Hamburg line. Rev. Mr. and Mrs. Asgell will be at New York to wish Mrs. and Miss Burnham bon voyage. Those who know of Miss Burnham's exceptional musical proficiency hope for great things of her. She has a talent for the violin to an unusual degree, and a highly developed musical temperament. In fine she is a born violiniste; and when to the already considerable proficiency she has gained are added some years of study in the musical air and environments of Leipzig, one may well hope to have the pleasure of recording the triumphs of another brilliant young Canadian violiniste. Mrs. Burnham will remain with her daughter in Leipsig during her studies.

COURT PETERBOROUGH.

Dr. Carmichael is Elected Court Physician — The Delegates to the High Court.

The spacious apartments of Court Peterborough, Canadian Order of Foresters, was the scene of considerable excitement, last evening, when the election of four delegates to the High Court, and a Court Physician to occupy the position rendered vacant by the death of Dr. Yelland, took place. The delegates chosen were Messrs. H. Nesbitt, Joseph Metheral, D. H. Harvie and Andrew Macfarlane. This year the Court assembles in Montreal on the third Tuesday in June. Dr. Carmichael was elected to the position of Court Physician. Court Peterborough still continues to swell its large membership. On the evening of the last meeting five candidates were initiated and last evening five more were admitted into membership. There were also six applications received last night.

Still Another Fine.

In addition to the fines and costs already imposed on James Dwyer for his several little escapades another fine of $5 and $5.45 costs was levied against him on Thursday afternoon on a charge of assaulting Mr. Con. Halpin in July, 1890. The fine and costs were paid.

At ELLIOTT'S You can get Delicious California Evaporated Peaches, Nectarines, Pears, Apricots and Plums. These fine goods are cheaper than our own preserved fruits and much superior.

The Markets.

The market to-day was not a very large one, but the new lessee, Mr. H. Nesbitt, should not feel at all discouraged on that account as the roads in the country are in an almost impassable condition. Maple syrup made its first appearance and sold rapidly at $1.25 per gallon. Poultry was very scarce. Chickens brought 50 cents per pair, and turkeys from 75c to $1.25. Butter sold at 18 and 20c per pound, and eggs at 12½c per dozen.

Easter Music at St. John's.

In the morning the processional hymn will be "Welcome, Happy Morn." The Te Deum will be Harper's in G; the Benedictus, Martin's double chant; carol, "Let the Merry Church Bells Ring;" at the offertory a baritone solo, "Resurrection," sung by Mr. F. W. Lount. The Communion office will be Tour's complete service in F and suitable hymns. At Evensong the Magnificat and Nunc Dimettis, will be Tours' in F, and an anthem by Barnby—"Break Forth into Joy." At the close of the evening service and before the recessional hymn, there will be sung two carols "Let the Merry Church Bells Ring" and "O, Joyous Easter Morning."

The High Testimony

Of hundreds of druggists affords convincing proof of the great merit of Nerviline in all painful affections. F. R. McIlville, druggist, Prescott, writes: "My customers who have used Nerviline speak highly of it. I am satisfied it will take a leading place in the market." This expresses the universal verdict, and if you are suffering from any painful affection, internal or external, give Nerviline a trial and immediate relief will be as certain as the sun shines. Nerviline is a powerfully penetrating pain remedy. Sold by dealers everywhere.

The Opening of Kennedy's Meat Market.

The opening of Kennedy's new meat market in the Arcade Block to-day was attended with an unusual degree of interest. During the forenoon the sidewalk in front of the store was crowded with people eager to get a look at the new premises and the choice samples of prime Easter beef which were displayed inside the store. There was a regular jam of buyers who were being waited on by a large staff of experts at the business, some of whom had been specially engaged from Toronto. Luckily, from the marble top counters, the cashier's desk was only a few steps and fast and melodious went the sound of saws and knives and the clink of silver as one customer was disposed of for another. The crowd was handled and the systematic preparations previously arranged worked out admirably. While one procession of customers marched in another filed out to make room for the crowd—all evidently well satisfied and attentively waited upon. The display of meats evoked many complimentary remarks, and deservedly so; and, judging from the large number of cuts ticketed with the names of patrons who had sent in their orders ahead, the day's business must have been a very "fat" one and "very delicious" from a financial point of view. A description of this handsomely fitted store has already appeared in these columns, but the general effect was much enhanced by the creamy display of prime meats which adorned the interior.

PETERBOROUGH LOSES THE MEET FOR '96.

THE ANCIENT CAPITAL IS SUCCESSFUL.

The Reasons That Decided the Choice —Peterborough Delegates Worked Nobly, and did Their Best Against Adverse Circumstances.

It is with genuine regret that it is recorded that Peterborough was unsuccessful in capturing the C. W. A. Meet.

Peterborough has lost the "meet;" but after a gallant struggle against very heavy odds. The committee that had the matter in charge worked like beavers and with an energy that merited a better reward.

It would appear that all that could be done was done. But there were elements at work that neutralized the most gallant efforts and prevented personal preferences, in favour of Peterborough, on the part of individual wheelmen, having their full influence upon the decision of the question. The delegates from Peterborough made a bold charge but the convention was in effect committed to Quebec.

The principle that prevailed was that the meet was a Dominion affair, and that holding it in Peterborough—in Ontario—again this year would give the meet a provincial character, which would be resented by other sections of the Dominion, especially in the east, and might result in building up a rival association composed of the wheelmen of Quebec and the Maritime Provinces.

Whether there is much in such a plea or claim, there is no doubt that it was the chief element in sending the meet to Cape Diamond this year. There seems to be no doubt that the vast majority of the wheelmen of the Province were in favour of Peterborough on account of its central position and the consequently cheaper railway fares, Peterborough's splendid racing track, and the many other advantages in the way of surrounding attractions it presents, but the situation had been discussed in clubs from the Dominion standpoint, and the delegates instructed to vote for Quebec, though the individual preference of the great majority of members was in favour of Peterborough, both for the reasons mentioned, and as a tribute to Peterborough's plucky fight last year, and in deference to her claims arising out of her want of success on that occasion.

Quebec worked hard for the meet, and in addition paid pretty roundly for it. That city spent a large amount of money, and it is doubtful if the results will be satisfactory—for there is room for doubt as to the success of the meet in the eastern city—the distance is too great and the expense of reaching it too great also. The vast majority of Canadian wheelmen live west of Ottawa, and it is only a few that can spare the time or money involved in visiting the meet at Quebec, whereas if held in a central point like Peterborough the attendance would have been very large.

The local delegation made a very fine appearance in Toronto as, headed by the band, they marched from the train to the Palmer House, and thence to the Auditorium, where the great Wheelmen's Smoker was held. This was where the battle for the meet was really fought out, and the local men before they left had sized up the situation and knew they were "out of it." Delegates from the other clubs were assiduously buttonholed but to no end. All acknowledged that few of their members would be able to get to Quebec, but they could not be turned from their intention of voting for the Citadel City in accordance with instructions received from their respective clubs. When the vote was taken, therefore, the result was not a surprise to the Peterborough delegates, though the enormous majority was totally unlooked for, and proved most disheartening. So much so in fact, that it is doubtful if Peterborough will ever again enter into the race for the meet. The club, however, will be well represented at the meet.

The Quebec delegation had a special car to themselves, and the visitors thereto were royally entertained. Special brands of cigars were produced encircled by bands asking the smoker for his vote for Quebec.

A full report of the proceedings of the meeting will be found on the first page of the EXAMINER.

A PRETTY CANTATA.

The Charlotte Street Juniors Give an Evening's Enjoyment.

The Junior Endeavourers of the Charlotte street Methodist church held a most enjoyable Easter entertainment last evening, which was very largely attended.

During the first part of the evening a cantata entitled "Life Triumphant" was rendered by the little ones and later on a programme of vocal and instrumental music was also given.

A number of choruses were sung by the Juniors and the programme was opened by the members all marching into the church singing "Strike Ye Harpers Your Strings," after which all joined in the chorus, "Hail to the Conqueror." A very pretty portion of the cantata consisted in a quartette part, which was most capably taken by Miss Hall, Miss Brooks and Messrs. Walter Brooks and Fred. Kennedy. Another very pretty portion was the rendering of the Laudes Domini by the Misses Brook's and Miss Shaw, and also the singing of the chorus "Easter Day" by the primary class with motions. The cantata closed with the full chorus "Easter Bells."

During the evening Miss Florence Hall sang "Rock of Ages" in particularly clear voice. Miss Hendren also gave a very beautiful rendering of "If I were a Voice."

Little Miss Haskill's recitation was greatly appreciated and a dialogue entitled "Christmas and Easter" given by Miss Lillian and Master Willie Cox, is also especially deserving of mention. Mr. John Miller's two cornet solos were played with his usual ability. A most pleasing number was that entitled "Easter Echoes" in which five young ladies participated.

During the evening the chair was occupied by Rev. J. J. Rae, who made a brief address, as did also Rev. W. R. Young, of the George street church, who was present.

Its Cause and Cure.

Cold weather, shivering, no heat to sustain, emaciated, because ill-nourished. This is either because the starchy foods are improperly acted upon by the digestive juices or the oily constituents of the food are not assimilated. Cod Liver Oil combined with Maltine and Hypophosphites supplies this deficiency, for the oil, rendered palatable, and easy of digestion, is at once assimilated and stored up in the form of andipose tissue. Besides this the maltine renders soluble the starchy foods—whose special function is to supply heat or fatty tissue—thus affording material necessary to supply the waste of the body. Maltine with Cod Liver Oil and Hypophosphites is at once a food, body builder and medicine, incomparably superior to any preparation for the consumptive or debilitated. Verify this by trial.

Easter Cards and Booklets.

Whenever we see a chance to clip the corners of prices we make the shears work lively. As we count the hours between now and Easter, we make a B line to our Easter card counter, and clip a quarter off the prices of all our pretty card and booklet novelties. Styles that will open your eyes, values that will open your pocketbooks, and yours for the asking now at the Peterborough Bookstore. A. H. STRATTON & Co.

Catarrh in the Head

Is a dangerous disease because it is liable to result in loss of hearing or smell, or develop into consumption. Read the following:

"My wife has been a sufferer from catarrh for the past four years and the disease had gone so far that her eyesight was affected so that for nearly a year she was unable to read for more than five minutes at a time. She suffered severe pains in the head and at times was almost distracted. About Christmas, she commenced taking Hood's Sarsaparilla, and since that time has steadily improved. She has taken six bottles of Hood's Sarsaparilla and is on the road to a complete cure. I cannot speak too highly of Hood's Sarsaparilla, and I cheerfully recommend it." W. H. Fresh air and exercise are a right, Boy's, but you want a little something occasionally for the stomach's sake. You can always count on getting it good at the Pullman. But be temperate, Boy's, and let your motto be "moderation." First-class Billiard Room in connection.

THE PETERBOROUGH BOOKSTORE. **A. H. Stratton & Co** 417 GEORGE ST. PHONE 225.

PETERBOROUGH, APRIL 2nd, 1896.

The Fashions in Baby Carriages.

Remarkable innovations in Baby Carriages, have brought about striking beauty in their design and decorations. The adaption of reed bodies has become very popular—no doubt on account of the lightness and durability of the material, but chiefly on account of the handsome designs which the reed is susceptible of. Another of the most conspicious features of the New Baby Carriages of the present day, is the useful canopy or Parasol Tops in rich silk patterns, as a protection from the sun, which have taken place of the old-fashioned roofs.

Our stock of Baby Carriages is conspicious for its newness, and combine all the latest improvements and designs. They have beautifully upholstered seats, and bodies are built for strength and lightness, and run like a bicycle. Nothing prettier or smarter for an Easter parade.

PRICES FROM $3 UP.

A YEAR AGO

The sale of Pure Gold Baking Powder in Peterborough was not large. It was to be found only in two Grocery stores. But we knew we had a good thing and we began energetically to say so. The people began to realize that it was a good thing. They became convinced of its sterling qualities and they have grown to like it so that that it is now sold by every first-class Grocer in town.

DAILY MOTTO.

Saturday, April 4th.

She began the cross, but when she had nearly finished it, it occurred to her that there could not be a better foundation for a crown. Nothing was needed but to add a base and two wing-like curves. And she smiled at all there was suggested in the idea of the cross in the crown—part of its very structure. Yet when it was finished, scarcely anybody would notice that there was a cross there.

Church Services.

The different services which were held on Good Friday were all well attended. In the afternoon an open air service was held by Rev. J. C. Davidson, at the South Ward Mission.

An Easter Bargain.

China Hall will fill one of its show windows with $5.00 and $6.00 Chamber sets, and give the public their choice on Saturday before Easter only, for $3.50. The windows will be filled on Friday, but no sets sold out of it until Saturday at 9 o'clock.

Fined Two Dollars.

A young man was before the Magistrate this morning, charged with using obscene language at the G.T.R. station. He entered a plea of "guilty," and as he seemed very contrite and promised to curb his tongue in future the magistrate let him off, with a lecture and a fine of $2.

Grand Social.

A grand social will be held under the auspices of the Young Bachelors on Easter Monday in the Catholic Literary Association rooms, George street. A first-class orchestra has been engaged for the occasion and refreshments will be served during the evening. 3eod

Born on the Train.

The local C. P. R. physician was hastily summoned to the midnight train in order to attend a Mrs. Allen who was taken seriously ill. An entire sleeping car was vocated for her use and before the train had arrived in Montreal Mrs. Allen's family had been increased by the addition of a fine pair of boys.

A Wedding.

On Thursday, at the George street Methodist parsonage, Rev. W. R. Young, B. A., united in marriage Mr. Walter Head, town, and Miss Mamie Campbell, daughter of Mr. John Campbell, Nassau. Miss Day performed the duties of bridesmaid and Mr. Arthur Head, brother of the groom, was best man. The happy pair received the hearty congratulations of their many friends, who wish them all possible happiness.

How to get "Sunlight" Books.

For 6 "Life-buoy" Carbolic Soap wrappers, a similar book will be sent. This is a splendid opportunity to obtain good reading. Send your name and address written carefully. Remember "Sunlight' sells at 6 cts. per twin-bar, and "Lifebuoy" at 10 cts. One cent postage will bring your wrappers by leaving the ends open.

St. Luke's Church, Ashburnham.

There will be two celebrations of the Holy Communion at St. Luke's to-morrow, viz., at 8 a. m., and at the close of the morning service. In the morning, Dyke's Te Deum will be sung by the choir and the evening anthem will be entitled "They have Taken Away My Lord"—Staines. The rector will conduct both the morning and evening services, and in the afternoon will hold service in St. Mark's, Otonabee. The children's service in St. Luke's in the afternoon will be conducted by Rev. W. L. Baynes Reid.

Easter Meats at Morris & Howden's.

For years Morris & Howden have been favourably spoken of as dealers in excellent qualities of meats, more especially at this season. This year their display of Easter meats will deserve special attention, as they feel confident of showing a superior selection of the most delicious beef the county can produce. Five thoroughbred Durham heifers have been slaughtered for the Easter season, three of which were fattened by Mr. W. Redmond, of Millbrook, whose name as a first-class raiser of well-bred cattle has a provincial reputation. The herd of Mr. Ferguson, of Smith, has also been drawn on for two fine steers. Besides these some can't-be-beat spring lambs, calves, pork, sugar-cured hams, &c., are provided to tickle the palates of the numerous customer of this firm. 2d

DISHONEST MEN.

They Often Recommend Worthless Goods to Buyers.

The are many dishonest men in business. Their first and last thoughts are in the direction of big profits.

These dishonest dealers, regardless of the interests of their customers, seize every opportunity to substitute poor goods when standard and well knowns brands are asked for.

To a very large extent these dishonest dealers try to foist adulterated and worthless dyes on the public when the celebrated Diamond Dyes are asked for. Watch such dealers closely, and when you discover any attempt to deceive, by recommending poor imitation dyes, leave his store and go to some other.

The Diamond Dyes are retailed at the same price as the worthless dyes—ten cents per package. The Diamond will give you complete satisfaction, but the worthless, cheap dyes will ruin your work and spoil your temper. If your dealer does not keep the Diamond Dyes, send your order to us, and we will mail the dyes to you. Wells & Richardson Co., Montreal.

A NEW SUMMER HOTEL

To be Erected on Stony Lake This Season.

Arrangements are about completed between the Grand Trunk Railway and a Toronto syndicate for the erection of a fine commodious new summer hotel at some point on Stony Lake yet to be decided upon—though the selection is narrowed down to a choice between Mount Julian and Juniper Island. It is intended to erect a first-class summer hotel that will accommodate 150 or 200 guests and it is promised that it will be conducted in a thoroughly first-class manner. It is expected that work on the new hotel will be so pushed that it will be ready for guests this season. No doubt such a hotel will add to the already great attractiveness of Stony Lake as a summer resort.

BASKET BALL.

The Fourth Form Downed the Third Wednesday Afternoon.

A most interesting and exciting game of basket ball was played Wednesday afternoon between the representative teams from the third and fourth forms of the Collegiate Institute in the gymnasium. The sides were composed of five men each and were as follows:

IV. Form.		*III Form*
A Laing	left guard	E Mollmoyle
H Philips	right guard	W F Wilson
T Wallace	centre field	P Clark
C Craig	left field	M Miller
J Black	right field	A Trickey

Referee—Mr W J Drope.

For the Fourth Form Laing, Philps, Wallace and Craig played a great combination. Craig scored two goals off fouls, as did Wallace, and Craig and Black also scored two each by accurate shots at the basket from the field.

For the Third Form Clarke played a strong game but was inaccurate in his shots. He had a hard man to watch in Wallace.

The game ended in a score of six goals to none in favour of the Fourth Form.

Basket ball is a new game to Peterborough, but has been carried on most successfully in Toronto for some years. It was introduced by Sgt.-Major Rundle to vary the nature of the gymnastic exercises at Institute and seems to be serving its purpose capitally. A football is used and the game greatly resembles rugby. A basket fastened up at each end of the gymnasium about ten feet from the floor forms the goal and the object is to throw the ball into it.

A LADY'S LAMENT OVER THE WALKS.

To the Editor of the Examiner:

MR. EDITOR,—Please inform the Town Council they will soon have some bills presented for settlement if they do not look around lively. Walking a hog-back down George street this morning, I tore a great "winkle-hawk" in my dress by catching it on what, if I were of the Bowser family, I would call a "dodgasted" nail, but which, being only my own sweet self I will call a "nuisance," which indeed it was, causing me to return home in fear and trembling lest the rag-picker should mistake me for a wind-blown rag bag and hustle me off to the paper mill, where, before I could get my mouth open to speak a speech in my own behalf, I would be converted into—not a saint, but a roll of paper,—and so return to George street, where, after running the gauntlet of the various parts of machinery necessary to the production of a newspaper, I should be sold around the town in the form of a DAILY EXAMINER. Lest such be the fate of myself and my sisters of the town, I hereby make my moan.

Yours truly,
ONE IN TROUBLE.

THE COLD SWEAT OF HEART DISEASE.

Is Dispelled in 30 Minutes by Dr. Agnew's Cure for the Heart.

The thousands who suffer from heart disease will understand what is meant by Mrs. Roadhouse, of Willscroft, Ont., when she says:—"Cold sweat would stand out in great beads upon my face." With everyone who suffers from heart trouble it is a death struggle, for it is hard to say when the cord of life will not snap with this disease controlling the system. In the interests of human life, let all who suffer from heart trouble always act promptly, and use a remedy that is effective. Death may easily occur if it is a case simply of experimenting with medicines that are not specially intended to remove the trouble in this direction. Dr. Agnew's Cure for the Heart is a heart specific, and will give relief within 30 minutes after the first dose is taken, and cure permanently, as many have already testified through these columns. Sold by H. S. Macdonald.

Y. M. C. A. NOTES.

"If ye then be risen with Christ, seek those things which are above."

A full attendance of singers to-night is requested.

The training class will not meet to-morrow.

The hall should be packed at 7.30 to-morrow with those who own Jesus as Lord. The meeting is under C. E. auspices and a hearty invitation is extended all to be present.

Will every Y.M.C.A. man turn out at 4.15 to-morrow? The chorus club will be present in force, and President Parker will give a short address.

RUPTURE.

Mr. B. Lindman, of Toronto, manufacturer and proprietor of the celebrated Wilkinson Truss, will be at the Oriental Hotel in Peterborough, on Tuesday and Wednesday, the 7th and 8th of April, for the purpose of fitting those suffering from hernia or rupture. The excellence and simplicity of the Wilkinson Truss are well known, being most highly endorsed by those wearing them or having used them, from the Atlantic to the Pacific, as also by every physician and surgeon in Toronto, without exception. You have no doubt noticed the temporary relief and the ease with which the rupture may be reduced and retained for a time by the fingers; the action of the Wilkinson Truss is similar to that of the human hand, not only reducing but fully retaining the rupture; it has no complex attachments, it is simple, it is perfect. Mr. Lindman will be glad to see you at the Oriental in Peterborough on the 7th and 8th of April. Success attends the Wilkinson Truss everywhere. Unfortunately there are so many more or less worthless trusses in the market that confidence in trusses has been lost by many. But this is the age of progress and we can assure those requiring a perfect truss that this is the truss par excellence. 2d2w

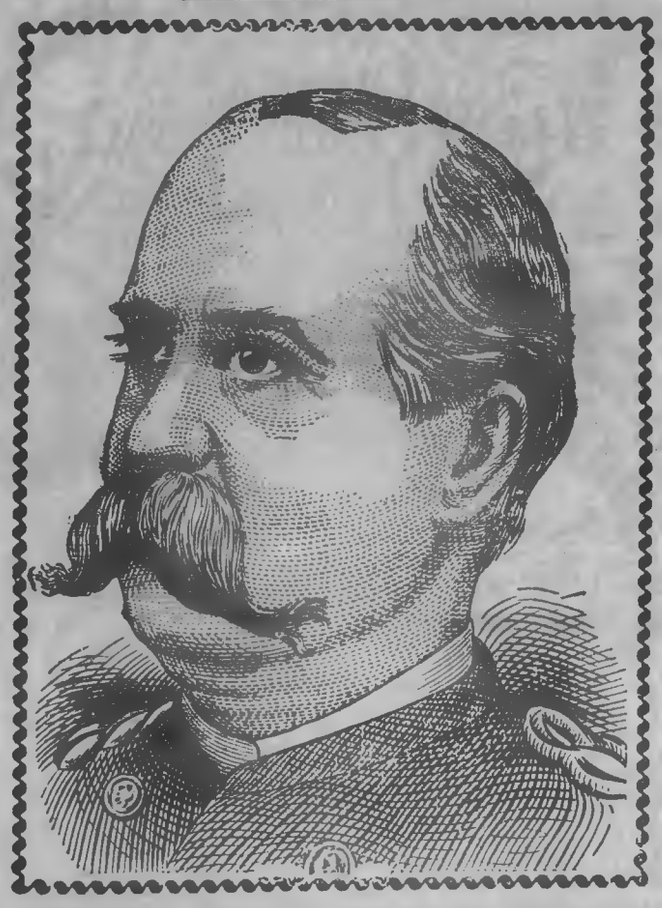
COL. JOSEPH L. FOLLETT.

One of Sheridan's Commanders Saved by Paine's Celery Compound.

The Great Spring Medicine is a Boon to Men and Women Everywhere.



Col. Joseph L. Follett, of New York, has a national reputation, and has many friends in Canada.

At the age of 21 Col. Follett enlisted in Battery G, First Missouri Light Artillery, and soon rose to its command. At Lookout Mountain, his was the only Battery that reached the summit.

Since the war he has devoted himself to mechanical engineering, and has invented several important improvements on the sewing machine, and a bicycle that promises to be one of the surprises of next season.

The tension on the nervous system of an inventor, kept up for months and months, seriously weakened the health of a busy brain worker like Col. Follett, and his constitution, which even the hardships of war had not weakened, threatened to succumb to nervous exhaustion.

What Col. Follett has to say in regard to his restoration to health, cannot fail to carry great weight. In a letter to Wells & Richardson Co., he writes :—

"When suffering from mental exhaustion and a generally disorganized system, and overwork, I used Paine's Celery Compound.

"The compound acted like a charm on my bowels and kept them in fine condition and I experienced great relief from my brain troubles.

"I have not used Paine's Celery Compound for six months, but I shall when in need of a tonic and general regulator of the system. I have recommended it to a great many, and every one who tried it got relief.

"It is the best general remedy I ever used or knew anything about."

When the nervous system has become weakened from any cause, Paine's Celery Compound builds it up as nothing else can. It makes people well.

People in every walk in life have reason to be grateful to Prof. Phelps of Dartmouth, the eminent scientist who discovered Paine's Celery Compound. He understood the peculiar needs of the nervous system; he knew that the backache, headache, sleeplessness, loss of appetite, and disordered blood all mean that the nerves are weakened and inadequate to the demands upon them. The experience of thousands has proven all over this broad country that only Paine's Celery Compound will give health to the nerves and through them to the entire body.

Colleges conferred upon Dr. Phelps their highest honours for his invaluable investigations in medicine, but all this seems insignificant in comparison with the chorus of gratitude that has gone up all over the world from men, women and children, who have outgrown weakness and the lack of health by the use of Paine's Celery Compound, the most wonderful nerve and blood restorative.

ALL MAY RIDE ON SLEEPERS.

Second-Class Tickets Will Be Accepted on This Railroad.

Chicago, April 3.—The Chicago Great Western road has given notice to the chairman of the Western Passenger Association that it will accept second class tickets for passage in first-class Pullman sleeping cars.

This is the first time in the railroad history of this country that a road has publicly announced that it would do this, and the action may lead to a revolution in sleeping car charges.

The road says that it has been forced to make a change in its sleeping car rules on account of the tourist sleeping car competition of other roads.

STEEL MEN IN NEW YORK.

They Will Maintain the Price at $20 a Ton for the Present.

New York, April 3.—The conference of the Bessemer steel manufacturers, which was opened at the Hotel Waldorf yesterday, was continued to-day. The proceedings were behind closed doors. After the meeting, G. T. Oliver of Pittsburg, said: "We have accomplished the object for which we met. The proceedings were harmonious. We carried our program fully into effect."

"Will you explain the result of the day's proceedings ?" was asked.

"I can say that to-day we have arranged the details of which we decided upon as a whole at yesterday's session. The manufacturers decided to maintain the price of steel for the present at $20 per ton. There have been no restrictions made as to the amount of steel which shall be manufactured by any particular firm or firms; but it will be understood that all manufacturers will exercise good judgment in seeing to it that the market is not too greatly overstocked. Business is to be conducted in accordance with the actual law of demand and supply."

Bismarck Prostrated.

Berlin, April 3.—As a result of his obstinate resistance of Dr. Schweninger's entreaties to abstain from receiving deputations, Prince Bismarck suffers to-day from a nervous prostration, and is undergoing much pain from rheumatic spasms. He obeyed his physician's orders during the day, but late in the evening he braved the rain and the moist atmosphere, donned his uniform and reviewed a torchlight procession and addressed a Hamburg deputation.

Death Through the Kidneys.

Hardly any organs of the human system play a more vital part than the kidneys. A derangement of these, even to a slight degree, will lead to trouble that is likely, if not stayed, to prove fatal. There is only one way for the system to be rid of this disease, and that is by trying a medicine that will act specially, and is a specific for kidney disease. This is the strong factor in the great South American Kidney Cure. It is prepared specially for these organs, is radical in its banishment of disease located here, and rich in the healing powers necessary to complete restoration. Sold by H. S. Macdonald.

BRITISH TROOPS ARE ACTIVE.

Ten Thousand Men Between Assouan and Akasheh—Dervishes Gathering Strength.

New York, April 3.—A special to The Herald from Cairo says: The demand for war news here is so great that every evening we have fresh rumors of attacks and reverses somewhere up the Nile. The movement of the troops at this point has about ceased, though recruiting and forced enlistment go on vigorously. The officers of the Connaught Rangers have been given a farewell dinner, in expectation of an early forward move. There are now over 10,000 Egyptian and English troops between Assouan and Aksheh. British military men here express contempt for the hostile face of France toward the policy of England up the Nile, and regard her as pitifully unable to grapple with Lord Salisbury's diplomacy. The dervishes are gathering in strength for offensive action.

SENATOR M'LAREN, DEFENDANT.

It is Alleged That the Said Lands Belong-ing to the State of New York.

Buffalo, April 3.—There was filed with the County Clerk this morning a summons and complaint in an action brought by the Standard Ammonia Company of Buffalo against Donald Bain, Joseph C. Batchelor, Peter McLaren and Alphonse J. Bochner.

The plaintiff asks that the contract made between the parties on April 4, 1894, relative to the company's plant at Black Rock, for which Peter McLaren received $37,204, be set aside and declared void, because of the false and fraudulent representations which the plaintiff alleges were made by Mr. McLaren, who is a resident of Perth, in the Province of Ontario, and whose business agents in this transaction were Bain and Batchelor. The business of the Ammonia Company was purchased from the Toronto Ammonia Company at about the time of the making of the contract for the plant, and the papers show that the Toronto company was owned and controlled by Mr. McLaren, who is a large Canadian capitalist.

It is further stated in the papers that the plant itself, which is on Brace street, is a part of the lands belonging to the Erie Canal, and owned in fee by the State of New York, and as Mr. McLaren never owned the land, he could not convey it to the Ammonia Company. This is one of the grounds on which the plaintiff asks that the contract be set aside.

WHO MURDERED HANNAH HATTON?

The People About Holland, Man., are Excited Over This Girl's Death.

Winnipeg, April 1.—(Special.)—The authorities have not yet found any clue to the murderer of Hannah Hatton, who was found dead near Holland on Tuesday morning. The most generally accepted theory is that the girl was enceinte, murdered by her betrayer and taken to the spot where she was found. The people about Holland are in a state of intense excitement. The girl had been the housekeeper for her uncle, R. Ager, a farmer, but suspicion does not rest on him.

A fire at Plum Coulee to-day destroyed the residences of E. Steffen and Charles Nester; losses $500 each.

THE OLD POTTER HOUSE BURNED.

One of Winnipeg's Landmarks of the Boom Days in Ashes.

Winnipeg, April 1.—(Special.)—At 11 o'clock to-night fire broke out in the Potter House, and in half an hour the old building was in ruins. The Potter house was one of the leading hotels of the city in the boom days, but it has been vacant a long time. The civic authorities recently ordered its demolition, because it was considered unsafe.

Rochester Badly Flooded.

Rochester, April 1.—A number of streets in Rochester are flooded to the depth of two to four feet by the overflow of the Genesee. Many prsons were to-day rescued by means of boats. Exchange-street has the appearance of a canal.

At Fire Department headquarters on Front-street the apparatus had to be removed to safe quarters, the water threatening to inundate the building. The river is rising rapidly and it is raining.

STRAIGHT AS AN ARROW

B.B.B.

TO THE MARK.

In all diseases that affect humanity there is some weak link in the chain of health, some spot that is the seat of the trouble. It may be the liver, it may be the stomach; perhaps it is the bowels or the kidneys; most likely it is the blood. Burdock Blood Bitters goes straight to that spot, strengthens the weak link in the chain, removes the cause of the disease, and restores health, because it acts with cleansing force and curative power upon the stomach, liver, kidneys, bowels and blood.

With good red blood health is assured, without it disease is certain to come and Burdock

BLOOD BITTERS

is the only remedy that will positively remove all blood poisons. In ulcers, abscesses, scrofula, scrofulous swellings, skin diseases, blotches, old sores, etc., B.B.B. should be applied externally, as well as taken internally according to directions.

SEEMS sometimes as if the world were all wrong. Seems as if all the things we like disagree with us, and all the things we don't like, agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course, it isn't Nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are quick and easy in their action. They are in perfect harmony with Nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten something that disagrees with you. They are not violent in their effect, do not derange the system at all, and may be taken just as freely as you would take water or any other necessity of life. Once used they are always in favor. You can get the "Pellets" at any drug store. If you are careless enough to let an unscrupulous druggist sell you something on which he makes more money, it is your own fault if you do not get well.

AND ALL WASTING DISEASES should write to me for advice. I have been a close student for many years of the subject of weakness in men, the fact is, I was a sufferer myself. Too bashful to seek the aid of older men or reputable physicians I investigated the subject deeply and discovered a simple but most remarkably successful remedy that completely cured me and fully enlarged me from a shrunken, stunted condition to natural strength and size. I want every young or old man to know about it. I take a personal interest in such cases and no one need hesitate to write me as all communications are held strictly confidential. I send the recipe of this remedy absolutely free of cost. Do not put it off but write me fully at once, you will always bless the day you did so. Address,

MR. EDWARD BLAKE INDISPOSED.

The Canadian Statesman Suffers a Spasm of the Glottis While in the Lobby of the Imperial House.

London, April 1.—Edward Blake, the Canadian statesman, was suddenly seized with illness in the lobby of the House of Commons last night and fell down. His face was ghastly pale, and he was attacked with such a violent fit of coughing that he appeared to be choking. The Irish members and officials searched for doctors, but not one was in the House. After a glass of water, Mr. Blake recovered, and said he was subject to like attacks, but he left the building looking ill, much to the alarm of the Irish circles.

Mr. Blake was seen this evening. He explained his indisposition by saying that he caught cold during his recent voyage from New Zealand, and the recurring cough resultant therefrom produced a spasm of the glottis. He was improving steadily under the very best medical advice and treatment. There was nothing serious in his ailment, he said, although he had a rather severe spasm in the lobby of the House of Commons last evening, which, however, had not recurred.

Mr. Blake said that he would leave town to-morrow for rest and recreation during the Easter recess.

THOSE BABIES GOT MIXED UP.

A Case in Which the Buttercup Episode in Pinafore is Repeated by a Zealous Doctor.

Shamokin, Pa., April 1.—Mrs. Jane Norton of Irish Valley and Mrs. Hannah Foster of Trevorton, mother and daughter, are probably in the most remarkable dilemma ever known, and there is apparently no way out of it. Each had a child born to her in Mrs. Norton's home at the same hour, and in his hurry the physician placed both children in the same cradle without paying any attention to whom each belonged.

Now they are mixed up, and Mrs. Foster is unable to tell whether she is nursing her son or her brother, while Mrs. Norton is equally disconcerted to know whether she is going to rear her granddaughter or her own daughter. The case is a peculiar one in more ways than one.

The physician who had been summoned to attend Mrs. Norton had to officiate at two births, one a boy and the other a girl. After the children were born, and each mother asked to see her child the physician was puzzled. Both infants looked alike, and for the life of him he could not determine to whom the boy belonged and to whom the girl.

Mrs. Norton proved generous, however. She said that her family contained several boys, and if her daughter would like to have the male offspring she would consent. Mrs. Foster embraced the opportunity with alacrity, although to their dying day neither will be able to say whether she is rearing her own child or that of the other.

BISMARCK'S 81ST BIRTHDAY.

The Germans Do Honor to One of Their Greatest Fellow-Citizens.

Friederichsruhe, April 1.—The 81st anniversary of the birth of Prince Bismarck was celebrated to-day with great enthusiasm. The weather was clear and cold, and the sun shone bright. From the railway station, the postoffice, the castle gates and many private buildings, flags were flying in profusion, and by noon there were many other evidences of celebration.

Crowds of villagers and strangers assembled at the entrances to the castle park, which were guarded by gendarmes, who rigidly excluded the public therefrom. The bands of the Ratzeburg Chasseurs, the Hamburg 76th Regiment and the Altona Thirty-first Regiment arrived at 11 o'clock, at which hour a cartload of flowers arrived at the castle, with a great number of presents for the ex-Chancellor. The mail brought a package from Naples containing a present from the Emperor.

Prince Bismarck was out of bed at 11 o'clock as usual, and was congratulated by the members of his family. While he was eating breakfast the bands played outside the castle. When the Prince had finished eating he was congratulated by Gen. Von Walderse and a deputation of officers of the Halberstadt Cuirassiers, and the Ratzeburg Chasseurs. Presents arrived throughout the day from all parts of the empire. They were costly and varied, and comprised many samples of special industries.

THE KAISER WAS IN DANGER.

Entire Imperial Family in Peril of Death on the Rail Near Genoa.

Berlin, April 1.—Kaiser Wilhelm and the Imperial party had a narrow escape from death on the rail a few days ago shortly before the Imperial train reached Genoa.

From some unaccountable reason the facts were suppressed, and only to-night the truth is learned, and that through intimate friends of one of the attendants of the Imperial party.

In a letter describing the trip, he says that, while halting before the Konco tunnel to repair a brake, an express train came flying through the tunnel on the same track on which stood the Imperial train. The train hands, who saw the flyer coming, seemed paralysed with fear, and to have lost their courage; nor was there time to warn the Imperial passengers.

It is due to the vigilance and the presence of mind of the engineer of the express train that no catastrophe occurred. He managed to bring his train to a full stop only within an inch or the cowcatcher of the Imperial train.

As there is a long stretch of high trestlework immediately back of where the trains came together, the German Emperor and his party might all have perished but for the engineer's brave and timely act.

A PRECIOUS MANUSCRIPT.

Copy of the Gospel Dating Back to the Sixth Century Discovered.

London, April 1.—The Daily News will to-morrow print a despatch from Constantinople saying that an ancient and beautiful manuscript copy of the Gospel, dating back to the sixth century, was recently found in Asia Minor. It is written on the finest and thinnest of vellum, which is dyed purple. The letters are silver, except for the abbreviations and sacred names, which are in gold. Representatives of English and American Universities have unsuccessfully sought to obtain possession of the precious manuscript, it having been secured by Russia.

MIKE SLATTERY AND THE THIEF.

The Baseball Player Was Stabbed But He Stuck to His Man.

Boston, Mass., April 1.—Monday afternoon, Mike Slattery, the well-known baseball player, was cut to the bone in the left leg by a dirk in the hands of Con. Murphy, alias Charles E. Burke, who was trying to escape apprehension for the theft of a coat and waistcoat in McMann's clothing store, where Slattery is employed as a salesman. Slattery caught Burke and, despite his wound, held him until help arrived. Burke says he lives in Chicago. Slattery's wound is not perilous.

Shaving on Sunday.

Albany, April 1.—The Assembly has adopted the Cutler amendment to the bill amending the Sunday barbering law, which allows barber shops to keep open generally on Sundays throughout the State up to 11 a.m., and the bill as thus amended was ordered to a third reading.

BOOTHS ARE BITTER ENEMIES.

There Will Be No Interview Between Ballington and His Sister—The Commander Will Consider No Propositions.

New York, April 1.—Commander Booth-Tucker, recently appointed to take charge of the Salvation Army in this country, arrived to day from Liverpool on the steamer Majestic. He was met at the pier by a large delegation from the Salvation Army.

There is at present no apparent likelihood of a meeting between Ballington Booth and his sister, Mrs. Booth-Tucker. That the two are at daggers drawn is shown by a statement issued by Ballington in which he says that in consequence of misapprehensions which had been made he had refused to have an interview with his sister except in the presence of witnesses, and then only as brother and sister. To this Mrs. Booth-Tucker returned no answer, and the two will not meet.

On Monday Mrs. Booth-Tucker's child died in London, and she telegraphed the news of her affliction from New York to Ballington, who was in Philadelphia. The expected consolatory message did not arrive, and the Commander was taken to task for his want of sympathy, his sister writing that he was not the brother who in childhood had prayed at her side. His reply did not pour oil on the troubled waters, and the episode, added to the existing friction, eventually put a stop to all amicable negotiations between Ballington Booth and the Salvation Army.

The Commander is perfecting the organization of the Volunteers, the army which is to eclipse, if possible, the S.A. in America.

RHODE ISLAND REPUBLICAN

Lippitt Elected Governor By Almost 10,000 Plurality—Only Six Democrats Won.

Providence, R.I., April 1.—Returns from the election at midnight indicate that Lapitt (Rep.), for Governor, is elected by almost 10,000 plurality. The entire Republican ticket is elected by slightly reduced pluralities. The campaign was apathetic in the extreme, and the disorganized Democracy made practically no fight. There will be but six Democrats in the Legislature, against eight last year. There was something of a fight against license in this city, but the no-license movement was defeated two to one. The entire Republican city assembly ticket was elected by over 2000 plurality. The city went Democrat last fall.

DEATH OF MR. G. W. LAWRENCE.

One of Stratford's Leading Citizens Succumbs to Heart Failure.

Stratford, Ont., April 1.—Mr. G. W. Lawrence, of the firm of G. W. Lawrence & Son, barristers, and treasurer of the city, was taken suddenly ill last evening and died this afternoon. He was in his office yesterday and apparently in his usual health, and went to his son's house for tea. Shortly after arriving there he was stricken with heart failure, and gradually grew worse. Deceased was in his 65th year, and had been a resident of Stratford for about 40 years and treasurer of the corporation for over 30 years.

MRS. MAYBRICK'S SENTENCE.

Lord Chief Justice Russell Favored the Woman's Release From Prison.

London, April 1.—The Release Committee has communicated to Lord Russell, the Lord Chief Justice, the refusal of the Home Secretary, Sir Matthew Ridley, to release Mrs. Maybrick, who is now serving a life sentence for poisoning her husband. Lord Russell replied that he was greatly disappointed at the result of the decision, adding that he himself had communicated to the Home Secretary a strong opinion that the prisoner ought to be released.

LARRY DOYLE WILL DO ONE YEAR.

Convicted on His Pal's Evidence of Robbing the Orangeville C.P.R. Station.

Orangeville, April 1.—The adjourned trial of Larry Doyle and John Gilson was held in the Court House to-day, both charged with the burglary of the C.P.R. station here on Jan. 25. The case created considerable excitement. Gilson turned Queen's evidence, with the result that Doyle got one year in the Central and Gilson one month in the common jail. Gilson was apparently the tool of Doyle, who has a bad record, having served two or three terms in prison before.

BEYOND RECOVERY.

The Boy LaFlamme—His Cure was a Surprise—A few Boxes of Dodd's Kidney Pills.

PAPINEAUVILLE, March 30 (Special)—The father of the boy LaFlamme, one of the leading merchants here and willing to talk of his son's cure, he says—"My little boy Arthur, after scarlet fever about a year ago never recovered and his ailment ran into a kidney trouble. His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

JUMPED OFF A MOVING TRAIN.

Death of an Ottawa Young Man Who Got on the Wrong Car.

Ottawa, April 1.—What proved to be a fatal accident occurred at the C.P.R. station last night. G. Cloutier, a Lower Town young man, accompanied a friend, Etchier, to the station to see him off on the Gatineau Valley train. Both men had been imbibing a little, and got on the Prescott train by mistake, which was standing at the outside platform. After the train had started to move, Etchier discovered his mistake and jumped off, landing safely. His unfortunate chum, in attempting to do likewise, fell between the steps of the two coaches, and the four wheels of the rear end coach passed over Cloutier's legs, mashing them to a jelly. Clouthier died this afternoon.

Foaming Ivorine Whitens the Teeth

Dentists are delighted at the admirable qualities of Ivorine, the new preparation for the teeth. Commendations from the dental profession carry the assurance that fragrant Ivorine is free from the admixture of enamel destroying substances, often the most marked characteristic of tooth powders and that it is the most efficient cleanser yet discovered. Ivorine cleanses from discolouration and whitens, hardens the gums, and imparts to the breath a delightful fragrance.

GOOD ADVICE

ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

ANOTHER NIAGARA BRIDGE.

This One Will Cross the River Near Lewiston—Round Trip for Tourists.

Lewiston, N.Y., April 1.—The bill providing for a bridge across the river near the site of the bridge burned many years ago has now passed both Houses, and it is expected that the upper Suspension bridge at Niagara Falls, which is to be replaced by a new arch bridge, will be taken down and placed in position here some time during the coming summer. Connections will be made between the Gorge road and the Park-road on the Canadian side, so as to afford tourists a round trip on both sides of the falls and rapids.

Work on the Frontier Electric road between here and Youngstown is to be commenced next week and an effort will be made to complete it in two months.

MADAME DERY'S JOY.

THE REASONS THEREFOR SET FORTH IN A SWORN DECLARATION.

Rheumatism Confined her Fifteen Year Old Daughter to her Bed, but two Bottles of "Kootenay Cure" Completely Restored her.

County of Carleton, to Wit:

I, Francois Dery of the City of Ottawa, in the County of Carleton, do solemnly declare, that I live at 227 Church street, City of Ottawa, and that my daughter, who is fifteen years old, was afflicted with rheumatism. So bad was her case that she was confined to her bed. She began taking "Ryckman's Kootenay Cure" in April, 1895.

Two bottles of the remedy were used by her, which completely cured her. It also improved her general health. I recommend the medicine. And I make this solemn declaration, conscientiously believing it to be true and knowing it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act.

(Signed) Madame Dery.

Taken and acknowledged before me at the City of Ottawa, in the County of Carleton, this 21st day of Feb., 1896.

(Signed) Joseph R. Esmonde, Justice of the Peace for the County of Carleton.

"77"
FOR SPRING COLDS.

The most tantalizing of all are the colds of Spring, Influenza with its running rivulets, requiring the ever-ready handkerchief in hand, and so dangerous, after the long siege of winter, the system is in just the condition for La Grippe, and the slightest carelessness, in dress or exposure, may bring on the chill, pain in the head, or back-ache, the first symptoms of Grip or Pneumonia.

"77" is a shield between you and danger. When taken in time, it never fails to ward off the disease, and is a positive cure for Colds, Grip, Influenza, Catarrh, Pains in the Head or Chest, Cough, Sore Throat, General Prostration and Fever.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—The street cars are again running after a long rest.

—St. John's Church will be especially decorated for Easter Day, and a special Easter offering will be made.

—Mr. Harry Calcutt has added a new vat to his brewery, the capacity of which is 448,363 cubic inches or 1,588 imperial gallons. It was built by Capt. R. Tivey.

—In a charge of assault laid against Robt. Kennedy in the police court by Thos. Cæsar this morning, the informant did not appear. The case was dismissed and the informant ordered to pay all costs.

—The formation of anchor ice in the river blocked the intake at the pump house last night and the power was cut off until about nine o'clock this morning. Workmen were put on before daylight and one set of pumps running before noon.

—The best locomotives are now built at a cost not to exceed $10,000, while in 1864 a high-class locomotive cost $25,000 to $27,000 The United States government bought fifty locomotives in war times and paid $27,000 for each of them. Good car wheels are now made for $14.50 apiece; ten years ago they cost $25 each, and in the early sixties as high as $110 was paid for wheels.

—The young ladies of St. Luke's Girls' Guild are preparing for their annual Easter concert, the management of which is under the direction of Miss M. Calcutt, Miss Bysh and Miss Armstrong. These young ladies, it will be remembered, prepared a most pleasing programme for St. Luke's last Easter concert. The entertainment will consist of two dramatic productions entitled "Beauty and the Beast," and "Two Heads Are Better Than One," and there will also be a programme of vocal and instrumental music.

PARALYSIS CURABLE.

Stricken Ones to be Seen Everywhere—This Form of Living Death Cured by Dodd's Kidney Pills.

The most startling example of human helplessness is the paralytic.

The victim excites your commiseration, but resents your pity.

He of the palsied hand stiffly pressing the benumbed side, is to be seen everywhere we go.

The most convincing proof that this pitiable condition is the outcome of kidney disease is the fact that Dodd's Kidney Pills cure it.

Not generally recognized as a kidney disease, it succumbs to kidney treatment.

Did you ever know of a cure? Just think a moment!

If you do it must have been the work of Dodd's Kidney Pills, for no other medicine ever yet cured.

SOURCE OF REVENUE.

Administration of the Crown Lands of Ontario.

PROVINCE'S MINING INDUSTRY.

Our Valuable Heritage For Farming Purposes—Interesting Features of the Lumber Trade—Work of Surveys During the Past Year—Our Provincial Parks.

Toronto, April 6.—The chief source of the public revenues of the province is its Crown Lands, and for this reason alone the departmental report which deals with the administration of those lands must always be interesting. Last year the collections of the department from all sources reached the large sum of $947,947, or nearly one-third of all the moneys paid into the Treasury of the Province. But the report tells us that there are some other things of possibly not less importance than the filling of the public treasury.

For example, there is the lumber and timber industry, which employs large amounts of capital and many thousands of laborers, besides the market it affords for provisions of all kinds, and the freight it supplies to vessels and railways. From the 17,851 square miles under timber licenses, there was cut last year 2,586,546 pieces of pine, representing 800,000,000 feet board measure, besides square timber, cordwood, pulpwood, railway ties, etc. Some idea may be formed of the value of this industry when we learn that it contributed to the department for timber dues $717,106.

ONTARIO MINING INDUSTRY.

There is also the mining industry. Last year 8924 acres were sold, and 13,846 acres leased as mineral lands; and the total receipts from sales and rentals were $41,829. But the capital and labor which the industry employs and which it gives promise of employing and of vastly more concern to the country than the revenue from the lands, and there are hopeful signs of progress visible. In the Sudbury district, the report of the Commissioner of Crown Lands states: The ore smelted in the furnaces of the nickel and copper mines last year was equivalent in metallic contents to 4,731,000 pounds copper, and 4,631,768 pounds of nickel, and the value, computed at the selling price at the works, was $566,073. Those works gave employment to 419 men, whose earnings were $210,000. But the settlers are benefited also, as good markets are maintained for all kinds of agricultural produce, and large quantities of cordwood are required. The mineral bearing formations of the province are said to extend over an area of 100,000 square miles, or about 700 miles in length by 100 to 200 miles in width, by far the greater part of which has been as yet but very imperfectly explored. It is certain, indeed, that many thousands of square miles in the northern regions of the province have never been trodden by the foot of a white man, and no one can pretend to know what riches may be hidden in them. During the last three or four years, promising gold discoveries have been made in the Huronian rocks, in a field 2000 square miles in extent, east and south of Lake of the Woods, and between that and Lake Superior there have been found also the largest known deposits of hematite and magnetic ores in the province. "The completion of a blast furnace at Hamilton will," as the report says, "it is confidently hoped, result in the establishment of a good local market for iron ore, and already some progress has been made in opening iron mines, notably in the County of Hastings and on the north shore of Lake Superior in anticipation of this demand. The immense bodies of hematite ore on the Mattawan River, and of magnetic ore on the Ttikokan River, in the western part of the province, when reached by railway communication, will supply ore excellent in quality and practically unlimited in quantity."

LANDS FOR FARMING.

But the value of our heritage to the agricultural industry is also well deserving of notice, for although the sales of Crown Lands for farming purposes are not as large now as they were 25 or 40 years ago, it must not be supposed that the province has reached the limit of possibility in this respect. There are yet millions of acres of fertile lands in the northern regions capable of sustaining a larger population than now occupies the older settlements, and when mining and farming go hand in hand, we may confidently look for as prosperous and progressive a community in the north as we possess in the south. The Commissioner of Crown Lands appears to be fully alive to the value of our new Ontario as a field for settlement, as shown by the literature on the subject which he has prepared and published, and the migrating classes in the old Ontario are beginning to understand that good lands are awaiting them at home.

In this connection it may be stated that there are 159 townships open for location under the Free Grants and Homesteads Act, and that during the past year 100,000 acres were located to settlers upon them. But the best farming lands are probably not to be found in the free grant districts, and the best farmers do not as a rule take up these lands. As evidence that the Government does not neglect the new settlers we find in the report that there was expended in colonization roads last year $116,706, with the results that 211 miles of new road were constructed, 528 miles repaired and 35 bridges erected.

THE LUMBER TRADE.

There are many other interesting features of the report which deserve mention, among them the situation of the lumber trade as a result of the depression in the United States, where our principal market is found for lumber, and the measures taken for the prevention of forest fires. The fire ranging system was adopted in 1886, and consists in the employment of a number of men in the dangerous period of the summer on unlicensed and licensed lands of the Crown where from settlement, railway construction, lumbering or other cause fire is so frequently used as to be a source of danger. Last year, although the summer was unusually dry, the watch maintained was so vigilant that only in one place was any considerable damage done by forest fires.

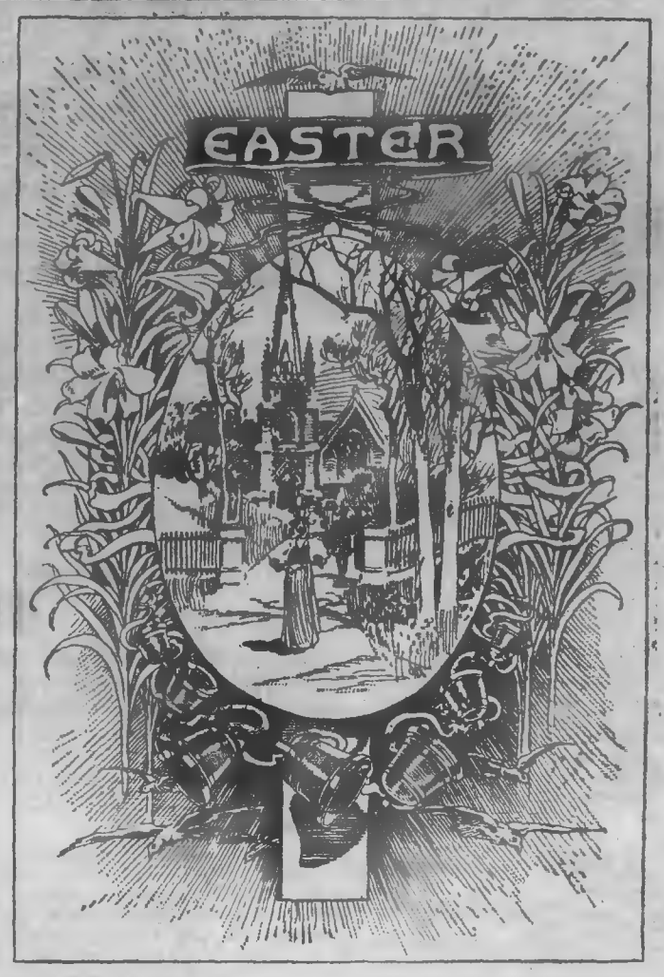
THE WORK OF SURVEYS.

The work of surveys is also worthy of notice. Last year three townships were surveyed into lots in the country north of Lake Nipissing, and two others on the Waubigoon river about 200 miles west of Fort William. These five townships are within easy reach of the Canadian Pacific Railway, all of them are well watered, and those on the Waubigoon specially contain fine agricultural land. A sixth township was surveyed near Rat Portage and a seventh on the Seine river, besides a number of base and meridian lines in the districts of Thunder bay and Rainy river. The utility of these last named surveys, the report says, has been fully demonstrated by the great impetus given to mining explorations owing to the facilities they afford for connecting mining surveys therewith and by enabling the department to prepare and publish maps of hitherto unknown regions. "A judicious extension of this system into our as yet unexplored northern regions is very desirable," the Commissioner pertinently remarks.

THE PROVINCIAL PARKS.

Nor should the Provincial Parks be overlooked—Algonquin on the north and Rondeau on the shore of Lake Erie in the west. Interesting reports are presented by the superintendent of each, showing what progress is being made in making the parks serve the purpose for which they were intended. Here is an extract from the superintendent of Algonquin Park, which illustrates how game and fur-bearing animals are increasing under the protection offered to them there: "The moose and deer, the denizens of the bush, are also increasing very rapidly, of which good evidence is presented to us when they come almost up to our doors at headquarters. A good many tracks were made and the animals themselves seen very close to our headquarters and even in our potato patch. While out last February two of the rangers and myself came across two deer and two moose yards not far apart. On one small lake or pond that we had occasion to go over we might almost have thought we were entering an immense farm-yard; and from that lake to another one not far away the path was so completely tracked and padded all the way across by the moose that snow-shoeing was almost impracticable. We had occasion to go back over this same track the following day and found that the moose had again cut up our snowshoe trail so as to make the hauling of a stove on a handsleigh very tiresome and tedious work. Another party of rangers were away at the same time near the north end of the park, and they encountered similar difficulty in traveling in three different places, having come across three separate moose yards. One would think that these animals had become so numerous in that section that they were committing murder and suicide to make room for the others, when I say that in that neighborhood two of the rangers found three drowned last spring. Two had engaged in a conflict fatal to both. Their horns had become so interlocked that they could not disengage themselves, and in the struggle both seemed to have fallen into the water. Another was found about five miles down stream on the same river that had probably met his death by breaking through the ice. In the month of June one of the rangers and myself espied two moose crossing a bay of the lake on which we were at the time, and made all haste to have a good look at the noble animals. We got within 20 feet of them, and they were certainly splendid specimens of our biggest game. These are a very few of the instances in which the presence of moose and deer was quite evident to us when on our rounds."

It seems likely that in future reports of the Crown Lands Department the reports of the park keepers will furnish their most entertaining feature. There is certainly fine scope for the forester, the naturalist and the lover of nature in recording what is to be seen and done in the parks.



THE WORK OF FIENDS.

A Most Diabolical Attempt to Wreck and Rob a Canadian Pacific Passenger Train Near Perth, Ont.

Smith's Falls, Ont., April 4.—One of the most diabolical attempts at train wrecking in the history of this province was that which was made last night, but which fortunately did not result as seriously as it might have done.

When the C. P. R. express, which left Toronto at 9 o'clock on Friday night, was but a few miles west of the town of Perth, the baggage, express and two passenger cars left the rails and were badly smashed. The engine and Pullman remained on the track. There were a large number of passengers on board, and all were badly shaken up. Those in the second class car, together with the express and postal agents, had a miraculous escape from instant death. These two cars were badly wrecked, and while none of those on the train were seriously injured, the greater number of them carry bruises and cuts as the result of the accident.

Investigation showed that the bolts had been withdrawn from the fish plates, thus allowing the rails to spread. The train was going at the rate of 35 miles an hour, and had not the engine kept the rails the loss of life would have been terrible. The train was in charge of Conductor Grant, with Engineer Dorricott. They at once went into Perth on the engine and wired to Smith's Falls for assistance. Two doctors went up on a special to attend to the wounded. The special returned to Smith's Falls about 10 o'clock this morning with all the passengers, postal matter, etc. The wreckage is being cleared away as fast as possible.

A TERRIBLE CONFLAGRATION.

Four Thousand Houses Burned and Thirty Thousand People Homeless at Santa Cruz, on the Island of Luzon.

Madrid, April 5.—A despatch from Manilla says that the town of Santa Cruz, on the west coast of the island of Luzon, 110 miles northwest of Manilla, has been almost completely destroyed by fire. Four thousand houses were burned and 30,000 persons were rendered homeless.

DEVASTATION IN CUBA.

The Rebels Are the Ones Who Are Making the Attacks.

Havana, April 4.—The rebels still maintain their offensive attitude and, despite the announcements of Government victories, they are the ones who make the attacks, though they are sometimes repulsed when they attack a superior force. They attacked the town of San Nicholas, Province of Havana, but were driven off by the garrison there, who largely outnumbered them. They then marched to Melena Del Sur, in the same province, which place they attempted to enter. Again they were repulsed, but not before they had set fire to a number of houses. They then proceeded to Guanobo, 12 miles east of Havana, and burned the village, after which they went to Hoyo Colorado. During the attacks it is said that five women, two children and three negroes were killed. Thirty-five persons were afterwards found wounded. The rebel loss is unknown. Altogether 132 houses and huts were burned.

Various reports locate Gomez near the border line between Santa Clara and Cameguey.

At an engagement between Col. Vasquez's column and 500 rebels, the insurgents lost 19 killed and 3 wounded. The fight lasted four hours.

An insurgent band led by Seayas attacked the town of San Juan de Las Veras. The garrison made an heroic defence and repulsed the rebels, who burned several houses.

VALUABLE HORSES DESTROYED.

Alonzo McDonald's Stables in Buffalo Burned Loss About $50,000.

Buffalo, April 5.—Fire at the Driving Park last night destroyed the stables leased by Alonzo McDonald, the well-known trainer, and nearly a score of valuable horses were burned to death. The fire was caused by the explosion of an oil stove in one of the cleaner's rooms. There were 25 horses in McDonald's string, most of which arrived here last Thursday. Among those which perished were Red Gothard and Blue Bird. The burned stables occupied the northeast portion of the exposition Grounds and formed a connection between two parts of the curved track, and were 200 feet in length. The names spread with great rapidity and though the fire department responded promptly to the call it was impossible to check them until the stables had been consumed. The horses, maddened by the glare of the fire and the noise of the engines, resisted the efforts of those who tried to save them and many of them had to be left to their fate, the rescuing party themselves being in great danger. The stables were owned by C. J. Hamlin and were valued at $16,000. The loss on the horses will reach about $50,000.

NEW OPPOSITION LEADER.

A day or two ago Mr. Marter, who succeeded Mr. Meredith as leader of the Opposition in the local Legislature and leader of the Conservative party in Ontario, resigned his position and the caucus of the Opposition members accepted it. Mr. Whitney, M. P. P. for Dundas, was unanimously chosen in succession to Mr. Marter. Mr. Whitney was first returned to the Legislature in 1888. He is a lawyer and a colonel of militia. Mr. Marter found the task of leading the Opposition slow work—principally productive of the development of the inventive faculties. Opposition to a Government which rules wisely and well, involves the invention of some ground of complaint, and Mr. Whitney will have a similar experience. He is a speaker of average ability, and possesser of considerable energy which he will need if he infuses much life or aggressive ambition into his numerically rather meagre following in the House.

THE Orange Sentinel has the following reference to the Ontario Legislature:—"No one can spend any considerable time in the committee rooms of the Ontario Legislature—and it is in the committee rooms that the real work of legislation is done—without being impressed with the idea that this Province has a Legislature to be proud of. There are a few schemers, but the great majority of the members—Liberal, Conservative and Patron—are men not only of integrity but of ability and experience, and whose one desire is to conscientiously discharge the duties they are called upon to perform. The work of law-making in this Province is in safe hands."

EASTER MORNING REFLECTIONS.

(Written for the Examiner.)

It has been a week of sad anniversaries, but they have all ended in the glad surprise of an incredible Easter morning. After the chill of wintry circumstance comes the glorious summer of hope and aspiration. With a painful sympathy we have followed the procession of events to the grave of the man of Nazareth, and their own eyes have looked upon a sight which made us tremble with joy unspeakable—the risen Lord. Tears of sorrow have given place to tears of gratitude, for the gates of the future have swung on their hinges and we have caught an actual glimpse of immortality. We walk no longer by a blind faith based on the probabilities of continued existence, for there stands, before our very eyes, in such substantial shape that, like Thomas, we can put our fingers in "the hand and the side," the imperial master, before whom death retired in defeat.

The culmination of this great historic tragedy was very sudden. As flax will smoulder for a time and then break forth into vicious flame, which in the

TWINKLING OF AN EYE

becomes a conflagration, so smouldered the hatred of some and the envy and disappointed ambition of others until the opportune moment came, and then the vengeful mob, regardless of orderly proceedings, took the law into their own hands and nailed their victim to the cross.

If we had walked the streets of Jerusalem in those old days, had carefully observed the rising excitement, had watched the restless populace gathering in knots on street corners to discuss the situation, had caught a glimpse of the haughty Pharisees as they passed by with that peculiar smile which the successful conspirator always wears, had noted the tremulous despair in the bearing of the disciples and the calm resignation in the sorrowful face of the teacher, we should have concluded at once that the issue could not be postponed for long. The leaders were wily, and the mob, like a pile of shavings, might break into a consuming blaze at any moment. They were governed by unreasoning impule, and the impulse was furnished by ecclesiastical politicians who were determined to be rid of a dangerous rival.

The body, given over to the tender care of friends—for it was useless after death had been assured — was placed in the sepulchre as the sun sank behind the hills on Friday. There was an air of triumph among the officials and a kind of dazed bewilderment everywhere else. They were sleepless nights—that of Friday, and also of Saturday—for those who had hoped the Messiah had come, but were compelled to confess their mistake. For the moment Christ seemed to be merely an enthusiast, a lover of his people, a patriot doubtless, but still an enthusiast and nothing more, a man who was ever kindly to the unfortunate, but after all a pretender, self-deluded, and perhaps over-boastful.

Then rose the sun in a cloudless Judean sky on Sunday morning. Outside Jerusalem the landscape stretched itself in picturesque beauty and placid fruitfulness. But there was no overture of angels as when the babe lay in the manger and the inhabitants began their day's work with

THE PITIFUL CRY

of past events still ringing in their ears. Ere yet the morning meal had been tasted the city became resonant with strange rumours. Fathers and mothers looked at each other in wonderment, and possibly shrugged their shoulders in doubt. They must have even regretted that the closed book was not allowed to remain closed, for the rumour was at best a bit of folly, a figment of some wild and heated imagination, set afloat for an unworthy purpose. As to its credibility, that was out of the question. There is a limit, said they, even to the possible, and that limit is certainly reached when one lies in his shroud with a fatal spear wound in his side.

But the rumour was persistent. The air vibrated with it. It was a whispered rumour but so imperative that it commanded attention.

"He is Risen," was the cry with bated breath, and then, as memory recalled His words, it was added, "as He said." Little wonder that the spreading news made the Pharisees quail with fear and filled the populace with curious and awe inspiring expectancy. What might not happen if He could really come back from the grave? To keep one's promises during life may seem an easy matter, but to promise to rise again after the door of the tomb had been securely barred, and to fulfil such a promise—ah, that is very different. If, therefore, the followers of the Nazarene were bewildered over His crucifixion and burial, how much more were they bewildered when convinced that the impossible had happened.

As long as the race continues, as long as the moon pursues her silvery course through the heavens, as long as the stars glisten in the diadem of night, so long will Easter morning be unlike any other morning in the year. It is the bridal day which greets us with the assurance of eternal love. The world's great heart no longer resembles a muffled drum, but beats with divinely inspired hopes. With moist eyes we look at the mound where rested the loved one, but with grateful hands we scatter flowers thereon. "He is risen!" And we, too, shall rise. The years may come and go as they will henceforth; they may bring whatever fortune He thinks best—our sojourn is but short and then the heavens will open. Like soldiers, we sit around the camp fire for a night only; death is the glorious morning when we shall take up our march for fairer lands.

In every life there is a Gethsemane, and in every life a Calvary. But Easter morning comes at last, and with it joy and peace.

Be patient in the darkness, for the sun will soon be above the hill tops. The grave is no one's home—it is only the resting spot from which the soul takes its flight to other climes.

Tears for the departed will keep the grass of the cemetery green, but behind the tears at separation is the hope of reunion. Even earthly love may be eternal, for God will not part for long the souls that really belong to each other.

First a toilsome and burdensome day; then cometh the night, in which no man can work; after that the new life in the presence of God.

Washington, April 5.—Mr. Fry has given notice that he will call up the Extermination of the Fur Seals bill.

The proposed treaty with Great Britain for the appointment of a commission for the consideration of damages growing out of the seizure of Canadian sealing vessels still remains to be finally acted upon in executive session, the State Department urging the Senate to abandon its intention of amending the text of the convention as submitted.

A Tug Blows Up.

Antwerp, April 5.—The boilers of the tug Virginia, plying between Ghent and Antwerp, exploded to-day when the vessel was near Termonde. The captain escaped, but the crew of four men were killed. The explosion caused the sinking of a barge and the drowning of eight persons who were aboard of it.

A Boy's Life Saved

"One day my little boy, aged 7, got a fall and hurt his knee. Inflammation of the knee joint set in and the decay of the bone of the leg rapidly followed. Doctors removed over a hundred pieces of decayed bone, but the process of decomposition continued. All attempts to stop it failed. The boy had but a few days' life before him according to all human expectations. Mr. Denham, druggist, Petrolia, advised me to try Scott's Sarsaparilla, I did so, and not only saved but completely cured my boy."—JOSEPH DUNCAN, farmer, Lambton County, Ont.

FROM THE OLD WORLD

Mr. Isaac N. Ford's Chat Over the Atlantic Cables.

ENGLAND'S GREAT PROSPERITY

As Indicated by the Elasticity of Her Revenues—Situation in Matabeleland Not So Critical as Generally Believed—War Cloud in the Soudan—American Politics.

New York, April 5.—Mr. Isaac N. Ford cables from London to The Tribune: Diplomacy and politics are bad form during Easter recess, and there is little of either. The rumor-mongers have found it difficult to adapt themselves to the transitory period of calm after three months of storm and stress. There was much mysterious chatter about the despatch of 25,000 British troops to the Cape under the pretence of putting down the Matabele revolt, but really for the purpose of coercing the Transvaal. Mr. Chamberlain was vaguely reported as favoring this course, but unable to convince Lord Salisbury that it was necessary to offend Germany so soon after England had renewed her policy of co-operation with the Triple Alliance by aiding Italy indirectly in the Soudan. This incredible story finally got into print in diluted form, and 5000 men, it was said, would be sent to South Africa. The officials, however, made short work of it with immediate denials.

The situation in Matabeleland, while still serious, is not critical. Wires are cut and guards have been attacked, but the savages are not Boers. Cecil Rhodes is safe in Fort Salisbury, and the Cape officials can probably restore peace in the British dominions without reinforcements from England, the sending of which might lead to a renewal of the intrigues between Pretoria and Berlin. President Kruger's grim joke of offering the help of the Burghers in establishing order and rescuing women and children has tended to light up the prosaic situation with a gleam of humor. The sturdy Boer is a sharpshooter even when he jests, and he hits the mark.

The war cloud in the Soudan is hardly large or black enough to darken the gaiety of the Easter recess, despite the energy displayed in enlarging it. To Dervishes lying in ambuscade in Dongola are now added Dervishes swarming around Suakim. The frequently-deceased Osman Digna, whose obituary has been printed periodically in recent years, is again on the warpath across the desert or else his ghost is revisiting by glimpses of the moon. The situation in the Soudan is hardly serious enough to justify a hot weather campaign; the real military work will be deferred until autumn.

Paris is in the true centre of the Nile complications. M. Bourgeois, now his own Foreign Minister, has been driven into a corner, and, with his back to the wall, has been fighting for life. While he was attacked twice and defeated once in the Senate, his real defence was conducted in the popular chamber, where the Deputies were eager to enjoy the Easter recess, and content to allow him to hold his ground after a drawn battle in debate. He made good use of the plea that the premature disclosure of their diplomatic policy would embarrass the Government and compromise their relations with Russia. More audacious was his contention that the unimpaired maintenance of the Turkish rights over Egypt was an essential condition of European peace. This would imply that France, in resenting the English occupation of Egypt and protecting the right of the Sultan to misgovern his whole Empire, is acting not for herself, but for Europe.

The logic of M. Bourgeois is not convincing, but it has sufficed to command a vote of confidence. The Ministry has another breathing spell, for its defeat in the Senate means nothing since Ministers are not overthrown there.

American questions are in the background, with only desultory comments upon them. Ex-Minister E. J. Phelps' remarks on the inapplicability of the Monroe Doctrine to the Venezuela dispute and the guerilla warfare of the so-called rebel banditti of Cuba are received more cordially here than President Diaz's message to the Mexican Congress on the homogeneity of interests of the American continent. Major McKinley's nomination is forecasted by The Chronicle, one of the most intelligent London journals, as regards American affairs. McKinley is not likely to prove a popular candidate in England, although, with Mr. Chamberlain now on record as in favor of restricting free trade to a British Zollverein with so-called revenue duties on corn, sugar and other food products in the interest of Imperial Federation. American protectionism ought to be less objectionable here than it has been. Moreover, English critics can hardly be surprised if Americans rally around a candidate pledged to the principle that a surplus is better than a deficit. American finance once excited despair among English critics, but lately only contempt, since they contrast the Washington deficits with their own tremendous wave of swollen revenue.

The general prosperity of England is indicated by the elasticity of the revenues, due in large part to the improvement of trade with America. This continues with occasional lapses, due to overstocking the American market. For example, the exports of woolen goods from Bradford during March are nearly $900,000 less than for the same month last year, and the exports of cotton goods from Manchester declined $100,000 on the same basis of comparison; but the trade of both towns with the United States has greatly increased since the passage of the Wilson tariff. About the last thing which the woolen, cotton, iron and pottery trades in England want is a change from the Wilson to a more protectionist tariff. The Sheffield exhibit is a more accurate demonstration of the utility of a lower tariff in the United States, from an English point of view. During the last quarter, exports from that consular district to the United States have increased $262,210, as compared with the previous year. It is said in the west riding of Yorkshire, where the exportation of worsted coatings has increased 600 per cent. under the Wilson law, and where the trade in stuff goods with America has been quadrupled, that the name of McKinley is spoken of with a shudder.

The education bill, introduced a few hours before Parliament rose, bristles with controversial points. Instead of being a religious measure exclusively for sectarian schools, in which four out of seven of the Welsh and English children receive their primary education, it is a broad scheme, for unsettling every question settled by Mr. Forster 26 years ago, and revolutionizing the administration of the whole school system. Liberals and Non-Conformists have expected a measure which they could condemn as an example of sectarian bigotry, but they are surprised to find that ground cut from under them by a curious expansion of the conscience clause. The bill provides that a reasonable number of parents may secure any sectarian teaching for their children in any school aided by the state, whether it is a voluntary or a board school. Apparently there is nothing to prevent Roman Catholic or Church of England parents from having their catechism taught in the ordinary board schools, where they have been reluctant to have their children educated; nor is there anything to prevent Non-Conformist parents may have their catechism taught in Roman Catholic and Church of England schools, which will henceforth receive a large measure of financial aid from the state.

This proposal, while unsettling, is not open to criticism on the ground of religious bigotry. The Liberals also expected to condemn the new measure as a merciless assault upon the school boards. So it is. The authority of the school boards will be greatly impaired by the proposed measure, and the functions of the Education Department at Whitehall will be paralyzed; it is nothing short of revolutionary. It decentralizes the administration of the whole system; it brings all primary schools, sectarian or board, and secondary and technical schools also, under the direct control of the country and borough councils, which hold the purse-strings.

The Liberals, who have stood for the principle of local administration and have championed the County Councils, will find it difficult to object to the creation of a local Department of Education in every county, with committees which represent the elective body in control of the schools. The new bill, while containing many useful features, like raising the age limit for compulsory attendance to 12 years, and while rendering the whole system more flexible, really turns out expert talent from the management in Whitehall and the local school boards and brings in amateurs from the County Councils. The hostility of the school boards of expert educators is excited at once. Moreover, patrons of the sectarian schools, while relieved by the prospect of financial support from the State and by the removal of discriminations against their schools, are alarmed by the menace of local superintendence and by the contingent provisions for having other catechisms than their own taught under their auspices.

The bill will probably make more enemies than friends for the Government. The remainder of the session will be largely occupied with it, and the Liberals are likely to profit by so unsettling a compromise measure. Their Irish members will probably vote with the Government, since Cardinal Vaughan professes to be satisfied with the measure; but astute leaders like Sir William Harcourt, Mr. Morley, Mr. Asquith, Mr. Bryce and Mr. Acland, can hardly fail to harass the Unionist majority.

THE FEELING IN MANITOBA.

Case of the Province Generally Believed to Have Been Strengthened by the Winnipeg Conference—The Bill at Ottawa.

Winnipeg, Man., April 5.—(Special.)—Expressions of opinion on the compromise school measure submitted by the Federal commissioners and the reply of the Manitoba Ministers thereto are heard on every side, and from careful scrutiny your correspondent is assured beyond doubt that the Manitoba case is greatly strengthened as a result of the conference. It is safe to say that not one supporter of national schools objects to the concessions offered by Manitoba, while on the other hand scores of people who were somewhat in sympathy with the Catholics now declare that nothing but State aided Separate schools will satisfy the minority, and that all the remainder of the population may as well unite resolutely against them. Manitobans are anxiously watching events at Ottawa, earnestly trusting that the anti-remedialists may prevent the bill passing. The people may then be trusted to send a solid delegation to the next Parliament pledged to resist any interference with the educational affairs of the province.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. Total Cost for 10 Years	$ 860 00
Bonus Addition to Policy	1062 50
Balance of Profit over cost of Insurance	$202 50

The above figures simply mean that in addition to the face value of the Policy, viz:—Five Thousand Dollars, THE CANADA LIFE CO. have returned every premium paid for carrying the Risk during the Ten Years, together with the further sum of $202.50, or, in other words, have given back all premiums paid, with COMPOUND INTEREST at the rate of 3 per cent. per annum.

IT PAYS TO INSURE IN THE

CANADA LIFE.

Its Rates are the Lowest and Profits the Largest.

Intending Assurers would be consulting their own interests by getting figures and facts from the undersigned before placing their risks elsewhere.

What are you wearing On your feet this weather?

There is style in footwear as there is in hats. Each year the Granby Rubbers and Overshoes are modelled to fit all the fashionable shapes of boots. They are thin so as to prevent clumsy appearance and feeling and to make them so necessitates the use of the finest quality of rubber. While Granby Rubbers and Overshoes are up to date in Style, Fit and Finish, they retain their old enduring quality.

Granby Rubbers wear like Iron.

RECHERCHE MILLINERY.

The Brightest and Best is the Surest Way to Attract Patronage.

Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

Smashed Prices—Important to Ladies

Sacrificed at half price, a splendid quality of Parasols. These are snaps. Remember, no reserve at the great dry goods' sale of the Armstrong stock, now going on next door to the Bank of Toronto, George street.

Board of Trade.

The attention of business men in general is called to the announcement that Mr. Stapleton Caldecott and Mr. Edgar Wills of the Toronto Board of Trade will give addresses in Council Chamber to-morrow evening under the auspices of the local Board of Trade.

Evangelistic Services.

Rev. J. B. Moore, the well known evangelist, will conduct the morning and evening services at the Park street Baptist church next Sunday, inaugurating a series of evangelistic services, which he will hold during the following week. On Tuesday evening next special preparatory services will begin and continue through the week in the church.

At
ELLIOTT'S
You can get
Delicious California Evaporated Peaches, Nectarines, Pears, Apricots and Plums. These fine goods are cheaper than our own preserved fruits and much superior.

Increasing.

A comparative statement of the growth of the Presbyterian church in Canada shows that in twenty-five years the number of ministers and missionaries has increased from 740 to 1,225; churches and stations from 830 to 2,700; families, from 36,000 to 98,000; members, 68,000 to 185,000; Sunday school pupils, 54,000 to 150,000; receipts from church schemes, $69,000 to $342,000; receipts from all sources, $640,000 to $3,170,000, and the average receipts from the different schemes of the church from each communicant from 87c. to $1.84.

Back Taxes.

Mr. Wm. Aldridge has for some time been busily engaged in going over the old assessor's and collector's rolls to ascertain the amount of taxes in arrears, due the town. He has had to go through over a score of these rolls, some of the unpaid taxes dating as far back as 1874. The total amount of back taxes (compound interest at 10 per cent included) due and assumed to be collectable, is between two and three thousand dollars. Mr. Aldridge is preparing his report to be presented to the council through its Finance committee.

J. W. Bengough.

In connection with Mr. J. W. Bengough's lecture before the Christian Endeavour Association in Peterborough we beg to announce that we have in stock his clever book "The Up to date Premier" at 25c each. This is called "The First Book of Lessons for Little Political Economists." While it is in words of one syllable it will prove interesting to grey heads. On Bibles, prayer books, and fancy goods we are offering a special discount of 15 per cent. to all attending the Christian Endeavour convention.—A. H. STRATTON & Co., Peterborough Book Store, 417 George street.

Apology and Thanks.

Mr. H. P. Kennedy, of Kennedy's meat market, tenders an apology to those of their patrons who were disappointed in not receiving their orders on Saturday. Although extensive arrangements had been made to deliver promptly the very large number of orders fully expected on opening day, they have to confess that the encouraging crowds which they were favoured with rendered their arrangements for delivery inadequate. The necessarily hurried preparations for opening on Easter Saturday and other circumstances over which they had no control, interfered in carrying out to the latter every detail they were anxious to accomplish. The experience thus gained, however, justifies them in assuring their patrons that in future a recurrence of similar disappointment will will be studiously guarded against. The firm take a pleasure in conveying their grateful thanks for the very large patronage bestowed on them on their opening day; and while sensible of some imperfections, which will be remedied at once, confidently bespeak a continuance of the valuable favours so liberally conferred upon them.—H. P. KENNEDY, of Kennedy's Meat Market.

REV. MR. PADY RESIGNS.

He Will Hereafter be Connected With a Toronto Congregation.

Rev. Mr. Pady, who has for some time been in charge of the Park street Baptist church, signified to the congregation yesterday that he wished to tender his resignation in order to accept an invitation to the pulpit of a church in the suburbs of Toronto, where he would be able to continue his studies at McMaster University.

While Mr. Pady was in charge of the Park street church he was only present in Peterborough on Sundays, being in Toronto during the week, but it is understood that arrangements will now be made for the installation of a pastor who will be able to give his whole time to the work.

During his pastorate here Mr. Pady won the esteem and love of his entire congregation by his straightforwardness and hard work in the interests of his charge, and it is with regret that he is allowed to sever his connection with the Park street church.

PRESENTATION AT DESERONTO.

An Address and Presentation to Mr. F. J. Rogers.

DESERONTO, April 5.—At a large and influential meeting of the business men and citizens of Deseronto, held in the Deseronto Club on Friday evening, Mr. F. J. Rogers, Manager of the Deseronto agency of the Bank of Montreal, was presented with an address, accompanied by a handsome silver service and tray, prior to his departure to take charge of the Peterborough agency, to which he was recently appointed. At the request of those present Mr. E. W. Rathbun, mayor of the town, made the presentation. Though completely taken by surprise, Mr. Rogers replied in his usual happy manner. Though only a resident of Deseronto for about three years, Mr. Rogers had the entire confidence of the business community, and all regret his departure very much.

Hands Across the Sea.

One of the best dramatic productions seen in Peterborough for many a day, was that given by Mr. Maurice Freeman and a strong company of actors. The plot was a good one commencing in the quaint old country home and gradually thickening until the climax is reached in the prison scene, where the devoted wife arrives just in time with a reprieve which saves her husband from a felon's grave. The play then goes gradually down until everything ends well on the far shores of Australia. It is very difficult to attempt to criticize the parts of the different members, but Mr. Maurice Freeman is certainly a star in his profession, taking with ease two exceptionally heavy roles. Miss Nadel Wanstan, the devoted wife, was exceptionally fine and has peculiar but good delivery. The part of Dick Milford, King of Australia, was well taken by Jas. Otley. The audience was kept in roars of laughter by the amusing antics of Tom Bassett and Lucy Neleiford who imagined each loved the other, particularly in the scene on the deck of the S.S. Australasian. Mr. Geo. Mach made a great hit in two of the latest popular songs.—Peterborough EXAMINER. This company makes a return engagement at the Opera House to-morrow night. Prices 25, 35 and 50c.

FARMERS' INSTITUTES.

Representatives from West Peterborough and East Durham Confer with Mr. A. W. Peart.

Mr. F. W. Hodgson, Provincial Superintendent of Farmers' Institutes, who is connected with the Ontario College of Agriculture and Experimental Farm at Guelph, has resolved upon introducing a system in connection with the hundred institutes which are in existence, and in order to draw up a set of rules and regulations for their governance, he wished to obtain the views of each and every Institute on the matter. Not having time to visit all he appointed Messrs. A. W. Peart, of Burlington; Alex. McNeil, of Windsor; Thos. McMillan, of Huron; T. G. Raynor, of Prince Edward; James Fraser, of Bradford, and D. M. McRae, of Guelph, to assist him in the work.

Mr. A. W. Peart was assigned to the district composed of the three ridings of Hastings, East Northumberland, East and West Peterborough, East Durham and the two Victorias. He has already held meetings in Belleville, Warkworth and Norwood.

On Saturday afternoon last he met the representatives of the East Durham and West Peterborough Farmers' Institutes at the Huffman House, with the object of obtaining their views as to the adoption of a set of rules to apply to all institutes, and to receive from them any suggestions towards promoting the object in view.

Those in attendance from the West Peterborough Institute were Messrs. J. Fred Davidson, president; John A. Davidson, secretary; John Stothart, H. C. Garbutt, Geo. E. Elliott, John Fitzgerald, jr., G. Y. Payne, and James Davidson. The East Durham Institute was represented by Robert Vance, president; C. H. Winslow, vice-president, and Wm. Vance, secretary-treasurer.

In a brief address Mr. Peart pointed out, by means of a chart, the rapid growth of the Farmers' Institutes throughout the Province and stated that the interest in them had evidently taken a deep hold on the farming community. Last year the total membership of the Institutes was 9,500, and this year over 11,000 members were on the roll. Last year the attendance at the meetings totalled up to 71,000, and this year 100,000 had been present at the different assemblages.

The State of New York contains fully three times the population of Ontario, and the Farmers' Institutes receive an annual grant of $10,000 from the State Legislature. In Ontario the grant is as yet only $7,500, yet 300 meetings were held as compared with New York's 230.

A number of resolutions were passed, which, together with those passed by the other institutes, will be boiled down and used in forming the rules and regulations mentioned before. It is anticipated that the new code will be ready to be sent out to the Farmers' Institutes for adoption by the first of the year when the annual meetings will all be called on the same date in accordance with the proposed system.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—No police court this morning.

—Board of Education to-morrow night.

—The regular monthly meeting of the Town Council will be held this evening.

—The Good Templars will give a first class concert in their hall next Thursday evening. Watch for announcement.

—Gardeners are preparing their hot beds to be able to set out early plants, and supply vegetables at the earliest possible date.

—The great accumulation of ice and snow on George street, between Charlotte and Simcoe streets, is being removed by the corporation labourers.

—The Council should enact that all sidewalks be cleared of snow by the end of the week. The slush makes them almost impassable in places.

—There will be business in the woods again, making sugar, and our country friends may look for the accustomed visits from those who have no maple trees to tap.

—The month of March kept up a boisterous reputation till its closing days, then it peacefully passed in its checks. It is said to have been the stormiest March in twenty-six years.

—The stop logs in the raceway were lifted on Monday, to admit of the clearance of the rising waters of the Trent, and the numerous cakes of ice which are breaking away from the banks of the river and floating down stream.

—This is how a clever school girl recently parsed the sentence, "He kissed me." "He," she began, with a fond lingering over the word which brought the crimson to her cheeks, "is a pronoun, third person, singular number, masculine gender, a gentleman and pretty well fixed, generally considered a good catch. Kissed is a verb, transitive, too much so, regular every evening, indicative mood, indicating affection, first and third persons, plural number and governed by circumstances. Me—oh, well, everybody knows me." And she sat down.

A quiet though pretty wedding took place Friday, 3rd inst, at the residence of Mr. James Macullagh, 317 Macdonell street, when his daughter Katie was united in marriage to Mr. Alex. Piton, of Toronto. The ceremony was performed by the Rev. A. McWilliams, of St. Andrew's. The bride was assisted by Miss Jessie Kennedy, and Master Eddie Kennedy performed the duties of groomsman. After the ceremony a sumptuous wedding repast was served, and the company enjoyed an hour or two of a social communion. The newly wedded couple enjoy the congratulations and good wishes of a large circle of friends. They take up their residence in Toronto.

Purified Blood

Saved an operation in the following case. Hood's Sarsaparilla cures when all others fail. It makes pure blood.

"A year ago my father, William Thompson, was taken suddenly ill with inflammation of the bladder. He suffered a great deal and was very low for some time. At last the doctor said he would not get well unless an operation was performed. At this time we read about Hood's Sarsaparilla and decided to try it. Before he used half a bottle his appetite had come back to him, whereas before he could eat but little. When he had taken three bottles of the medicine he was as well as ever." FRANCIS J. The Fashions in Baby Carriages.

Remarkable innovations in Baby Carriages, have brought about striking beauty in their design and decorations. The adaption of reed bodies has become very popular—no doubt on account of the lightness and durability of the material, but chiefly on account of the handsome designs which the reed is susceptible of. Another of the most conspicious features of the New Baby Carriages of the present day, is the useful canopy or Parasol Tops in rich silk patterns, as a protection from the sun, which have taken place of the old-fashioned roofs.

Our stock of Baby Carriages is conspicious for its newness, and combine all the latest improvements and designs. They have beautifully upholstered seats, and bodies are built for strength and lightness, and run like a bicycle. Nothing prettier or smarter for an Easter parade.

WE LEAD THIS SEASON IN

FIRST-CLASS MILLINERY.

DO WE ADVERTISE TO MUCH?

Sometimes we almost believe we do, but the crowd of appreciative customers that comes after each announcement, convinces us that our advertisements have a permanent place in public economy.

In this age when every merchant, no matter what size his business or his capital states in his advertisement that he buys direct from makers, and at prices special to himself and such like exaggerations, it must be hard for people to judge by reading advertisements alone. You cannot do it. We invite you to make personal comparisons by getting samples or by personal inspection and you will learn for yourself that we put nothing but facts in our advertisements and you will find that by buying from us you will save money on every purchase.

BARGAINS FOR THIS WEEK:

Educational.

The Provincial Teachers' Convention will be held in Toronto on Tuesday, Wednesday and Thursday. A number of the local teachers will attend, and some familiar names are noticed on the programme.

Treasurer's Office.

The town treasurer's office has been very neatly fitted up. A half door, with a shelf, fills one of the doorways, and shutters have been arranged so as to completely close the window if necessary. The fittings are of oak.

An Easter Bargain.

China Hall will fill one of its show windows with $5.00 and $6.00 Chamber sets, and give the public their choice on Saturday before Easter only, for $3.50. The windows will be filled on Friday, but no sets sold out of it until Saturday at 9 o'clock.

Grand Social.

A grand social will be held under the auspices of the Young Bachelors on Easter Monday in the Catholic Literary Association rooms, George street. A first-class orchestra has been engaged for the occasion and refreshments will be served during the evening. 3eod

George Street Methodist.

Yesterday being Easter Sunday the following special musical selections were given in the George street Methodist church:—Anthem, "The Open Tomb"—Michael Earle; duet, Mrs. Kernahan and Mrs. Seward, "Jesus is Risen"—J. M. Whyte. Evening—Anthem, "He is Risen"—West; solo, Miss V. Belleghem; solo, "Eastertide"—F. Lynes, by Miss Clara Belleghem; solo, "On the Cross," Mrs. Seward. There was a large attendance at both services. The sermons preached by Rev. W. R. Young were powerful orations and were given, as usual, in his clear and graphic manner.

Winch's Meat Market.

Something approaching the magnificent old-time displays of Easter meats was to be seen to-day in Winch's meat market. Those who recollect the splendid Easter Saturday exhibitions of meat in the old market building years ago were reminded to-day of the superb show of meats and decorations which the butchers then used to vie with each other in making. It is many years since shoppers saw a better general range of prime meats than they saw to-day at Winch's. The beef, lamb, veal, pork, etc., were all extra good. Epicures could find no fault, whatever selection they made. The attendance was unusually large and the very large patronage which waited on this firm was an indication of the strong confidence reposed in Winch's meats by some of the best customers in the town.

Book of Prayers for Family Worship.

The EXAMINER has received, with thanks a copy of a new edition of "Prayers for Family Worship," prepared and compiled by Rev. William Gregg, M. A., D. D., professor of church history in Knox College, Toronto. There are fifty six forms of prayer for every morning and evening for eight weeks, besides special forms of prayer for special occasions. Previous editions of this admirable compendium of devotion are well known and largely used in Christian households. Eminent ministers are of the opinion that this book supplies a want long felt in the church. "Prayers for Family Worship" compose a volume of nearly 300 pages printed in bold clear type, published at $1.00 by Williamson & Co, Toronto.

Good Words for Canal Contractor Corry.

The Ottawa Free Press has the following to say in reference to Mr. Alderman Corry of that city, who has been awarded the contract for the Peterborough portion of the Lakefield-Peterborough section of the Trent Valley Canal:—"Our energetic fellow-citizen Mr. Corry, has been awarded the contract for an important section of the long talked of Trent Valley Canal. He is to be congratulated. Mr. Corry has done much for Ottawa in the way of erecting fine buildings, and will no doubt do equally good work on this projected canal. It is to be hoped that he will not find that post election promises and deeds on the part of the Government in connection with this canal will be similar to those of the past. Hitherto it has been the rule to cease all efforts on behalf of the Trent Valley Canal after a general election and shelve it until the scheme became useful for election purposes five years later."

A union prayer meeting of the C. E. Societies will be held in the Methodist church on Sunday morning at 7 o'clock.

A number of our young people drove down to Peterborough on Monday evening.

Mrs. Paton, of Peterborough, delivered a temperance address in the interests of the W.C.T.U., in the Presbyterian church on Thursday evening last, at which there was a good attendance. Short addresses were delivered by Revs. Limbert and McDonald while the chair was filled by Rev. A. C. Reeves. Solos were sung during the evening by Misses White and Fitzgerald, also a duet by Misses McIlmoyle and Galvin, also appropriate music by the choir.

On Friday of last week three rinks of our local curlers visited Peterborough and had a friendly game in the afternoon with the Granites, and were defeated by three shots, and in the evening played the Thistles, coming off victorious by four shots.

A largely signed petition has been sent down to Ottawa to keep the canal on the west side of the river, and also to put a swing bridge over the canal on Bridge street, instead of a high level bridge.

Special services will be held in the English Church on Good Friday at 11 a.m. and 7 p.m.

Owing to the bad state of the roads Rev. G. Warren who unable to get back from Warsaw in time for the service here on Sunday evening. Rev. A. W. McKenzie conducted the services in his absence.

Court Lakefield, No. 43, C. O. F., will hold their regular meeting this Thursday evening.

Beresford L.O.L., No. 122, meets next Monday evening.

Clementi Lodge, A. F. & A. M., No. 313, will hold their regular meeting on Tuesday evening of next week.

Munro Camp, No. 150, will hold its regular meeting on Tuesday evening of next week.

MILLINERY OPENING.

The millinery opening at R. Graham & Son's establishment was a grand success. The millinery room was crowded with the ladies during the afternoon and evening, and it was generally conceded that this old established concern had far exceeded any previous effort in the same direction. All the new hats are to be found here, including the new shot straws, the rustic turban, the new sailor, the Marie Antionette with a host of others.

Flowers are very popular and they are shown in every imaginable hue and colour, including roses, peonies, fruit, flowers, heather, forget-me-nots, etc. They also show a nice assortment of ospreys and Prince of Wales flowers. They show a large variety of trimmed goods which attracted a great deal of attention. Their display of children's goods are particularly nice.

Blouse silks, which are largely in demand this season, are shown here and special mention may be made, that no two of them are alike.

They show a very fine assortment of the newest jackets and capes. In jackets they are short, for fashion has so decreed it this year. Capes are made smaller and light this season, in fact the peculiarity of all capes is, they are made short. They have exceedingly handsome capes in crepon and silk velvet trimmed with jet and lace.

Downstairs in the dress goods department they show some very pretty goods in tricotines, spring dress tweeds, crepons, henriettas, serges, etc.

Every department is well stocked with the latest productions of the market. Their opening will extend over the next few days.

Most Unwise

Is a continual effort to employ cod liver oil in its pure state when the stomach protests against it. Almost equally vain are ordinary emulsions, which possess little value beyond their power to subdivide the oil. But where the oil is really needed, the elegant and efficious preparation, Maltine with Cod Liver Oil and Hypophosphites, may be most satisfactorily used. This preparation contains all the medicinal properties of the oil combined with the hypophosphites and with maltine, an acknowledged digestant and reconstructive. It increases the appetite, adds to the digestive power and aids the assimilative processes, thus greatly augmenting nutrition and replacing the waste inevitable in pulmonary complaints and debility.

THE ENDEAVOURERS' ANNUAL CONVENTION.

MEMBERS OF THE COUNTY UNION ASSEMBLE IN CONCLAVE.

Hundreds of Young People Gather in St. Paul's Church to Talk of Church Work—Presentation of the Annual Reports.

The fifth annual convention of the County Union of the Young People's Societies of Christian Endeavour assembled at St. Paul's church this morning. The chair was occupied by Mr. H. P. Kennedy, Vice-President of the Union, and the opening devotional exercises were conducted by Rev. Mr. Beer, of Ashburnham.

The attendance was the largest ever present at a county convention and was most encouraging indeed.

The first item on the programme was the hearing of two minute reports from all the societies of the county. The reports showed:—I. "The encouraging and discouraging features of the Work." II. "The mission work done by the Society." III. "Fidelity to pledge and to committee work." All the societies reported with the exception of two.

A most cordial address of welcome to the delegates was offered by Rev. J. J. Rae, and replied to by Rev. Mr. Limbert, of Lakefield.

The delegates in attendance at the morning session were: Miss E. Nicholl, Norwood; H. Ewan, Bethel; B. Fife, Bethany; Miss M. Andrews, Norwood; Miss Fanny Squire, Norwood; Miss Emily Deyell, River Road; Miss Edna Routh, River Road; Miss Campbell, Keene; Miss McFarlane, Keene; Miss Cronnie, Salem; Miss A. Nicholl, Norwood; E. G. Porter, Keene; Miss Bella Houston, Keene; Miss Roseborough, Selwyn; Miss Graham, Selwyn; Miss Shearer, Otonabee; Miss B. Nelson, Villiers; Miss M. Clarke, Springville; Miss Fife, Bethel, Mr. Kennedy, Otonabee; D. M. Hunter, Westwood; Mr. Knox, South Dummer; Mr. Garvin, South Dummer; Miss E. Armstrong, Bethel; Miss Darling, Gilmour; Miss Esson, Westwood; D. D. C. Dawe and G. T. Tovey, Charlotte street church; Miss Taylor, Gilmour; C. F. Revill, Gilmour; Miss Hutchison, Murray street church; Misses Houston, Norwood; Miss Lillico, North Monaghan; Miss Pettyman, Norwood; Mr. Williamson, North Monaghan; Mr. Taylor, St. Paul's church; J. Anderson, Park street church; Rev. Mr. McCamus, Norwood; Miss Forsythe, St. Andrew's church; G. A. Hamlin, Bethel; Ernest Dodge, Miss Ferguson, Miss Duff, Miss Sherin, Miss Bower, Miss A. Sherin, Miss Alice Doidge, Lakefield; Miss L. Bennett, Coldsprings; Miss Robinson, Coldsprings; Miss Ada Cox, Lakefield; Miss H. Nicoll, Norwood; Mrs. Reeves, Miss Smith and Rev. Mr. Limbert, Lakefield; Rev. Mr. Liddy, Keene; Rev. Mr. McLeod, Gilmour; Mr. Patterson, Bethel; Miss Eva Davis, Lakefield; Misses Preston, Selwyn; Miss Blewett, Selwyn; Mr. J. F. Elliott, Havelock; Mr. J. McClelland, Norwood.

During the afternoon reports were presented by the officers as appended:—

Report of Junior Superintendent for Year ending March 1st, '96:

DEAR FRIENDS AND CO-WORKERS:

Again we beg leave to submit to you our annual report of Junior Christian Endeavour work of Peterborough County.

During the past year there has not been as much done to advance the work as previously, but perhaps this has not been so necessary, as Junior work has passed formative and experimental stage, and is now recognized as a valuable and essential part of a well developed church organization, and also we believe it received a great impetus last year from the very successful rally held at the annual convention. We have taken pains to make our rally to-day equally successful, and trust that it may be as much of an inspiration as the previous one.

We regret very much not having been able to come in personal contact with more of the members and workers of the Society, as we believe such an arrangement ought to be mutually beneficial. The reports, however, from the different societies, are almost all very encouraging, and show that they are in a very healthy state. The marked increase in the interest taken in missions is very gratifying, and the different missionary funds of the church are enriched by about $120.00, the gifts of the Juniors. This amount has been almost all raised by money earned, and free-will offerings. Besides these offerings there has been many other gifts of useful articles, such as scrap books, cards, dolls, etc., which have been quite as helpful in their way as money.

One thing we are sorry to notice is, that only three societies in the Union take the Junior Golden Rule. We were disappointed in this, as we thought it introduced itself so effectively last year, that all the Juniors would want it; and we consider it a well conducted paper, full of suggestive information. No Christian Endeavourer, junior or senior, does his best work who does not read, widely and wisely.

Although one new Society has been added to the Union, viz., River Road, Otonabee, still owing to the lapse of another Society, we are still only twelve in number. Springville had to disband on account of nearly all their members moving from the village, and practically died from want of material to carry on the work—the only acceptable reason for there not being a Junior society wherever there is a church.

We have to report a membership of 318 Active and 141 Trial Members, as compared with 314 Active and 168 Trial members last year; 32 have graduated into the Y. P. S. C. E. and 17 have united with the church.

The Local Union of the town of Peterborough has not had so many rallies this year as last, one only being held in September; neither have the monthly Executive meetings been so well attended as hitherto, still some of these meetings have been very helpful.

In conclusion, we wish to say in laying down this work, it has indeed, though very unworthily done, been a labour of love. We trust that more and better workers may be raised up to promote the cause of Christ amongst the children, that what has been gained by persevering effort may be retained, and that although discouragements and dark days may come, that we still remember that it is His work, that the children are especially dear to the heart of our beloved Master, and that we can entirely rely on His promise that assures us that "He that goeth forth weeping, bearing precious seed, shall doubtless come again with rejoicing, bringing his sheaves" with him.

Our earnest desire and prayer is that God may abundantly bless the Junior Societies of the County of Peterborough.

Respectfully submitted by
M. QUINN,
Superintendent.

SECRETARY'S REPORT.

To the President and Members of the Christian Endeavour Union of Peterborough:—

We herewith beg leave to submit our report of work done by the Executive of this County, during the past year, as follows:—

During the year there have been two meetings of the Executive held, and at each of these sessions sub-committees were appointed to do work, and in this way matters were greatly facilitated.

As recommended at the last annual convention, while in session, we selected a delegate to report our Union at the International Convention, held in July at Boston, Mass. Miss May Eaton, of Norwood, was chosen, and she performed the duties to the satisfaction of all concerned, and gave very comprehensive and interesting reports at the different district union meetings, namely:—Norwood, Keene, Westwood, Lakefield, Bridgenorth and Peterborough.

During the year our President, Rev. A. Macwilliams, also delivered a number of addresses throughout the county in the interests of Christian Endeavour, and two members of the Executive assisted in the organization of a union society at North Monaghan.

In the beginning of the term we sent to each society in the County an appeal for financial aid, also a request for accurate statistics as to membership, etc. The responses were not at all encouraging, in fact the more correct way of putting it would be, the want of responses was discouraging. However, we made another attempt to get a complete list, when sending out announcements regarding this convention, and this second appeal has been more successful, and in most cases the replies were prompt. We believe we have now a complete list of the societies in the County. At present their number is 28. During the year two societies lapsed, Coldspring, and Riverdale. Three new ones have been organized, Park St. B.Y.P.U. of C.E., Villiers and North Monaghan. There are 814 active members, 405 associate and 22 honorary, making a total of 1242; a net increase of only 27 members since our last report, which we think is hardly as many as there should be. These figures do not include the Junior societies.

The amount of money contributed for missionary purposes by the Y.P.S.C.E. throughout the county has been $217.71.

The correspondence for the year has been heavy, the postage alone for secretary's work being $4.43.

The amount of receipts from all sources was $55.42; expenditure for all purposes, $51.29 balance, $4.53.

And now, before finally submitting our report, we would like to make one or two suggestions which we think might be profitably considered by the Christian Endeavourers of the county in planning to advantage the Master's work during the year on which we have now entered; and they are these:—

That individual members aim at reaching a higher spiritual life, by greater fidelity to the pledge and in doing more personal work. That Societies and Unions endeavour to follow the example of our larger conventions, which have during the past year become such a splendid feature and that is to arrange for consecrated evangelistic work. Also to increase the interest in missions and Christian citizenship in every way possible. If we do these things there is no doubt as a union we shall receive a spiritual impetus that shall be felt by everyone, that our work shall greatly prosper, both in quantity and quality, and that we shall, indeed, prove to be workmen "that need not to be ashamed."

Respectfully submitted by
H. T. MARTIN,
Secretary-Treasurer.

COUNTY EDITOR'S REPORT.

We wish first to acknowledge our gratitude to the Christian Endeavourers of this county for the honour they have conferred upon us by placing us in this position of trust and influence which we have held for the past twelve months with what amount of good we are not able to know or see in its entirety—but one thing we do know, and that is, God will crown every effort man is willing to put forth for the advancement of His cause, providing that effort is made with a single eye to His glory. Therefore we feel to thank our Heavenly Father for this God-given opportunity of the past year, and do earnestly pray that many may have been uplifted by reading the weekly reports of the meetings of the various societies of our county and noting the advancement of the young people in the army of God, fighting for all that is right and holy, and holding the banner "Look up, lift up, for Christ and the church," out before the world.

We would not forget to speak our thankfulness to these societies which have so kindly responded to our call in sending reports of their meetings from time to time since we have held this office and also to those contributing many points of the inner workings of their societies, which have been of interest and profit, not only to the general reader, but to other societies who were desirious of perfecting their methods of Christian work, making the column the happy medium of carrying the work along.

We have gladly noticed as time advanced some of our societies become more regular in their items of interest to Endeavourers, thus showing that the column is gaining a foothold on the readers.

On the other hand we are sorry there are so many societies in this county that take little or no interest in the good work they have placed in our hands to look after, and many times we have felt slighted and grieved to notice this indifference. It may be our own fault, but we feel we have explained these duties clearly many times during the year, so that they might be able to give us the necessary assistance required to make the column as helpful as possible to all, and one of valuable information to each of the Young People's Societies.

And in conclusion we would extend our most hearty thanks to the editors of the EXAMINER and Review for the space in this valuable paper which they have so graciously allowed us during the past year

Yours respectfully in C. E. work,
ALEX. J. JOHNSTON,
D. D. C. DAWE.

PATENT LAUNDRY CASE.

The greatest convenience yet introduced in the Laundry Business. Finished Work can be quickly handled. No Wrapping or Tying.

This long felt want is a simple, sensible and clever device that meets the case exactly at a trifling cost.

TESTIMONIALS:

Messrs. Moffat & Kidd:

GENTLEMEN.—We have much pleasure in speaking a good word for your new Patent Laundry Case. Nothing that we have ever seen "fills the bill" so well as this for holding either soiled or newly laundried work. It will save time, temper and bad words, and the price is within the reach of all. It is as handy as a pocket in a new shirt, for the young man, the married man, or "the bachelor all forlorn." The boys should catch on to them at once.

Yours truly,

Messrs. Moffat & Kidd:

GENTLEMEN.—Having thoroughly examined the Patent Laundry Case, manufactured by you, I must say it is the greatest convenience ever introduced for laundry purposes, and feel confident it is just what every man, young or old, requires, to keep his shirts, cuffs and collars in perfect order, prevents linen from being crushed, and ensures delivery of work in perfect order. I strongly recommend it to all sending work to the laundry. Yours truly,

THE QUESTION OF FINANCE

Everyone prefers a high-grade Piano to a poor one, but many are deterred from even inquiring about our instruments from a fear that our prices may be too high or our terms too stringent. Let us say to all who wish a really good Piano at a moderate price on easy terms, that they will do well to correspond with us. We do not pretend to compete on these points with makers of poor or worthless Pianos, but, QUALITY CONSIDERED, our prices are really low, and we try to permit no one to go past us feeling that satisfaction cannot be given on the question of terms.

SCHOOL CONFERENCE.

What the Offer of the Federal Government Was.

WHY THE MANITOBANS OBJECTED

They Explain That the Ottawa Proposals Meant the Statutory Division of the People Into Separate Denominational Classes—No Separate Schools are Wanted.

Winnipeg, April 3.—The suggestions for the settlement of the Manitoba school difficulty made by the commissioners of the Federal Government, which were rejected by the Manitoba Government, and the counter-propositions made by the Manitoba Ministers, which were in turn declined by the Federal commissioners, were made public yesterday, so that the public can now judge, and form independent opinions as to which side has been the most exacting or unreasonable. When the two propositions are thoroughly sifted, it is found that after all there is but a narrow gulf between the two warring factions, which could be easily and safely bridged were the people in a less pugnacious mood, and politicians not so anxious to make capital out of the agitation.

Now that it is known what each side was willing to do, and there being such slight differences of detail in the two proposals, the temperate people are encouraged to hope that when the heat of the coming Federal elections cools down there will not be much difficulty in coming to an amicable settlement, if in the interval the breach is not widened with injudicious action.

The proposals made by the Federal commissioners were that "Legislation be passed at the present session of the Manitoba Legislature to provide that in towns and villages where there are resident 25 Roman Catholic children, the Board of Trustees shall arrange that such children shall have a school house room for their own use, where they may be taught by Roman Catholic teachers; and Roman Catholic parents or guardians, 10 in number, may appeal to the Department of Education from any decision or neglect of the board in respect to its duties under this clause, and the board shall observe and carry out all decisions and directions of the department on any such appeal.

"Schools wherein the majority of children are Catholic to be exempted from requirements of the regulations as to religious exercises;

"Text-books in Catholic schools to be such as not to offend the religious views of the minority, and from an educational standpoint satisfactory to the Advisory Board;

"Catholics to have representation on the Advisory Board and representation on the Board of Examiners appointed to examine teachers for certificates;

"Catholics to have assistance in the maintenance of a Normal school for education of their teachers;

"The existing system of permits to non-qualified teachers in Catholic schools to be continued for two years to enable them to qualify, and then to be entirely discontinued."

In all other respects the schools at which Catholics attend to be Public Schools, and subject to every provision of the Education Acts, for the time being, in force in Manitoba.

A written agreement having been arrived at and the necessary legislation passed, the Remedial Bill now before Parliament is to be withdrawn, and any rights and privileges which might be claimed by the minority in view of the decision of the Judicial Committee of the Privy Council shall, during the due observance of such agreement, remain in abeyance and be not further insisted upon.

The Manitoba Ministers could not accept the proporal in its entirety. The most objectionable feature was the request for the separation of the Roman Catholic children from the other scholars and providing them with Roman Catholic teachers. Such separation, it is claimed, would seriously interfere with the efficiency of the schools. A decided objection also was taken to the establishment of a separate Normal school for the training of Roman Catholic teachers. Under the present regulations all sects have equal privileges.

The Manitoba Ministers summed up the objections of the Federal proposals as follows:

1. The statutory division of the people into separate denominational classes.
2. The necessary inferiority of Separate schools.
3. The impairment of the efficiency of Public schools through the division of school revenues.
4. The burdening of non-Catholic ratepayers by compelling them to maintain Separate schools.
5. The according of special privileges to one denomination which could not on principle be denied to others, but which in practice could not be granted to such others without the entire destruction of the school system. It will no, therefore, be a matter of surprise to you that we are unable to accede to the proposition made, or any proposition based upon a similar principle.

The main points of Manitoba's offer are to completely secularize the Public school system, eliminating religious exercises and teaching of every kind during school hours. It distinctly stated that this proposition is made as a compromise offer, and not as embodying the policy which the Government and Legislature of the province are themselves desirous of pursuing. It is made in order to attain a settlement of the dispute. As an alternative to this, it is proposed to repeal the provisions of the present law relating to education, and substitute a provision for religious teaching by clergymen and others between 3.30 and 4 o'clock daily, if the trustees of any school district so authorize, any scholar being free to absent himself or herself.

It is also proposed that where the schoolroom accommodation at the disposal of the trustees permits, instead of allotting different days of the week to different denominations, the trustees to direct that pupils shall be separated and placed in different rooms for the purpose of religious exercises, as may be convenient.

The Manitoba Ministers claim that these changes in the present law will effectually remove every well-founded grievance of the Catholics under the existing law. If the objection of the minority be that the schools are Protestant, as alleged in some of their petitions, then the objection can be fully and finally disposed of by complete secularization.

If the real objection be a desire to have, along with an efficient secular education, proper religious training, then the second plan proposed offers an effective method of attaining the object desired.

The Federal commissioners replied to Manitoba's counter proposals in a long memorandum maintaining soundness of the position taken by themselves and affirming the right of Roman Catholics to Separate Schools.

The Manitoba Ministers then made final summing up of the case as follows: "The point of difficulty in arriving at a basis of settlement seems to be very clearly defined. You maintain that in the words of your memorandum, 'The Roman Catholics' certainly have important legal rights in 'connection with Separate Schools,' and that your idea of the object of the conference is to give effect to those rights in the most unobjectionable way through the action of the Legislature of the province. We hold, on the contrary, that the constitution gives Roman Catholics no legal rights in reference to Separate Schools except the right of appeal under which the Federal authority may or may not restore any rights formerly enjoyed under the provincial legislation. Your proposition aims at legal recognition by the Legislature of Manitoba of the right of Roman Catholic people to separate for school purposes.

"Our proposition aims at removing every practical objection to the present system without giving the legal rights to separate.

"We understand that by order in Council your authority is limited to making a settlement satisfactory to the minority, and that as a matter of fact the minority will accept nothing short of a statutory recognition of right of separation. We regard ourselves as precluded by our declaration of policy, preceding our last election, from assenting to such statutory recognition. While joining with you in the earnest desire to reach a settlement, we are unable to suggest any way of reconciling these two propositions. We are of opinion that there would be no objection on principle to the plan we propose, and that its practical operation would prove to be very satisfactory. It would give substantial relief on every material matter without legal separation. If the minority insists on legal separation there does not seem to be any possibility of reaching a basis of compromise.

"We cannot but express our regret and disappointment at the failure of our negotiations. We assumed when a conference was asked for by the Federal Government with full knowledge of the fact that we were clearly stopped by the terms of the order in Council of Dec. 20, 1895, from assenting to the re-establishment of Separate Schools in any form, that it was with the object of securing substantial modifications which, while falling short of the principle of separation, would remove every alleged reason for the Roman Catholic opposition to the use of Public Schools.

"We think that the proposition which we have made would, if adopted, remove every such reason, and it is, therefore, such a proposition as we believed you had come prepared to accept. Its non-acceptance apparently is due to the determination of the minority to insist upon the most extreme and, in our opinion, unsound view of their legal rights. We entered upon the tack of seeking the settlement of the question at issue in the face of grave and obvious difficulties. In the first place, so far as the re-establishment of Separate schools is concerned, the question has for years been considered settled so far as the people of this province, to whom we are responsible, are concerned.

"In the next place, we have hitherto believed that he state-aided Separate school system, and that only would be accepted by the minority. This view we have repeatedly stated, and we have not yet been authoritatively informed to the contrary.

"That our contention in this respect was, and is correct, is shown by your proposition, which undoubtedly means a system of schools separating by law Protestants from Roman Catholics, and wholly dependent for support upon the municipal taxation and legislative grant. It also appears that any settlement between the Government of the Dominion and that of Manitoba must by the very terms of your instructions, be subject to the sanction of a third party, and while all members of both governments might approve of our proposition, or any other submitted, as containing everything that in reason and in equity ought to be conceded, nevertheless that approval would be worthless without the sanction of representatives of the minority. In a word, we are absolutely debarred from conceding the system of Roman Catholic and state aided Separate schools, while the representatives of the minority, and as a consequence the Federal Government, will accept nothing less.

"In conclusion, we have the honor to state that, notwithstanding the failure of the present negotiations, the Government of the province will always be prepared to receive and discuss any suggestions which may be made with a view to removing any inequalities that may be shown to exist in the present law."

BEYOND RECOVERY.

The Boy LaFlamme—His Cure was a Surprise—A few Boxes of Dodd's Kidney Pills.

PAPPINEAUVILE, March 30 (Special)—The father of the boy LaFlamme, one of the leading merchants here and willing to talk of his son's cure, he says—"My little boy Arthur, after scarlet fever about a year ago never recovered and his ailment ran into a kidney trouble. His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

Coughs and colds lead to consumption if neglected. Dr. Wood's Norway Pine Syrup cures quickly and is pleasant to take. It is nature's remedy for all throat and lung troubles.

AT THE DOOR.

I thought myself indeed secure,
So fast the door, so firm the lock;
But, lo! he toddling comes to lure
My parent ear with timorous knock.

My heart were stone could it withstand
The sweetness of my baby's plea—
That timorous baby knocking and
"Please let me in—it's only me."

I threw aside the unfinished book,
Regardless of its tempting charms,
And, opening wide the door, I took
My laughing darling in my arms.

Who knows but in eternity
I, like a truant child, shall wait
The glories of the life to be,
Beyond the Heavenly Father's gate?

And will that Heavenly Father heed
The truant's supplicating cry,
As at the outer door I plead,
"'Tis I, oh Father! Only I."

THE PIONEER

A SIMCOE COUNTY MAN WHO HAS AN INTERESTING HISTORY.

At 263 McCaul st., in this city, lives Mr. Samuel Kilgore, a vigorous specimen of those sturdy pioneers to whom the rapid development of this Province is mainly due. Mr. Kilgore relates, with pride, how he cleared the land on which Judge Gowan (now Senator Gowan), had his house built, and how himself and that honorable gentleman together laid the corner stone and deposited a box with various coins, etc., within the corner stone at the time. With his own hands also he cleared the land on which stands the Barrie High School, which numbers among its ex-pupils such names as Wm. Lount, Q.C., and D'Alton McCarthy, Q.C. Mr. Kilgore has served as reeve and councillor also in the township, and his sterling integrity and sound judgment give great force to his words. A few words from him will be sure to be of interest. Mr. Kilgore says:

"The dull aching pains around my loins and in the small of my back indicated to me several years ago that my kidneys were affected. I had to get up frequently at night and my rest was broken accordingly. I procured a box of Doan's Kidney Pills at Gilpin's drug store some time ago, and they did wonders for me. They gave me relief almost immediately. The annoying pains around my back fled. The trouble in urinating was felt no more. My stomach, though foul, became sweet, and my whole system became so regulated that I looked back, with pleasure, to my boyhood days when pains and aches were unknown to me. I am now over seventy-three years of age, and Doan's Kidney Pills are the most wonderful medicine I ever took. After having given them a fair trial I can heartily recommend them to any one with kidney or stomach troubles."

WOMEN are not the only ones who are sensitive about their ages. A man doesn't like to be told that he is getting old. A man doesn't like to get old at all. But worse than getting old, is the appearance of age. Health keeps a man young. It doesn't make any difference if he has lived eighty years. If they have been healthy years, he will be hale and hearty and won't look within twenty years as old as he is. Good digestion and rich, red blood make people look youthful. Dr. Pierce's Golden Medical Discovery makes rich, red blood. It makes health in the right way. It works according to the right theory, and in 30 years of practice, it has proved that the theory is absolutely correct. It begins at the beginning—begins by putting the stomach, liver and bowels into perfect order, but it begins its good work on the blood before it finishes with the digestive system. It searches out disease germs wherever they may be and forces them out of the body. It promotes the copious secretion of the digestive fluids, and assists in throwing off refuse matter. It makes the appetite good and the digestion strong. It isn't a violent medicine. It isn't strong medicine. It does nothing but good to every portion of the body. It doesn't do harm in one place while it is helping another place. It is meant to help the whole body and it does help it. Whenever a man feels himself failing in health, when he feels that he is getting old too fast, that his vitality is low, and that he is losing flesh, he should waste no time in getting the "Golden Medical Discovery." It will build up quicker than anything else in the world. It will give him rich blood and solid flesh. It will make him feel half as old and twice as strong. Druggists sell it.

Dr. Pierce's 1008 page book, the "People's Common Sense Medical Adviser," in Plain Language, tells all about the "Golden Medical Discovery," and is a complete family doctor book, profusely illustrated. It will be sent free on receipt of thirty-one (31) one-cent stamps to cover cost of customs and mailing *only*. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, No. 663 Main Street, Buffalo, N. Y.

CLAGGETT'S EASTER.

[Copyright, 1896, by the Author.]

MR. CLAGGETT was a fresh importation at our boarding house. How our landlady came by him I never knew, but there he was, awkwardly eating with his fork as though he wasn't used to it, talking to everybody as though he had known them for years, making a merry little bluff at "Who's afraid?" and having terror and hayseed written all over his middle aged, scraggy, rural countenance.

I concluded he was "a character," and being one of "them newspaper fellers," as he termed it, was immediately interested in Claggett as so much marketable material for the columns of the daily paper. I offered to show him the sights, and he joyfully accepted.

He wanted to go first to the theaters. I expected to have some fun the first night, but instead he just sat still and devoured the performance. When it was over, he remarked calmly:

"Waal, 'twan't near so bad as I expected."

It was then my turn to be amazed. I had supposed it would be a great deal worse than he had expected.

"Seems real tough, though," he added reflectively, "that nice, party girls like thet are probably all on 'em bad."

"Bad!" I exclaimed, quite horrified. "Why, they are not." And I rallied to the defense of the stage and the ladies of the profession.

"Waal, I allus heard tell they were," was his discouraging comment after I had finished my burst of eloquence.

I was sorry to see after this that Mr. Claggett developed a morbid taste for investigating the lowest haunts in the city, including opium joints and dance saloons. He seemed determined to find something real bad.

One Sunday morning we were walking down town together.

"It's pretty hard for a defenseless woman in this town, the men are so all fired bad," observed Mr. Claggett.

"You mustn't think," I protested, "that New York men are all fiends; that they all delight in pouncing upon defenseless innocence and dragging its white wings in the mire. Sometimes they actually go out of their way to help innocence and keep it out of the mire. But those little affairs they don't talk much about, and they don't get in the papers.

"I've a good mind to tell you a little experience of mine—yes, I will tell you. You ought to be set right in some things," I added a bit defiantly. "You were coming down to the office with me anyway, weren't you?"

"Yes. Want to see one o' them big newspaper buildin's 'fore I go back."

Just then we turned into Fifth avenue.

"Waal, what's goin on? A percession or what?" asked Mr. Claggett excitedly.

"Oh, this is nothing. Only the usual crowd going to church. You see, I haven't forgotten it's Sunday morning if I have got to go to work," I answered.

"My! Look at them women with real nat'ral posies on 'em," as some elegantly attired belles wearing huge bunches of violets swept past.

"It's Easter Sunday, you know."

"Easter!" he said, slackening his pace, and then again in a low, husky tone: "Easter! So it is.

"I uster allus color eggs for the children—tied 'em up in calliker, you know, an b'iled 'em. There ain't any children to do it for now"—

"Have you lost them?" I asked.

"Yes, lost 'em. There wus a boy an a girl, an I lost 'em both."

The old fellow spoke in a low tone without any dramatic tremble in his voice, but as I looked in his face there was something there strangely out of tune with the rustle of silks, the bunches of violets and the joyousness of Easter that seemed everywhere. It was not the resignation that looked toward the risen Christ. It was a hardness and bitterness that found no hope or consolation.

"Perhaps you'd like to go in one of the churches," I said. "The flowers will be worth seeing, and the music is sure to be fine. You can come down to the office another day."

"No, I don't care for their flowers an their music an their fine flummery. If I could be just set back there a-colorin them eggs. No," he added hastily, as though ashamed of having shown some feeling, "I'd ruther go down there with you, an I want you to tell me thet story."

When we were settled in the office, I began:

"It was like this, you see: One night I was coming home about 12 o'clock from the office. I had got off the cars and had turned into my street, when a girl, who had been walking along slowly, suddenly came up to me and stopped, looking in my face with a sort of mute appeal. I was about to brush past her when she caught at my arm.

"'Oh, sir,' she cried out, 'I haven't a place to sleep tonight! I—I thought I'd rather die than beg, so I came out on the street, and I've walked and walked till now, and I can't go on any longer. I—I don't know what to do.'

"'See here, my girl,' I said. 'You seem honest. You don't seem used to this sort of thing. I'll find you a night's lodging

AT THAT MOMENT SHE ENTERED.

in a respectable hotel. Then tomorrow if you want work come to me at my office, and I'll try to find you something to do.'

"I took her to a hotel and paid for a room for her and left her, thinking I'd very likely never see her again, but her face looked so sweet and fair I couldn't have done differently anyway.

"Well, the next day she came and begged for work. She told me her story, and I must say I pitied her.

"She had run away from home to go on the stage. A young fellow in a traveling company had lured her away. She thought he was honestly interested in her ambitions, instead of which he was a rascal, who wanted her only for himself. She was so innocent she never suspected his evil designs till he got her far away from home. Then she left him and tried to find an opening on the stage for herself.

"It was the old story of struggle and failure. Her money gave out, and homeless and penniless she had gone that night on the streets for the first time. It was that or the river. God be thanked, I found her in time!"

"Why didn't she go home to her father?" asked Mr. Claggett, abstractedly balancing a pencil on the inkstand.

"She didn't dare to. He had told her when she went away never to come in his sight again."

"Hard old fiend," muttered Mr. Claggett. "Waal, her mother"—

"She hasn't any."

"Oh! Waal, what's her name?"

"Evelyn Gray. I believe it is a stage name. Not her right one."

"Where is she now?"

"Doing typewriting for me."

"Want to know. S'pose you'll be marryin her next?"

"No, sir. There's a young man back there in the old home. She fears he is relentless, like her father, but I believe her heart is there."

"S'pose she never wants to see that old devil of a father again."

"Yes, she does. She'd give her eyes to have him take her back. Poor little girl! Poor little girl!"

Just then a voice outside the door said: "Is Mr. Maynard here? I've brought him this copy. Please give it to him."

"By Jove!" I said. "There she is now!"

"Couldn't I just get a look at her?" asked Claggett.

"Now, see here," I protested, "you're getting too fly. You'd better go back home."

At that moment she entered.

Claggett started as though he'd been shot. Then he put out his arms with the single cry, "Elviry!"

The girl turned very white; then she sprang into those open arms and went sobbing on his breast.

"Father!" she said. "Do you want me home?"

"Ain't I here to take you there?" he answered very gently as he awkwardly smoothed the hair away from her brow. "An there's Dan"—

"Yes, Dan," she faltered.

"Waal, Dan, he's a-waitin an a-hopin"—

"Father!"

She gave a little glad cry and went down again on his breast.

It was indeed Easter, for love is the fulfilling of the law. ALICE E. IVES.

GOOD ADVICE
ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

Dr. Wood's Norway Pine Syrup positively cures coughs, colds, asthma, hoarseness, bronchitis, and all diseases of the pulmonary organs.

A Movable Feast.

Easter is one of the movable feasts. The prayer book gives the following rule: "Easter day is always the first Sunday after the full moon which happens upon or next after the 21st day of March, and if the full moon happens upon a Sunday Easter day is the Sunday after." Consequently March 22 is the earliest date upon which Easter can fall and April 25 the latest, this year the date being April 5. This rule was adopted at the council of Nice, A. D. 325, as the observance of the day had always been upon the same day as the Jewish Passover, which fell upon any week day, whereas the fathers of the church held that as Sunday was the day of the resurrection the festival should be held upon a Sunday.

Cures, absolute, permanent cures have given Hood's Sarsaparilla the largest sales in the world and the first place among medicines.

Sick headache and constipation are promptly cured by Burdock Pills. Easy to take, sure in effect.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says, "Shiloh's Vitalizer 'saved my life.' I consider it the best remedy for a debilitated system I ever used. For dyspepsia, liver or kidney trouble it excells. Price 75 cts. Sold by John Nugent, 389 George street.

BAD BLOOD.

Bad blood courses through the veins and arteries just the same as good blood does, but good blood carries with it health, while bad blood distributes diseases throughout the whole body.

Good blood means vigor. Bad blood sows the seed of scrofula, ulcers, abscesses, boils, blotches, skin diseases, and almost all the ills that flesh is heir to. To get health we must cure the bad blood, and

THE CURE

is Burdock Blood Bitters, which removes all impurities from the blood by its action on the stomach, liver and bowels, thus carrying off all morbid and effete matter, and purifying, cleansing and healing every organ of the body.

Rich Red Blood

is thus created, which is a guarantee of health and happiness.

POINTS THE WAY TO PERFECT HEALTH

South American Nervine.
The Great Health Restorer of the Century.
Sickness Cannot Cope With It.
Has Cured the Worst Cases on Record.
Cures at the Nerve Centres and Thus Cures Permanently.
A Wonderful Specific in All Cases of Indigestion, Dyspepsia, Sick Headache, Nervousness and General Debility.
Has No Equal as a Spring Medicine.

There is a great deal of uncertainty in the methods adopted to remove disease. Doctors are not free from this kind of thing themselves. The poor patient has to put up with a good deal of experimenting. The discoverer of South American Nervine takes too serious a view of life to play pranks of this kind. He does not think that these human bodies of ours should be fooled with. He has recognized that they are subject to disease, but, by scientific methods, he has learned that just as the watch is to be put in perfect repair only when the main-spring is kept in running order, so with the individual, he remains in perfect health only when the nerve centres are kept healthful and strong.

What disease is more distressing than indigestion or dyspepsia? Some simple remedy may be given to cause relief for the moment. Nervine is an indisputably successful remedy for the worst cases of all stomach troubles—the nerve centres. Indigestion exists because the vital forces have become diseased and are weakened. Nervine builds up the nerve centres, from which come these forces, removes the causes of indigestion, and then builds up the health completely.

How many systems are run down through nervousness. A stimulant may give ease, but it will not cure nervous troubles. Nervine has cured more desperate cases of nervousness than any other medicine anywhere. And it does so for the same reason that it cures indigestion. The nerve centres are deranged, or there would be no victims of nervousness. Nervine rebuilds and strengthens the nerve tissues, and hence its marvellous powers in diseases of this kind.

In the spring of the year the strongest suffer from general debility. The blood, through neglect, has become impoverished, and the whole system gets out of order. We speak of it as a spring medicine. Nervine restores the exhausted vital forces that have led to this tired, don't-care, played-out, miserable condition. No one can take a bottle of Nervine at this season of the year without disease quickly giving way to abounding health.

The moral is plain, simple and readily understood. If you would not trifle with disease, then you will take South American Nervine, which will not trifle with you.

A JOYOUS EASTER IN THE CHURCHES.

BRIGHT WITH FLOWERS, JUBILANT WORSHIP AND SONG.

The Great Anniversary Generally Observed—Special Decorations, Special Sermons and Special Music.

Easter at St. Peter's.

At eight o'clock mass in St. Peter's Cathedral yesterday the music was in charge of the members of the Sodality.

The solo work was most capably taken by Miss K. Simons, Miss Lewis and Miss Dineen. At ten o'clock the choir sang "Millard's Mass in D." The soprano solos were taken by Mrs. Ball, Miss McCabe, Miss M. Hurley, Miss L. Hurley and Miss M. E. Mahoney, and the alto solos by Mrs. Lynch.

The "Regina Cœli" was also sung by the fine choir, and during the offertory Mrs. Ball sang "How Dies" in a manner deserving of special mention. During Vesper, the "Grand Magnificat" was given with splendid effect, and Miss L. Hurley's voice was heard to particularly good advantage in the solo "O Salutaris Hostia." The choir's rendition of the grand "Tantum Ergo" reflected great credit upon the members, and was fully appreciated.

Sermons appropriate to the occasion were delivered at ten o'clock mass and at Vespers in the evening, respectively, by Venerable Archdeacon Casey, of the Cathedral, and by Rev. Father Sullivan, of Weymouth, N. S.

Easter at St. Luke's.

Although the bad roads had a deterent effect upon a few of the country members of St. Luke's church, the congregations for the day were larger than on any previous Easter since Mr. Symonds' incumbency, and the same may be said of the offertory and the number of communicants. The choir acquitted themselves well in the special music, and the congregational singing of the familiar hymns was most hearty. In the morning the Rector preached from the text "Why seek ye the living amongst the dead? He is not here, he is risen."

In the afternoon the children's service was well attended. Rev. W. L. Baynes Reed addressed the children on the subject of the day. He referred to the beautiful symbolism of the flowers, springing up from the seed buried in the ground. The children's Lenten offerings on behalf of the Blackfoot house amounted to $25.80.

In the evening the Rector preached the last of the sermons on the "Brotherhood of man" from the texts: "The Father from whom every fatherhood in heaven and on earth is named" and "Thy will be done on earth as it is in heaven." In the Epistle to the Ephesians St. Paul expounded the social doctrines of Christianity, just as those to the Galatians and the Romans, he dwelt mainly upon the individual relations of man to God. He describes the universality of the Gospel as a mystery hidden from the ages, but now revealed. The universality of the Gospel binds men together in at least one interest, and that the greatest of all, the interest in their common salvation. If through the one Saviour all are bound to the one God, they must be also bound to each other.

In the face of the state of religion, of politics, and of social ideas of the first century it was a truly herculean task to preach such a doctrine. St. Paul seems to feel that the very greatness of the doctrine will render it difficult of apprehension, and so indeed it has been, for still amongst even good Christians, the full extent of brotherhood is not grasped. And so the Apostle breaks out into a fervent prayer, that his converts may be able to apprehend, what is the length and breadth and depth and height of this mighty plan of God, this mystery of the Gospel. Throughout the epistle the thought of unity prevails. The word "one" is repeated with an iteration, almost wearisome, unless we realize at what the apostle aims.—One body, one Spirit, one Hope, one Lord, one Faith, one Baptism, one God, one Father. St. Paul never claimed to have invented this doctrine. He always asserted in the most positive terms that it came from Jesus Christ, and the pledge of its truth was the Resurrection. "And so, brethern would I ask you to base your faith on the same foundation, of a living and risen Christ. If you believe that it is his will, that peace and harmony and brotherly love should prevail, and if you believe that He still lives, and through the spirit presides over the course of this world, then you must be sure that some day His will will be done on earth as it is in heaven, and you will, in the face of every obstacle, every misunderstanding, every discouragement, strive to mould your own life-work, whatever it may be, that it may further the objects which are not yours but His, and thus become fellow-workers with Him, not for the object of time but of eternity."

In the light of the resurrection we may confidently look forward to the realization of the vision of St. John of the holy city, the new Jerusalem, purged from every taint and pollution of sin. For that city is not a city of wood and stone, however rare or precious, it is composed of the spirits and souls of the righteous. Even here the true city is not the fine buildings or churches, or streets or parks, but the toiling men and women, our brothers and sisters of whom it is composed. What St. St. John's seer is humanity, that humanity which through all the centuries has sinned and repented, has fallen and wept, has erred and gone astray like lost sheep, has been found again and restored, and now at last in the light of God's presence is transfigured. Tried in the furnace of affliction all that was dross had been burned away, and all that is good has come out bright and pure. That is why the New Jerusalem in the inspired imagery is a city all of gold.

Nor does St. John see the ransomed of the Lord coming one by one, but all bound and built up together into a great commonwealth. What he sees in short is the church of Christ, greater, wider, more Catholic than has yet entered into the heart of man to conceive, coming down without spot or flaw as a bride adorned for her husband. Look on that picture, then look on the world. Is there nothing for you to do. Must we not still bow the knee and pray that God will so enlighten us that our minds may be able to comprehend what is the length and breadth and depth and height of the will and purpose of God. As we hope to be there, members of the city of God in heaven, so let us strive to be true and working members of the city of God upon earth."

The annual Easter vestry meeting will be held this evening at 8 o'clock, and tomorrow evening the first of what it is hoped will be an annual congregational social, will be held in the school house, to which all members of the congregation are cordially invited. Speeches will be made by officers of the church and the rector will deliver his annual address, usually given at the vestry meeting. The W. A. and the Young Women's Chapter of the Guild will provide refreshments.

Easter at St. John's.

Though the weather outside yesterday was not like Easter, it was Easter in joyous earnest in St. John's. Never before, perhaps, in the history of the church was the day so gladly, reverently and devoutly observed. All the services were very largely attended. The number that communicated at the four celebrations was over 400. The decorations of the church were beautiful; though not elaborate as regards quantity, they were characterized by fine and fitting taste. There was a large congregation at the morning service. The sermon was preached by Rev. E. V. Stevenson, and it was an excellent one. The music was bright, appropriate and well sung. Mr. F. W. Lount's singing of the baritone solo "Resurrection," at the offertory was excellently given, and the Easter carol, "Let the Merry Church Bells Ring," was exceedingly effective.

At Evensong the church was again filled to the doors, supplementary seats having to be provided. The service was bright and hearty, and Rev. J. C. Davidson's sermon was earnest and exceedingly appropriate to the occasion. Again the singing was excellent, the offertory anthem being especially worthy of mention. In fact the singing throughout the day was unusually effective, the choir entering into the spirit of it with praiseworthy earnestness and intelligence. They have practiced diligently and faithfully and have the satisfaction of knowing that the result was warmly appreciated by the congregation.

The special Easter offertory towards the building fund for the extension of the school house amounted to $640.04, contributed as follows: At 7 a.m., $10; at 8 a.m., $64.90; at 11 a.m., $474 80; at 7 p.m. $107.44; at the Sunday school, $40.

At St. John's Mission yesterday the collection amounted to $93 37, making in all $500 which has now been collected for the building of a chancel in connection with the Mission.

CHURCH CHIMES.

Mr. G. W. Mulligan sang "The Resurrection" in St. Andrew's church yesterday, in good voice.

Rev. Mr. Hannah, of Uxbridge, conducted the service in St. Andrew's church yesterday.

"Lift up Your Heads ye Mighty Gates" was the title of the well rendered anthem in St. Andrew's yesterday morning.

The two evening anthems in St. Andrew's church were given with great taste and feeling and were entitled "Christ Our Passover" and "Awake up My Glory."

Rev. Mr. Pady spoke on the resurrection yesterday morning in the Park street church. In the evening Mr. J. Lillie spoke from Matthew xvi. ch., and 24th verse

Yesterday morning the choir of the Park street Baptist church sang as an anthem "He Arose" with good effect. The evening anthem was entitled "They Crucified Him."

Most pleasing harmony marked the rendition of the two anthems in St. Paul's church, yesterday. They were entitled "King of Kings" and "Radiant Morn."

Easter to the Unfortunate.

To those who have small satisfaction in this life, whose conditions are those of misery or of dull vacuity, to whom life is a sad mistake and an injustice if it is not to give them further opportunity, fuller expression, larger compensation, the day, if it has any significance at all, stands as the pledge of existence under other conditions, where their cramped and hindered powers can perhaps have fuller scope, and they have at least the hope of that.—George William Curtis.

Wordy War Over the Remedial Bill Continues.

ALL NIGHT SITTINGS IN ORDER.

Mr. McCarthy and His Followers Did Not Fare Well With Their Several Amendments to the Fourth Clause of the Measure—The Members Divided in Relays.

Ottawa, April 7.—The House yesterday again tackled the Remedial Bill in Committee. The preliminaries were few, and in reply to a query from Mr. Laurier, Sir Charles Tupper informed the House that the report of the commissioners who went to Winnipeg to confer on the School Question would be laid on the table immediately.

The Winnipeg and Hudson Bay Canal Bill, which Mr. Martin talked out last Monday, was called, but no progress made with it. The House proceeded to take up the questions on the order paper.

The House went into committee on the Remedial Bill, and discussion was resumed on Mr. McCarthy's amendment to the fourth clause, purposing to strike out the first line and substitute for the "Board of Education" the present advisory board of the province. The member for North Simcoe again repeated his objection to the clause, contending that it was inconsistent with the second sub-section of clause 3, which vests important powers in the Catholic board.

Mr. Dickey replied that the wording of the section was exactly the same as in the old act. Mr. McCarthy's difficulty was a theoretical one, because these sections have stood side by side in Manitoba for 10 years. Sub-section 2 of clause 3 was of much less importance than clause 4, and if, on investigation it should prove to be unworkable he might be prepared to drop it.

Messrs. Mills and Davies emphasised again the point raised on Saturday, that it was unconstitutional to create, under this bill, another Board of Education in addition to the one created by the Local Legislature. While restoring the rights of the minority Parliament had no power to interfere with the educational machinery of the province.

Mr. Dickey and Sir Charles Tupper contended that Parliament was vested with full power under the Privy Council judgment to enact this legislation, that this power was plenary in view of Manitoba's refusal to take action.

Mr. McCarthy, at great length, repeated his views on the unconstitutionality of the clause, contending that Parliament had not plenary power to legislate.

Mr. Martin went over the whole subject of the old schools and the system of their management. Under that old system educational matters was entirely in the hands of the clergy, Protestant and Catholic. Even if the Manitoba Government had never abolished Separate schools (as it did subsequently) it would certainly have abolished the old system of administration. Taking up the Protestant board, he declared it was run by a clique, which managed matters in a very narrow groove. It mapped out the province into districts, one for the Episcopalians, another for the Presbyterians, another for the Methodists, and so so. And if a vacancy occurred, say in an Episcopalian district, it would be considered a breach of contract to appoint a Methodist to the position. There was a very strong feeling among those interested in education against the bureaucratic manner in which the affairs of the Protestant board were being managed. Accordingly the Government decided to adopt the principle of the Ontario system with this modification, that an advisory board should take the place of the Board of Education, with a member of the Government a member of it. That modification, Mr. Martin said, was made upon the advice of Prof. Goldwin Smith. It was a second amendment to chapter 38, passed in the same session of 1890, which abolished Separate schools, and, therefore, he contended it was unfair, in legislating here to restore privileges taken from the minority by the latter enactment, to attempt to amend the other chapter under which only the administration was changed.

Col. O'Brien after recess continued the discussion on the lines of Mr. McCarthy's argument.

Mr. Wallace protested against the bill on the ground of unnecessary expense in the establishment of a Board of Education, in addition to the present Advisory Board. He could not conceive anything but a conflict of jurisdiction.

Mr. McCarthy continued the discussion, and was followed by Sir Richard Cartwright, who declared that the bill was clumsily drawn, and, indeed, did not appear to be drawn by the Government at all.

To his request for information upon the necessity for the clause, Mr. Foster replied that the explanation had been given over and over, and he was sorry to see Sir Richard join the ranks of the obstructionists.

Mr. Henderson took up the discussion, expressing the hope that the difficulty would be settled in some other way. For that reason he had voted for the six months' hoist, and now he hoped there would be as little disturbance as possible of the school system. (Mr. McCarthy—Hear, hear.) He would, therefore, object to tacking a Separate School system on the administration of the Public Schools. (Mr. Foster—hear, hear.) He would, therefore, not stultify himself by voting for the amendment of Mr. McCarthy.

Mr. McCarthy retorted that he now regarded Mr. Henderson's past votes on the bill as being of a sham character.

Cries of "Order!" arose from the Conservative benches, followed by laughter as one hon. member called out, "Don't read him out of your party."

Dr. Sproule continued the discussion for an hour, after which the first subsection of clause 4 was declared carried, Mr. McCarthy's amendment having been voted down.

To sub-section B, however, objections were renewed. It was contended that the standard of qualifications for teachers should be made the same as for Public Schools, and that teachers' certificates issued by the Provincial Department of Education shall be recognized by the Catholic board.

Mr. Laurier held that the first provision would enable teachers to escape from Roman Catholic religious examination, provided they held Public School certificates.

Mr. O'Brien moved an amendment that sub-section B be struck out and one substituted providing that the provisions of the Manitoba Educational Act as regards the qualification and examination shall apply to teachers employed in Separate Schools, but teachers before being eligible to teach in Separate Schools must pass such examination in religious subjects as the Separate School Board of Education might prescribe.

Sir Charles Tupper said it was evident Mr. O'Brien was more Catholic than the Pope. (Laughter.) If any Separate School Board wanted to employ a Protestant teacher, which was quite possible, such teacher would be absolutely debarred by Mr. O'Brien's amendment. (Hear, hear.) Possibly the only reason why the amendment was moved was that it was in accordance with the policy of a few gentlemen to destroy or disfigure the bill. Evidently an insignificant section of the House had decided to prevent the bill from becoming law.

Mr. McCarthy evidently recognized the force of Sir Charles Tupper's point, as he moved an amendment to the amendment to strike out the provision regarding examinations on religious topics.

At 1 o'clock, after Deputy Speaker Bergeron had been steadily at his post as chairman for five hours, he called Mr. Mills of Annapolis to take his place for a little while. This led to a protest from Mr. Davies, who contended that the chairman had no right to retire if it was the intention of the House to remain in session all night.

The point was discussed for some time, Mr. Bergeron in the meanwhile having retired. A remark by Mr. Ouimet, "I think, Mr. Chairman, you can rule that you are rightly in the chair," set the House in a roar, which was renewed when Mr. Mills gave his ruling in words, "Well, I am certainly here."

At 2 o'clock this morning the committee divided on Mr. McCarthy's amendment to the amendment, which was lost by a vote of 33 to 10. Among those who voted with the ten were Messrs. Mulock, Sproule, Martin, Bain, Bennett, and W. F. Maclean.

The amendment of O'Brien was also defeated, and then the sub-section B was declared carried.

At 2.30 about 40 members were in the House, and the all-night session evidently being in store, the members on the Conservative side are divided into relays, and a new lot of members are to be on duty at 4 o'clock.

DEMILL COLLEGE IN RUINS.

The Well-Known Oshawa Institution for the Education of Young Ladies Burned to the Ground.

Oshawa, April 6.—About 7 o'clock this evening fire broke out in the cupola of the Demill Ladies' College, which is located on the hill at the southwest corner of the town. The alarm was promptly given but owing to the distance from the firehall, and to the lack of any water tanks in that section of the town, the brigade was helpless, and nothing could be done to check the spread of the flames. The whole roof was soon ablaze, and the flames rapidly extended to the lower stories, destroying the whole building. Most of the portable contents, however, were removed from the lower flats. It is impossible at present to make an accurate estimate of the total loss, but it will probably reach $20,000.

Many of the students and faculty were at their homes enjoying their Easter holidays. Those who are here feel very keenly the destruction of their college home. As the principal, Rev. A. B. Demill, is out of town, no particulars can be learned about the insurance.

LAND SALES IN MONTREAL.

How the Figures for March Tally With Those for the Month Previous.

Montreal, April 6.—(Special)—Property will contain the following article on real estate to-morrow: "While the total value of the sales of real estate in this city show an increase of $38,000 over those for February, the total number is ten less, and the total value for the city and suburbs show a decline of $77,000, with a decrease in number of eight. Thus, it appears that, while business has been heavier in Montreal proper, in greater Montreal, it has been less. St. Antoine Ward shows a big jump from $73,305 last month to $234,511 this month, the reason having been some very large transfers completed and more in view. St. Mary's Ward shows more than double last month. St. Louis, St. Denis, Mile End and Hochelaga show small increases, while St. Lawrence shows a drop of over $80,000, and St. John Baptist one of nearly $40,000. Westmouth has not come up to the high value of last month, but gives nearly $62,000 to the general total. The annex shows a small advance in both numbers and value, while St. Henri has jumped from $15,000 to $44,555, or nearly treble last month's values. The junction makes a better showing, while St. Cunegonde is lower.

WANTS THE DOG TO BITE HIM.

Two Bites are Necessary for Action at Law in Indiana.

Sioux City, Ia., April 6.—Every Iowa dog is entitled to one bite free of charge, according to W. F. McMaster, Police Judge of this city.

W. A. Onstat's bull pup bit John Fabler in the leg a few days ago as the latter was passing his master's house. Fabler went to Judge McMaster's court and demanded an order for the animal's execution. Then the judge explained to him that while he might, without laying himself open to prosecution, have slain the dog on the spot, yet in the eyes of the state law a dog is not considered vicious until he has bitten one man twice or three times or two or more men once each.

Mr. Fabler was considerably dazed, but he acquiesced in the court's ruling. Now he is parading up and down in front of the Onstat residence waiting for the dog to take another mouthful.

THE ANNUAL EASTER VESTRY MEETINGS

OF ST. JOHN'S AND ST. LUKE'S.

Presentation of Reports and Financial Statements — Election of Church Wardens, Sidesmen and Lay Delegates.

The Easter Vestry of St. John's church met at the school house on Monday evening, with a good attendance of members. The Rector, Rev. J. C. Davidson, Rev. E. V. Stevenson, curate; and Rev. Carl Smith, curate of the South Ward Mission, were also present.

Rev. J. C. Davidson, the Rector, occupied the chair, and after prayers Mr. W. J. Drope was elected secretary.

CHURCHWARDEN'S REPORT.

After routine, Mr. R. M. Dennistoun read the annual report of the Churchwarden's, and the financial statement, whose consideration was deferred to the adjourned meeting of the Vestry.

The report set forth that the financial statement, duly audited, was satisfactory. The year was begun with a credit balance of $223.79, the mortgage debt stood at $5,275, and there was an outstanding Warden's note of $750. During the year both these items had been substantially reduced, the former standing at $5000, and the latter at $150, and this in view of the fact that $266.25 had been expended in providing the church with electric light. An exceptionally favourable renewal of the mortgage had been effected with the Central Canada Loan and Savings Company, reducing the rate of interest from 6 to 5 per cent., a saving of $50 a year. There was on hand sufficient fuel for the next winter. There were due and collectable $462.90 arrears of pew rent and envelopes. The report made special reference to the extremely satisfactory manner in which Rev. E. V. Stevenson had discharged, in connection with his clerical duties, the duties of choir master. Attention was also called to the fact that the present good financial condition was no reason for relaxation, for there were additional and unusual obligations, though of no great amount, to be met the coming year. The total amount of the Easter offertorys was about $700.

The report was on motion adopted.

ELECTION OF OFFICERS.

Rev. Mr. Davidson, for reasons stated, said that he was disinclined to decide upon the appointment of a churchwarden, and he would avail himself of the privilege of asking the congregation to make the appointment. His very warm thanks were offered to Mr. Dennistoun for his magnificent work during his term of office, and in recognition of his faithful services he was asked to accept two elegant books.

Mr. Dennistoun briefly replied, and referred to the valued assistance he had received from Mr. Long, who had worked indefatigably and successfully.

The Rector cordially endorsed what Mr. Dennistoun had said in reference to Mr. Long, and had much pleasure in presenting him with a testimonial, consisting also of two elegant devotional volumes.

On motion of Mr. J. E. Belcher, seconded by Mr. F. Foote, Mr. Harry Long was elected people's Churchwarden for the third consecutive term.

On motion of Mr. A. P. Poussette, seconded by Judge Weller, Mr. R. M. Dennistoun was re-appointed Churchwarden on behalf of the Rector.

Messrs. Long and Dennistoun briefly acknowledged the honour of their re-appointment.

The rector cordially thanked the auditors, Messrs. Edg. Pearce and P. Campbell, for the faithful and painstaking services they had rendered and a formal vote of thanks in these terms was cordially passed, on motion of Mr. G. A. Smith and Mr. W. C. Bourne.

The following gentlemen were appointed sidesmen—Messrs. R. H. Keils, W. Hinchcliffe, Macfarlane Wilson, Jos. Mills, F. Foote and J. Mulholland.

Messrs. Edg. Pearse and P. Campbell were re-appointed auditors.

GENERAL BUSINESS.

In view of Rev. E. V. Stevenson, who has in addition to his clerical duties, performed the duties of choir-master, wishing to retire, the matter of the appointment of a choir-master to take his place was brought up.

Mr. Dennistoun paid a warm tribute to the faithful and efficient services Rev. Mr. Stevenson has rendered. In moving a hearty vote of thanks, Mr. Dennistoun suggested that it would be only a due recognition of his services to extend him some substantial addition to his stipend; and he moved, seconded by Mr. Long that the following gentlemen be appointed to wait upon Rev. Mr. Stevenson in reference to a reconsideration of his decision in regard to his resignation of he position of choir-master.—Messrs. the church wardens, W. J. Drope, F. H. Lount, A. P. Poussette and P. Campbell.

The Rector, Mr. Long and Mr. Poussette cordially endorsed all that had been said.

THE SOUTH WARD MISSION.

Mr. W. B. Bamford, for the South Ward Mission, reported verbally in reference to finances. There had been a substantial increase in all departments, the Easter offering amounted to over $100.00 and the chancel building fund now amounted to about $500.00

SCHOOL HOUSE EXTENSION.

In introducing the subject of the proposed extension of the school house, the Rector urged the necessity of proceeding carefully in the matter of adding debt, even for a very necessary purpose.

Mr. Walkey presented the report of the Building Committee, and exhibited draft plans showing an addition in the form of a transept at the north of the present building, 30 x 50 feet, providing the increased accommodation required.

The wardens stated that there was a sum of about $1500 available for the purposes of the extension.

On motion of Mr. A. P. Poussette, seconded by Mr. P. Campbell, the Building Committee was requested to ask for tenders, and report at the adjourned Vestry meeting, a fortnight hence.

Mr. Campbell's motion for the appointment of a Vestry clerk was left as a notice of motion to be dealt with at the next annual Vestry meeting.

A cordial vote of thanks was passed to Miss Vink for her faithful and excellent services as organist.

The meeting was adjourned to April 20th at 8 o'clock.

LAY DELEGATES.

At a subsequent meeting of the congregation, Messrs. Robt. Fair, A. P. Poussette, and H. Rush were appointed lay delegates to the Synod.

ST. LUKE'S VESTRY MEETING.

The annual vestry meeting of St. Luke's church was held last night. The Rector presided, and after opening the meeting with prayer Mr. H. T. Strickland read the Warden's report, from which it appeared that there was a small deficit of $64.39. The Easter Sunday offertory was the

WESTWOOD.

From our own Correspondent.

The Westwood Football Club held their annual meeting last Saturday night, April 4th. There was a large and enthusiastic attendance and all arrangements for this season were made, officers reports read, and officers elected for 1896.

The following are the officers :—

Hon. President—Thomas Blezard, Esq., M.L.A.
President—W. J. McMillen.
1st Vice-President—Wm. Sharp, jr.
2nd Vice-President—Chas. Gallagher.
Sec.-Treas.—Dr. McNaughton.
Captain—D. M. Hunter.
Curator—Ed. McMillen.
Referee—G. A. L. Humphries.
Executive Committee—Dr. McNaughton, D. M. Hunter and Hugh Brackenridge.

Westwood will have a strong team in the field this year.

Mr. Wm. Slade, foreman for Messrs. Quinn & Chapman, is home now for a short time, after an absence of eleven months. On the 1st of May he begins rearranging for the same company. Mr. Slade is one of the company's principal men, and always has a busy and lucrative position.

Mr. Fred Wood is now home from the lumber camp, where he worked all winter for Mr. Wm. Slade. Fred will be here for the summer and the football boys are pleased, as he is one of the star players on the forward line.

The saw mill here will soon be running again.

COLDSPRINGS—OTONABEE.

(From Our Own Correspondent.)

The many friends of Mr. George Stewart, jr., of Otonabee, will join in congratulating him on his marriage to Miss Edith Sisson, daughter of Mr. Thomas Sisson, of Otonabee. The happy event took place on Wednesday, March 25th, at the residence of the bride's father, in the presence of a large number of the friends of the contracting parties. The bride was assisted by Miss Lunnis, of Peterborough, and Mr. Ormiston Stewart, of Otonabee, assisted the groom through the ceremony, which was performed by Rev. H. Symonds, of St. Luke's church, Ashburnham.

After the ceremony an excellent wedding repast was served and a pleasant social time was spent.

The many handsome presents testified to the high esteem in which the bride was held. Besides being very popular in social circles, she was also an earnest worker in the Cold Springs Union Sabbath School where she will be much missed.

SOUTH MONAGHAN.

(From Our Own Correspondent.)

We are sorry to record the death of Mr. Thos. Deyell, of Centreville, who died on Thursday morning at 9 o'clock, at the age of 60 years. The deceased was very highly respected; had many friends and will be missed, more especially so at home. We tender to them the heartfelt sympathy of the neighbourhood in this their sad bereavement.

The funeral took place on Saturday at 2 o'clock and proceeded to the Centreville cemetery.

On Friday morning Mr. Thos. Nimmo left to attend a term at the Royal School of Infantry, Stanley Barracks, Toronto. Mr. Nimmo is a young man of integrity and will be missed from our community.

Mr. Nimmo spent three months at the above school some time ago, and speaks highly of the tuition given there.

Most Unwise

Is a continual effort to employ cod liver oil in its pure state when the stomach protests against it. Almost equally vain are ordinary emulsions, which possess little value beyond their power to subdivide the oil. But where the oil is really needed, the elegant and efficious preparation, Maltine with Cod Liver Oil and Hypophosphites, may be most satisfactorily used. This preparation contains all the medicinal properties of the oil combined with the hypophosphites and with maltine, an acknowledged digestant and reconstructive. It increases the appetite, adds to the digestive power and aids the assimilative processes, thus greatly augmenting nutrition and replacing the waste inevitable in pulmonary complaints and debility.

Home Seekers Excursion

In order to give everyone an opportunity to see the Western Country and enable the home seekers to secure a home in time to commence work for the season of 1896, the Chicago, Milwaukee & St. Paul Railway has arranged to run a series of four home seekers' excursions to various points in the West, North-West and South-West on the following dates: March 10, April 7 and 21, and May 5, at the low rate of two dollars more than ONE FARE for the round trip. Tickets will be good for return on any Tuesday or Friday within twenty one days from date of sale. SIR DONALD SMITH TALKS

The Millionaire Canadian Tel's of His Recent Mission to Winnipeg—The Commissioners Were Well Treated.

Montreal, April 6.—(Special)—"What will be the result of your mission?" Sir Donald Smith was asked to-day.

"Though all that we wished for was not done," replied he, "it may have a good effect, and I hope that before long good will come of it. Some people thought that the offer of the Manitoba delegates was reasonable enough. No doubt the Manitoba delegates thought so themselves, and there are two sides to the question. Their propositions were reasonable from their point of view, and the Dominion commissioners also looked upon their own suggestions as being very moderate. At any rate we were very cordially received by the Ministers of Manitoba. Nothing could have been more pleasant. We had a very frank and confidential discussion and I do believe that they are just as earnest as the Dominion Government to find a satisfactory solution."

"Were there any strong demonstrations on the part of those opposed to the Remedial Bill?"

"Not that I am aware of. There was some abortive attempt to get up a demonstration, I believe, but I do not think that the people of Winnipeg generally gave the least heed to it. On the contrary, I think that the desire throughout Winnipeg is to have a reasonable settlement. I heard not one man, of all the hundreds I met there, who did not express an earnest desire to have the matter disposed of. It is very evident that it will be a very great relief to everybody when it is settled."

"Nothing remains for the Dominion Government now but to pass the Remedial Bill?" was the next question.

"It is recognized on all hands," replied Sir Donald, "that the Dominion has the right to pass Remedial Legislation. How far they may be able to pass the bill I cannot say more than you. Personally speaking I am very hopeful that even yet the matter will be settled, not quite immediately, I mean by the Provincial Government, but, at any rate, after a time, a way will be found for meeting the views, in a moderate way, of both sides."

"If the bill is passed, do you think the people of Manitoba will accept it?"

"I do not see why they should not. There appears to be an impression that they were not sincere; that they really had no earnest wish to settle the question; but I believe they have the interests of the province at heart, and that they will find some means of doing justice to the minority. Of course, I feel that the minority have certain rights which were assured to them, and I look upon it that those rights should be respected. But, at the same time, the minority are evidently willing to accept much less than, as they look upon it, they are entitled to demand."

"What they were willing to accept was contained in your offer to the Manitoba Government?"

"Of course; if we had not expected that what we offered would be assented to as satisfactory to the minority, it would have been no use putting it forward. But these were merely suggestions put forward by the commissioners on which to have discussion on the subject."

In conclusion, Sir Donald said that he and his colleagues had seen every member of the Government of Manitoba, including Mr. Greenway, who, unfortunately, had not been very well, and had consequently been unable to take part in the discussion in the first instance; but, before leaving, the visitors had seen Mr. Greenway, and from him, and from all the other Ministers, they had received the most courteous treatment.

THE BOOTH EMBROGLIO.

Ballington Booth Has a Conference With Mrs. Booth-Tucker—No Compromise.

New York, April 6.—Before leaving for Chicago this afternoon the following signed statement was issued by Commander and Mrs. Ballington Booth at the headquarters of the American Volunteers: "We have met and had a long interview with our sister, Mrs. Booth-Tucker, and wish it most distinctly understood that our attitude is absolutely unchanged, and that our future plans for the Volunteers will go forward as heretofore stated. We are, however, anxious to have it clearly stated that this interview was of a sisterly and brotherly character, and that, apart from the matters of controversy on which we must still differ, there exists, as there has always, the warmest affection for Mrs. Booth-Tucker as our sister. (Signed) Ballington Booth and Maud Booth."

Labor Leaders and Socialism.

TOURISTS AND THEIR WHEELS.

When Bicycles May be Brought into Canada Without the Payment of Duty.

Ottawa, April 6.—(Special.)—The state of feeling among wheelmen created by the re-enactment of the old regulations governing tourists' bicycles brought into Canada is evidently realized by the Department of Customs. Your correspondent spoke to Controller Wood on the subject to-night, and learned from him that the cause of the change was due to the heavy loss sustained by the revenue last year owing to dishonesty of certain parties. The department at the present time is framing regulations to meet the case of bona fide tourists. Members of the League of American Wheelmen are to be permitted to bring their wheels into Canada free of cost, providing, however, that the wheels shall leave by the same port. This change meets with the approval of the L.A.W., and will do away with the obnoxious regulation, which now requires the payment of entry when the tourist brings his wheel into Canada.

At Death's Door

Friends Thought the End Was Near.

A Condition That Was Almost Hopeless.

Failure Followed Failure

UNTIL PAINE'S CELERY COMPOUND WAS USED.

Mrs. Irvine Cured by the Great Medicine.

An Important Letter.

At death's door owing to kidney trouble, nervousness, sleeplessness and run-down system. Mrs. Irvine's friends realized the fact that she was nearing the grave, and did not hesitatate to express their fears. Doctors and their prescriptions could not break the power of the disease, and the ordinary advertised medicines of the day proved useless.

A resolve was at last made to give Paine's Celery Compound a fair and honest trial. Note the glorious results, ye doubters and skeptics! Four bottles of Paine's Celery Compound effected a cure, and saved from death a wife and mother who was thought to be incurable. A forcible reason why every sick man and woman should use Paine's Celery Compound.

Mrs. Wm. Irvine, who resides in St. John, N.B., writes thus:

"I have been troubled for the past ten years with kidney complaint, and have tried a great many preparations and doctors' prescriptions with little or no benefit. For the last six months I have had a great strain upon my system from night-watching and overwork. I was breaking down, and my friends said 'I was going fast to death.' I resolved to try Paine's Celery Compound, and used four bottles. My kidney trouble disappeared; nervousness and sleeplessness are troubles of the past, and my general health is greatly improved. In a word, I am cured, and I wish you to publish this for the benefit of others."

His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

CHAMBERLAIN'S PLAN

For an Imperial Zollverein Causes Much Talk.

WHAT PROPOSED SCHEME MEANS

Is England Desirous of Overcoming the Competition Arising From the Cheap Labor of the Orient?—Wilbur F. Wakeman's View—Is Britain Losing Ground?

New York, April 6.—The recent speech of Mr. Chamberlain, the Colonial Secretary of Great Britain, before the Canadian Club of London, proposing an Imperial Zollverein, based upon free trade within and a tariff for protection without the British Empire, has attracted a great deal of attention among political economists in public life, as it looks like a radical change of policy. His plan, in other words, is a free interchange of commerce between the United Kingdom and its colonies and the imposition of duties upon imports from foreign countries.

Canada, for example, in return for free entry of manufactured merchandise from the Mother Country, would be entitled to the free entry of her corn, wheat, barley, flour, hops, cattle, provisions, lumber and other products into British and colonial ports, while similar articles from the United States, Russia, Australia and the Argentine Republic would have to pay duty. Cane sugar from Jamaica, Barbadoes and Trinidad would enjoy a similar advantage over the other West and East Indies, and the best product of Germany and France. Wool from Australia and the African colonies would be admitted free, while that from Turkey and the Argentine Republic would be taxed, and there would be a discrimination against the cotton of the United States and Egypt in favor of India. In short, Mr. Chamberlain's Zollverein would place the colonies of the British Empire upon the same commercial relations as those existing between the States, coupled with tariff protection against foreign competitors. While it is realized that the suggestions of Mr. Chamberlain are not likely to find sufficient favor to be framed into laws very soon, his abrupt and radical departure from the traditional policy of his Government is considered striking evidence of the growth of the protection sentiment in Great Britain.

Secretary Wilbur F. Wakeman of the American Protective Tariff League, said that he was not surprised at all by the utterances of Mr. Chamberlain, and added: "He sees the handwriting on the wall, and knows that England and her colonies will suffer unless the policy of protection is adopted. The English colonies cannot compete against the cheap Oriental manufacturers Japan and China, with cheap labor and modern machinery, can make goods so cheap that no English colony can possibly compete with them. I am only surprised that England has not adopted this program, as outlined by Mr. Chamberlain, before. Our League has correspondents in the cities of Bradford and Birmingham, England, and they state that the manufacturers see the necessity of carrying out a protective scheme similar to the one Mr. Chamberlain advocates. They have got to do something.

"England employs cheap labor, it is true, but when that comes in direct competition with Oriental labor, it is no in it. A Chinaman will work all day for six cents, and live sumptuously on it, and will do as much work in the factory, with modern machinery, as an Englishman. The English laborer lives on less than the American, and his wages are much lower. But no civilized country can compete with the cheap labor of effete Oriental countries. Western machinery, for the past five and six years, has been going into Japan and China, and the Orientals are duplicating American and English goods, and selling them much cheaper, because the cost of labor amounts to practically nothing. Protection has made this country prosperous and kept up wages. The English people see it, and they are taking steps to protect themselves. If the scheme advanced by Joseph Chamberlain for an Imperial Zollverein embracing Great Britain and her colonies, as against the rest of the world, is adopted, it will mean nothing less than the abandonment of Cobden gospel free trade, with England has been preaching for the last 50 years, and a long step will be taken in the direction of the American policy of protection."

This is the view at least expressed by Prof. Gunton of the school of Social Economics, and the editor of Gunton's Magazine. He says that for two years past in the movement for closer union with the colonies on the part of England, he has observed signs of the reversion towards protection. "The tendency undoubtedly is in this direction," he continued, "and it is important for Americans to recognize it at once, for it is a movement hostile to American interests in two ways. It will discriminate against this country's general commerce with the English colonies, particularly Canada, in favor of the Mother Country, and it will affect the market for our agricultural products in Great Britain. It is essential that American business men at once take steps to advance their commercial interests elsewhere.

"Great Britain is losing her supremacy as a maunfacturing nation, and some such movement as this has seemed to me for years inevitable. Her manufacturers pay higher wages than their rivals on the continent, and as as the latter get the improved machinery used in England, they are able to undersell the English, who are gradually losing ground. Protection and reciprocity with the colonies, I consider a sound policy for her, just as I believe in protection for the United States. Free traders here will doubtless try to show that the zollverein is only an extension of the free trade system, but to me it looks like protection."

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

Smashed Prices—Important to Ladies

Sacrificed at half price, a splendid quality of Parasols. These are snaps. Remember, no reserve at the great dry goods' sale of the Armstrong stock, now going on next door to the Bank of Toronto, George street.

Down With Fancy Prices.

Business is booming! People are finding that my low prices for meats during these hard times are just what they want. I am selling the very choicest cuts of beef and veal for 10c. cash, other meats in proportion. JOHN CONROY, 213 Hunter street.

At ELLIOTT'S You can get Delicious California Evaporated Peaches, Nectarines, Pears, Apricots and Plums. These fine goods are cheaper than our own preserved fruits and much superior.

The Foresters' Social.

A large crowd of young people attended the social given under the auspices of Courts Peterborough and Langton, Canadian Order of Foresters, in their apartments, last night. Dancing was the leading feature of the evening, and all in attendance had a most enjoyable time. Metherall's orchestra furnished the music for the occasion, and Mr. M. Jamieson made a capital master of ceremonies.

"Send Along Another 1000!"

Such are the orders that have to be repeated regularly at intervals for the "A. H. S." Writing Tablets. Another 1000 has just arrived in Osgoode lines, Egyptian vellum, ivory white and pure cream papers. Our "Record-breaker" tablet, containing 100 sheets at 10c, is a snap. You can get them no where else but at the Peterborough Bookstore.—A.H. STRATTON & Co. Butterick's Patterns are the best.

Charlotte Street Ladies' Aid.

The Ladies' Aid Association of Charlotte street Methodist church assembled in regular session on Monday afternoon. The attendance was large and the reports from those who were assisting in connection with the "Talent Scheme" to raise funds were received. Those who were unable to be present sent in their reports, and, as a result, quite an addition to the funds of the aid was realized. The ladies of this church have from time to time materially augmented the church funds with their liberal assistance, and they are of much benefit to the regular church work.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out on the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order, and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, rich blood flowing into a diseased spot, and the disease will not stay. A man lives on rich pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 21 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

WEDDING BELLS.

A Pretty Wedding in the George Street Church This Afternoon.

One of the prettiest church weddings of the year was solemnized in the George street Methodist church at half past one o'clock this afternoon, when Rev. W. R. Young, B.A., the pastor, assisted by Rev. Dr. Torrance, of St. Paul's, performed the ceremony which united in marriage Miss Bertha Sperry, second daughter of Mr. Anson Sperry, No. 997 Water street, and Mr. Hugh Bertram, son of Mr. John Bertram, Toronto, ex-M.P. for West Peterborough.

The centre aisles of the church were barred, about half way down, with broad bands of white ribbon in order that seats might be reserved for the invited guests, and it was well that such precautions were taken as almost every seat in the gallery as well as the body of the church was occupied.

The bride looked most charming in cream mull as she entered the church on the arm of her brother-in-law, Mr. David Fraser, of Norwood, who gave her away. She wore a veil and orange blossoms and carried a beautiful spray bouquet of cream roses.

The bridesmaid, Miss Clara Sperry, a sister of the bride, was also most becomingly costumed in mull, with picture hat, and carried roses.

The groom was assisted by his brother, Mr. Robert Bertram, and the ushers were Mr. John Bertram, jr., and Mr. Frank Cox.

At the close of the ceremony the bridal party repaired to Mr. Bertram's beautiful country residence, "Spring-garden," in Smith township, where a large reception was held during the afternoon.

Mr. Bertram has been away from Peterborough for some time, but he will now, with his bride, take up his residence at the homestead, in Smith. The popularity of the young couple was amply evidenced this afternoon by the throng of their young friends who were in attendance at the church to witness the performance of the ceremony, and also by the fact that the presents which were received were both numerous and beautiful, the young couple being unusually favoured in this respect.

Among the guests from a distance were John Bertram, Esq., Toronto, and Mrs. Bertram, the Misses Ella, Kate and Nellie, their daughters, and Messrs. John and Melville, their sons; Mrs. Mackenzie, London, sister of Mrs. Bertram; Mr. and Mrs. Peter Bertram, Hamilton, and Mr. George H. and Miss Florence Bertram, Toronto

YOUNG BACHELORS.

A Pleasant Evening in the C. L. A. Rooms Last Night.

A number of young bachelors gave a most pleasant assembly last evening in the rooms of the Catholic Literary Association. Butcher's orchestra was present and the apartments were most beautifully decorated for the occasion with banting, kindly loaned by Mr. A. G. Dickson.

The committee, under whose direction the affair was brought to so successful an an issue, was composed of Messrs. P. Doris, chairman, A. J. Gough, A Macpherson, J. Hanrahan, J. Hickey, T. J. Begley and Joseph Begley, assisted by Mrs. George Ball, Mrs. J. J. Lynch, Miss M. E. Kelly, Miss B. McAuliffe, Miss M. Doherty, Miss L. Mahoney, Miss M. Begley, Miss N. Pope, Miss A. Cahill and Miss A. Houlihan.

Mr. M. Costello was master of ceremonies and performed his duties in his usual efficient manner. Refreshments were served during the evening.

RUPTURE.

Mr. B. Lindman, of Toronto, manufacturer and proprietor of the celebrated Wilkinson Truss, will be at the Oriental Hotel in Peterborough, on Tuesday and Wednesday, the 7th and 8th of April, for the purpose of fitting those suffering from hernia or rupture. The excellence and simplicity of the Wilkinson Truss are well known, being most highly endorsed by those wearing them or having used them, from the Atlantic to the Pacific, as also by every physician and surgeon in Toronto, without exception. You have no doubt noticed the temporary relief and the ease with which the rupture may be reduced and retained for a time by the fingers; the action of the Wilkinson Truss is similar to that of the human hand, not only reducing but fully retaining the rupture; it has no complex attachments, it is simple, it is perfect. Mr. Lindman will be glad to see you at the Oriental in Peterborough on the 7th and 8th of April. Success attends the Wilkinson Truss everywhere. Unfortunately there are so many more or less worthless trusses in the market that confidence in trusses has been lost by many. But this is the age of progress and we can assure those requiring a perfect truss that this is the truss par excellence. 2d2w

The selection of a delegate to the International Convention was left to the Executive.

REV. J. E. TROTTER.

of Murray street church gave a very thoughtful and suggestive address on "The necessity of Bible study to successful Christian Work." He said that in most of the business of life, means are necessary for the accomplishment of the ends sought. A successful fisherman will have bait and tackle; a successful miner will have pick and shovel and be familiar with their use. So in spiritual work there is an end to be accomplished, and to attain to it the right means must be used. Christian work consists in the bringing of souls to Christ, and in the building up of the Christian life, and to do that work the Word of God is as necessary a means as the bait and tackle of the fisherman. When a young man desires to enter on the solemn work of the gospel ministry, he appears before his brethren to be examined as to his knowledge of the word of God. All who desire to share in the honour of Christian work must know the word of God as the instrument they will use to perform their work.

There is no excuse for the ignorance of the word of God. Bibles are cheap enough to be within the reach of the poorest. Leaders in the churches have mapped out excellent culture courses. Normal classes are organized in almost every section of country for instruction in the truth. Sunday School helps of the very best kind are provided for the explaining of the weekly lessons. All these things are provided in order that Christian workers may possess a good working knowledge of the Scriptures. We do not need to submit to examinations in this work in order to be furnished for service, but we should not be ignorant when we attempt to deal with immortal souls.

STUDY OF THE WORD

of God is necessary for thorough equipment for service. A great many read the Scriptures in a cursory sort of way, but those who do so accomplish little. Ruskin's story of the hedge hog gathering grapes illustrated very aptly those who only skim the word of God. The hedge hog conveys himself beneath the vine and, making himself up into a ball, rolls over the ground where the fallen grapes lie. Whatever grape skins adhere to his quills he carries away to eat at his leisure. The word is not to be studied for the purpose of being able to defend the Bible. The word is God's word and our business is to preach it, not defend it. A French king who was on the march with his army against a foe, encamped outside the walls of a certain city. The Mayor came out to greet him and requested him to wait before the city until he sent out his beadle to disperse some thieves that infested the neighbourhood that the king and his army might pass on in safety. It is as ludicrous for Christian workers to set themselves to defend God's word as it was for the mayor to think his beadle was necessary to protect the king and his army. The methods of the successful Christian workers in Scripture should be studied and copied by those who would enjoy like success. The military man who desires to succeed in his vocation makes a particular study of the tactics of great generals. The story of Samaria, the talk of Christ with Nicodemus, Peter's sermon on the day of Pentecost are excellent models for the Christian worker to study.

Inasmuch as the word of God is the instrument put into our hands by Him, and is designed to convict, regenerate and sanctify the soul, let us study it that we may know it and know how to apply it, to the end that we may be used to win souls for Christ and help to train them for His service.

REV. DR. TORRANCE

instanced Evangelist Moody as one who was a great believer in the necessity of Bible study and Rev. Mr. MacWilliams stated that one of Moody's expressions was "Less prayer and more study," whilst Mr. MacWilliams did not believe in less prayer being offered, he thought that a great deal more studying could be done.

Mr. Alfred Johnston pointed out that the Society of Christian Endeavour offered to its members a grand opportunity for Bible study.

Rev. Mr. McLeod, of the Gilmour Memorial church, thought that the ignorance existing in connection with the Bible was astonishing. At one time he had heard a prominent church member in praying state that with St. Paul he said "God this day expects every man to do his duty." It was beyond human reason, he thought, to imagine how a life could be built up and assist in building up others without consistent study of God's Word.

Three ten minute addresses on missions was the next number on the programme. The subject was divided and given under three heads as follows:

1st, "Systematic Giving, its advantages," by Rev. J. A. McCamus, Norwood.
2nd, "Incentives or Encouragements in Missionary Work," by Rev. Mr. Liddy, Keene.
3rd, "The Work of the Holy Spirit in Missions," by Rev. Mr. Hanna, of Uxbridge.
Singing.

REV. MR. M'CAMUS, OF NORWOOD,

in speaking on the advantages of systematic giving, thought the subject was an important one and did not receive sufficient consideration. It was a delicate subject to handle. Many were in the habit of saying that the churches were always begging, and members often spoke of not liking a minister because he "was continually asking." The minister soon became aware of the existence of such a feeling and it made his position an unenviable one. He might give up asking and thereby great injury would be done. If the bible was studied the necessity of giving would be apparent. Giving had always been a part of religion. The yielding of one tenth was mentioned in the first pages of the Scriptures. All, the speaker thought, should give to mission work, that others might reap the benefit in future as we are now reaping the benefit of what others did for us in the past. In conclusion Mr. Mc-

FIRST-CLASS MILLINERY.

DO WE ADVERTISE TO MUCH?

Sometimes we almost believe we do, but the crowd of appreciative customers that comes after each announcement, convinces us that our advertisements have a permanent place in public economy.

In this age when every merchant, no matter what size his business or his capital states in his advertisement that he buys direct from makers, and at prices special to himself and such like exaggerations, it must be hard for people to judge by reading advertisements alone. You cannot do it. We invite you to make personal comparisons by getting samples or by personal inspection and you will learn for yourself that we put nothing but facts in our advertisements and you will find that by buying from us you will save money on every purchase.

Mr. F. J. Rogers, the New Manager of the Bank of Montreal—He Arrives in Town.

Last evening Mr. F. J. Rogers the newly appointed manager of the Bank of Montreal here, arrived in town accompanied by Mrs. Rogers.

In last evening's issue the EXAMINER published a paragraph referring to the manner in which Mr. Rogers was honoured at Deseronto. Below is a fuller report with a copy of the address.

DESERONTO, April 4th.—On Friday night, 3rd inst., the rooms of the Deseronto Club were filled with an assembly of the business men of the town and other leading citizens who had met to express their regret at the departure of Mr. F. J. Rogers, Manager of the Bank of Montreal, lately promoted to the Peterborough agency. A complimentary address was read by Mayor Rathbun, and at the same time Mr. Rogers was presented with a rich and handsome silver coffee service, together with a set of tobacco pipes and a gold toothpick. Mr. Rogers thanked the donors for their kind words and valuable gifts. Addresses were delivered by Mayor Rathbun, Reeve Dalton, Dr. Newton, Messrs. Millener, Russell, Malley, Nasmith, McCullough and other gentlemen. Mr. Rogers proved a good bank manager, and at the same time always manifested a deep interest in the business welfare of Deseronto. He was the first manager of the agency of the Bank of Montreal in Deseronto, and both he and Mrs. Rogers leave with the best wishes of a host of friends.

ADDRESS.

F. J. Rogers, Manager of the Bank of Montreal, Deseronto:

SIR,—We business men and citizens of Deseronto cannot allow you to depart to your new sphere of duty without assuring you of the regret we feel at your removal from our town, even though we recognize in that removal your promotion to a more important and responsible position in the financial institution with which you have been for so many years connected.

It was a great satisfaction to all classes of this community when the Bank of Montreal, one of the greatest monetary corporations in the world, decided to open an agency in Deseronto. That the governors of the Bank should have selected you as the first manager of the new agency was in itself a proof of their confidence in your administrative abilities. We cannot but testify to the excellent judgment and business tact you have manifested in your efforts to place the agency on a proper basis, a task which no doubt entailed a great deal of hard work and serious responsibility.

We would most heartily express our sincere appreciation of the courtesy and kindly consideration extended to all in their transactions with the bank, and we will always remember your readiness, by advice, suggestion, or active co-operation, to promote the material welfare of the town of Deseronto. It affords us the greatest pleasure to ask you to accept these slight tokens of appreciation.

We would also take this opportunity to express the general regret felt at the departure of Mrs. Rogers and the other members of your family. Mrs. Rogers, by her active and generous efforts in church work and other benevolent undertakings, has constantly manifested a desire to promote the best interests of the community.

We assure you that we will always retain the most pleasant recollections of your stay in Deseronto, and we desire to wish you and your family all success in your new sphere of duty.

Deseronto, April 3, 1896.

Mr. Rogers will be heartily welcomed to the town. He comes to us as a stranger, but the manner in which he was honoured at Deadronto is evidence of the possession of qualities of character and person that will make him a valuable addition to our business and social citizenship.

Mr. Rogers entered the banking business in connection with the Bank of Montreal at Belleville 24 years ago, so it will be seen that he has had ample experience of all stages of banking affairs. He has been a manager about four years, first occupying that position at Almonte, where he was succeeded by the late Mr. Budden, so well-known and liked in Peterborough. On the establishment of the important branch at Deseronto, Mr. Rogers was placed in the responsible position of manager, whose duties he has discharged so faithfully as to win the confidence of the bank, as evidenced by his appointment as manager of the still more important branch in Peterborough. Wherever he has been Mr. Rogers has won high respect for his record as a public spirited citizen. In the matter of interest in manly sports Mr. Taylor's mantle falls upon worthy shoulders in the person of Mr. Rogers, who is much interested in field sports generally, and cricket in particular. On behalf of the citizens THE EXAMINER begs to cordially welcome Mr. Rogers to Peterborough.

A LONG SESSION ALL ABOUT NOTHING.

THE TOWN COUNCIL WASTES A GOOD DEAL OF TIME IN USELESS DISCUSSION.

A Long List of Accounts Received—The Town Deputation to Toronto re The Wheelmen's Meet, Will Have to Pay Its Own Expenses—Money to be Borrowed From the Town Commissioners Instead of the Bank.

At the regular meeting of the town council, which was held last evening, there were present the Mayor and Councillors Best, White, Hughes, Denne, Mills, Phelan, Weir, Sawers, Moore, Langford, Graham and White.

On motion a deputation from the Agricultural Society, consisting of Messrs. Geo. E. Elliott, President; Dawson Kennedy, Vice-President and W. J. Green, Secretary, was received. Mr. Elliott, in explaining the object which the deputation had in view, stated that the assistance of the council was about to be asked—not in the way of a straight grant but rather as a guarantee, such as is given in Lindsay, providing the weather proves unfavourable. Mr. Elliott represents that the expenditure in connection with the Central Exhibition amounted now to about $3,200 annually and that the revenue which could be depended upon was only $380. As the difference between these two sums was a very heavy responsibility to carry, the Directors were anxious to have the council pass some resolution whereby, in case of the weather proving unfavourable, the directors would receive some assistance. Lindsay guaranteed $200 to their fair. Last year the gate receipts here showed the attendance was between eight and ten thousand people. This year the Governor General and Sir Charles Tupper were expected to be present at the opening of the Fair, and the attendance would probably be 20,000.

Mr. Dawson Kennedy thought that the councillors all knew of the advantage which the town derived from the holding of the Fair. The money awarded in prizes was all spent in the town, and there was no doubt that the fact of so many people attending the Exhibition, was in itself a great thing for the merchants.

Mr. W. J. Green also spoke, endorsing the statements of the previous speakers.

The deputation made a good impression, and on motion of councillors Langford and Graham, their request was refered to the Finance committee to report upon.

COMMUNICATIONS

were received and referred as follows:—

From the Board of Trade, inviting the Council to be present at an address to be delivered by Stapleton Caldecott, ex-President of the Toronto Board of Trade.—Received.

From R. H. Green, giving a statement showing the receipts of the market tolls to be $349.25 less than the amount paid by him for the privileges, and asking a rebate.—Referred to the Finance Committee.

From Mrs. Ellen Dwyer, asking for remission of taxes.—Referred to the Court of Revision.

From E. B. Edwards, enclosing the decision of the Chief Justice in the case of Mason vs. Peterborough, and a bill of the taxed costs. — Referred to the Finance Committee.

From Dumble & Johnston, enclosing account of $1,773.15, being the amount of verdict and taxed costs in the Mason case.—Received.

From Robert Nerton asking for more time in which to pay his taxes.— Referred to the Court of Revision.

From R. Thorndyke, asking for a remission of his taxes.—Referred to the Court of Revision.

From Mrs. Balier, asking for a remission of her taxes.—Referred to the Court of Revision.

From Donald Guthrie, Inspector of Registry Offices, requiring the town to have prepared and registered a plan of the town in accordance with the Act affecting the matter.—Received.

From John W. Carter, Supreme Grand Secretary of the Sons of England, enclosing a reply to the address of welcome from the Mayor and council.—Received.

From the Salvation Army, asking a grant of $50.00 to buy new instruments.—Referred to the Finance Committee.

From E. B. Edwards, enclosing draft by-laws to provide for grants to the Horticultural Society and the Fire Brigade.—Received.

From Dumble & Johnston, stating that T. L. Hayes had fallen on Simcoe street and broken his arm and that an action would be entered to recover damages for the injury received.—Referred to the Street and Bridge Committee.

From Mrs. Mary Ann Robinson, asking for a remission of taxes.—Referred to the Court of Revision.

From James Clancy, asking permission to drive a team of colts as a carter without having to take out an extra license.—Referred to the Licenses Committee.

From the Town Treasurer giving a statement of monies already spent on the outfall sewer amounting in all to $17,000.

Councillor Moore stated that as it would take over $3 000 to complete the sewer, it would be as well to dispose of the remaining $4,000 worth of the $21,000 worth of debentures which were issued. A motion was passed in accordance with his views.

From E. Pearce, Secretary-Treasurer of the Commissioners of the Town Trust, giving statement of moneys which will be required by the Commissioners.

In connection with the communication, Councillor Moore stated that he understood that there was only $1,200 to the credit of the town in the bank and that more money was needed for current expenses.

A considerable discussion arose on the point as to whether a lump sum should be borrowed from the town commissioners at four per cent. interest or whether five or six per cent. should be paid to the Bank for money to be obtained as needed.

On motion of Councillors Langford and Moore, it was resolved that "Any moneys the town owes the Commissioners shall be retained at four per cent. interest."

Councillor Graham presented the report of the

MARKET COMMITTEE,

stating that "they sold the market tolls by auction on March 20th to Mr. T. A. Choate for $2,500. Mr. Choate, however, found that he could not carry out the conditions of sale and on paying a forfeit of $100 he was released. The tolls were again offered for sale on April 2nd, and were sold to Mr. R. H. Nesbitt for $1900. The committee had in the meantime arranged with Mr. R. H. Green to take charge of the market on the 1st and 2nd of April at $1.00 per day and the net proceeds of the market on those two days were by the terms of sale to go to the purchaser of the tolls for the year. Mr. Nesbitt has completed his papers and has taken charge of the market."

The report was adopted.

Through Councillor Sawers, chairman, the

COMMITTEE ON APPOINTMENTS

recommended that John Clarke, M. D., be appointed town physician at a salary of $100 per year, he to attend patients at the request of the Mayor or Chairman of the Charity Committee, and to furnish necessary medicine.

Councillor Sawers in speaking on the report said that the late town physician had saved the town $160.

The report was adopted.

Councillor Phelan presented the report of the

PROPERTY COMMITTEE,

recommending that the committee be authorized to ask for tenders for a nuisance ground for the ensuing year and to award the contract, and that the mayor and clerk be instructed to execute an agreement on behalf of the town with the person to whom the contract is awarded by the committee.

Through Councillor Hughes,

THE LICENSE COMMITTEE

recommended that (1) Thos. A. Sanders, whose complaint was referred to this committee be given a pedlar's license this year free; (2) that F. Fairen be given a refund of $20 on account of the fine imposed on him for neglecting to take out a billiard table license, and that a cheque for that amount be issued to him.

Councillor Moore presented the report of

THE FINANCE COMMITTEE,

recommending,

1. That a grant of $250 be made to the Peterborough Fire Brigade Band on condition that the band play three times a month in the Court House Park and once a month in another park to be designated by the Council during the summer.

2. We recommend that grant of $400 be made to the Peterborough Horticultural Society.

3. We recommend that the account of the Peterborough Water Company for damage to pipes at the Hunter street bridge amounting to $327.61 be paid in full, and that as a cheque for $150 was issued, which the company refused to accept, a further cheque for $177.61 be issued.

The accounts of Messrs. Gough Bros., Grafton & Co. and Greer, as well as those of the carters, were ordered to be paid when certified to, on motion of Messrs. Mills and Sawers.

BY LAWS

Councillor Moore introduced the by laws for the grants to the Horticultural Society and the Fire Brigade Band of $400,00 and $250,00 respectively. The by law received its third reading and was passed.

Councillors Sawers and Weir moved that a clause be added to the by law granting $25.00 to the Salvation Army.

In amendment Messrs. Best and Denne moved that the matter of the Army grant be referred to the Finance committee.

The amendment was carried on the following vote:

YEAS—Councillor Best, White, Hughes, Denne, Mills, Phelan, Moore, Langford, Graham and White.—10

NAYS—Councillors Weir, Sawers.—2.

Councillor Sawers introduced the by law for the appointment of Dr. Clarke as town physician, at the salary of $100.00 per annum. The by law was read a third time and passed.

Councillor Mills introduced a by law in amendment to the by law regarding the selling of fresh meat on George street between Charlotte and Simcoe streets.

The amendment provided for the allowing of meat to be sold within these limits. It was passed.

SOME RESOLUTIONS.

On motion of Councillors Moore and Sawers, it was resolved "that the mayor cause to be issued the balance of $4,000, unissued, of the debentures for construction of the outfall sewer."

Moved by Councillors Moore and Langford "That the Mayor and chairman of the Finance Committee make arrangements with the town's bank for the current requirements of the town, and that the bank be required to furnish to town treasurer on the first of each month, a statement of the interest charged on overdrafts."—Carried.

Moved by Councillor Moore and Langford, "That the expenses of the following deputations be paid:

To Ottawa, re. power from dam on T. V. Canal, Nassau.

To Toronto, re. Market and Town's private bills.

To Warsaw, re. sale of market tolls.

To Toronto, re. Wheelmen's meet.

Councillor Sawers raised a point of order regarding the last item and moved that it be struck out.

Councillor Hughes moved the reception of the report.

Councillors Denne and W. H. White moved it adoption.

Councillors Weir and Sawers moved in amendment to strike out the last clause.

The amendment was lost on the following division:

Yeas—Councillors Hughes, Weir, Moore, Sawers and J. White.—5.

Nays—Councillors Best, Wm. White, Denne, Mills, Phelan, Langford and Graham.—7.

The report was then adopted.

The discussion of the matter was a warm one, a number of the councillors having understood that it was the wish of the Council that a delegation should be sent to Toronto, whilst others again were positive that the deputation had gone up to the C. W. A. annual meeting without authority. The bill of expenses for the trip amounted to $18, but it was not allowed, and the last clause being struck out of the resolution, it was passed as amended.

MOFFAT & KIDD'S PATENT LAUNDRY CASE.

The greatest convenience yet introduced in the Laundry Business. Finished Work can be quickly handled. No Wrapping or Tying.

This long felt want is a simple, sensible and clever device that meets the case exactly at a trifling cost. Read these testimonials:—

Messrs. Moffat & Kidd:

GENTLEMEN,—Having thoroughly examined the Patent Laundry Case, manufactured by you, I must say it is the greatest convenience ever introduced for laundry purposes, and feel confident it is just what every man, young or old, requires, to keep his shirts, cuffs and collars in perfect order, prevents linen from being crushed, and ensures delivery of work in perfect order. I strongly recommend it to all sending work to the laundry. Yours truly,

A. PARKER,
Peterborough Steam Laundry.

Messrs. Moffat & Kidd:

GENTLEMEN,—We have much pleasure in speaking a good word for your new Patent Laundry Case. Nothing that we have ever seen "fills the bill" so well as this for holding either soiled or newly laundried work. It will save time, temper and bad words, and the price is within the reach of all. It is as handy as a pocket in a new shirt, for the young man, the married man, or "the bachelor all forlorn." The boys should catch on to them at once.

Yours truly,
SHARPE & STENSON,
I. X. L. Laundry.

PRICES 85c. and $1 00 Each. Samples may be seen at the stores of A. Mercer & Co and W. H. Meredith, and at the Laundry Offices, in town, or by addressing Moffat & Kidd, P. O. Box 471, Peterborough.

CARD OF THANKS

This will in a slight degree convey to the citizens of Peterborough how grateful we feel towards them for their very encouraging patronage at our opening.

Our only regret was that we had not sufficient help to give proper attention to all who called, although we had five experienced cutters, assisted by salesmen and cashiers, who were all kept hustling the entire day.

Any who did not receive the attention they expected, we ask them to bear with us on this occasion. In the future we will endeavour not only to please, but give entire satisfaction.

We earnestly solicit a continuance of your patronage and will strive by prompt attention and a careful study of the needs of our patrons to return their good wishes.

JOHN H. McCONNELL.

A Windsor Man Who is Known Everywhere.

He Speaks Very Highly of Scott's Sarsaparilla.

Used it Last Spring as a Family Tonic and Intends to Use it This Year Also —It is Wholesome, Invigorating, Strengthening He Declares.

One of the best-known men in Ontario is Mr. John H. McConnell, of Windsor. He is connected with most of the leading secret, fraternal and benevolent societies, has organized lodges in every city, town and hamlet in the province, and is probably personally acquainted with a greater number of people than any other single individual in her Majesty's Dominion of Canada.

Ask almost anyone you meet, "Who is J. H. McConnell, of Windsor?" Nine out of every ten will be able to answer the question. The opinion of such a prominent man, therefore, is valuable. Mr. McConnell usually prefers to talk about political or society events. But he can say a good word frequently for anybody or anything outside these two subjects he thinks deserving of it.

He Talks About Scott's.

When in Toronto last Monday (*March 2nd, 1896*) he very outspokenly expressed himself as follows to the manufacturers of Scott's Sarsaparilla:

"Scott's Sarsaparilla is a tonic I use in my family. It is one of the best spring blood purifiers I know of. I used it last spring and intend to use it this. It is very strengthening, drives away nervousness, builds up the system, and is a good all-around, wholesome medicine.

"It is pleasant to take, the children like it, and since giving it to them we have had no sickness of any kind in our house. All this I can truthfully say, and when I say a thing I mean what I say, and I don't care who knows it."

Anybody who wishes to secure Mr. McConnell's opinion can get it by writing him at Windsor.

Selous Returns to Buluwayo.

Cape Town, April 5.—Frederick C. Selous, the hunter and explorer, who left Buluwayo with a small force to escort the mail coach from Mangwo to Buluwayo has returned safely to the latter place, which, according to despatches received here to-day, is quiet. An officer of the British army who is now a resident of the Rand, in the Transvaal, telegraphed to Buluwayo offering his assistance against the Matabeles. A reply was sent to him in which it was said that Buluwayo declined to receive help from Johannesburg.

Minister Terrell Arrives Home.

New York, April 5.—Alexander W. Terrell, the United States Minister to Turkey, was a passenger on the Hamburg-American liner Fuerst Bismarck, which arrived to-day from Mediterranean ports. Mr. Terrell to all questions regarding his mission to this country responded with one phrase, "I've absolutely nothing to say." He said he would tell everything to Secretary Olney, whom he intends to meet in Washington to-morrow.

Determined Suicide of a Resident of St. Paul—Mr. Tarte's Opinion of the Public School at Smith's Falls.

Montreal, April 5.—(Special)—Mr. Medard Fisette, a well-known resident St. Paul, Joliette County, took his own life yesterday under the following circumstances: Although Fisette was 63 years old and had betrayed symptoms of a weakening intellect for some time past, his family never dreamed that his mental troubles would lead him to commit suicide. During the morning, however, the family missed the old man, and going to the barn near at hand, they found him hanging to a cross beam and his feet coming within a few inches of the floor. Life, of course, was extinct, and a coroner's inquest being held a verdict of suicide while laboring under temporary insanity was returned.

Mr. Tarte, M.P., has been jotting down his impressions of men and things during his quite recent visit to Smith's Falls, where the member for L'Islet was the guest of Mr. Frost of Messrs. Frost & Wood. "Smith's Falls," writes Mr. Tarte, "has no Separate schools, the Catholics and Protestants sending their children to the same schools. The only religious instruction is the recitation of the Lord's Prayer each morning at the opening of the school. The salaries of the teachers are comparatively high, the principal of the High school receiving $1100 per annum, and the smallest salary paid to the lady teachers is $250. The instruction given in these schools is of a very superior character, and there is no friction whatever between Catholic or Protestant."

WOULD STARTLE CHRISTIANS.

The Worst Has Not Yet Been Told of the Fiendish Tortures Inflicted on Cuban Rebels in Morro Castle.

Cleveland, O., April 5.—F. H. Taylor, who has just arrived here after a residence of three years in Havana, says in regard to reports of Spanish cruelty:

"The worst has not been told. I have known of persons being strung up by the thumbs at Morro Castle and left for days at a time at the mercy of the vicious flies, attracted in swarms by molasses smeared on the victims' faces and chests for that purpose. Many other forms of torture are practised upon the rebels when taken.

"These outrages against humanity do occur, as any citizen of Havana can testify. In fact, if the persecuted wretches in the Cuban dungeons could testify, stories of fiendish torture could be told which would startle the Christian world."

KILLED IN A PRIZE FIGHT.

Richard Ingram of Haverhill Knocked Out by a Chance Blow Under the Jaw.

Haverhill, Mass., April 5.—As the result of a prize fight at Lawrence last evening Richard Ingram of this city lies dead at Weaver's undertaking establishment. Arthur Bradley and Ingram worked at Chick Bros. shoe factory and boarded together. Both were proud of their records in athletes. According to Bradley's story, Ingram had been boasting of his superiority with boxing gloves, and in order to settle the question, a fight was arranged for last evening, the prize money being $10 a side. They, with friends, went to South Lawrence, where the fight came off in a barn. The fight had lasted 30 minutes, when it is said Bradley gave his opponent a chance blow under the right jaw, which laid him out on the floor. Up to this time Bradley had received the worst of the fight. Ingram recovered consciousness for only a minute, and died two hours later. The police have arrested Bradley and several witnesses of the fight. Bradley will be arraigned to-morrow on the charge of manslaughter.

WAS AFRAID OF THE SURGEONS.

Karaski Thought They Would Cut off His Leg So He Ran.

Buffalo, April 5.—Frank Karaski, employed at the Buffalo Furnace Company, was badly bruised about the legs early yesterday by a quantity of ore falling on him. The Fitch ambulance was called, and despite his protests, he was put into the ambulance. The Italian had a horror of going to the hospital, believing that they would amputate his leg. When the Fitch was reached, Karaski jumped out, and before the ambulance surgeon knew what was up, the fellow was running up Swan-street like a streak. The doctor followed after him, and caught him after a run of three blocks. The fellow then gave up only because he was thoroughly exhausted.

He refused to go to the hospital and the police were called. It required the efforts of three patrolmen to get him into the ambulance, which followed the surgeon up, and take him back to the hospital. Several of the small bones at the ankle were broken, and when the doctors eased the pain of the injury, which had been greatly aggravated by his run, Karaski was contented to remain at the hospital.

The Resurrection.

The time may never come when science will assert immortality as a necessary dogma. But it is doing something far more helpful than that. It is declaring that beyond the utmost confines of its knowledge lies the source of all that is, which can only be apprehended by the intuitions of faith. Not the Christian only today, but reverent science it is, which puts forth the cry of the poet:

Thou wilt not leave us in the dust;
Thou madest man; he knows not why;
He thinks he was not made to die,
And thou hast made him; thou art just.

FIELD ARTILLERY AT BEDFORD, N.S.

The Establishment Has Been Recommended by Gen. Montgomery Moore.

Halifax, N.S., April 4.—It is understood General Montgomery Moore has recommended the establishment of a battery of field artillery at Bedford, N.S. He states that it will be of great assistance to regulars, as it will be the only field battery in the province. Sergeant-Major Mullane of the Royal Artillery, who holds a Victoria Cross for bravery, will be attached to the battery. He has signed his name to a petition which has been sent to Ottawa. Sergeant-Major Mullane's time in the army has expired, and he will make Halifax his home. There will be six horses to each gun. A large number of the required 79 men who signed the petition are time-expired military men. It will cost about $1000 to organize the battery.

Do Not Do This.

Do not be induced to buy any other if you have made up your mind to buy Hood's Sarsaparilla. Remember that Hood's Sarsaparilla cures when all others fail. Do not give up in despair because other medicines have failed to help you. Take Hood's Sarsaparilla faithfully and you may reasonably expect to be cured.

Hood's Pills are purely vegetable, carefully prepared from the best ingredients. 25c.

One reason why women are so generally troubled with some derangement of the distinctly feminine organism is that as girls they learn nothing about their own physical make up. Parents are waking up to the importance of education of this kind, and young women are becoming more and more able to take care of their health.

Carelessness in girlhood causes the greatest suffering and unhappiness in after life. Little irregularities and weaknesses in girls should be looked after promptly and treatment given at once. Dr. Pierce's Favorite Prescription promotes regularity of all feminine functions, makes strength and builds up a sturdy health with which to meet the trials to come. The "Favorite Prescription" is not a universal panacea. It is good for but one thing. It is directed solely at one set of organs.

"I have been a sufferer from 'female weakness' for six years. I grew worse; had severe cutting pains in left ovary, also in left side and stomach. The pain in left side was constant. I would have light spasms previous to monthly period and when the spasm would cease I would suffer from severe soreness all over and could bear nothing to touch me. I also suffered from severe headaches; burning pressure on brain which almost caused me to be insane. I could not lay my head down without smothering. My face was poor; eyes looked dead; wasted in flesh. I was constipated and suffered severe pain when bowels would act. I could not eat for the fullness in region of stomach. I had tried three of the best doctors here but they only gave me temporary relief. I had given up all hope of ever getting well again. At last I concluded to give Dr. Pierce's Favorite Prescription a trial. I have taken two bottles, one of the 'Golden Medical Discovery' and one of 'Pellets.' I have not felt any signs of my old disease; headache all gone; digests regular without ache or pain. Indeed I feel like a new person." Yours truly,

Billie M. Parris

MINISTERS ARE BACK.

The Minister of Justice Has No Desire to Talk

OF NEGOTIATIONS AT WINNIPEG

Until the Report of the Conference is Laid Before the Government—How the Propositions Came to Be Made Public—What Premier Bowell Says.

Ottawa, April 5.—(Special)—The Federal Commissioners, Sir Donald Smith and Messrs. Dickey and Desjardins, returned from Winnipeg this morning, apparently in good health and spirits, after their trip to the Provincial Capital. They came home by way of St. Paul, where they spent a very pleasant day on Friday. Your correspondent had a friendly half-hour's chat with Mr. Dickey to-night, but like his colleagues, he had little to say for publication. In the course of conversation Mr. Dickey said: "Until such time as we have reported to the Government, it will not be possible for us to say anything, and then I expect you will get all the information you want in the course of the proceedings in the House of Commons, as I suppose we shall be asked for it. I understand that since we left Winnipeg the written communications which passed between the members of the Manitoba Government and ourselves have been given to the press, although whether all or only a portion of the documents have been so given out, I have not yet had time to verify. I may say that before we left Winnipeg it was arranged with the Manitoba Government that the detailed memoranda would not be published until we had reported to the Dominion Government. After our departure, Mr. Ewart, counsel for the minority, made a statement to the press on his own responsibility, which was of such a character that Attorney-General Sifton thought in justice to his own Government that he should publish the whole correspondence at once, and telegraphed me to that effect. I immediately replied to him that he was quite right in taking that course, if he thought it necessary in the interests of his own Government, and this, I understand has been done. As I have remarked, I am to-day not in a position to make any public statement regarding the negotiations until we have submitted our report to the Government. You may say, however, that we were received by the members of the Manitoba Government, Messrs. Sifton and Cameron, in the most friendly possible spirit, and that those relations existed to the very close of the conference. These gentlemen discussed with us the merits of the question only, and we united in going thoroughly into every aspect of it, with a view of reaching a settlement. The method of the conference was that the conversations were to be absolutely confidential, and that any communications which were intended for publication afterwards should be put in writing. This was done, and these are the documents, I suppose, which have been telegraphed from Winnipeg. It is a matter of gratification, I am sure, to all of us that no unpleasantness occurred, nor any difficulties, except those inherent in the nature of the question."

During the day many of Mr. Dickey's colleagues called upon him at his residence.

Sir Mackenzie Bowell replied to your correspondent's enquiry to-night that he had not yet seen the delegates and until their report had been received he could add little, if anything, to the information already published upon the subject of the conference.

The Premier did not, however, seem to be quite consumed with disappointment at the barren result of the negotiations. His guarded replies to several questions left it to be inferred that he had scarcely hoped for a settlement at the best. For himself, Sir Mackenzie seems to incline to the opinion that political considerations are largely responsible for the refusal of the Manitoba Government to accept the proposals of the Dominion delegates.

Sir Mackenzie, asked for his opinion of the concessions outlined in the Manitoba reply, said that he did not consider them as even in a slight degree removing the disabilities of the minority as defined by the decision of the Judicial Committee of the Privy Council.

An order-in-council has been passed allowing a refund of duties on cotton twine entering into the manufacture of fishing nets.

Mr. Daly gives notice of a bill respecting grants of land to members of the militia force on active service in the Northwest. The object of the bill is to provide for an issue of scrip to certain men who acted as scouts during the rebellion of '85 on proof being produced that they are entitled to it under the act of 1896.

J. S. Ewart, counsel for the Catholic minority, has arrived here. He declines to discuss the school situation.

Mr. McCarthy has a series of questions on the order paper relating to the fisheries overseer for Pt. Arthur district. He implies that six licenses were paid for by a man named Nuttall and that only three licenses were received by him. Mr. McCarthy wants to know what became of the difference in the amounts.

Mr. Costigan has extended the time for fishing for bullheads, suckers, etc., in Lake Ontario until May 1. This concession is being granted owing to the lateness of the season.

The other day Mr. Girouard, a Conservative member, asked for information regarding the Fort Francis locks, Neebing Hotel purchase and other remementoes of the Mackenzie regime. Dr. Landerkin now proposes to get even by asking a number of queries relating to the Curran bridge, Tay canal, etc.

BRITISH IN THE SOUDAN.

Sirdar of the Egyptian Army Ordered to Limit His Operations.

London, April 4.—The Sun publishes a Paris despatch to a news agency of this city stating that a despatch has been received there from Cairo saying that Brigadier-General Sir H. H. Kitchener, Sirdar of the Egyptian army, has been ordered by the English Government to limit his operations in the Soudan to the occupation of Akasheh. The despatch further states that the Italian troops for service in Egypt are expected to arrive shortly, but that they will not go beyond Suakim. The despatch adds that the purchase of transport animals has been suddenly stopped.

Deserts Booth Tucker.

Chicago, April 5.—Edward Fielding, brigadier-general in command of the Northwest division of the Salvation Army, and with the exception of Commissioner Booth-Tucker the most prominent officer in the forces in America, has resigned his commission and will join the forces of Ballington Booth's volunteers. The majority of his staff officers will go with him.

A BLACK LIST.

A Measure for the Protection of Users of Diamond Dyes.

In certain districts the ladies complain that they are frequently deceived by merchants and dealers when Diamond Dyes are asked for.

Various tactics are adopted by dishonest storekeepers to push on their customers cheap and worthless dyes.

Some dealers commence to extol the qualities of a dye without reputation or fame; some use the old deceptive phrase, "I have something just as good as the "Diamond"; others will content themselves by hurriedly wrapping up some poor make of dye, unless the buyer demands to see the package. All this mean and nefarious work is done because the cheap and worthless dyes pay larger profits than the reliable Diamond Dyes.

For the protection of users of the celebrated Diamond Dyes, we have commenced a "Black List," whereon will appear the names of all defrauding and deceiving dealers who do not give their customers what they ask for, and steps will be taken to expose the business tactics of all such dealers and merchants. We will also direct the attention of the ladies to straightforward dealers who give people just what they ask for. We ask for your help, ladies. By all means send us the names of dealers who try to substitute imitation and adulterated dyes when the "Diamond" are required. Wells & Richardson Co., Montreal.

TO WIDEN THE ERIE CANAL.

Spending Money to Enable U.S. Torpedo Boats to Reach the Lakes.

Washington, April 3.—Representative Mahany of New York, who has just introduced a bill appropriating $2,000,000 to widen the locks in the Erie Canal, so as to admit the passage of modern torpedo boats, in speaking of this proposed bill, says: "This scheme, in my opinion, furnishes the most practicable means yet suggested for the protection of the lake ports in case of war. Those cities are without fortifications, and the treaty between this Government and England prohibits war vessels of either nation from cruising on the great lakes in time of peace. It is proposed, therefore, by utilising the Erie Canal, to make it possible at the very commencement of hostilities, and a great deal sooner than gunboats could get into Lake Ontario, to move a swarm of torpedo boats into Lake Ontario via the Oswego Canal, and into Lake Erie and the upper lakes via Buffalo.

"It will be possible to render the canals fully available for rapidly concentrating a torpedo fleet at Lake Ontario or Lake Erie sufficient to prevent British gunboats from troubling any of the lake ports.

"Aside from its strategic features, the scheme is of enormous value from a commercial standpoint, benefiting the entire northwest, which finds in the Erie Canal a waterway for the shipping of its products in their course to the sea. The bill has excited much enthusiasm in the lake cities, and, if adopted, promises to make New York's great waterway a splendid arm of war and commerce."

GOOD ADVICE
ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

The Bicycle Craze in Europe.

It is interesting to note that the bicycle craze is confined by no means to our own country. It rages furiously in England, and it is estimated that no less than 400,000 machines will be manufactured there during 1896. The only nation which has not gone quite daft on the subject is Russia.

Of Interest to Wheelmen.

Pennsylvania and other States have laws favoring the use of wide tires on the public roads, the road tax being reduced by a farmer, each individual receiving credit for tires used, those adhering to narrow tires being compelled to pay full tax.

OUR MAIL.

Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some from merchants who want to buy it, some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness.

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B. B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases.

Cod-liver oil suggests consumption, which is almost unfortunate.

Its best use is before you fear consumption; when you begin to get thin, weak, run [illegible]n; then is the prudent [illegible] to begin to take care, and the best way to take care is to supply the system with needed fat and strength. **Scott's Emulsion** of cod-liver oil, with hypophosphites, will bring back plumpness to those who have lost it, and make strength where raw cod-liver oil would be a burden.

Wood's Phosphodine.—*The Great English Remedy.*

Is the result of over 25 years treating thousands of cases with all known drugs, until at last we have discovered the true remedy and treatment—a combination that will effect a prompt and permanent cure in all stages of *Sexual Debility, Abuse or Excesses, Nervous Weakness, Emissions, Mental Worry, Excessive Use of Opium, Tobacco, or Alcoholic Stimulants*, all of which soon lead to Insanity, Consumption and an early grave. Wood's Phosphodine has been used successfully by hundreds of cases that seemed almost hopeless—cases that had been treated by the most talented physicians—cases that were on the verge of despair and insanity—cases that were tottering over the grave—but with the continued and persevering use of Wood's Phosphodine, these cases that had been given up to die, were restored to manly vigor and health—Reader you need not despair—no matter who has given you up as incurable—the remedy is now within your reach, by its use you can be restored to a life of usefulness and happiness.

Price, one package, $1; six packages, $5; by mail free of postage.

One will please, six guaranteed to cure. Pamphlet free to any address.

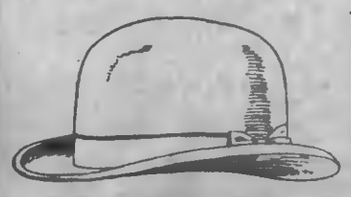
YOU'VE GOT A HEAD!



SO HAVE WE.

In fact we've got ahead much more rapidly than we expected to when we made our bow to you with the J. & J. Lugsdin Bankrupt Stock of Hats and Furs. We knew that we were going to make many new friends but did not think the number would be so large. Men stalk about town nowadays wearing Hats bought at our store for $1.00 that other dealers would charge $2.00 and $2.50 for, and that other people think look worth it. None but the buyer is any the wiser and he has the fruit of his wisdom in his pocket book in the shape of money saved.

THE ENDEAVOURERS' ANNUAL CONVENTION.

Continued from Fourth Page.

Camus urged that the children be trained to give freely.

REV. MR. LIDDY, OF KEENE,

in speaking on the incentives in missionary work, thought there were far more discouragements than encouragements. It was God's intention, in the first place, to have a missionary church, and the church which failed in this respect would soon die. Judaism opposed Christianity from the start. Then heathenism next battled with it. Writers strove to scorn it down, but God raised up men who were capable of meeting argument with argument. When other things failed the opponents to Christianity resorted to the sword, and Nero is said to have ridden between long rows of martyrs

BURNING AT THE STAKE,

but it was a case of "the nearer the stake the nearer the goal, the nearer death the nearer life." It seemed at times if Christianity must surely sink, but it had apparently a power all-conquering.

Rev. Mr. Hanna, of Uxbridge, who conducted services in St. Andrew's on Sunday last, spoke on the work of "The Holy Spirit in Missions," being the third division of the subject. Rev. Dr. Torrance was expected to speak, but persuaded Mr. Hanna to take his place. The speaker drew the attention of the audience to the numerous places in the New Testament in which the work of the Holy Spirit was apparent, and the subject was handled in a most masterly manner, betokening a marvelous intimacy with the Scriptures, as the speaker had only a very few minutes in which to look up his references, but was nevertheless able to give one of the most capable addresses of the convention.

The Junior Rally, as usual, proved of great interest. Master Bert Huston occupied the chair, and the space between the centre aisles of the church was crowded with the bright little members. The address of welcome was admirably given by Master Leonard Patterson, of St. Andrew's church society, and the reply on behalf of the visiting delegates was given by Miss Ada Cox, of Lakefield.

REPORTS OF THE WORK

accomplished during the year were read by representatives from the following unions:—Coldsprings, Murray Street Baptist, Norwood Methodist, Keene Methodist, Lakefield Presbyterian, Charlotte street Methodist, St. Paul's Presbyterian, Lakefield Methodist, River Road, Norwood Presbyterian, St. Andrews Presbyterian and Park street Baptist.

Miss Florence Hall then sang a solo selected for the occasion, with her usual taste and expression, after which Mr. J. W. Bengough, of Toronto, gave one of his chalk talks, which abounded with humour and at the same time was replete with good advice to the Juniors.

Evening Session.

At St. Paul's church last evening, the concluding session of the C. E. convention, every seat was filled and some difficulty was experienced in finding standing room. The speakers for the evening were Mr. J. W. Bengough and Miss Quinn of town.

After the presentation of some excellent musical selections by the choir, under the able leadership of Mr. G. W. Mulligan, Mr. Bengough began what really was a powerful address. He said that since his arrival in town he had been shown great kindness by all that he came in contact with. As he has some very strong feelings on some of the leading topics, he asked the audience not to be offended at anything he might say. Here at this moment, said the speaker, as well as at every other moment, we stood on the pinnacle of the temple of time. We are up to date, and from this point we view the world with disappointment and hope. There were constantly things happening in this country and every other, for instance, bad governments. What the whole world wanted was to be Christianized. The work of this convention, if successful, will tend greatly to redeem this fallen world. Hope was one of the greatest gifts with which Christ can endow us and we may justly ask who is this that works such wonders? There are a great many other Christian societies in league with the Epworth League, who make their work that of redeeming the poor sinners of this world. Lately some of our students have given us a new word, namely, "Christology." It means that the spirit of working for and trying to please Him in every act, is the predominant one. Now in such a thing as war between Great Britain and the United States that spirit would not prevail, and every true Christian would be grieved of such a circumstance. Christ should be related to the person in every transaction, and also to Christian citizenship. There was a vast difference between these two terms. The word Christian meant one who has accepted Christ as his or her Saviour and wishes to serve Him all through life. By giving ourselves entirely to Him was the only way we could come to Him. None could be regenerated by any other means. Christ submitted to the Roman government and paid His tax money, then why not we to our government if they work the principal right? "Is it right?" That is the great question. The speaker was glad to hear that an awakening was taking place about this great question of "Christian Citizenship." It was a very powerful moral question, but like physical power it cannot accomplish anything except it is working under favourable conditions. As for instance, if one took gunpowder and threw it loosely on the ground it had no effect when lighted, but put it in a gun or rifle with a cartridge, and it had a very powerful effect. This power in a Christian shows itself more clearly in the ballot box. "Do not vote for any one who will keep the whiskey traffic up, or anything else that should not be allowed." There are 365 days in the year, and one of them is election day. Ballots are the only things that count on that day, and if all

THE CHRISTIAN CHURCHES

and societies would form into one strong body they would have enough votes to win the day for religion and purity. We ought to sing, as it were, "Stand up, stand up, for Jesus" on all election days. Testimony is another road which has a great power. When a politician thinks that a Christian will vote the way he talks there will be a great change, and he will try his best to get their votes. The liquor man votes the way he talks, and consequently more often wins the day. If the British flag were to be insulted in any foreign port an apology has to be forthcoming. That testifies to the great respect in which the old flag must be held. The ballot was also a great testimony. There are numerous evils, which if our statute laws would stamp out of existence would not be practiced today. The politician thinks, here is a great Dominion to be built up. He immediately lets railway contractors, land speculators, and others come in and take the hard earned money of the labouring man. The liquour traffic should be mentioned as one of the leading evils. The Christian Endeavour Society should help to better the Government. There were rules in the Ten Commandments that cover every imaginable kind of evils. These should serve as the Christian's guide book. Christ only paid his tribute money to the Romans when he was satisfied that it would be used in the right way. The speaker was not sure but single taxation was the best system. By the present system, as often said, we encourage the land owners to fleece the working man. We have millionares on one hand and struggling workmen on the other. It was a constant incentive to lying and thieving, this system of taxation. He read a report from an eminent man in New Zealand, which said their government allowed no great acquisition of land to burden the labourer, and they did not have one millionare in the country. If we turn to justice we shall in every way be blessed. If we had protective tariff it would be better. Do you think Christ would do lots of the outrageous things which the government sanctions, by its laws, our doing? It would be just as right for him to do it as us. He illustrated this by reading of a death which took place on New Year's eve, of a young man who had no marks of violence on his body but died from the effects of whisky. What an event to happen right at the ushering in of the New Year. If there had been no whisky he would not have died then. War, famine and pestilence are not as bad as the liquor traffic. It kills soul as well as body. It cannot be sanctioned without sin. In conclusion he said he hoped this injurious traffic would be entirely abolished. After his address there was a quartette sung "One Sweetly Solemn Though" in an exceptionally clever manner, by Messrs. Mulligan and Miller and Misses Richardson and Fowler, at the conclusion of which Miss Quinn gave a very earnest address on "Consecration," in which she urged all present to try and do as God wants them to and give up all thought of self. When you have become converted do not sit down and enjoy your religion, but go and tell others the story. Several hymns were sung while the audience had its head bowed.

largest in the annals of the church and, together with the special Lenten offerings and the children's offerings, amounted to $400. The late Absalom Ingram, by his will, left $100 towards the liquidation of the debt on the church property, but as this sum has not yet been received it is not included in the accounts. The Churchwardens cannot close their report without making special reference to the loss the church has sustained through the death of the late Mr. Ingram. From the day the church began its existence to the day of his death he was a staunch and earnest supporters of the church, always ready to assist in every way in its work." The report was adopted. Messrs. F. Adams and H. J. Grasset presented the auditors' report, which was also adopted.

Mr. H. T. Strickland was unanimously re-elected People's Warden and the Rector nominated Mr. Burnham. These gentlemen to-day enter upon the twenty-first year of their united wardenship, and there are probably few, if any, churches in the diocese with similar membership in the possession of such a complete equipment of buildings, erected in so short a space of time and with but a trifling debt as St. Luke's.

Messrs. F. Adams and E. A. Peck were elected assistant wardens, and Messrs. H. Adams, W. Maneice, R. Turner, W. Armstrong, S. Adams, E. Armstrong, C. McFadden and G. Prattley were elected sidesmen.

Finance Committee—Mrs. John Heap, Mrs. Nimmo, Miss Mills, Mrs. Eden, Mrs. H. Adams, Mrs. Sedgwick, and Messrs. F. J. Jamieson, F. Adams, R. B. Rogers, H. Maneice, D. Spence, H. J. Grasett and E. A. Peck.

Votes of thanks were tendered to the organist and choir, the sidesmen, the Ladies Aid and the several Chapters of the Guild, the churchwardens, the officers and teachers of the Sunday school and the sexton.

A special vote of thanks was passed to the Review and EXAMINER newspapers for their kindness in publishing full reports of all church matters throughout the year.

The Rector's address was deferred until this evening, when a congregational social will be held in the school house.

At the close of the Vestry meeting, a meeting was held for the election of Lay Delegates to the Synod. Messrs. John Burnham, F. J. Jamieson and E. A. Peck were elected.

THE QUESTION OF FINANCE

Everyone prefers a high-grade Piano to a poor one, but many are deterred from even inquiring about our instruments from a fear that our prices may be too high or our terms too stringent. Let us say to all who wish a really good Piano at a moderate price on easy terms, that they will do well to correspond with us. We do not pretend to compete on these points with makers of poor or worthless Pianos, but, QUALITY CONSIDERED, our prices are really low, and we try to permit no one to go past us feeling that satisfaction cannot be given on the question of terms.

OVER MANITOBA'S SCHOOL LAW

Government and Opposition Now Divided Into Relays—Some Funny Incidents During the Early Hours of Morning—Several Clauses Pass in Committee Yesterday.

Ottawa, April 7. — (Special) — The House is still sitting. There was an air of weariness over the House of Commons this morning at the hour at which members generally put in their appearance for a day's work. Everything looked untidy and unkempt. Members were reclining listlessly in their chairs listening in a half sleepy manner to monotones of Mr. Bain. At 8 o'clock Mr. Daly and Mr. Prior were the only two Ministers on the treasury benches and 30 other members represented the Commons of the Dominion in attendance on Parliament.

At one spot in the chamber Sam Hughes and Mr. Mulock were confabbing, at another place Clarke Wallace and Mr. Maclean were sizing up the situation, while Mr. Girouard was busily engaged in trying to place a paper hat labelled "Sleep Darling" on the head of Mr. Turcotte.

During the course of Mr. Bain's speech three French members created a little diversion and awoke their slumbering colleagues by bursting into the chamber, one playing a mouth organ and two others keeping time with "tooters."

Mr. Martin followed, speaking for less than half an hour until Mr. Casey got his talking tacks aboard. He moved that the committee rise. The member for West Elgin was in his element and for an hour continued the debate on the bill, until half past five.

He was followed by Col. Tyrwhitt, who made some interesting observations. For instance, he said that he was unalterably opposed to Separate schools and he believed that he thus echoed the prevailing sentiments of Ontario. For himself, he had been educated in a Separate school and found nothing objectionable in them. Still, he was opposed to Separate schools just as he was opposed to the dual language.

Mr. Campbell then took up the talking and added his quota to the program of obstruction. A sample of his style may be gathered from one incident of the discussion. "For instance," said the member for Kent, "we had a criminal code, which went from this House to the Senate, and was then left over till next session."

Mr. Wallace—That's what we'll do with this bill.

Mr. Campbell—Yes. He went on to say that the Remedial Bill was still more important and should be held over.

After an hour's talk from Mr. McMillan, Mr. Bain succeeded in getting the floor, and sailed away smoothly for an hour or two, until Commodore Welsh suddenly dawned on the scene, looking big, burly and rosy, having had both sleep and breakfast. His first action was to yell "Order!" in stentorian tones, this being followed up in a minute or so by an encore, which led Chairman Mills to call him down with the remark, "You are making more noise than all the rest."

This led Mr. Martin to rise and solemnly remark: "I appeal from the ruling of the chair." (Great laughter followed.)

Mr. Mills—Mr. Welsh interrupted twice and raised no point of order.

Mr. Welsh—If you can't keep your side of the House in order we won't keep ours. (Laughter.)

Mr. Mulock—I suggest we should call it off and begin again. (Laughter.)

Mr. Wallace—I think the chairman should apologize to Mr. Welsh. (Laughter.)

Mr. Welsh—I would accept that. (Loud laughter.)

Mr. Bain continued with his speech, and accused Sir Charles Tupper of stirring up religious warfare and angry feelings. He resumed his seat about 9 o'clock.

Mr. W. F. Maclean then took the floor for the first time in committee, and protested against the prolonged sitting, urging that the House should adjourn till the report of the Winnipeg conference was presented to Parliament. The Government were going to give an eight-hour day to their employes, but wanted members of Parliament to work 144 hours a week. It would not be possible for the bill to be passed this session, and, passed or not passed, the question would be an issue at the coming election.

It was now well after 9 o'clock, and the Ministerial relief came on duty. Messrs. Haggart and Guimet took the places of Messrs. Daly and Prior, while Mr. Mills gave way to Mr. Bergeron as chairman. Mr. Bergeron sought to put the question when Mr. Maclean sat down, but Mr. Martin thought the committee was not ready, as many members had just come who had not heard the arguments of the early morning. For their benefit Mr. Martin rehearsed them.

Mr. Mulock also very obligingly repeated the arguments of the early morning and chaffed the Government. He pictured Sir Charles Tupper as dying for his country in his own quiet bed in his comfortable room in the building.

Sir Richard Cartwright here entered and got the floor. He said he had been looking after his own constitution, and was now prepared to look after the constitution of the country. He reminded the House of many past incidents when lengthy sessions were held. He immensely tickled Mr. Haggart by recalling the time when the Minister of Railways and Sir Charles Tupper obstructed the House for 48 hours because he (Sir Richard), as Finance Minister, would not agree to adjourn the House on St. Patrick's Day to enable Sir Charles to address some gentlemen interested in St. Patrick. Sir Richard proceeded to denounce the disgraceful orgies of the last all-night sitting, when he remarked, "I verily believe they led to the death of one member of this House within a few days."

He warned Parliament that if these orgies were repeated every member taking part in them would be exposed and the question might arise as to whether or not the bar in the restaurant should be abolished. He thought that a fair time should be taken every day for the discussion of this question, but physical force would be met by like force.

After a speech from Mr. McNeill, Dr. Weldon addressed the House for about one hour, protesting against the lengthy sittings as injurious to the health of the members and the temper of Parliament. He believed that all the troubles of the present position were due in a large measure to Sir Charles Hibbert Tupper. He had an impulsive temperament and when the position of the Minister of Justice was offered to him he should have declined the post, as the portfolio he had previously held totally unfitted him to take it. He was impulsive, impetuous and excitable and a young man with such a disposition was not fitted to take charge of a department requiring coolness, learning, judgment and openness of mind. It was not Sir C. H. Tupper's fault that for ten years he had been studying marine matters and not law. Dr. Weldon paid a high tribute to Mr. Dickey's ability and capacity.

The discussion was continued at great length by Messrs. Charlton, Sproule and Mr. McMullen, who said nothing of special moment.

Shortly after 3 o'clock this afternoon Mr. Laurier rose. He said the reluctance on the part of members to sit after 2 o'clock in the morning was a reasonable one. Since that hour nothing had been done. He suggested that an agreement should be reached to sit say ten or twelve hours a day, that time being as much as the country could expect any man to remain in the chamber. As 3 o'clock had arrived he trusted Mr. Martin's amendment would be disposed of and the House get down to business.

The acting chairman, Mr. Joncas, was about to put the question when Col. O'Brien rose and continued the discussion at some length, charging Sir Charles Tupper with obsequiousness to the Imperial authorities.

Sir Charles Tupper, Bart., said Mr. Laurier's proposal was a reasonable and proper one and personally he was prepared to concur in it. He would point out, however, that Parliament stood in a very peculiar position. The country had known for nine months what policy the Government intended to pursue, but where was the overwhelming feeling against the bill which some members represented to exist in the country. Mr. Laurier knew the danger of the House getting out of a committee. The palpable, open and constant obstruction which had taken place was calculated to convert the proceedings of Parliament into a monstrous farce. If, as the Opposition contended, this bill was worthless and would accomplish nothing, why not let it go through? The Government would be prepared to take all the responsibility and risk. He urged that the measure should be passed, the estimates voted, half a million of public money saved to the people and then an opportunity at an early date to take the verdict of the country. It seemed, however, to be the intention of an insignificant majority to obstruct this measure. He was amused to hear Mr. O'Brien talk about obsequiousness. If they wanted an instance of obsequiousness it was there in the case of a gentleman (Mr. O'Brien) who had a typewritten resolution put in his hands by his mentor, Mr. McCarthy, and then who allowed Mr. McCarthy to pull him down and cut off the tail of the resolution. (Laughter.) Evidently Mr. McCarthy had prepared the trap for his obsequious friend from Muskoka. Those two gentlemen reminded him of the position of the hen who had hatched out a duckling. When the duckling took to the water the old hen bristled her feathers and invited the duckling to come back. Mr. McCarthy had had to call his duckling (Mr. O'Brien) back. (Loud laughter.) Sir Charles then proceeded to refer to Mr. Laurier, whom he accidentally designated as the leader of the House.

Sir Richard Cartwright rose, chuckling and remarked: My hon. friend is a little previous.

Sir Charles Tupper—Well, if the hon. gentleman ever gets to the position I hope he will be a little more comfortable than where he now is. (Loud laughter.) Mr. Laurier had a contingent behind him which was uncontrolable. Evidently he was leader of the Opposition only in name. (Hear, hear.) His forces had been broken up into banditti who did not recognize any leader. (Loud cheers.)

Sir Charles concluded by appealing to the hon. members to unite to pass this bill, to conclude the business of the country, and then appeal to the constituencies. Under the circumstances, however, the House could not go out of committee.

Sir Richard Cartwright said it was evident from Sir Charles Tupper's remarks that the Government had no sincere desire to pass this bill.

Loud cries from Ministerial side: "Try them."

Sir Richard, continuing, proceeded to recall for the benefit of the Secretary of State some instances of obstruction during the Mackenzie regime, in which he (Sir Charles) took a part.

The discussion was continued by Messrs. McCarthy, McNeill, Charlton, Borden and Mills (Bothwell).

At twenty minutes to 6 Mr. Martin's amendment was disposed of.

Then Mr. Fremont's amendment, providing that the clerical authorities be consulted in the matter of text-books, was put, when Mr. LaRiviere moved an amendment to leave the selection of text-books with the Catholic Board of Education.

After recess, Mr. Dickey expressed the hope that the friends of Separate Schools would not press the amendment offered by Mr. Fremont. The original clause left the range of choice sufficiently wide, and the great object was to ensure the efficiency of the Manitoba Catholic schools.

Sir Hector Langevin thought it well to amend the clause so as to provide that the books may be those in use in Manitoba Public Schools, or in the Ontario Separate Schools, or "in Catholic schools in Quebec."

Sir Charles Tupper said that, with a view to expediting the bill, the Government would accept the suggestion.

After the discussion had proceeded for some time on these lines, Mr. Powell suggested that the clause be altered to read that the Catholic Board of Education be empowered to select all books, maps and globes to be used in the schools under its control, provided, however, that no book, map or globe, other than books on history, morals and religion, shall be selected, unless such book, map or globe has been authorized for use either in the High or Public Schools of the Province of Manitoba.

This left out of the selection the books used in the Separate Schools of Ontario, and Mr. LaRiviere pointed out that this would shut out the bi-lingual series and limit the text-books to those in the English language, while many of the children were French.

Mr. Powell's amendment carried, however, by 65 yeas to 37 nays, Messrs. Martin, McCarthy and Wallace voting with Mr. LaRiviere against it.

Then Mr. McCarthy offered a further amendment to permit the use of any books in French or a foreign language necessary to teach English.

This so complicated the matter that it was decided to leave over for further consideration this sub-section, upon which the committee had been engaged for over 20 hours.

The next sub-section "D," making it the duty of the Board of Education to approve of the plans for the construction of school houses, was objected to by several members, who thought the matter should be left to the Advisory Board. It was struck out with the consent of the Government.

Clauses "E" and "F," enabling the board to regulate the selection of school sites and the formation of school districts, to make regulations for the establishment of special departments, and to make special grants to schools, under certain conditions, were carried.

Clause 5, providing for the meetings of the Board of Education and the election of a chairman, was also passed.

MEASLES IN WHITE HOUSE.

Little Esther Cleveland Down With Them—A Cabinet Meeting Postponed.

Washington, April 7.—President Cleveland, and Private Secretary Thurber are quarantined at the White House, Mrs. Cleveland and her children are quarantined at Woodley and Mrs. Thurber and her little ones are quarantined at their home on I-street. All this and a postponement of a Cabinet meeting in addition is the result of a discovery in the White House nursery between 10 and 11 o'clock this morning. Little Esther Cleveland, the President's second daughter, who is two and a half years old, developed symptoms of measles about that hour. Immediately there was great excitement throughout the mansion. The President was informed and he sent telegrams to all the Cabinet officers in town that there would no Cabinet meeting to-day. Miss Bathmant, the teacher of the White House kindergarten, was sent post haste to Woodley, the President's country place, and hurried preparations were made for taking Esther and her sisters there. Shortly afterward the sick child was sent to Woodley in a closed carriage accompanied by her mother, nurses and sisters.

Private Secretary Thurber has been living at the White House for ten days, since one of his children developed a case of measles. This morning young Tom Thurber and the cook at the Thurber house were taken with the disease. Esther Cleveland and the Thurber children are doing well. Esther's is said to be a mild case. It is likely that on her recovery the family will be joined at Woodley by the President and will remain there until they leave for Gray Gables at the beginning of the summer.

WILL BE A MONSTER GATHERING

The 15th International Christian Endeavor Convention at Washington.

Washington, April 7.—The general outline of the program of the 15th international Christian Endeavor Convention, which will be held in this city in July, has been made public. It is expected that fully 60,000 people will attend the convention.

The formal opening of the convention will occur on Thursday morning, July 9, in three great tents, which will be pitched upon the White Lot, just south of the Treasury Department Executive Mansion and State War and Navy building.

On Saturday the Endeavorers will march to the Capitol, where, it is hoped, permission may be obtained for a brief address to be delivered from the steps of the Capitol. The local committees are preparing for entertaining the hosts of visitors and choirs, aggregating 4000 voices, are rehearsing the convention music.

COULD PUT UP A STRONG FIGHT

If Employes of Electric Railways Join Hands With Employes of Steam Roads.

Philadelphia, April 7.—Within the last few days there have been important developments concerning the situation of the street railway employes of this city, who have lately manifested renewed symptoms of unrest. It is said these men have laid plans for concerted action among railway men in nearly every important city in the north. If the present plans, which are attributed to the leaders of the Amalgamated Association, are successfully matured, not only will the street railway employes of the country be affected, but the steam railway men as well. The substance of the plan is to practically merge the interests of the Amalgamated Association and of the A.R.U., and to bring them together into practically one organization, with two branches. It is authoritatively asserted that this coalition has already been brought about through a perfect understanding, which has been reached between Presidents Mahon and Debs and the other officials of the two organizations.

Red Cross to Aid Abyssinians.

St. Petersburg, April 7.—In response to a renewed request, the Government has decided to send a number of members of the Red Cross Society to work among the Abyssinian troops. The party will proceed by the way of Massowah. The Italian Government has asked for information as to the number of persons whom it is proposed to send on the mission and in what capacity they will go.

Two More Arrests at Wingham.

Wingham, Ont., April 7.—As a result of the coroner's inquest at London last night on the Fields' outrage two more of the ringleaders, named John Netterfield and Albert Martin, were arrested here to-day for murder. The prisoners were taken to Goderich.

Another Victim of the Explosion.

Bridgeport, April 7.—J. T. Buller, one of the victims of yesterday's boiler explosion, died at seven o'clock this morning, making three deaths, and there is likely to be another one before night.

STONY LAKE ACCOMMODATION.

It is stated that a large summer hotel is to be erected this summer on Juniper Island, Stony Lake. It is also reported that the G. T. R. insist on the steamboat proprietors running their boats so as to connect with the noon train at Lakefield. This is all right, but we would suggest to the G.T.R. that that they should do away with the abominable delay in getting from Peterborough to Lakefield by building a new bridge at Auburn. At present all Lakefield trains run down below the town two miles, then turn and run two miles up to Ashburnham before they make a fair start. On the way to the Locks they cross a swing bridge, always a source of delay, so that it takes about as long to get from the Peterborough station to Lakefield as it does to get from Peterborough to Port Hope. Then when they get to Lakefield, instead of running right down to the boat, they keep everybody waiting while trucks run back and forth with luggage. If the G. T. R. wants to develop this trade let the Auburn bridge be built and let the line be continued up from Lakefield to Young's Point—only six miles—this would get rid of the tedious journey by water and the locking, and by making access to the cottages quick and easy, increase amazingly the summer travel. There is a reserve for a road all along the waters edge from Lakefield to the Point. This, if utilised, would save buying right of way and make the construction of the six miles a mere bagatelle. The increased traffic from the Lake of freight and passengers will amply justify the expenditure. The present round-about and slow way of reaching the Lake is a nuisance and no credit to the railway management.

The Toronto Telegram remarks that it is just a question whether the Ontario Opposition most needs a leader to direct its future or an undertaker to direct its funeral.

The gallant Col. Whitney, the leader of the Ontario Opposition, will have to brush up the rudiments of military drill. After commanding a battalion it will come strange to him to put the awkward squad, he has been placed in charge of, through the goose step.

NORTH MONAGHAN.

From Our Own Correspondent.

The council met at the town hall on Monday, April 6th, at one o'clock. All the members present. The minutes of the meeting of Feb. 20, were read and confirmed. Accounts were received from Waller & Co., flour, charity for W. Close and J. Brioux, $4.20; The Peterborough Hardware Co., nails, etc., 56c; Estate Dr. Yelland, professional evidence at sewer arbitration, $5; Geo. Dobbin, 1 cord of sawed hardwood, $3 60.

The clerk reported having received quotations from several road machine manufacturers, and also cost of renting a machine from the Street Railway Company of Peterborough, and introduced Mr. Staples, a representative of Copp Bros, of Hamilton, who set forth the excellence of their machine, and the advantage the use of which would be to the township roads. It was decided to postpone the procuring of the machine until further inquiry could be made.

Moved by Mr. McIntosh, seconded by Mr. Johnston that the accounts as presented be passed and orders issued therefor.—Carried.

Moved by Mr. May, seconded by Mr. McIntosh, that the sum of $3, part of commutation of statute labour for 1893, be paid T. Hooper on road division No. 14—Carried.

Moved by Mr. Hunter, seconded by Mr. May, that the clerk be authorized to procure a map of that portion of the township as defined in by law No. 427, if the same do not cost more than the sum of $5,00.—Carried.

On motion, by laws No. 426, to appoint pathmaster etc., and No. 427 to commence the statute labour at the rate of 50 cts per day, on a portion of the township as authorised to be prepared at last meeting, were introduced, given the necessary readings and passed.

The following are pathmasters for the year 1896.—Wesley Whitfield, Geo. Monorief, John Johnston, Thos. Brown, John Bennett, Robt. Waterman, Robt. Sanderson, Jos. Forster, Jas. Davidson, Isaac Clark. Wm. Robson. Fred Stinson, Thos. Harper, Jas. Bradley, Andrew Dobbin, Geo. Argue, Byron Williamson, John Campbell, Geo. Youngar, John R. Moore, Alex Lang and W. J. Hall.

The township poundkeepers for 1895 are Francis Brown and G. W. Bennet. The fenceviewers are the same as last year.

The council adjourned to meet on Tuesday, May 26th 1896, at one o'clock shary.

A MISSIONARY'S WORK.

HIS ADVICE SAVED A YOUNG GIRL'S LIFE.

She was Pale, Almost Bloodless, and Subject to all the Distressing Symptoms of Anæmia—A Statement Every Parent Should Read Carefully.

One of the most melancholy features of our nineteenth century civilization is the large number of pale, listless young girls to be met with in every walk of life. Too frequently parents do not recognise that there is anything seriously wrong, until at last they are forced to admit that their child is in a decline, and when treatment is then taken up it is often too late, and a loved one is followed to an untimely grave. A pale or waxy complexion denotes anæmia—in other words poverty of the blood—which if not corrected in time, by gradual stages leads to an early grave. Among the symptoms denoting poverty of the blood, are severe headaches, loss of appetite, dizziness, fainting spells, violent palpitation of the heart on slight exertion, etc. The patient may have one, or more, or all of the systems; the more of them shown the more critical is the condition, and the more urgent the necessity for prompt and effective treatment. In this emergency Dr. Williams' Pink Pills for Pale People are beyond all comparision the most valuable remedy known. They act promptly and effectively, supplying the blood with its lacking constituents, and assist in absorbing oxygen, the great supporter of all organic life, thus driving disease from the system, and restoring the bloom of health to pallid cheeks.

That the claims made on behalf of Dr. Williams' Pink Pills are not overstated is amply borne out by the following letter from the Rev. David Forbes, missionary, Poplar Dale, Algoma, Ont. Mr. Forbes writes:—"I feel that I would be remiss in my duty did I not write to let you know the wonderful benefit derived by a young lady here from the use of your Pink Pills. Miss Mary Martin, the young lady referred to, was taken sick two years ago, and all the medical treatment she underwent proved of no avail. Visiting the family in my capacity as missionary, I saw with sorrow that unless something was done to avert the progress of her trouble, that she would not be long for this world. She was pale, almost bloodless, and subject to all the distressing symptoms which accompany anæmia, and bring the victim to an early grave. I urged the parents to try Dr. Williams' Pink Pills. They acted upon my advice, and I am rejoiced to say that they have fully and entirely restored her health, and in the rosy cheeked girl of to-day you would not recognize the invalid of a short time before. The words of her grateful mother to me were these:—"We have to thank you, Mr. Forbes, for recommending Dr. Williams' Pink Pills. They have saved our daughter's life and we are more grateful than we can say, and freely give you permission to send this testimonial in the hope that some one in similar circumstances may be benefitted."

Rev. Mr. Forbes has done a splendid service in calling the attention of parents to the fact that Dr. Williams' Pink Pills will speedily restore the bloom of health to the cheeks of thin, pale and enfeebled daughters. They arrest irregularities, strengthen the system at a critical period, and bring joy and health and strength where before had been weakness and despair.

As a spring medicine Dr. Williams' Pink Pills far surpass all other remedies. Their action on the blood and nerves is prompt, and the effect is wonderful. Lassitude gives way to a feeling of renewed energy, and the lurking seeds of disease, resulting from the in-door confinement of the winter months are speedily expelled from the system. These pills are sold only in boxes the wrapper around which bears the full trade mark "Dr. Williams' Pink Pills for Pale People." A pill, even if coloured pink, offered in any other form is a fraudulent imitation, and should be promptly refused. Buyers will protect themselves against imposition by bearing this in mind.

BENSFORT.

From Our Own Correspondent.

We are sorry to announce the death of the seven-year-old daughter of Mr. Wm. Moncrief. She was buried on April 1st. Owing to the condition of the roads the procession was not as large as would have been under more favourable circumstances. However, their friends and neighbours extend their heartfelt sympathy to them in their sad bereavement.

Many thanks are due to Mr. John Fletcher, blacksmith and mail carrier, for the manner in which he has handled the mail drawing during the winter. John has a head like a tack for business anyway.

Cupid's arrows have been flying around rather promiscuously of late. Where will they light next?

Mr. Elias Thompson, one of Peterborough's enterprising lumbermen, has purchased from Mr. Thos. Dodds a pine tree from which he has taken a mast 92 feet long and when hewed in the shape of an octagon still measures twelve inches in diameter at the top end. Mr. Thompson intends drawing it to Port Hope, where it will be built into a schooner in course of erection there. He thinks it will take four teams of horses to draw it, but many of the older settlers can remember when they took out masts which required from seventeen to twenty teams of horses and oxen to draw. Monaghan in former days was noted for its pine, but now it is noted for fruit, fine horses and pretty girls.

The snow is going slow, but sure, but there is still a good supply on hand and the pitch holes—oh, say, they are deep.

The well-known face of Mr. Scarlett, of the Cobourg World, is often seen in Bensfort. What does he come so often for. There's danger of scarlet fever in some quarter.

The things that people see are inside of them and not outside. No two people see the same thing exactly alike. One woman may look out at a beautiful landscape and see all the beauty and restfulness and grandness that there is in it. Another one will look out on the same scene and see nothing. The man who is perfectly well and vigorous enjoys life to the full. Dr. Pierce's Golden Medical Discovery makes people well. There isn't anything miraculous about it—it is the most natural thing in the world. It simply puts the digestive organs, the stomach, the liver, the bowels, in perfect order, and thereby makes the blood pure and rich. All diseases live and thrive on impure blood. Keep a stream of pure, rich, rich blood flowing into a diseased spot, and the disease will not stay. A man lives on rich pure blood, and disease dies on it.

Dr. Pierce's Golden Medical Discovery makes pure, rich blood. Send 31 cents in one cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

NOW ON HIS WAY EAST

What is Mr. Greenway's Mission to Toronto?

PROVINCIAL PREMIERS COMBINE

In One Big Effort to Oust the Government at Ottawa in the Coming Elections - The Latest Political Story From Winnipeg as to Proposed Changes.

Toronto, April 8.—A Winnipeg special to The World this morning says: Premier Greenway left to-day for Toronto, ostensibly on "remedial business." It is understood, however, his mission is more of a political than departmental nature. It is hinted that Manitoba's Premier will join those of Ontario, Nova Scotia and New Brunswick in a grand effort at the coming Federal elections to place Mr. Laurier at the head of affairs at Ottawa.

So far as Manitoba's part of the scheme is concerned, it is said that Mr. Greenway has been prevailed upon to forsake his present position for the prospect of becoming Minister of the Interior and Immigration in the Liberal Government at Ottawa. Mr. Greenway's special fitness for such a position is undoubtedly good, besides which he is a shrewd politician and would command a strong following from the west.

This move is the secret of Mr. Martin's retirement from politics. While Mr. Martin's ability and aggressiveness have brought him into prominence, it is no secret that he is a poor tactician, and an indifferent administrator. Such, at least, is his record in the Provincial Cabinet. Mr. Martin, of course, is not being squeezed out, as sufficient legal business will be thrown in his way to compensate him for the relinquishing of the prospective emoluments of office. This, too, is more to Mr. Martin's taste.

Mr. Greenway, it seems, has looked carefully after the new constituency of Lisgar for some time past. Mr. McLaren, the candidate first nominated, retired to make room for Mr. Greenway, but owing to the turn of events just at the time of the second convention, it was not considered expedient for Mr. Greenway to accept the nomination at that time, so R. R. Richardson, editor of The Tribune, stepped into the breach. He, however, has no desire for Parliamentary honors, and would gladly make way for such a strong local man as Mr. Greenway is, particularly as by doing so he advances his own interests to a greater degree than by entering Parliament.

The reconstruction of the Manitoba Government, consequent on Mr. Greenway's transference to the Federal arena, will, no doubt, result in the promotion of Attorney-General Sifton to the Premiership, and the succession of Speaker Young to the portfolio of Agriculture. The latter gentleman is a very popular farmer, representing the constituency adjoining the one now represented by Mr. Grenway in Southern Manitoba, and would have the support of the "solid south."

Your correspondent cannot say this information is official, but it is given on good authority and backed by several corroborative incidents.

BEYOND RECOVERY.

The Boy LaFlamme—His Cure was a Surprise—A few Boxes of Dodd's Kidney Pills.

PAPINEAUVILE, March 30 (Special)—The father of the boy LaFlamme, one of the leading merchants here and willing to talk of his son's cure, he says—"My little boy Arthur, after scarlet fever about a year ago never recovered and his ailment ran into a kidney trouble. His body was swollen to twice its natural size. The sufferings of the little fellow were very severe and we had all given up hope of him. But three months ago we commenced giving him Dodd's Kidney Pills, and to-day he is romping and playing with other boys." This, as an instance of cure, is very remarkable.

The Great Republican Convention.

St. Louis, Mo., April 7.—Col. H. L. Swords, sergeant-at-arms of the Republican National Committee, is at the Southern Hotel. Col. Swords seems to be sanguine of McKinley's defeat at the convention, but is not sure of Allison's nomination.

The Tonawanda Riots.

Buffalo, N.Y., April 7.—The Tonawanda murder cases have come to an end. Captain Jesse Graves pleaded guilty to manslaughter in the first degree and will be sentenced to-morrow. Irving Collins and John Quirk, the other two men under indictment, will plead guilty this afternoon to manslaughter in the first degree.

Appointed Consul for Ecuador.

Vancouver, April 7.—(Special.)—John McQuillan, formerly of Toronto but for some time resident here, has been appointed consul for Ecuador for all Canada, with headquarters here.

THE TEAM FOR BISLEY

To be Commanded by Col. Starke of the Victoria Rifles.

FEDERAL COMMISSIONERS' REPORT

On Their Mission to Winnipeg Laid on the Table of the Commons—The Bills to Protect Railway Employes—A Toronto Man Gets Three Years.

Ottawa, April 7.—(Special)—It is practically settled that Lieut.-Col. Starke of the Victoria Rifles will be commandant of this year's Bisley team. The only other officer mentioned in connection with the post is Major Cosby of the 48th Highlanders, Toronto, who is considered as eminently qualified for the position. Col. Starke, however, is much the senior officer and gets the appointment over Major Cosby only on that ground. The turn of the gallant Major will come in a year or two. For adjutant of the team the chances strongly point to the selection of Major Bruce of the Royal Grenadiers, who is a tried shot and a splendid coach, in addition to being a first-class officer.

The report of the Federal School Commissioners was presented to Parliament to-night. The three gentlemen state that at several meetings which took place with Messrs. Cameron and Sifton "the proceedings took the form of an informal and confidential conversation of a most frank and friendly character." The appendices to the report consist of documents which were telegraphed from Winnipeg and which are known to the public. Two days after the delegates arrived in Winnipeg an order in council was passed amending the order appointing them commissioners and providing that "the delegates are hereby given full powers to effect an arrangement with the Government of Manitoba on such terms as shall be satisfactory to the minority." This was evidently an omission from the original order.

GENERAL OTTAWA MATTERS.

Engineer Keefer Stands Up in Defence of the Chignecto Marine Railway.

Ottawa, April 7.—(Special)—T. C. Keefer, the well-known Canadian engineer, has a letter in to-night's papers defending the Chignecto Ship Railway. He says, "The engineering success of the railway is vouched for by Sir John Fowler and Sir Benjamin Baker, two of the foremost engineers of the world, and, unless there is engineering success, no subsidy is earned. I know of no prominent engineer on either side of the Atlantic who doubts the practicability of the safety of transferring ships (including gun boats and torpedo boats) across this isthmus. The safety of vessels is vouched for among others by Sir E. J. Reid, late chief naval constructor for the British Admiralty. There is no novelty in the matter, except that of putting a ship into a different water from that out of which she was taken. Before the lift-docks were invented ships were hauled out on marine railways. Now they are lifted on pontoons (with their keels several feet above the water level), where the paint dries in half the time it would in a graving dock; where, also, they must be able to remain without water support.

At the Police Court this morning John Matthews of Toronto was given the full term of three years in the penitentiary for stabbing Mr. C. D. Graham last night. Prisoner pleaded that he was drunk. Police Magistrate O'Gara said he could see nothing in the circumstances which would induce him to lessen the punishment provided by statute, for the prisoner's conduct before and after the offence could not be urged in extenuation. The prisoner was acting indecently on a leading street last night and on Mr. Graham remonstrating with him, Matthews stabbed him with a pocket knife.

By reason of the House being in session all day, the Railway Committee did not meet this morning. The first and special order on the paper was the consideration of the bills of Mr. Casey, Mr. Maclean and Mr. Ingram, for promoting the safety of railway employes. The leading officials of the two big roads were on hand to watch the proposals. Mr. Tait of the C.P.R. says that the company are arranging for air-braking all their cars as fast as they can; also for putting in automatic couplers, the two main provisions in Mr. Maclean's bill. The C.P.R. voted $300,000 as a preliminary amount to this end at the annual meeting the other day.

B. F. Holterman of Brantford, secretary of the Ontario Beekeepers' Association, arrived in town to discuss bee culture with the Agriculture Commitee, but owing to the House being in session the committee could not meet. Mr. Holterman will remain in town for a few days.

W. Hamilton Merritt of Toronto is in the city.

One Honest Man.

Dear Editor:—Please inform your readers, that if written to confidentially I will mail in a sealed letter, particulars of a genuine, honest home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong, and wish to make this certain means of cure known to all sufferers. I have nothing to sell, and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. I promise you perfect secrecy and as I do not wish to expose myself either, please address, simply: P. O. Box 55, Jarvis, Ont.

Religion Before Nationality.

New York, April 7.—Frederick St. George De Latour Booth-Tucker, the new commander of the Salvation Army in the United States, declared his intention of becoming a citizen of the United States, and took out his first naturalisation papers to-day in the office of the naturalization bureau in the County Court House.

St. John Liberal Candidate.

St. John, N.B., April 7.—The Liberal convention this evening to select a candidate in place of the late C. W. Weldon was largely attended. Lieut.-Col. Tucker, a well-known and wealthy citizen and commander of the 62nd Fusiliers, was chosen. In accepting, Col. Tucker made a speech, and was vigorously applauded.

James Polen Killed His Wife and Mother-in-law and Attempted Suicide.

Clinton, Ill., April 3.—James Polen quarrelled with his wife late this afternoon on account of attentions she had been receiving from another man. His wife's mother, Mrs. McMillen, defended her daughter. Polen became enraged, seized a shotgun and killed both the women. He then attempted to commit suicide by throwing himself under the wheels of a passing train. He received injuries which may prove fatal.

Murdered by Outlaws.

St. Louis, April 3.—A special from Nowata, I.T., says that it is reported there that Deputy United States Marshal J. P. Livly was murdered by outlaws while attempting to arrest horse thieves in the hills 20 miles southwest of Nowata yesterday.

RECHERCHE MILLINERY.

The Brightest and Best is the Surest Way to Attract Patronage.

Our brilliant opening exposition of Spring Millinery and Mantles has been the sensation of the week, and the effect produced is just what we aimed at.

Each year we have been lifting the standard a bit higher until now we've reached the plane of rare and recherche productions out of the general run.

Perhaps more than half the ladies who come here have looked all around the other stores. We hope so. We believe in intelligent comparisons and welcome them.

Those who investigate our **Goods, Styles and Prices** will fare better than those who don't. We want lookers as well as buyers. There's no one here to pull faces at you if you don't buy.

EXTREME NOVELTIES.

These are feast days for those who shop at this store. Extreme Novelties in Millinery, Mantles, Capes and Dress Goods will command larger interest from now until Easter, than anything else.

An Easter Entertainment.

The members of St. Luke's Young Ladies' Guild will give their annual Easter entertainment on Thursday evening, April 16th, in the Town Hall, Ashburnham. The programme will consist of a Mother Goose reception and drill by a number of children; the fairy drama, "Beauty and the Beast," in six acts; the dolls' drill and a farce entitled "Two Heads are Better Than One." These entertainments which the members of the Guild give annually are always looked forward to with pleasure. 5eod

SKIP SAM AGAIN ON TOP.

The Gold Medal of the Points Competition Comes to Peterborough.

Skip Sam Ray, of the Thistles, received word to-day from Mr. J. S. Russell, Secretary of the Ontario Curling Association, to the effect that he had won the gold medal offered by the Association for the highest individual score made in the points competition. The presentation of the medal to Skip Ray will take place in Toronto on April —. Congratulations Sam.

THE BALL POUDRE.

A Leap Year Assembly Held in the Oddfellows Hall Last Night.

The apartments in connection with the Oddfellows hall were brilliantly illuminated last evening on the occasion of the holding of a leap-year ball poudre by the young ladies of the town.

The guests, comprising about a hundred of the youth and beauty of Peterborough, were received by Mrs. Hammond, Mrs. Boucher and Mrs. Hatton.

Beautiful decorations garnished the rooms and mottoes, appropriate to the occasion—a leap year ball—were hung upon the walls. Those in attendance had their hair powdered and the gentlemen wore lapels and cuffs of white and other light shades. Music was furnished by the Misses Hurley, and during the evening refreshments were served under the supervision of Caterer Harry Long.

The whole affair was one at the most successful of the kind ever held in Peterborough. The powdered hair was something new and the young ladies availed themselves of the privileges which leap year is supposed to accord the gentler sex.

PERSONAL.

Miss Scrimger, of Cobourg, is visiting friends in town.

Mr. Howard MacGachen has returned after spending his Easter in Lindsay.

Rev. H. Symonds, of St. Luke's, Ashburnham, is in Toronto for a day or so.

Mr. F. Prest of Lindsay, was in town with his brother, Mr. A. Prest, for a day or so.

Mr. David Hall, of town, who has been on a visit to Lindsay, returned on Monday evening.

Mrs. Hendricks, who has been in Toronto during the Easter holidays, returned last evening.

Miss May Wilson is spending Easter week with her cousin, Miss Annie Wilson, in Lindsay.

Mrs. G. Learmouth has returned home after spending a pleasant time with friends in Norwood.

Mrs. George Cluxton has returned from a short visit with Mr. and Mrs. J. B. Knowlson, Lindsay.

Miss May Needham returned home last night, after spending a few days with Mrs. Herridge, Water street.

Mr. and Mrs. J. J. McBain, son and daughter, were registered at the Rossin House, Toronto, yesterday.

Miss Sullivan of the Lindsay Separate School teachers' staff, has been spending the last few days in town.

Mr. and Mrs. B. J. Gough, of Lindsay, spent Easter in town at the residence of Mr. and Mrs. Richard Gough.

Mr. and Mrs. J. B. Oke have returned from Port Hope, where they were the guests of Mr. Wm. Greenway.

Mr. George Dies has returned from Owen Sound, where he took the remains of Mrs. Dies for burial last week.

Miss Laura Davidson, Dickson street, has returned home after an extended visit to friends in Toronto and St. Thomas.

Miss A. M. Paton, of Lindsay, and Master Douglas, were in town to-day, on their way home from Cobourg, where they have been visiting.

Miss Lillie, daughter of Mr. Wm. McFarlane of the Carleton House, Young's Point, has secured a situation with Misses Cahill & Hoolihan.

Mr. W. J. Stubbs, who has been home spending some of his Easter holidays with his parents, returned to his duties at Moorfield Public School last evening.

Resignation of Miss Barker.

Miss Barker, who for the past three and a half years has been acting as the Secretary of the Young Women's Christian Association, has tendered her resignation and will leave for her home in Campbellford on Tuesday next. Whilst in town Miss Barker's equable temperament and pleasing manners have made her many friends who will sincerely regret her departure. The newspapers of Peterborough have always met with unfailing courtesy from Miss Barker, when brought in contact with her and by them her loss will also be felt. Although the secretary is leaving town the rooms will not be closed, but will be opened in the afternoon and evenings and will be in charge of Miss Jessie Stevenson.

A Great Feat.

The bicycle run of "200 miles in one day," performed by Dr. W. N. Robertson, of Stratford, Ont., on the 3rd of June, was a remarkable exhibition of endurance in a purely amateur rider. The doctor's scientific training would, no doubt, prove an important factor in successfully engineering such a difficult operation, though (as will be seen by letter published in another column) he does not hesitate to award due credit for his performance to the agent he relied upon in his great effort. The doctor's testimony to the marvellously sustaining power of Maltine with Coca Wine is entirely spontaneous and unsolicited, and, therefore, of the higher value. His report will be read with interest by wheelmen generally, in view of his claim that Maltine with Coca Wine enabled him to "pedal comfortably for hours after the period that I should been exhausted without it." Dr. Robertson tersely summarises the valuable action of Maltine with Coca Wine in those cases of enervation common among most "novices on the wheel," and affirms that "it is a wonderful heart-sustainer." This preparation may be had of all druggists, and may be relied upon as an agent of infinite value in nervous prostration and brain exhaustion resulting from undue strain upon the mental or physical energies.—Daily Globe, July 6, 1895

THE AMENDED GAME LAWS.

Regulations as to the Killing and Shipping of Deer—Other Amendments.

The legislation amending the game laws, passed at the late session of the Legislature, makes several important changes:—

Section 1 prohibits the killing of deer in the water of lakes or rivers or immediately after leaving the water, and any person seated in a canoe or boat with a loaded weapon at any point where deer are likely to enter the water shall, prima facie, be deemed guilty of breaking the law within the meaning of section 1.

Section 2 provides (a) that no resident of Ontario shall kill deer without a license; (b) this license must be signed by the Chief Fish and Game Warden and countersigned by the Provincial Secretary and shall be good for one season only; (c) there shall be attached to each license two shipping coupons, which shall be detached and signed by the shipper in the presence of the shipping agent and attached to each deer or part of a deer to be shipped, the coupon to be cancelled by the carrier at the point of destination. The license fee is $2.

Section 4 repeals sub-section five of the act of 1893 in regard to transportation of deer and substitutes a section forbidding any person or carrier having in possession for transportation any deer or part of a deer, at any other time than between the 1st and the 22nd of November, unless accompanied by an affidavit that the same was killed during the open season, and unless there is attached the coupon belonging to the license as required by the Act.

Section 5 requires every person holding a license to produce it at all reasonable times when demanded by any person whosoever, and the penalty for refusal is the forfeiture of the license, and if the person refusing should kill any deer thereafter he shall be deemed guilty of a violation of the provisions of this section.

Section 7 provides a penalty for the infraction of any of the provisions of the Act—a fine of not more than $50, nor less than $20, with the usual penalties for non-payment of any fine.

The Act provides that certain counties or portions of counties, may be set apart by Order-in-Council, where no deer shall be killed at any time of the year, subject to reservation in favour of residents or settlers.

Accompanying the Act are the forms of license and coupons required by it.

The EXAMINER does not desire to be held responsible for the passing of the above bill which it does not approve of it in any shape or form. Mr. Stratton and a number of supporters and some opponents of the Government, combatted the bill at every stage, but, by the aid of the Opposition, its adoption was secured. The provisions are altogether too stringent the license fee is obnoxious, and the circumstances do not seem to demand such hard and fast regulations There are plenty of deer in the woods—they are there for the purpose of sport, and the regulations for their preservation were formerly sufficiently inclusive, to prevent unnecessary slaughter. Reasonable restrictions are all right. The law as it stood, in our opinion, was sufficiently stringent and enforced as it should be. A hunter was restricted to the killing of two deer, and there does not seem to be any call for the tedious formality of license and coupons and the unnecessary fee of $2.00. Under the new law the sportsman will be apt to feel as much hunted and harrassed as the deer. The sport of deer hunting is manacled with red tape and the free open spirit of enjoyment is largely eliminated. It would seem that the new enactment has a great deal of the spirit of the vexatious sumptuary laws of the Middle ages. To be forced to dress, eat and drink according to act of parliament is not very much removed from pursuing sport by act of parliament,

A mastiff owned by Mr. Geo. Stephens, Ashburnham, has caused a deal of trouble, being a terror to the neighbourhood. The dog on several occasions has severely bitten passers by and torn their garments. Mr. Carlisle was attacked by the huge brute, and had it not been for timely assistance he would have come out second best in the encounter, as the dog had knocked him off his feet. Mr. Stephens in order to rid himself of the dog shipped it to Orillia, but to his surprise a day or so after the dog was as usual at the door, foot sore and tired. The poor brute had walked the entire distance from Orillia to Peterborough. Mr. Stephens states that this is the second time that he has done so.

2,000 Window Blinds.
1,600 Cornice Poles.

Have you read all about our highly important April Sale of Wall Papers, Window Blinds, Cornice Poles and Baby Carriages, issued on Saturday in the supplement pages of the DAILY EXAMINER? Have you considered the low prices offered, which are proving so astonishing to householders, property owners, paper hangers and painters?

To let an opportunity like this pass will be a big mistake. The stock tells of your present needs, and the prices are all in your favour.

Selling of Wall Paper has to be sharp and quick—the season is a short one. Our plans are for a doubled April business in Wall Papers. Prices will make it so, remembering that in size of stock and newness and taste in design we are ahead.

FIRST-CLASS MILLINERY.

DO WE ADVERTISE TO MUCH?

Sometimes we almost believe we do, but the crowd of appreciative customers that comes after each announcement, convinces us that our advertisements have a permanent place in public economy.

In this age when every merchant, no matter what size his business or his capital states in his advertisement that he buys direct from makers, and at prices special to himself and such like exaggerations, it must be hard for people to judge by reading advertisements alone. You cannot do it. We invite you to make personal comparisons by getting samples or by personal inspection and you will learn for yourself that we put nothing but facts in our advertisements and you will find that by buying from us you will save money on every purchase.

DEATH OF B. A. VAN HOMRIGH, OF MILLBROOK.

He was one of the Best Posted Cricketers on the Continent and Was Known Throughout the Dominion.

It is with deep regret that the public will learn of the death of Mr. Blaues A Van Homrigh, which sad event occurred at six o'clock on Monday morning last. The deceased gentlemen, who was only in his 24th year, had, for the past ten weeks, been ailing from that dreaded disease consumption, and despite all the efforts of medical skill, quite conscious of his fate, he passed quietly away. Mr. Van Homrigh, whose father was an officer in the British navy, came out to this country about seven years ago and settled in Millbrook, where he remained until his death. After graduating for a High School teacher, he taught for a number of years here. He was an ardent lover of cricket and was looked upon as one of the best authorities in America on that game. He possessed one of the best cricket libraries and collection of cricket curios on this continent, his library being valued at between five and six hundred dollars. Among his collections are to be seen letters from many prominent Lords in England, relative to cricket, and also the autographs of nearly all the prominent cricketers in the world. He was official scorer at the recent International match between the Australian Touring Eleven and all Canada played at Toronto. He possessed a badge given him by Mrs. McBlackham, wife of the famous Australian wicket keeper. For a number of years he acted as Canadian correspondent for the leading English and American cricket journals. In Mr. J. E. Hall's book recently published entitled "Cricket in Canada," the author in the preface tenders his thanks to Mr. Van Homrigh of Millbrook for much valuable information which materially assisted him in completing his greatly appreciated work. Some of his books, which we venture to say cannot be duplicated, are nearly a century old, and have been procured after many years of tedious labour. He for the last three years acted as secretary treasurer of the local club, and if Millbrook did not possess a good cricket club it was not Van's fault. In connection with his sudden demise, perhaps the saddest circumstance is that on last New Year's Day he was married to Miss Amy Tollis of Boston, Mass., formerly of Millbrook. His young widow, who is well and popularly known here, has the sincerest sympathy of the entire community.

The deceased was very popular in social circles, and was a general favourite with all. He was a member of Millbrook Lodge I.O.O.F., under whose auspices the funeral will be conducted to-day.

BASKET BALL.

Young Ladies Tried Their Hand at the Game Yesterday.

A team selected from the most athletic of the young ladies attending the Collegiate Institute played a game of basket ball with the boys of the same institution yesterday afternoon in the gymnasium.

The two sides were composed as follows :

Ladies.	*Gentlemen.*
E Brodigan	A Lang
M McFarlane	C Craig
H Cahill	R Zimmerman
E Gillespie	S Hall
E Phillips	E Beers
S Kelly	

The game was replete with lively and amusing incidents. The young ladies eventually won through the large number of fouls committed by their opponents. It is a foul to tackle or grasp an opponent with the arms. Amongst the principal rules of the game is, that the ball cannot be held longer than five seconds by a player, nor can a player carry it even a step. The play consists in accurate passing.

Danny and His Giraffe.

A letter has been received from Mr. Dan Simons, from Owen Sound, where the Marks Bros. Comedy Company is playing "a stand," and with the same inhospitable treatment to the public they showed in Peterborough—turning people from the doors every night. Dan has had a very successful tour—meeting with flattering reception for his specialites. He says his inimitable giraffe is rather thin in flesh from overwork, but still able to walk into public favour in fine style. From Owen Sound Dan goes with the company to Toronto for three weeks. He has made a professional engagement for the coming summer in the Catskill Mountains. Dan carries a comfortable load of fun as well as flesh wherever he goes. His many friends in town are pleased with his success, and wish him "lashins" more of it.

EASTER REUNION AT ST. LUKE'S.

A Delightful Conclusion to the Easter Festival.

The Easter festival was brought to a fitting close at St. Luke's last night with a congregational reunion in the school house. The attendance, though fairly good, was not so large as was hoped. After instrumental music by Mrs. Peck, and a song by Mrs. Weir, the Rector called on Mr. Peck to address the congregation on the work of the Sunday school. Mr. Peck very happily referred to the past history of the school of which he became the librarian in 1877, and now occupied the position of secretary-treasurer. Many of the present teachers had passed through all the classes of the school. He hoped the congregation would take a deep interest in the work of the Sunday school which was the feeder of the church. He referred to the finances, to the system of teaching, and to the library for the past three years, under the able management of Mr. Spence. Mr. J. J. Turner, jr., then sang "The Turnkey," after which Mr. Jamieson, in the absence of the Wardens—Mr. Burnham having been called to Ottawa, and Mr. Strickland indisposed—gave an address on the financial affairs of the church. He congratulated the congregation upon the report of the Churchwardens, which in consideration of the present financial depression was very encouraging, and he concluded with a plea for the further extension of the envelope system.

The Rector then delivered his annual address. He said that the addition to our congregation by new comers to the parish was probably greater than in any previous year, while at the losses by removal had been considerable. Yet with the single exception of the morning services, every department of the church's work showed some increase. Especially marked was the increase of communicants, both at ordinary services and at the great festivals. References was made to the enlargement of the Rectory, to the work of the Sunday school, to the various chapters of the Guild, and to the Ladies' Aid Society. The growth of the Women's Auxhiliary was referred to as the most marked portion of the year's work, and the stimulus which it had received as well as the missionary spirit of the congregation at large, by the visit of Archdeacon and Mrs. Tims.

The Rector then proceeded to refer to the great question of church unity, and expressed very fully his views in regard to the attitude of the Church of England to this great question. "I should like," he said, in conclusion, "to see our beloved church the focus of every influence that is for good. I should like all who can possibly be within the rays of its influence to feel that she is a great power for good. But such an aspiration called for the utmost loyalty and enthusiasm of every individual member of the church. In my first address I expressed the earnest hope that the cordial feelings with which you had welcomed me might grow deeper and stronger as we came to know each other better. I thankfully believe that hope has been realized. My whole heart is yours, and if the circumference of the circle of my aspirations is wider than the limits of my congregations, I beg you to believe that St. Luke's is its centre."

At the close of the address refreshments were served by the Woman's Auxiliary and the Young Woman's Chapter of the Guild. During this time the library was inspected, and much pleasure and surprise was expressed at the number and excellence of the books, and their arrangement. Mrs. Peck and Miss Hattie Burnham played a duet, and after the good things had been enjoyed, the Rector called on Mr. Adam Dawson, who spoke very warmly of the present work of St. Luke's, and hopefully of the future. He referred also to the need of increased cordiality and hospitality to strangers, who not being accustomed to the ways of the Church of England, sometimes thought us wanting in this respect.

After singing the hymn, "All people that on earth do dwell," the Rector closed the meeting with prayer for the parish and the benediction.

NEWS NUGGETS.

Paragraphs Picked Up and Pencilled for Public Perusal.

—If there is anything in coming gently, spring should be gentle when it comes.

—Farmers driving to market with laden sleighs on April 8th is decidedly unusual.

—Gulls are numerous in Little Lake. They are travelling north which indicates fine weather.

—There was a dog run over and killed on the Charlotte street branch of the Street Railway this morning.

—George street is badly in need of a thorough cleaning. The odor rising from the roadway is most unpleasant.

—"Hands Across the Sea" furnished a splendid entertainment to a highly pleased audience at the Opera House last night.

—It is charged that the river drivers, who are indulging too much, have been "ilim flammed" out of their proper change in some of the town bar-rooms.

—This about the time of year to warn the farmers that a severe penalty exists for the infraction of the enactment concerning the adulteration of maple syrup before being sold.

—Lovers of afternoon tea will hardly appreciate the grewsome reminder that tea leaves are much used in China for preserving corpses. Well-to-do Celestials often embalm the mortals remains of a specially loved relative in a chest of tea, which preserves the body for many years.

—Our coal bins may suffer from the long severe winter, but that suffering is nothing to that endured by the farmers' cattle. There is a terrible scarcity of fodder, the situation being intensified by the short crop of last summer and the long period of inside feeding.

—A citizen suggests that the town council use a portion of the $500 voted the Bicycle Club for the Meet that failed to materialize, to purchase eau de cologne to be distributed by the sprinkler for the purpose of subduing the more potent than pleasant smells that rise from George street as the sun stirs up the deposited filth of the winter.

MR. S. CALDECOTT'S PRACTICAL ADDRESS.

He Spoke to the Board of Trade Last Evening.

LIVE COMMERCIAL QUESTIONS OF THE PRESENT DAY.

The work of Other Boards and What Has Been Accomplished for the Mutual Advantages of all Classes—An Annual Dinner Dwelt Upon as an Important Factor in Promoting a Good Feeling Amongst the Merchants.

The audience which gathered in the Council Chamber last evening to hear Mr. Stapleton Caldecott, ex-President of the Toronto Board of Trade, speak on commercial topics, was representative of the solid bone and sinew of the town. Unfortunately none of the members of the town council took advantage of the invitation extended to them to attend and so missed hearing a thoroughly practical address on these subjects, which everyone having the interests of the community at heart should make a point of being thoroughly posted upon. Mr. Caldecott is a business man himself and is stated to be one of the few men who has all the questions affecting the trade and commerce of Canada at his finger ends. Those who were privileged in hearing him can vouch for his thorough knowledge of all the points of the subject which he handled in so masterly a manner.

HE WAS INTRODUCED

by Mr. Benj. Shortly, President of the Peterborough Board of Trade, who occupied the chair.

Before devoting his attention to the subject of his evening's address Mr. Caldecott spoke of the courtesies extended to him during the day by the reception committee. He had been taken around to view the different manufactories of the town and was greatly impressed with the system under which the Matthews firm carried on their pork packing industry. The bright intelligence displayed by the firm in ascertaining and meeting the wants of their customers augured well for the future prosperity of the establishment. He had also visited the Electric Works, the Auburn Woollen Mills and the Lock Works, and had been most profoundly impressed. The citizens of Peterborough certainly had in their midst the very factories necessary to make a large and prosperous city, and wherever he went hereafter he would make a point of praising Peterborough, as a great manufacturing town. (Cheers.)

The first board of trade, he stated, was organized in England in 1600, and existed until 1772. It was revived in 1786 and had been in existence ever since. Its present president was

A CABINET OFFICER,

as were its principal officers. Their chief work is the incorporation of companies and in fact all things connected with trade and commerce.

In Ontario there are 66 Boards of Trade. Toronto claims to have the oldest and it has about 910 members. Last year 403 meetings were held, besides 22 council meetings. The entrance fee is $100 and the annual fee $17. Every important merchant and manufacturer feels it to be compulsory to be a member of the Board of Trade, and if not a member he is not a very important personage. This is as it ought to be. As there are organizations in every walk in life, it is most important that there should be something of the kind for those engaged in commerce.

The Toronto Board was divided into sections for the representation of the different branches of business. This did much to do away with party questions, causing strife, as each section could air its own views on Protection or Free Trade, whilst the Board as a whole did not dabble in politics at all.

In explaining some of the advantages of being a member of the Board, the speaker

INSTANCED A CASE

where he met with what he might possibly consider an injustice. If he stood alone in the matter he would probably submit, but when backed up by the Board of Trade he could through them appeal to the Minister of Customs, as had been done, with the result that the difficulty was most satisfactorily arrayed. Then again in the case of important visitors passing through Toronto, the Board, being perfectly organized, had found no difficulty in giving a suitable reception, as in the case when Sir Robert Reid of Australia passed through recently. In labour difficulty the Board was frequently an important factor in settling difficulties by consulting with the Labour Council. The speaker then mentioned a large number of cases in which the influence of the Board had been exercised in the benefit of the citizens generally in Toronto. Insolvency legislation and fire insurance matters were amongst the most important of those mentioned.

Mr. Caldecott urged the idea of having an annual dinner of the members of the local Board, as tending to increase

THE GOOD FEELING

which should exist amongst the merchants of a city in order that all might work unitedly to preserve and advance their common interests.

The existence of chattel mortgages was deprecated by the speaker, who stated that though the system was introduced, innocently, to enable a farmer to raise money on his stock in order to tide him over a temporary difficulty, but was now used by unscrupulous business men to discriminate against their creditors.

The necessity of a revision of the enactments concerning bankruptcy was dwelt upon by Mr. Caldecott, who urged that when a man honestly assigned all his property for the benefit of his creditors he should be given a free discharge of all his debts. The necessity of a revision of the postal laws also came in for passing remark, and the existence of a "personal tax" was apostrophised as a most inquisitorial invention of the devil. He was strong in his assertion that a man should not be taxed for bringing capital into his own city.

Mr. Caldecott impressed upon the Board the necessity of sending delegates to the meeting of the great Chamber of Commerce in England next summer.

In closing this portion of his address Mr. Caldecott urged the interest of the local Board in a Dominion Insolvency Act, the question of railways discriminating

AGAINST CERTAIN TOWNS

and the establishment of a fast Atlantic service. He urged the members to seek to promote useful discussion on important questions and again mentioned the necessity of holding an annual dinner.

The question of branding and inspection of butter, cheese, bacon, wheat and fruit was dwelt upon to a considerable extent. Denmark made splendid butter and branded it, consequently a lady in England could go into a store and know that she got what she asked for when she wished for Danish butter. This should be the case with Canadian butter and other exports. Cold storage arrangements should be made by the government to assist the Canadians exporters. This matter was well looked after by the Australian Government.

Action, the speaker thought, should be taken by the local board in booming up the mines in the district. He knew of a company which was now being formed to work mines in the immediate vicinity of the town. This should be looked into The preservation of the forests also came into notice, and afterwards Mr. Caldecott took up the question of endeavoring to keep young men on the farm.

THE GREAT NECESSITY

of promoting a good feeling amongst tradesmen as well as amongst doctors and lawyers was earnestly pressed upon those present by the speaker, was uselessness of windy advertisements. In the latter case the speaker pointed out that the man who advertised as selling goods at cost would be set down as either a knave or a fool. A plain statement of actual facts was far the better method to follow. Mr. Caldecott then spoke earnestly concerning the cultivation of a strong regard for the payment of honest debts.

Preferential trade with Great Britain next received the speaker's notice. He was anxious to see a grand federation—the formation of one grand imperial thought emanating from England and all her colonies. The resources of the Great Empire were then mentioned as shown to be unequalled by any other power in the universe.

The selfishness was deprecated of some men, who spent their time in making the dollar, whilst their more public-spirited brethren worked for the good of the town as a whole. If the former class of citizens could be banished nothing could interfere with Peterborough's future prosperity.

Mr. Caldecott then resumed his seat and the hearty applause evidenced the appreciation with which his address had been received.

In moving a vote of thanks to Mr. Caldecott, Mr. D. W. Dumble stated that he was positive that anyone hearing the address could not fail to realize the importance of an organization which could make such a great stand for such rights as would be for the mutual advantage of all classes.

Mr. John Carnegie, in seconding the resolution, which was enthusiastically carried, expressed his great appreciation of the remarkably practical address just delivered.

"Rose Brand" Lard.

For many years we have made a specialty of Lard, with the result that we now have the satisfaction of knowing that our "Rose Brand" is the most popular Lard on the market. It is made by the simple process of melting or rendering in open kettles the leaf lard from selected Hogs. It is therefore not only hog product free from adulteration, but

IT IS PURE LEAF LARD

and it is said that no other brand of equal purity can be procured. Another point is that a pound of "Rose Brand" Lard goes as far as a pound and a quarter of other brands.

This long felt want is a simple, sensible and clever device that meets the case exactly at a trifling cost. Read these testimonials :—

Messrs. Moffat & Kidd :

GENTLEMEN,—Having thoroughly examined the Patent Laundry Case, manufactured by you, I must say it is the greatest convenience ever introduced for laundry purposes, and feel confident it is just what every man, young or old, requires, to keep his shirts, cuffs and collars in perfect order, prevents linen from being crushed, and ensures delivery of work in perfect order. I strongly recommend it to all sending work to the laundry. Yours truly,

A. PARKER,
Peterborough Steam Laundry.

Messrs. Moffat & Kidd :

GENTLEMEN,—We have much pleasure in speaking a good word for your new Patent Laundry Case. Nothing that we have ever seen "fills the bill" so well as this for holding either soiled or newly laundried work. It will save time, temper and hard words, and the price is within the reach of all. It is as handy as a pocket in a new shirt, for the young man, the married man, or "the bachelor all forlorn." The boys should catch on to them at once.

Yours truly,
SHARPE & STENSON,

HARRISON-DIMMICK NUPTIALS.

A Very Quiet Affair in St. Thomas' Church, New York The Wedding Breakfast on Board a Private Car.

New York, April 6.—Perhaps as simple a wedding as was ever witnessed within the sacred walls of St. Thomas' Church was solemnised at half-past 5 o'clock this evening, when Benjamin Harrison, 23rd President of the United States, entered into the holy bonds of wedlock with Mrs. Mary Scott Lord Dimmick. Not one of the 36 favored witnesses of the ceremony could have failed to be impressed with its singular unpretentiousness.

The assembled crowd outside the church showed the interest the public had in the affair. Secrecy as to the exact hour of the ceremony had been carefully maintained, which in a measure served to check the assemblage of a curious throng. The final words that made General Harrison and Mrs. Dimmick one were pronounced at 17 minutes to 6 o'clock. Dr. Brown shook hands with both and offered his warm congratulations. The ex-President then extended his right hand to his newly-made bride, and to the soft strains of "Tannhauser's Wedding March," they walked down the centre aisle, immediately followed by the ushers.

The bridal party was driven to the residence of Mrs. Pinchot, No. 2 Gramercy Park, where light refreshments were served. Here the bride and groom donned their travelling attire. Soon after 7 o'clock the party re-entered their carriages and were taken to the Pennsylvania Railroad station. In Jersey City they boarded the private car of Vice-President Frank Thomson, which was coupled to the regular 7.50 train west, and the bride and groom left at once for Indianapolis. Some of the party accompanied General and Mrs Harrison as far as Philadelphia and participated in the wedding supper, which was served aboard the train.

The fact that General Harrison's daughter, Mrs. McKee, and his son, Russell E. Harrison, were not at the wedding occasioned considerable comment. It has been rumored that they were strongly opposed to their father's marriage to Mrs. Dimmick.

The honeymoon will be spent at Gen. Harrison's home in Indianapolis, which has been renovated for the occasion. Later the couple will go to the Adirondack Mountains, where a cottage has been prepared for them at First Lake, in the Fulton chain.

VERDICT OF MURDER

Coroner's Jury on the Wingham Outrage.

LOOKS BAD FOR THE PERPETRATORS

Young Field Told the Story of the Affair as Given at the Preliminary Trial of the Accused—How a Juryman Referred to the Witness Morrison.

London, Ont., April 6.—The adjourned inquest into the circumstances surrounding the death of J. G. Fields of Wingham was continued to-night before Coroner Dr. Flock. Thomas J. Fields, a son of the dead man, gave evidence of a similar character to that given at the preliminary trial at Wingham.

Drs. Waugh and Belfair also gave expert testimony as to the condition of the man when admitted to the London General Hospital. The evidence of George Morrison went to show that Robert Harrison was the prime mover and ringleader in the outrage of March 10. He said there were fully 60 in the crowd. Considerable whisky had been gotten away with, of which Harrison distributed considerable. Among the crowd were James Natterfield, Albert Martin, Thomas Montgomery, Chris Jobb, Mike Flannagan, Geo. Findlay, Charles Manser, George Phippen. Morrison's evidence fully bore out that of Thomas J. Fields as regards what took place in the Fields' residence.

Mr. Gordon, druggist; Mr. Mienshaw, jeweler; Walter Vanstone, George Shaw, were named as being with the crowd near Phippen's house, but were not seen at Fields'.

One of the jurymen likened Morrison to Judas Iscariot.

Coroner Flock scathingly denounced the perpetrators of the outrage, which resulted in the death of Fields, and plainly and emphatically charged "murder."

At 12.45 a.m., the jury returned the following verdict: "We, the jury empanelled to investigate the cause of the death of J. G. Fields of Wingham, do find that death was the result of his exposure to the cold, and the treatment he received at the hands of George Phippen, Charles Manser, Albert Martin, Robert Harrison, James Natterfield, Thos. Montgomery and others and we consider them guilty of murder."

GETS BACK AT THE PREACHER.

Editor Shannon Denies Rev. Dr. MacKay's Alleged Libellous Statements.

Ottawa, April 6.—(Special.)—The Citizen makes a slashing attack on Rev. Dr. Mackay of Woodstock for what it terms his libellous statements regarding the alleged recent doings in Ottawa. The Citizen says: "It is true that, quite unknown to their Excellencies, a Montreal decorator, who had a contract to ornament the Senate chamber, did some work on Sunday, and we are not aware that in so doing he would be offending against the laws of his own communion. But that was his individual act, for which no one else can be held responsible.

"The statement that members reel in drunk before the Speaker of the House of Commons is ridiculous. It is the duty of the sergeant-at-arms to maintain order and decorum, and a member offending in that manner would be immediately removed. As a matter of fact, there is probably not a body of two hundred men in this country more sober and temperate than the members of the House of Commons.

"The assertion that private rooms in the Parliament buildings were on the occasion of the ball used for immoral purposes is a falsehood as baseless as it is atrocious. These rooms are on such occasion given up by those who have a right to occupy them to ladies of their acquaintance for use as cloak rooms. That is all the foundation there is for the vile assertions of a there is for the vile assertions of the rev. preacher.

"That society in Ottawa is faultless no one will pretend. It is made up of men and women having the same good and bad qualities as frail human nature displays elsewhere. But it is a foul libel to represent officials and members as drunkards and profligates. Such a notion can only arise in corrupt minds and find expression in licentious and unbridled tongues. A minister of the Gospel ought to be the last to give utterance to it."

GENERAL OTTAWA TOPICS.

It Looks as if the House Would Carry on Weekly Sittings.

Ottawa, April 6.—(Special)—The Government to-day received a cable message from the Colonial Secretary, expressive of Her Majesty's grateful appreciation of the offer by the 8th New Brunswick Hussars for active service in the Soudan. In view of the intimation from the Canadian Government, however, that it was not advisable for the regiment to leave Canada, the offer of course is merely taken as an expression of patriotic and imperial feeling.

It is understood that at a meeting of the Liberal party, held this morning, it was decided not to offer any factious opposition to the Remedial Bill. The only ones who, it is said, reserved to themselves the right to take their own course on this question were Messrs. Casey, Mulock, Martin and Charlton.

The annual report of the experimental farms was presented to Parliament to-day. As usual it is replete with information relating to the work of the farms.

The census of Manitoba will be taken in a few weeks, this being essential under the law to determine what increase of subsidy Manitoba is entitled to according to population.

The supplementary estimates were promised for to-day, but until the Speaker resumes the chair it is not possible to present them.

The impression prevails to-night, and the Ministers give currency to the report, that the House may possibly sit continuously through the week.

Dr. Weldon was in his place again to-day, after several day's absence on account of illness.

Senator Perley received word from Assiniboia to-day that the farmers would commence seeding this week. Nearly all the snow is gone and the weather is beautiful and fine.

ANOTHER GREAT FIGHT IN CUBA.

This Time the Insurgents Defeated the Spanish Troops With Heavy Losses.

Havana, April 6.—Intelligence reaches this city of a fight that occurred among the hills around San Blas, near Cienfuegos, Province of Santa Clara, between the column commanded by Col. Vasques and a body of insurgents. The latter occupied an elevated position, which gave them a decided advantage over the Spaniards, who were taken by surprize. The troops claim that the rebels used explosive bullets. However this may be, it is known that the Spanish were defeated after a hot fight, losing many killed and wounded. Among the latter were Col. Vasquez and Lieut. Buron. At one time during the engagement the insurgents charged upon the troops with matchetes, inflicting heavy losses.

The official account of the fight says that insurgents lost 21 killed and three wounded, while the Spanish losses were 16 wounded. The report says that the insurgents were defeated; but, like many other of the reports issued by the Government, it is utterly unreliable. The insurgents, as stated above, completely surprised the troops and utterly routed them.

The newspapers here report that Gomez, with 4000 men, is going to the Siguanea Valley.

A court-martial held at Matanzas has sentenced four prisoners of war to death. They are Timoto Mora, Jose Gonzales, Ramon Gonzales and Salustiano Fresneda.

Twenty-four prisoners were to-day deported to the Isle of Pines. Ten of them were convicted of political offences, while the others were ordinary criminals.

The New York Herald yesterday contained an account of a wonderful gun invention by a Montreal man, which, it is said, will make war impossible if it is adopted by all nations. It will discharge 300,000 shots a minute.

LETTER OF THANKS

Messrs. Cox & Davis, Peterborough:

GENTLEMEN:—I beg to acknowledge receipt of the Canada Life Co's Cheque for Six Thousand and Sixty Two Dollars and Fifty Cents, in settlement of claim under my late huband's Policy, No. 39,912, and am obliged for your kind attention in obtaining prompt settlement.

Yours Faithfully,

ELIZA YELLAND.

Particulars of the Late Dr. Yelland's Policy as above.

$5.000 Straight Life. Age 22. Issued April 1886. Annual Premium $86.

Total Cost for 10 Years	**$ 860 00**
Bonus Addition to Policy	**1062 50**
Balance of Profit over cost of Insurance	**$202 50**

The above figures simply mean that in addition to the face value of the Policy, viz:—Five Thousand Dollars, THE CANADA LIFE CO. have returned every premium paid for carrying the Risk during the Ten Years, together with the further sum of $202.50, or, in other words, have given back all premiums paid, with COMPOUND INTEREST at the rate of 3 per cent. per annum.

IT PAYS TO INSURE IN THE

CANADA LIFE.

Its Rates are the Lowest and Profits the Largest.

Intending Assurers would be consulting their own interests by getting figures and facts from the undersigned before placing their risks elsewhere.

W. C. MUDGE.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. You can impose on it to a wonderful degree. It is really astonishing how much abuse it will stand before it breaks down. "The last straw" doesn't break it down, but it makes it stop work. Continually put the wrong things into your stomach, and digestion will get weaker and weaker. Before long, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Let it continue, and there is nothing bad that it will not lead to. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, sallowness, distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. You can take them just as freely as you take your food. There is no danger that you will become a slave to their use. They will cure you and then you can stop taking them. Send for free sample package of from 4 to 7 doses. World's Dispensary Medical Association, Buffalo, N. Y.

A GREAT BOOK FREE.

Over 680,000 copies of Dr. Pierce's Common Sense Medical Adviser have been sold at the regular price, $1.50. The profits on this immense sale have been used in printing a new edition of 500,000 copies, bound in strong paper covers, which is to be given away *absolutely free*. A copy will be sent to any address on receipt of 21 one-cent stamps to cover customs and mailing *only*. Address World's Dispensary Medical Association, 663 Main Street, Buffalo, N. Y.

SOME STRANGE GAMES.

How the Lads of Turkey Contrive to Amuse Themselves.

The boys of Turkey are a jolly lot of fellows. They have few toys and fewer games. The latter, however, are not to be found among the youths of any other nation. Although a Turkish boy may live next door to an Armenian lad of the same age, and a young Greek reside directly across the street from the Moslem youth, they never play together. The Greek boys play with Greeks only; the Armenians with other Armenian lads, and the little Turks with boys of their own nationality.

In all games where a leader or a "fag" is to be chosen—the latter corresponds to our boys' "it"—the choice is made by chance in this way: One boy, appointed by the rest as chief, takes a small stone in one hand, and then, doubling up both fists so that they look alike, he holds them up in front of him, and says: "Is this hand empty or full?" If the lad to whom the question is propounded answers correctly he is passed over; but upon the first boy who makes a mistake in guessing falls the duty of being "fag" or "it."

One of the most popular of the summer sports is the old Arabian game of Chun Kush. Supposing eight boys wish to play this game, each one provides himself with a stick about five feet long, which he holds in his hand. A hole is dug in the centre of a square, and in this hole a round stone a little larger than a hen's egg is placed. Then the ceremony of choosing a "fag," whose business it is to attend to the stone, being properly attended to, the game begins. The seven boys surround the hole at varying distances, but near enough to reach it with their sticks and the eighth boy takes his position by the stone to defend it from the attacks of the others, who will try to move it out of position with their sticks. If one of the attacking party succeeds in his endeavor, he immediately starts off on a run to keep out of the way of the defender, whose object is to touch him before the stone stops moving, or before any of the other boys touch it. Should he succeed in catching or touching the boy, the boy caught is obliged to take the place of defender. This game is a great developer of alertness, and is splendid exercise.

The next game is an exceedingly funny one, so that even stately Pashas passing by are often forced to stop and laugh. It is a Grecian game, and is called the Blind Game. Twenty or twenty-four boys are divided equally into two companies, which we will designate as A and B, and a leader from each division is appointed. Then the leader of division A, taking the small stone in his fist, as described, calls upon the leader of division B to tell him in which hand the stone is held, and the B commander answers as he thinks. If he is correct in his guess, the whole of division A, standing in a circle, are obliged to bend forward with hands on their knees, while the members of division B perch themselves on their backs. If, on the other hand, the leader of division B made a mistake in his guess, he and his men are obliged to assume the position of beasts of burden and carry division A. Then the leader of whichever division is fortunate enough to occupy the seats of honor holds his hand tightly over the eyes of the bending leader, and thus challenges him in Greek: "Changoul, Choungule, Charely, Dirt, Babanum, Arely, Atali Patali, Paso-e-ne Euste Koufale!" Which, translated, means: "I have made you blindfolded, I hold out my fingers; if you give the right number we will exchange our place."

If the stooping, blinded victim guesses the right number of fingers, the whole line change places; but if he makes a mistake, the bending line is forced to move slowly around in a circle, with the conquerors riding gayly on their backs. In position again, the second boy in the line of riders, holding his hand over his bearer's eyes, propounds the same questions of him, and the game goes on.

Turkish boys, too, are very fond of spinning tops and flying kites. They make the latter of colored paper in the shape of a tennis racquet, with long tails of twine and knotted paper. Often in summer the boys go off with their kites to some of the hills that surround the city, and between the birds and the kites the sky is full of color and motion. But a Turkish boy's play days are short. When he is 15 he is considered no longer a boy. A man's duties await him, and he is expected to put away childish things.

Three Kinds of Wealthy Men.

"There are only three kinds of wealthy men," said a leading merchant yesterday, "and I'd like to know which of the three classes you think the most honorable," addressing a well-known reporter of Toronto.

"How do you class them?"

"There's the man made rich by hereditary bestowals, the man who becomes rich through speculation and the man who gets there in a legitimate business manner."

"How about the miser?"

"A miser is never rich and never a man."

"What's the 'legitimate business manner' to which you refer?"

"The man who begins business on a small scale and hangs to it thirty or forty years, never making any money except on the legitimate profits made in buying and selling goods, cutting down expenses and looking sharply after collections. Such a method is legitimate, but it requires years of patience, self-denial and hard work. There are very few rich men of this kind."

"And the speculator?"

"I do not mean the open, self-confessed gambler, but the speculator who risks his all on a real estate deal, improves it to the extent of getting it into a shape where it will pay interest and taxes, and then waiting for the natural increase in value. Then there's the chap who risks his all on small purchases of real estate and keeps turning his money over and over. Finally there's the man who alights squarely on the back of some invention which brings great wealth."

"And the inheritor of wealth?"

"Sometimes they are good men, but more often they amount to but little."

Lives, Deaths and Births on This Planet

Seventy-two races inhabit the world and use 3004 different tongues. There are about 1000 religions.

The number of men and women is very nearly equal, the average longevity of both sexes being only thirty-eight years. About one-third of the population dies before the age of seventeen.

According to the most careful computation, only one person in 100,000 of both sexes attains the age of 100 years, and six to seven in 100 the age of 60.

The total population of the earth is estimated at about 1,200,000,000 souls, of whom 35,214,000 die annually, an average of 98,848 a day, 4020 an hour and 67 a minute.

The annual number of births is estimated at 36,792,000, an average of 100,800 a day, 4,200 an hour and 70 a minute.

A Chinaman's Idea of a Piano.

A Chinaman lately returned from a trip to Europe treated his countrymen to the following description of the piano: "The Europeans keep a four-legged beast, which they can make sing at will. A man, or more frequently a woman, or even a feeble girl, sits down in front of the animal and steps on his tail, while at the same time striking its white teeth with his or her fingers, when the creature begins to sing. The singing, though much louder than a bird, is pleasant to listen to. The beast does not bite, nor does it move, though it is not tied up."—Tid-Bits.

Bench Notes.

An American judge, sitting in chambers, seeing from the amount of papers in the lawyer's hands that the first case was likely to be hotly contested, asked:

"What is the amount in question?"

"Two dollars," said the plaintiff's counsel.

"I'll pay it," said the judge, handing over the money, "call the next case."

He had not the patience of Sir William Grant, who, after listening two days to the arguments of the counsel as to the construction of a certain act, quietly observed when they had done: "That act has been repealed."—Weekly Telegraph.

Solving the Labor Question.

The late Duke of Leinster, on meeting a laborer of his, said:

"I regret, owing to a report made by my steward, at having to dispense with your services, as there is not, I believe, sufficient work for all."

Upon hearing this, the man innocently remarked:

"Faith, Your Grace, there is no necessity to dismiss me on account of scarcity of work as very little would keep me busy." His ready reply amused the Duke, who gave orders for his retention. —Answers.

GOOD ADVICE
ABOUT DYSPEPSIA.

The best advice about dyspepsia is—cure it with Burdock Blood Bitters and as surely as you follow the advice and take the medicine the cure will follow in every case.

Mr. Wm. Day of Fort William, Ont., says in speaking of B.B.B.:—Two years ago my wife was very ill with dyspepsia. No remedy that she could find gave any relief; finally she tried Burdock Blood Bitters and after taking six bottles was entirely cured. That is now more than two years ago and she has no return of the malady. I also have had occasion to use B. B. B. and I cannot speak too highly in its favour.

I always recommend it to my friends and in every case with good results. Hoping this may be of use to you, I am. Yours very truly. WILLIAM DAY.

The Perfect Waist.

What is a well-proportioned waist? Lady Harberton says: "The true proportion is a difference of ten inches between the circumference of the bust and that of the waist. Thus a woman whose bust measures thirty-six inches should have a waist measuring twenty-six inches. Bust forty inches, waist thirty inches, and so on. Very few corsets are made in this proportion, and if they were, still fewer people would buy them, as fashion decrees that the waist should measure from twelve to fifteen inches less than the bust."

Corsets for the Bicycle Girl.

The bicycling corset is the latest anomaly advertised by the ingenious contrivers of woman's attire.

Perfect Wisdom

Would give us perfect health. Because men and women are not perfectly wise, they must take medicines to keep themselves perfectly healthy. Pure, rich blood is the basis of good health. Hood's Sarsaparilla is the One True Blood Purifier. It gives good health because it builds upon the true foundation—pure blood.

Hood's Pills are purely vegetable, perfectly harmless, always reliable and beneficial.

The Bowels.

A constipated condition of the bowels causes the accumulation of waste and effete matter, which poisonously impregnates the whole system by being taken up by the blood. Hence Bad Blood, Headache, Biliousness, Fevers, Foul Humors, Pimples, Blotches, etc. Burdock

BLOOD BITTERS

acts thoroughly on the bowels, removing all effete and waste matter, and cleansing the entire system.

It heals all sores, ulcers, abscesses and broken out surfaces of the skin so completely that not even a scar is left. In all skin diseases it should be taken internally and applied externally, according to directions.

THE EYES OF THE WORLD

Are Fixed Upon South American Nervine.

Beyond Doubt the Greatest Medical Discovery of the Age.

WHEN EVERY OTHER HELPER HAS FAILED IT CURES

A Discovery, Based on Scientific Principles, that Renders Failure Impossible.

In the matter of good health temporizing measures, while possibly successful for the moment, can never be lasting. Those in poor health soon know whether the remedy they are using is simply a passing incident in their experience, bracing them up for the day, or something that is getting at the seat of the disease and is surely and permanently restoring.

The eyes of the world are literally fixed on South American Nervine. They are not viewing it as a nine-days' wonder, but critical and experienced men have been studying this medicine for years, with the one result—they have found that its claim of perfect curative qualities cannot be gainsaid.

The great discoverer of this medicine was possessed of the knowledge that the seat of all disease is the nerve centres, situated at the base of the brain. In this belief he had the best scientists and medical men of the world occupying exactly the same premises. Indeed, the ordinary layman recognized this principle long ago. Everyone knows that let disease or injury affect this part of the human system and death is almost certain. Injure the spinal cord, which is the medium of these nerve centres, and paralysis is sure to follow.

Here is the first principle. The trouble with medical treatment usually, and with nearly all medicines, is that they aim simply to treat the organ that may be diseased. South American Nervine passes by the organs, and immediately applies its curative powers to the nerve centres, from which the organs of the body receive their supply of nerve fluid. The nerve centres healed, and of necessity the organ which has shown the outward evidence only of derangement is healed. Indigestion, nervousness, impoverished blood, liver complaint, all owe their origin to a derangement of the nerve centres. Thousands bear testimony that they have been cured of these troubles, even when they have become so desperate as to baffle the skill of the most eminent physicians, because South American Nervine has gone to headquarters and cured there.

The eyes of the world have not been disappointed in the inquiry into the success of South American Nervine. People marvel, it is true, at its wonderful medical qualities, but they know beyond all question that it does everything that is claimed for it. It stands alone as the one great certain curing remedy of the nineteenth century. Why should anyone suffer distress and sickness while this remedy is practically at their hands?

Easter Vestry Meeting at St. Mark's.

The annual vestry meeting of St. Mark's church, Otonabee, was held in the church on Easter Monday, Rev. W. L. Baynes Reed in the chair.

The churchwarden's report of finances showed that the year had been a most successful one, some $225 having been raised in the parish for all purposes, and after the usual expenses had been paid and an extra vote to the Incumbent, a balance of $35 remained to be carried forward.

Mr. F. Barlow Cumberland and Dr. Burritt were re-elected lay representatives to Synod, and Messrs. Mark Greystock and Thos. Taylor, jr., churchwardens.

After the usual votes of thanks to the various church officials, the meeting adjourned.

ASHBURNHAM COUNCIL.

Ventilation of the Culvert Cleaning Matter.

The Village Council met in regular session Monday night, with the following members present:—Reeve Burnham and Councillors Calcutt, Craig, Johnston and Rutherford.

THE FOLLOWING ACCOUNTS

were presented and ordered to be paid:—

Peterborough Light and Power Co	$165 60
W H Clinton	16 80
Rathbun Co	1 00
P Casey	3 85
T Fitzgerald	4 50
J C Sullivan	7 50
W Emmerson	4 95
B J Weir	4 65
J Kerr	1 00
Dickson Co	3 35
Peterborough Water Co	25 00
Pay Sheet No. 2	11 50
Pay Sheet No. 3	43 40

Councillors Rutherford and Johnston moved that the taxes of Richard Morrisey be remitted for the years 1892 and 1893, amounting to $6.54.—Carried.

Councillors Rutherford and Craig moved that the Girl's Guild of St. Luke's church be allowed the use of the Town Hall on the 16th of April.—Carried.

Councillors Craig and Calcutt moved that the Council having been informed that tenants of the Town Hall building have stored ice in their cellars, the street inspector notify the parties in question to remove the same forthwith, and that all tenants be notified not to drain their refrigerators into the cellars.—Carried.

STREET INSPECTOR CRAIG

submitted the following bill to the council.

For cleaning ice and snow from the creek and from under the bridge at north end of Concession srteet:

William Maxwell	2½ days
Joe Whiteman	2½ "
Samuel McKnight	2½ "
J W Fowler	2 "
John Lawrence	1½ "
Total	11½ days

The reeve asked why this matter was not on the pay sheets.

Inspector Craig replied that he knew nothing of it, the work had been done but had not been authorized by him. The men at work on the culvert in question had told him on enquiring what they were doing, to mind his own business.

Mr. William Maxwell stepped forward and informed the council that during the late thaw he had asked Inspector Craig to clean out the culvert, as his cellar was full of water, but this Mr. Craig refused to do.

Councillor Johnston stated that the matter had been mentioned to him by Mr. Maxwell, and he had drawn the Street Inspector's attention to it, advising him to go and see about it. The Inspector replied that Councillor Johnston had told him to see the Chairman of Streets and Bridges. This he had done the following day, and the next day he was authorized by Councillor Rutherford to clean out all the culverts, but the special culvert in question was not specified.

Councillor Craig expressed his opinion that Mr. Whiteman had erected his house in a bog hole, and then expected the corporation to keep his cellar clear of water.

Councillor Rutherford said that when his attention was drawn to the matter, he had come to the conclusion that there was no hurry for three or four days. Mr. Maxwell, however, had cleaned out his culvert before he (Councillor Rutherford) had been notified.

Councillor Johnston stated he did not blame the villagers in question for taking the steps they had to protect their property, as he thought the street were not properly looked after.

The reeve stated that the amount claimed was too much for the work done, it being exactly one-fifth the time taken in cleaning out all the other culverts in the village.

Mr. Maxwell hinted that if they had waited the inspector's pleasure the work would never have been done. Past experience had taught them this lesson.

On the suggestion of Reeve Burnham the matter was here left over for further investigation.

The council then adjourned.

THE WHEEL.

Lindsay bicyclists are anxious to be allowed to ride on the sidewalks of that town and a deputation appeared before the council the other evening with that end in view. The Post says:

On motion Mr. John A. Barron was granted permission to address the council. He explained that he was one of a deputation from the Lindsay Bicycle Club, and their object in appearing before the council was to bring about a modification of the present by-law restraining bicyclists from riding on the sidewalks. He understood that Lindsay was the only town in Ontario where bicyclists were entirely prohibited from using the board walks, and he might add there was probably not a town in the province furnishing stronger reasons why the privilege should be allowed—it was not because the walks were so good, but because the roads were so bad. Bicycling was now an established means of locomotion—just as much so as riding in carriages or in railway cars, and the rights of the riders to certain privileges could not be denied. There had been reason for complaint against Lindsay bicyclists in the past, but the club had now adopted most stringent bylaws to prevent a recurrence of the objectionable conduct. It had been proposed to use bells on all bicycles, but it was pointed out that the sudden ringing of a bell sometimes frightened pedestrians and caused collisions that would otherwise be avoided. It had then been decided that every rider should dismount when passing or approaching a lady on the sidewalk. It was a fact that accidents caused by bicyclists were comparatively few the province over. All he desired was to have the request submitted to the Street and Bridge Committee; order that they might have a chance to show how stringent their laws really were. Mr. W. Flavelle, another member of the deputation, said that perhaps Mr. Barron had put the club's request too strongly—what they wanted was permission to use the outlying sidewalks in the spring and fall and during muddy weather. The matter was referred to a committee.

CATHOLIC EDUCATIONAL EXHIBIT.

Some time since the EXAMINER had great pleasure in referring at length and in warm terms of praise to the serial work issued under the above title, by Messrs. J. S. Hyland & Co., Chicago, with whom Mr. J.J. Sheehy of this town is associated. This splendid serial deals with the splendid Catholic Educational Exhibit made at the World's Columbian Exposition in 1893. Interesting as was the initial number received by us, more interesting if anything are the 2nd, 3rd and 4th numbers of the serial now to hand with thanks to the publishers and Mr. Sheehy. No faithful Catholic can fail to be deeply interested and in its vivid descriptions, magnificently illustrated, of the triumphs achieved by Catholic educational institutions in art and literature. We have speaking likenesses of the bishops and prelates of the church, and so vividly and exactly do the beautiful and almost living pictures of the exhibit set forth the appearance of the exhibits that one who visited the Great Columbian Exposition, has the picture impressed on his memory by the view of the original, revived and brought strikingly before him. The text is written in a graceful and simple style which, taken in connection with the illustrative features of the book, constitute a work which should be possessed by every intelligent Catholic who desires to acquaint himself with the great work the Church has wrought in the development of the mental and artistic faculties of her children as complementary to the great religious and moral work, which it is her special function to perform. In the work in question every additional number seems to progress in excellence.

THE QUESTION OF FINANCE

Everyone prefers a high-grade Piano to a poor one, but many are deterred from even inquiring about our instruments from a fear that our prices may be too high or our terms too stringent. Let us say to all who wish a really good Piano at a moderate price on easy terms, that they will do well to correspond with us. We do not pretend to compete on these points with makers of poor or worthless Pianos, but, QUALITY CONSIDERED, our prices are really low, and we try to permit no one to go past us feeling that satisfaction cannot be given on the question of terms.

HOW

THE SUN LIFE

FULFILS ITS PROMISES.

A Matured 10 Year Endowment.

Profits Paid by the SUN 21 per. cent more than the Estimates.

The following letter, which speaks for itself, was received by the undersigned this morning from a gentleman in Brockville, whose ten year endowment which he held in the Sun Life Assurance Company of Canada matured last week and was paid him. The Sun is modest in promises but UNEQUALLED IN RESULTS. The public are benefited by results, not by promises unfulfilled.

BROCKVILLE, November 7th, 1895.

W. H. HILL, Mgr. Central Ontario Sun Life Assurance Company of Canada, Peterborough, Ontario:—

DEAR SIR.—I should have acknowledged the receipt of yours enclosing cheque for endowment policy No. 12,571 before, only I wanted to write something more than a mere receipt. I am pleased to hear of the continued prosperity of the "SUN" and it speaks well for your Company when the profits are greater (by 21 per cent.) than you as the Company's representative promised or rather estimated, as was the case with this policy.

I hope your Company will continue to prosper and I often regret that I do not carry more Insurance than I am doing. I might have carried twice as much as I do when at Minden without any great effort, still what little I do carry I feel is perfectly safe being in the "SUN."

I must thank you for your promptness and kindness regarding this policy just settled. I hope we will both be alive and well when the new one I now hold will be due in 1906 and assuring you of very best wishes, I remain,

Yours Sincerely, (Signed) F. R. C.

The above voluntary testimonial is significant and shows in a most practical way the SUN'S standing as a profit paying institution.

W. H. HILL,

Manager for Central Ontario.
